School Climate Advisory Committee Meeting Minutes

What Do We Want to Address at Our Next Climate Meeting?
Consensus: How are we going to move forward in this committee?

March 2024 Climate Meeting Minutes

Notes	Speaker
Current Reality of Tier I Supports Staff spoke on what each schools supports look like on each respective Campus	Diana, Keely, Brad
Parent Asked: Students Who are Impacted by “big emotions” how is this messaged on campuses district wide? Discussion on what are “big emotions” and Mary Lynch explained the role of social workers, school psychologists, and Targeted Case Managers	Unknown Name
Parent Comment/Concern: How can administration have a more personal relationship with the student body? With all of the turnover at LPHS, the kids are suffering. We need to do better so that our students, especially seniors, have a memorable senior year. Mary Lynch agreed with the parent explaining that their is going to be various trainings at the beginning of the school year and throughout the year to help leadership, teachers, and all staff. A conversation about all of the trauma in Oroville began	Lisa
Set Mission and Vision for School climate Committee Mary Lynch took time to suggest that the committee think about reviewing the current documents, but also explained to the committee that “this committee is here to stay in Oroville.” “All healthy school districts have school climate meetings,” and this is here to stay regardless of DOJ.”	Mary
Mary Lynch Asked… How will this committee move the district forward in a positive direction? Parent and staff started to discuss the importance of recognizing the harm and then finding ways to move on and start fresh	Did not document

What is the role of the student body representatives?	
How are we going to move schools and systems forward? Can we come up with a plan?	
Discussion ON: Parent Advisory Committees - how to get involved “what things can parents do” Mary discussed School Site Council: Parents involved and have a voice ? SSC and other parent committees, Mary also discussed DELAC and ELAC
