

According to Virginia Community College System policy, dual enrollment coursework is restricted to high school juniors and seniors. Exceptions may be considered for freshman and sophomore high school/home-schooled students who are able to demonstrate readiness for college-level coursework.

Because the enrollment of freshman and sophomore students is considered exceptional, each freshman and sophomore student will be treated on a case-by-case basis and will require formal approval by the college president or his designee as well as the college's Dean of Student Services or the Dual Enrollment Coordinator. Other conditions, as deemed appropriate by the president or the dean, may also apply.

All students admitted under this section must demonstrate readiness for college, meet the applicable college placement requirements, and address all other college admission criteria.

Home-schooled students must provide a copy of a home-school agreement approved by the school district, or a letter declaring home-school for religion exemption. Documentation of parental permission is required for all dual enrollment students.

Please be advised that course content will not be altered to be age appropriate for younger students.
