Athletic Liaison: 8/15/24

Football: Football has been practicing for the past two weeks. This week, they will finish their pre-season practices. The team currently has 29 players to start the season. Coach Choi's goal is to roster 30 players this season. He hopes to acquire a couple more players once the school year starts to reach his goal. Football will host a tri-scrimmage this Saturday against Bristol and Fairfield. Their first regular season game is Friday, August 23rd, at Renaissance Academy.

Boys Soccer: Boys Soccer has 35 boys rostered for their season. These numbers are higher than we anticipated, and we are extremely excited to see the large turnout. Coach Martin is looking forward to continuing to rebuild his young team and has goals to be playing in late October this season.

Girls Soccer: Girls Soccer has 29 girls rostered for this season. The team has been practicing for two a-days this past week and looks forward to their two scrimmages next week against Coatesville and Garden Spot. The girls this year will now be competing in Section 3 compared to Section 4 in the Lancaster Lebanon League. This means we will be playing bigger schools throughout section play. This is a challenge our team is looking forward to taking on.

Cross Country: Cross Country is looking forward to working with Lancaster Mennonite cross country runners this year as we have been approved to be a host school for our new co-op relationship with LMH. For cross country, we will continue our co-op with Linville Hill but have added LMH to the co-op. By doing this, we will have around 15 runners, which is the most runners we have had in the history of our program. We will also have more than 5 runners per boys and girls team, which allows us to have a team score and count in section standings.

Cheer: Cheer has a new coaching staff this year. Ashley Brown, a former PV cheerleader and alum, will be our new head cheer coach this year. Ashley has been doing a great job at creating a positive culture throughout our cheer team. Cheer has 20 girls rostered.

Girls Tennis: Tennis has 13 girls planning to play this year. Morgan Hiestand, our coach, has done a great job at keeping tennis relevant on campus without having home tennis courts for multiple years. Morgan has had multiple open court practices this summer that have had a great impact on getting underclassmen interested in joining our team.

Golf: Golf is excited for this coming season. They expect to have a very competitive year with goals of winning the section and competing for the team district playoffs. They have 15 boys on this year's golf team.

JH Football: JH football numbers are at an all-time high for as early as we are into the season. JH Football started their heat acclimatization this week with 23 players. This is a major increase from last year when we started heat acclimatization with seven players.

JH Boys and Girls Soccer, JH Boys and Girls Cross Country, and JH Cheer: The rest of our JH sports do not start until the first day of school on August 20th. The numbers for each team are very low, but this is normal until school gets underway. We plan to have sufficient numbers for each of our JH teams.
