President and Members of the Board of Education
Community High School District 94
West Chicago, IL 60185

Dear Members of the Board of Education:

I am pleased to present the Budget for the Fiscal Year 2024-2025 financial plan for Community High School District 94. This document was created with the assumption that the District has complete responsibility for the preparation and modification of its annual budget and is solely accountable for its fiscal matters, including surpluses and deficits, and assignments of management. This document has been prepared to communicate a comprehensive review of the district's financial plan and the result of operations to the Members of the Board of Education, local citizens, and other constituents. The prudent actions of the School Board, Administration, and Staff have positioned the district well to be able to maintain the continuation of successful programs and to pursue the attainment of district-wide goals. The 2024-2025 Budget is subject to be adopted according to the provisions of Board Policy 4:10. The Operating Funds, which include the Education, Operations and Maintenance, Transportation, IMRF and Tort Funds, have a combined estimated revenues of \$45,090,155 and expected expenditures of \$42,892,001, for a surplus of \$2,198,154. A transfer is anticipated from the Operations and Maintenance Fund in the amount of \$3,000,000 to the Capital Project Fund for capital improvements in and around the building. Additionally, the Board of Education approves a transfer from the Working Cash Fund to the Education Fund for interest earned. The amount anticipated for Fiscal Year 2025 is \$11,000.

Budget Process

The process of projecting the budgeting needs of the district is a continual process that is updated as information changes and is reflected in the district's financial projections. The process of developing the operating line-by-line budget of the district for the fiscal year 2024-2025 is a collaborative exercise, which allows the district to arrive at a detailed revenue and expenditure plan for operations for the fiscal year beginning on July 1, 2024.

Community High School District 94

Fiscal Year 2025 Budget Report

A zero-based budgeting process has been implemented in collaboration with the principal and department heads. The zero-based budgeting process helps the business office manage the monthly financial reporting and the annual budget in a more effective way. A positive outcome for this process includes the efficiency of allocation of resources, as it is based on needs and benefits, and the increase of department collaboration as it gives them more initiative and responsibility in the decision-making process.

Budgetary controls are maintained at line item levels and are built into administrative departments' responsibilities. All actual activity is compared to the budget and reported to the district's management and the Board of Education in the form of monthly Treasurer Reports. Any extraordinary variance concerns are addressed and disclosed in full detail.

The District is implementing and refining various initiatives in the fiscal year 2024-2025, which includes the development of a strategic plan as well as implementing a new data dashboard for administration, teachers and students to utilize. Other initiatives with regards to facilities and operations include the renovation of the bathrooms on the 3rd floor, replacement of furniture, replacement of a 20 year old roof, repair of a parking lot, and the updating of ceiling and lighting. In addition, the administration will be exploring options for a transition center for our special education department.

The Global Coronavirus Pandemic Impact

The Coronavirus Pandemic continues to impact the budget dramatically. The District will continue our increased efforts to meet the increased social and emotional needs of our students. To date, the District has been allocated a total of \$5,284,068 in funding specifically for the mitigation of the coronavirus. Through June 30, 2024, the District has expended \$5,179,600 of these funds. The remaining portion of \$104,468 of the funding will be expended by September of 2024. The majority of that allocation will be spent on salaries and community services supplies.

Revenue resources are mainly comprised of Property Taxes, State, and Federal funding grants.

