

Dear Kindergarten Families,

It is that time of year again! Summer is ending, and we are excited to welcome our students and staff back to our buildings. This year promises to be an incredible adventure, and we cannot wait to see all that our students and staff will achieve.

Did you know...

Around 90% of a child's brain develops by the age of five, making kindergarten a critical time for learning. This period is crucial for building the foundation of cognitive, emotional, and social skills that will influence a child's ability to learn and succeed in school and beyond.

This year promises to be filled with opportunities for growth and learning. We encourage you to stay engaged with us and participate in school events and activities, as your involvement is key to our shared success.

Have a great year!
