Critical area 1:

CAASPP math scores are still in the red. Paul asked if we should remove the construction or leave it? but since its a 6 years history we should keep it. All kids take math 1 and 2 then after they split either 3 or business math. Both are College and Career ready.

Critical area 2: would like to go back two summers for tracking professional development.

Critical area 3: Dr. Krueger and Anna have both tracked practice tests. Dr. Krueger uses Shmoop to track. TOMS is not successful. Not gap in knowledge just a gap with comfort in test structure. Pick what we are going to use. Adding Shmoop to critical 3.

Critical area 4: need more evidence.

Critical area 5: Currently do not have any remedial courses. We don't have as many subgroups as visiting committees seem to think.

Critical area 6: Red, Yellow, Green system on the right track. Cleaning up the call slips, announcements, changing classes.

Critical area 7: No changes.
