Program Goal:

Our goal is to bring competitive volleyball back to the CDS Varsity Sports Program! We will start with a short season of practicing one day a week to build basic skills, game knowledge, and to gauge interest. Based on the player development and commitment, we will plan the next steps!

About The Coach:

Krisztina Campion is one of our CDS ECC Senior teachers. She has decades of experience playing competitive volleyball. Krisztina started playing competitive volleyball when she was 10 years old. When she was in high school, she played professionally on the Hungarian International team. When she moved to the USA when she was 21 and played amateur beach volleyball, she turned down a college scholarship because she didn't speak English at the time. She is super excited to get to know some of our middle schoolers through coaching volleyball.
