

# Consolidate two or more schools into one

## Key Considerations

**Carrick 9-12 closes; students attend Brashear and Carrick becomes a CTE center**

- Carrick is projected to have ~500 students in SY24-25, which is small for a HS
- Carrick has slightly more existing CTE space, which could make it a better candidate for a CTE center
- **Challenge:** Increases transportation time for some students in the South and Brashear is not easily accessible by public transit
