

# Change all grade configurations to K-5, 6-8 and 9-12

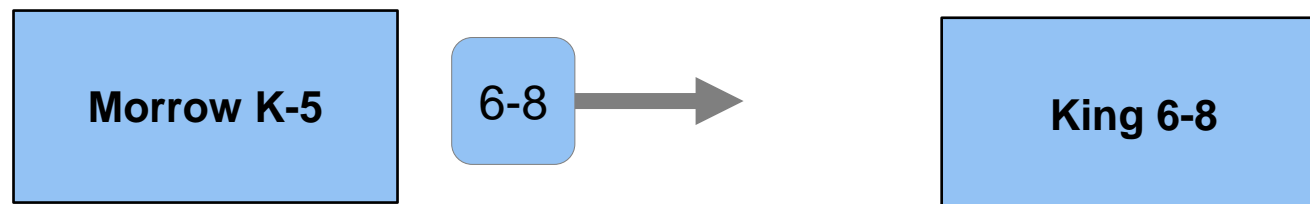

## Key Considerations

King becomes 6-8 and Allegheny becomes a K-5; the magnet program at Allegheny is phased out

- King and Allegheny are down the street from each other
- By moving 6-8 students out of Allegheny, the building could accommodate an expanded K-5 program

Morrow becomes a K-5 and 6-8 students attend King

- Allows Morrow K-5 to move into an expanded Intermediate building, with better facilities and access to green space
- **Challenge:** Would increase transportation time for 6-8 students living in Morrow attendance zone