FY25 Budget Operating Revenue

Local Revenue Sources

Property Tax Rates and Collections

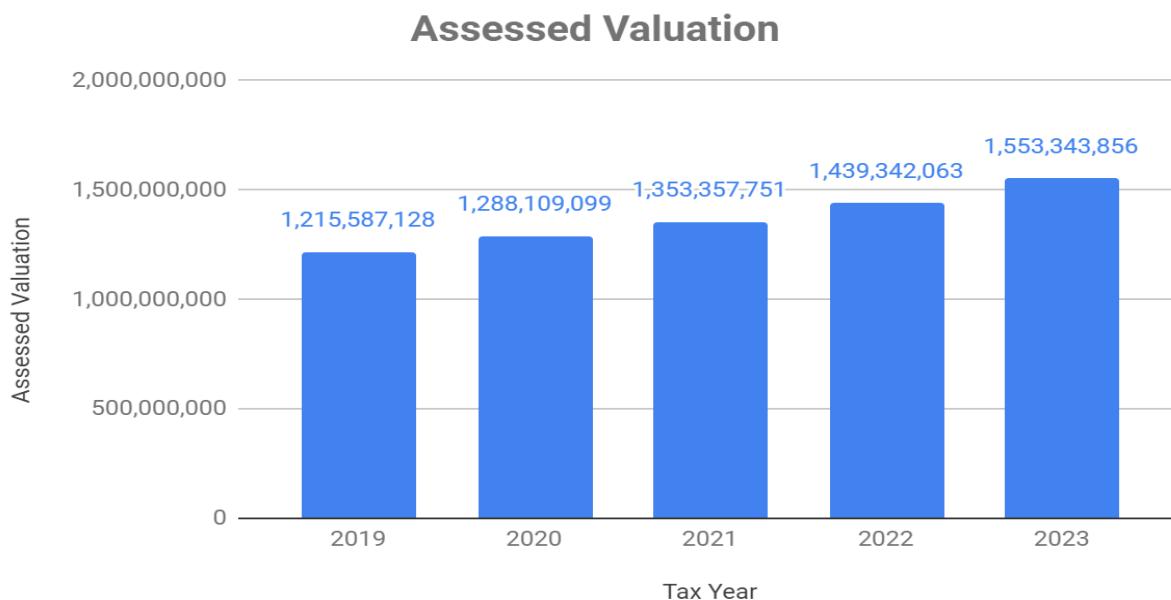

The primary source of revenue for Community High School District 94 is the local property tax. It represents approximately 73% of the budgeted revenue. Illinois' real property values are determined annually on a calendar basis. Property assessments for 2024 are payable in June and September of 2025. The growth in local property taxes is limited to the rate of the December Consumer Price Index (CPI) or as a capped tax district, 5%. In December 2023 the CPI rate was 3.4%. In addition to the revenue growth from CPI, the District also receives revenue from new construction and/or tax increment financing(TIF) districts that have terminated. New Construction, along with TIF districts, were \$46,828,020 or 3% of the total Equalized Assessed Value (EAV) of \$1,553,343,856. The FY25 budget year covers tax revenues received for the levy years of 2023 and 2024. District 94 is located in DuPage County, Illinois, where property taxes are payable in June and September, thus crossing fiscal years. Therefore, the FY25 tax revenue are estimates of what is left to be received from the 2023 levy and estimating the amount to be collected in June for the entire 2024 levy.

Other Local Revenue

Revenue from other local sources represent 8.34% of the total revenues, they are student fees, tuition based programs, athletic fees, earnings of investments and miscellaneous revenues.

