Dear Parent/Guardian,

Oak Tree Elementary is a schoolwide Title I school. The purpose of a Title I schoolwide program is to improve the academic success of all students at the school. Oak Tree receives Federal funds because of our Title I status. Our school benefits from these federal funds through support in the areas of math, reading, and social-emotional well being.

Our goal at Oak Tree Elementary is for all students to be successful. Through a variety of assessments, teachers and content specialists can track your child's progress in reaching a proficient level for each learning standard. In addition to core instruction, students who are struggling or need additional support, have the opportunity to work with one of our highly qualified specialists or paraprofessionals. This provides students with a greater opportunity to actively participate in learning, with an emphasis on fostering independence and confidence through:

- Small group interventions with an appropriately certified specialist or a highly qualified paraprofessional
- Additional resources such as manipulatives, educational games, and evidence-based intervention programs
- Ongoing monitoring to ensure success in all academic areas through frequent conversations with classroom teacher

We are very fortunate to be a school that receives this extra Title I support and funding. Together we can lead our students to reach high levels of achievement! If you have any specific questions or do not want your child to take part in intervention services please contact us. Thank you!
