

**LEARNING COMMUNITY CHARTER SCHOOL**

**Vaccination requirements for 6<sup>th</sup> Grade**

**Dear Parents,**

Welcome to LCCS, to best serve the health needs of every student we will need proof of immunizations, **as required by State Law**. This must include the month, day, and year in which the immunizations were administered and have the physician's signature and stamp. These documents will be reviewed by our school nurse during registration.

**Tdap** (Tetanus, Diphtheria, and Acellular Pertussis) – Children entering Grade 6 and age 11, or a comparable age level special education program or transferring into a New Jersey school from another state or country are required to receive a booster dose of Tetanus, Diphtheria and Acellular Pertussis (**Tdap**).

Students who have received a **DTP/DTap** or **Td** less than 5 years prior to entry or attendance will not be required to receive a Tdap until 5 years have elapsed from the last dose.

**Meningococcal** – Children entering Grade 6 and age 11 or a comparable age level special education program with an assigned grade shall have received 1 dose of meningococcal containing vaccine.

**Please inform the nurse of any other information concerning your child's history of illness, allergies and or asthma which may help us to better understand your child's needs.**