Community High School District 94

Fiscal Year 2025 Budget Report

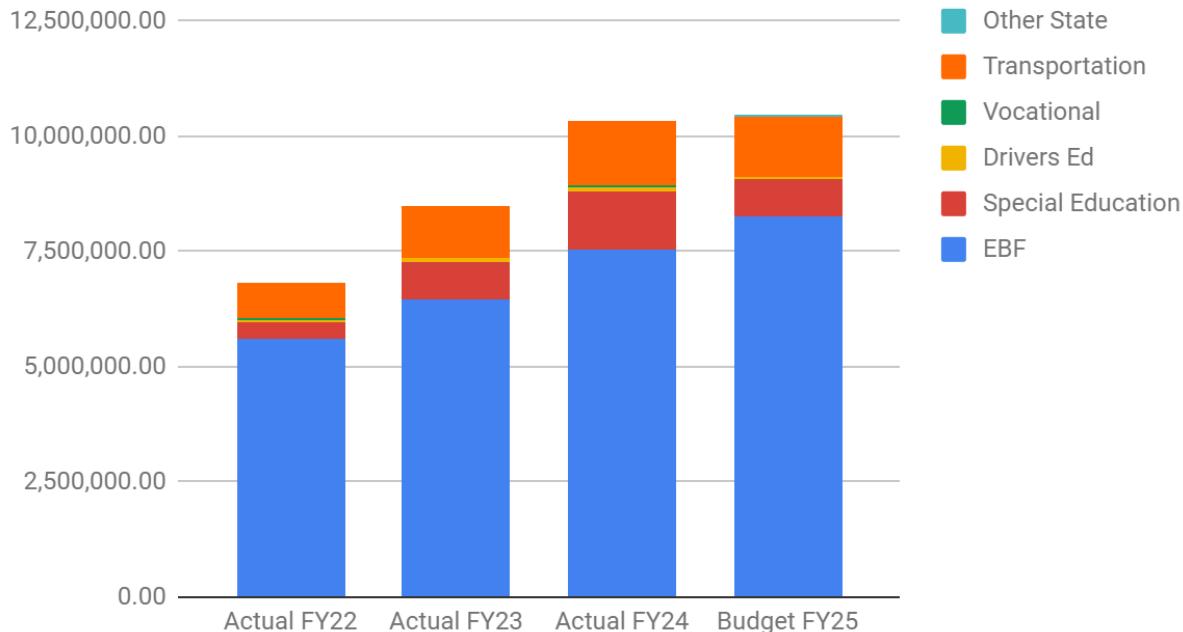

State Revenue Sources

Revenue from state sources represents 23.2% of the budgeted revenue, which is comprised of two separate funding sources:

Unrestricted Aid: - Evidence Based Funding (EBF), is distributed to school districts throughout the state and is dependent on the local resources of the District. The State Contribution to EBF is comprised of *Base Funding Minimum + Tier Funding = Evidenced Based Funding*. Tier Funding will vary depending on a district's final percentage of adequacy. Once the funds are available for Tier Distribution, the percent of funding for each Tier is calculated. District 94 expects to receive funding at the Tier 1 level for EBF, with an estimated increase of 15% percent of new EBF funding.

Restricted Aid: - Categorical funding is designed to support mandated programs targeted towards specific groups. It is distributed to school districts throughout the state through categorical grants. The District's categorical grant budget is made of Special Education, Transportation, Drivers Education and Vocational grants.

