

Create & expand specialized programs & pathways

CAPA would be split into a 6-8 and 9-12 program, with the 6-8 housed at Manchester, which would be renovated to include creative and performing arts spaces (dance studios, music labs, specialized art studios, renovated auditorium and performance spaces).

CAPA 6-8 could partner with arts organizations already located in the North side – e.g. Manchester Craftsmen’s Guild, Mattress Factory, Artists Image Resources (AIR). CAPA 9-12 would likely expand as a result of more available space in the existing school building.
