IEA employees attend Customer Service Training

In a proactive move, the IEA Head Office recently coordinated a vital training initiative for its dedicated staff, focusing on Customer Service Training. This professional development opportunity was made possible through the expertise of 8020 Training Solution Providers and was attended by a total of 13 individuals. Among the participants, 11 represented the IEA Head Office, while 2 hailed from Ela Murray International School.

The training session were for roles encompassing Front Desk Reception, Human Resources, Payroll, ICT, Security, and Property management. Held at the IEA Head Office on the 26th and 27th of September 2023, the program instilled optimism regarding the participants' capacity to meet expectations.

The enthusiastic participants included Geoffrey Ramengga, Maima Ningal, Lydia Rasehei, Grace Kila, Belinda Nekira, Rebecca Bouraga, March Renson, Melinda Loi, Debbie Thavara, Nancy Mavaru, and Christine Pouna. A notable highlight of the training was the conferral of "certificates" upon each participant, personally awarded by the HR Manager, Madeline David.

"IEA can make a difference, with its employees skilled, to offer excellent customer service to all their stakeholders whether internal or external. This service delivery at the corporate level can have a positive impact to the IEA schools, at the end-to-end point, which is our students and the parents", says Ms. Gayl Iramu, Manager, People & Culture.

IEA College of TAFE

Alumni Network

Calling All Former Students, We Want To Hear From You!

We'd love for you to join our alumni network and stay connected with the college.

It does not matter when you left us, whether you're in further education or employment, or whether you're living near or far.

We want to hear from you!

IT'S BACK TO SCHOOL IN THE STAR MOUNTAINS -
WE LEARN WE LEAD WE ACHIEVE

NEW STAFF UNIFORMS

Staff at Tabubil were excited to receive new staff uniforms. It has been a long while since we received the IEA Corporate uniforms. Most staff members have outgrown their uniforms.

The new uniforms in some way boosted staff morale as we have new staff members (both teaching and support staff) who needed some form of identity.

Primary & Secondary NEWS

Lae International School

SECONDARY

Environment Conservation

Boarding schools often emphasize the development of well-rounded individuals, and one aspect of this holistic education is teaching students the value of cleanliness and environmental conservation. By involving students in campus cleaning activities, boarding schools aim to instill a sense of ownership and pride in their living spaces. This practice also teaches them essential life skills, such as teamwork, time management, and attention to detail.

PRIMARY

SWIM TIME! LEARNING TIME! FUN TIME!!

Swimming is not only a popular recreational activity but also a highly competitive sport that requires skill, technique, and endurance. As these students dive into the pool, they are focused on perfecting their strokes, improving their speed, and building their stamina under the close supervision of coach Caroline.

SECONDARY

SAPONIFICATION

Through this hands-on experiment, the Grade 12 students gain a deep understanding of the saponification process and the importance of proper safety precautions when working with lye.

Success... Being Your Own Best!

TOP NEWS OF THE MONTH

THE DISCOVERY CENTRE

Interesting and intriguing, fun, and engaging, are words to describe the KBIS Discovery Centre. Students can come to the Discovery Centre to discover many things. They can use puzzles, games, such as chess, snakes, and ladders, Ludo, Dogman Concentration, just to name a few; to discover new friends and new things about themselves.

NEW COMPUTER LAB

Students have been enjoying the new 40 Thin Client computers—making this the most well equipped school ICT lab in the country! It's getting a big thumbs up!

Charmaine Wakpi G12

Paul Pondo G12

Certificate of DISTINCTION

Naomi Koep G9

Certificate of CREDIT

Dylan Hoepel G8

Shivnesh Lal G9

Angelica Komati G10

Ebony Ouma G11.

Technology Week

Technology Week in the last week of T3.

The Theme **"Utilizing Technology for Living"** truly came alive when students showcased their skills from Craft and Design, computer based products, hand-embroidery and machine-sewn garments. The week was filled with many activities from Battle of the Brain, Cake Decoration, Fashion Parade to many computing challenges from Spreadsheet Guru, PC Assembling, Fast and Furious Fingers and more.

The Technology department also want to acknowledge Matilta Kapipi and Marisha Johnson from Education USA/US Embassy on their presentation on Cyber Bullying and Cyber Security issues and for providing information on the process of applying to study in the USA.

We also acknowledge and thank Lisa Tamanabaen an Ex-POMIS student, for her presentation on how to pursue SME business and make a success.

More than 300 students from various grade levels, 7-11, participated in the event. The best activities or products from computing, fashion, cake decorations and displays of furniture and garments came out the winners. A total of 95 students were awarded with various prizes and over 100 students received Participation Certificates.

The Technology Department on behalf of POMIS would like to acknowledge our sponsors; Theodist Business Superstore, Datec PNG, TE-PNG, and Pacific Uniforms for sponsoring Technology Week events and competitions. Our students were overwhelmed with the prizes received from our sponsors. I also want to thank the Technology teachers for their unwavering support to ensure the Technology Week was successful. Thank you and we look forward for another event in 2024.

Andrew Hriehwazi
Head of Technology

Wallaby Legends

Recently, our students were thrilled to get some Rugby tips from Will Genia and Digby Ioane.
