Policies and General Information Agreement for Counseling Services

CONFIDENTIALITY: All information disclosed within sessions, and the written records pertaining to those sessions are confidential and may not be revealed to anyone without written permission except where disclosure is required by law.

WHEN DISCLOSURE IS REQUIRED OR MAY BE REQUIRED BY LAW: Some of the circumstances where disclosure is required, or may be required, by law include; (a) if there is a reasonable suspicion of child, dependent, or elder abuse or neglect; (b) if a student presents a danger to self, to others, to property; or (c) if a student's family member communicates that the student presents a danger to self or others. Disclosure may also be required pursuant to a legal proceeding by, or against, the student. If you place your mental status at issue in litigation initiated by you, the defendant may have the right to obtain the counseling records and/or testimony by the Wellness Counselors. The Wellness Counselors will use their clinical judgement when revealing such information. The Wellness Counselors will not release records to any outside unless they are authorized to do so.

THE PROCESS OF COUNSELING/EVALUATING AND SCOPE OF PRACTICE:

Wellness Counseling will be short term and solution-focused. The counseling will end at the end of the 2023-2024 school year. It will be appointment only and weekly or biweekly appointments. Wellness Counselor will only be on site once per week, therefore if the student is absent their next appointment will be the following week. Guardian will also need to be involved in counseling process.

Participation in counseling may result in a number of benefits, including improving interpersonal relationships and resolution of the specific concerns that led to seek counseling. Working toward these benefits, however, requires effort on all parties involved. Counseling requires active involvement, honesty, and openness in order to encourage change of thoughts, feelings and/or behavior. The Wellness Counselors will ask for feedback and views on counseling, its progress, and other aspects of the counseling and will expect open and honest response. Sometimes more than one approach may be helpful while working through a specific situation. During evaluation or counseling, remembering or talking about unpleasant events, feelings, or thoughts may result in experiencing feelings of anger, depression, fear, anxiety, etc. The Wellness Counselors will work with the student to provide a plan of action and goals. The student will work closely with their wellness counselor to achieve their personal goals. The Wellness Counselors are trained in and utilize evidence-based therapy techniques.

Counseling services will be provided during school hours and the student will receive an excused absence for the class period(s) missed, however the student is responsible for any missed work and communication with the teacher(s).

The Wellness Counselors cannot provide custody evaluation recommendation, medication prescription recommendation, or legal advice; as these activities do not fall within their scope of practice.

I have read the above Policies and General Information Agreement for Counseling Services carefully; I understand them and agree to comply with them:
