Where every student is important.

August 14th, 2024

Sabine ISD Students, Parents and Guardians and Community,

What a great start to our new school year. I am so honored to be part of this district and community as the new Superintendent of Schools. My history with the district dates back to 2005 when I first worked at the high school as a 12th grade teacher and coach. Since returning in 2017, I have held three different positions: Assistant Principal, High School Principal and Assistant Superintendent. I have enjoyed getting to know and experience all that Sabine ISD is and has to offer. Our administration, teachers and staff are second to none. There is little doubt that our reputation in both East Texas and the state is well established.

We want to say thank you for entrusting us with your children. We understand the importance of our position and we partner with you to make their learning a success. We strive to offer the most supportive and growth-minded setting as possible. An inviting, family-centered atmosphere is key to student growth. No matter you child's endeavors within the district, we seek to foster a successful and enjoyable experience.

Most importantly, we say thank you for all the ways in which you help us. Whether on a campus or in an organization, running a concession stand or in so many other ways, we recognize the benefits to our district.

This year, we anticipate continued success at every campus and in every organization. If you ever have any questions or concerns, we invite you to contact us. Our staff appreciates your feedback when good things occur as well. There is a school district in this state that stands out from the rest and we call it home.

Sincerely,

Monty L. Pepper
Superintendent-Sabine ISD