State Revenue

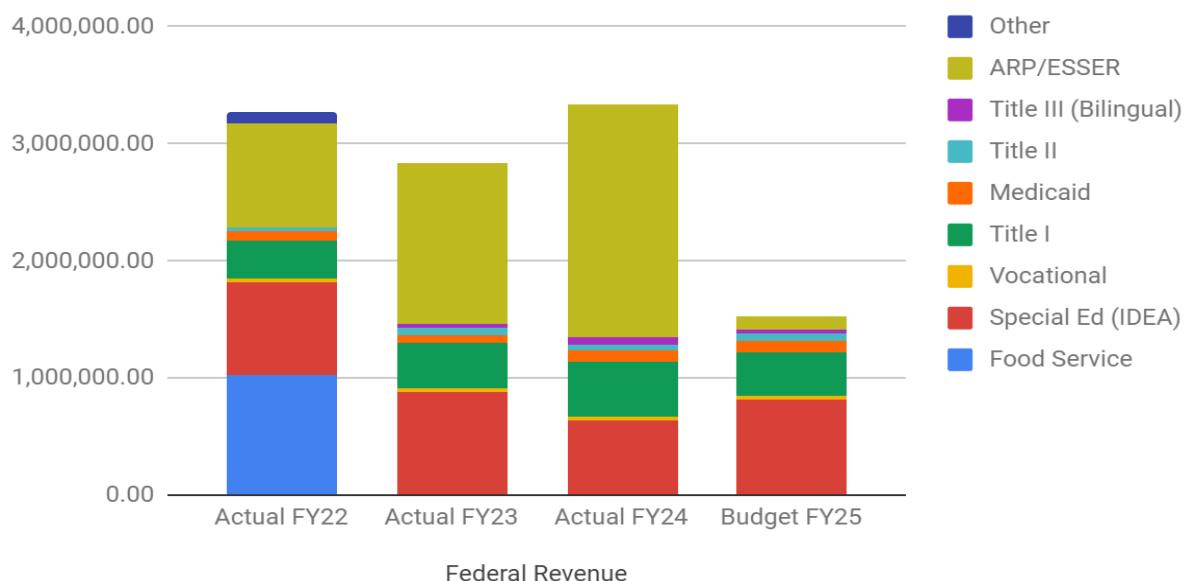

Community High School District 94

Fiscal Year 2025 Budget Report

Federal Revenue Sources

Revenue from federal sources represents 3.4% of the budgeted revenue. Allocations for the American Rescue Plan(ARP) and the Elementary and Secondary School Emergency Relief (ESSER) Fund had increased this percentage dramatically the past few years, but this funding ends in September 2024, as such, you can see a large decrease anticipated for FY25. The ARP and ESSER are funds to mitigate learning loss and to mitigate the spread of COVID19 and will be received once an expenditure claim is approved. The District receives this revenue in the form of categorical grants and other aid administered by the Federal government. These include aid for low-income students, reimbursements to the District for lunch and breakfast programs, for students that are covered under Medicaid funding, IDEA for special education funding, Vocational and Bilingual Grants.

Expenditures

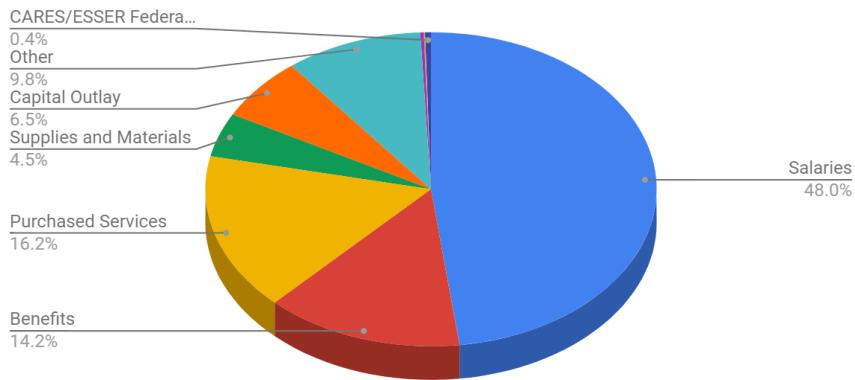

Community High School District 94

Fiscal Year 2025 Budget Report

FY25 Budget Operating Expenditures

Expenditure amounts are based on various assumptions as follows:

Salaries - Per ratified collective bargaining agreements and an extension of a contract, teachers are scheduled to receive on average a 3.5% increase and support professionals will be receiving an overall increase of 5%.

Benefits - The district continues to be a member of a health insurance cooperative program. Due in part to work of the District's wellness program, the increase in health insurance costs are less than the average across the country, but are still sizable at 8.5-9%.

Purchased Services, Supplies & Materials - These budgets have been built based on needs identified by each department.

Capital Expenditures - Capital expenditures include prior year construction payments, mini buses, furniture and annual technology purchases.

CARES/ESSER/ARP Expenditures - To offset learning loss and to mitigate the spreading of COVID19, the federal government allocated a significant amount to the District. As of June 30, 2024, \$104,000 is remaining to be expended by September 30, 2024. The remaining portion has been budgeted for salaries, benefits and community supplies. Expenditures will need to be claimed before the District will be reimbursed.

