Special Education Local Plan Area Services

1. A description of programs for early childhood special education from birth through five years of age:

Document Title: Identification and Referral

Document Location: SELPA Procedures Manual

The Early Intervention Program is a federally funded family-centered program for infants and toddlers (birth to thirty-six months) with developmental delays, or who are at risk for developmental delays. The intent of the program is to develop and implement a comprehensive, coordinated, interagency system of early intervention services. The program is operated under an agreement between the Valley Mountain Regional Center (VMRC) and the Stanislaus SELPA.

Referrals

Anyone can make a referral, including parents, medical care providers, neighbors, family members, foster parents, and day care providers. In most cases, parents discuss their concerns for their child with the child's health care provider or doctor. When this happens, the health care provider or doctor routinely advises the parent to contact VMRC or the infant/toddler's district of residence (DOR) to request an evaluation for their child. If the child has a visual impairment, hearing impairment, or severe orthopedic impairment, or any combination of these, district representative are advised to contact the intake representatives of SCOE Early Intervention programs and VMRC to assist the parent complete a referral and start the evaluation process. Parent-to-parent support and resource information will also be made available.

No later than 90 days before the child's third birthday, the child's district of residence must be notified as all Early Start children are "potentially eligible" for special education and related services at age three; therefore, all Early Start children must be

referred to Part B. This notification may also serve as a referral to Part B services if a child was referred to a lead agency less than 45 days prior to 3rd birthday. Parents may elect to “opt out” for Part B assessment / evaluation once they are contacted by LEA.

Eligibility

Infants and toddlers from birth to 36 months may be eligible for early intervention services if, through documented evaluation and assessment, they meet one of the criteria listed below:

1. Require intensive special education and servicing by having a developmental delay as determined by a significant difference between the expected level of development for their age and the current level of functioning in one or more of the five developmental areas: cognitive, communication, social or emotional, adaptive, or physical and motor development including vision and hearing. A significant difference is defined as a 33% delay in one or more areas of development before 24 months of age or older at the time of referral, with a 50% delay in one area of development or a 33% delay in two or more areas of development;
2. Require intensive special education and services by having a disabling medical condition or congenital syndrome which the individual family service plan (IFSP) team determines has a high predictability of requiring intensive special education and service;
3. Have an established risk condition of known etiology or with established harmful developmental consequences, with a high probability of leading to delayed development.
4. Are at high risk of having substantial developmental disability due to a combination of biomedical risk factors.

(California Government Code: [Section 95014\(a\)](#)); 5 CCR 3031)

Individual Family Service Plan (IFSP)

A meeting to develop an initial IFSP will be convened for each eligible infant within 45 calendar days of receipt of the written referral and will include the parent, service coordinator and assessment staff. Other family members are welcome to attend. A translator will be provided if necessary. At this meeting, the IFSP document is completed. The IFSP consists of:

1. A statement of the family's resources, priorities and concerns related to enhancing the development of the infant;
2. A statement of the infant's or toddler's present levels of development in each of the areas assessed, based on measured evidence including vision, hearing, and health status, cognitive development, communication development, social and emotional development, and adaptive development;
3. A statement of the major outcomes expected for the infant or toddler and family where services for the family are related to meeting the special developmental needs of the infant;
4. The criteria, procedures, and timelines used to determine the degree to which progress toward achieving the outcomes is being made and whether

Description:

modifications or revisions are necessary.

5. A statement of the specific early intervention services necessary to meet the unique needs of the infant and family.

A periodic review of the IFSP shall be conducted every six months or more frequently, if conditions warrant. The purpose of the review is to determine the degree to which progress is being made and whether modifications of the IFSP are necessary. The periodic review may be conducted in a meeting or another means that is acceptable to the parents, such as a phone call or email. Documentation that the review has been conducted will be entered in the record.

Procedural Safeguards

All Federal, State and Stanislaus SELPA Procedural Safeguards apply to infants and toddlers under Part C including mediation and due process procedures.

Provision of Service

Based on the child's assessed developmental needs and the families concerns and priorities as determined by each child's Individualized Family Service Plan (IFSP) team, early intervention services may include:

- assistive technology
- audiology
- family training, counseling, and home visits
- health services
- medical services for diagnostic/evaluation purposes only
- nursing services
- nutrition services
- occupational therapy
- physical therapy
- psychological services
- service coordination (case management)
- social work services
- special instruction
- speech and language services
- transportation and related costs
- vision services

Transition to Preschool

To ensure the transition of a toddler to preschool under Part B and/or other services that may be available, appropriate representatives of the Regional Center, SCOE Early Intervention staff and District of Residence staff shall participate in a joint transition planning meeting to be held not less than ninety (90) days or more than nine months before the child reaches age three.

The transition conference may occur as early as 2 years 3 months of the child's age. The transition plan is actually a part of the IFSP and not a separate document.

A toddler shall be assessed for eligibility for special education and related services under Part B and, if eligible, and IEP or IFSP shall be developed and implemented by

For any child referred to the infant program 44 days or less from 3rd birthday the following steps shall occur:

1. Discussions with, parent s regarding the referral to special education for a toddler with a disability who may be eligible for Part B services.
2. No evaluation/ assessment/ IFSP required by early start, but must notify the LEA the child may be “potentially eligible” for Part B.

If a child continues to be eligible after transitioning from Part C to Part B, each LEA in the SELPA provides several programming options along a spectrum of placement from solely direct services that the child accesses (such as speech/ language support) through specialized day classes for children with severe needs. Depending on each LEA's options, children may also have access to state preschools and Head Start programs. This availability varies from LEA to LEA.
