

**Memorandum of Understanding**  
Between  
The Association of School Bus Drivers  
AND  
South Washington County Schools-ISD 833

In the event there are not an adequate number of bus drivers to fill general education routes, the least senior bus driver with a special education AM or PM route will be transferred to a general education route. If the general education route is shorter in length, the employee will be required to complete other duties as assigned when not driving in order to not lose hours. The AM or PM special education route will then be contracted. The bus assistant would remain with the contracted route.

This MOU will expire on June 30, 2025.
