

Mt. Whitney High School Families,

I am absolutely thrilled to step into the role of the new principal at Mt. Whitney High School. My name is Alejandro J. Marroquin, and I am deeply honored to become a part of this vibrant community. With a wealth of nineteen years of educational experience, including the last eight as an administrator, I am wholeheartedly dedicated to ensuring every student at Mt. Whitney has a clearly defined and purposeful path toward academic excellence.

Our students deserve a principal dedicated to removing obstacles, refining instructional strategies, implementing sustainable changes, amplifying student voices, and increasing the percentage of students prepared for college and career success. I am excited to bring my passion for education and experience fostering collaborative environments to Mt. Whitney.

Successful schools thrive on successful teams. My commitment is to build meaningful relationships and foster collaboration among staff, empowering them to create agile and proficient teams. Together, we will create an environment where every student can excel.

In my first 100 days, I am eager to hold two parent discussion forums and distribute a detailed family survey. Your insights and feedback are not just welcome; they are invaluable as we plan for a great year ahead. For more information, please visit our official Mt. Whitney High School website, where we are committed to keeping you informed and involved.

Thank you for your warm welcome. I look forward to working with you to make this school year exceptional.

Warm regards,

Alejandro J. Marroquin

PRINCIPAL,
MT. WHITNEY HIGH SCHOOL