Total Expenditure funds are expected to increase by approximately \$5 million or 12%. There are multiple reasons for the increase, which include the rise in tuition costs,

salaries and health insurance costs, timing of payments and the spending of fund balances for various projects.

Transfers

The District is anticipating the transfer of funds from two separate funds. Annually, the Board of Education approves the transfer of the interest earned in the Working Cash Fund to the Education Fund. The anticipated interest earned for this fiscal year is \$11,000. The District is also planning on capital improvement projects. To account for these projects, the District is anticipating a transfer from the Operations and Maintenance Fund to the Capital Projects Fund in the amount of \$3,000,000. The District is expected to renovate bathrooms, repair parking lots, replace roofs and replace furniture, as well as explore options for a transition center.

Balanced budget; no Deficit Reduction Plan is required.

A deficit reduction plan is required if the local board of education adopts (or amends) the 2024-2025 school district budget in which the "operating funds" listed above result in direct revenues (line 9, BudgetSum 2-4) being less than direct expenditures (line 19, BudgetSum 2-4) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81, BudgetSum 2-4).

Note: The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.

Per School Code (105 ILCS 5/17-1) - If the Deficit AFR Summary Information tab from the 2023-2024 Annual Financial Report (AFR) reflects a deficit as defined above, then the school district shall adopt and submit a deficit reduction plan (found here on page 23-27) to ISBE within 30 days after acceptance of the AFR.

The deficit reduction plan, if required, is developed using ISBE guidelines and format.

Evidence-Based Funding: Fiscal Year 2025 Spending Plan

COMMUNITY HIGH SCH DISTRICT 94

Part I: Achieving Student Growth and Making Progress Toward State Education Goals

The questions below allow you to indicate the strategic priorities and strategies that will drive your efforts to achieve student growth and make progress toward state education goals. These may involve investing in any combination of an Organizational Unit's core resources (time, money, people, and programs).

Collaboration Opportunity - Organizational Units may find that Part I is most easily and effectively completed if led by program leaders in consultation with finance leaders.

- 1) What are the Organizational Unit's strategic goals for student success for the 2024-25 school year? What measures will be used to evaluate progress? (No more than 2000 characters, including spaces.)

	Top Strategy 1	Top Strategy 2	Top Strategy 3
2)			
If "Other" was selected in question 2, please describe. (No more than 1000 characters, including spaces.)			

Part II: Planned Use of Evidence-Based Funding

The questions below provide an opportunity to document the stakeholders with whom you consulted and the data you analyzed as you determined your strategic allocations of FY 2025 EBF dollars. Key statistics related to EBF distributions are provided for your reference. Form 50-36/50-39 is typically released before current-year appropriations are known. Therefore, the figures provided are for the prior fiscal year.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed if led by finance leaders in consultation with program leaders.

	[Optional] Provide a brief description of the Organizational Unit's process for consulting with internal and external stakeholders in determining the allocation of EBF dollars. (No more than 1000 characters, including spaces.)							
4)	Given the data analyzed, the stakeholders consulted, and the priorities identified in Part I, indicate the top three priority investments the Organizational Unit will make with its FY 2025 Base Funding Minimum (e.g., excluding Tier Funding). Choose "Other" if investments do not match the provided list. (Select three different responses. "Other" may be selected more than once if needed.)	Priority Investment 1		Priority Investment 2		Priority Investment 3		
	If "Other" was selected in question 4, please describe. (No more than 1000 characters, including spaces.)							
5)	The table below presents the regionally adjusted amount embedded in the Organizational Unit's FY 2024 Adequacy Target for each of the 34 cost factors in the Evidence-Based Funding model (Column F). Column G is required for all Organizational Units that receive at least \$5,000 in Tier Funding, while column H is optional. Organizational Units may choose to provide additional narrative context in Columns I-M to elaborate on the figures included in the table. ISBE has produced guidance for populating the cost factor table. The guidance includes a definition for each cost factor, along with suggestions for using Employee Information System position codes and common expenditure accounts to support a determination of expenditures. This guidance is available at https://www.isbe.net/ebfspendingplan .							
	Column G: If the Organizational Unit will receive at least \$5,000 in FY 2025 Tier Funding (as entered in Q2.1/cell G31), column G is required. Please indicate the Organizational Unit's planned expenditures in FY 2025 from Tier Funds only. Organizational Units are not expected to place a value in each cell. Rather, the table allows for the communication of priority investments with new state resources for the current fiscal year. During years in which there is no new Tier Funding, column G will not be required. During years in which Tier Funding is available, the amount of new Tier Funding entered in Q2.1/cell G31 above must equal the sum in cell G90 below. If some or all Tier Funding is invested outside of the cost factors, enter a dollar amount in cell G89 and provide additional context in the space for a narrative beginning in row 93.							
	Column H: Optionally, Organizational Units may populate column H with total planned expenditures in FY 2025 for each cost factor from all revenue sources (e.g., not just from EBF). By comparing the figures in column F to the figures entered in column H, the Organizational Unit may engage local stakeholders in productive dialogue about resource allocation decisions.

*The subtotal for Per Student Investments is a calculated figure that adjusts salary portions of Central Office and Maintenance & Operations to account for regional salary differences. As a result, the sum of each individual cost factor will not equal the subtotal.

**The total is the Final Adequacy Target (adjusted for Regionalization Factor) calculated in the Full FY 2024 EBF Calculation file. Due to differences in rounding, this figure may vary slightly from the sum of the subtotals in this table.

Part III: Support for Special Student Groups

EBF statute sets aside specific allocations to be spent for special education, English learners, and low-income students. Per statute these designated funds must be spent on programs and services benefiting these specific student groups. Funds for English learners and low-income students must be spent in addition to, and not in lieu of, funding that supports general programs of instruction for all students. Funds attributable to special education must be used for the provision of special education facilities and services as outlined in ILCS 14-1.08. Current-year EBF amounts attributable to each of the special student groups must be reported in cells G100-G102 below. If the Organizational Unit received at least \$5,000 for any of the student groups, a response to the questions below is required. For amounts less than \$5,000, a response is optional. All other EBF funds may be spent in any manner deemed appropriate by the school district.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed through collaboration between program leaders affiliated with each student group and finance leaders.

Plan Assurances											
Please complete the assurances below related to Article 14C of the Illinois School Code, which stipulates allowable expenditures for English learners. Organizational Units should maintain supporting documentation (e.g., sign-in sheets, meeting agendas) to affirm the veracity of the below assurances. Note that a separate collection of the Bilingual Service Plan takes place before each school year and must be separately reviewed by the Bilingual Parent Advisory Committee (BPAC). Responses in this plan should be aligned with information contained in the Bilingual Service Plan. Responses in this section are only required if an Organizational Unit receives any amount of EBF dollars attributable to English learners.											
Collaboration Opportunity - Organizational Units may find that the plan assurances are most easily and effectively completed if led by program leaders.

ESTIMATED LIMITATION OF ADMINISTRATIVE COSTS (School Districts Only)**(For Local Use Only)**

This is an estimated Limitation of Administrative Costs Worksheet only and will not be accepted for Official Submission of the Limitation of Administrative Costs Worksheet.

The worksheet is intended for use during the budgeting process to estimate the district's percent increase of FY2025 budgeted expenditures over actual FY2024 expenditures. Budget information is copied to this page. Insert the prior year estimated actual expenditures to compute the estimated percentage increase (decrease).

The official Limitation of Administrative Costs Worksheet is attached to the end of the Annual Financial Report (ISBE Form 50-35) and may be submitted in conjunction with that report. An official Limitation of Administrative Costs Worksheet can also be found on the ISBE website at: [Limitation of Administrative Costs](#)
