Livestock Eligibility Requirements

ELIGIBILITY REQUIREMENTS

The Calcasieu Parish School Board has approved the academic requirements as established by LHSAA and required by BESE, for extra-curricular and co-curricular activities. To participate in the 4-H and FFA Livestock Shows the following time allotments will be met:

1. In order to participate in a livestock, show, a student must have either a 1.5 or better grade point average in at least 5 subjects. Seniors with 20 or more credits may schedule and be required to pass no fewer than 4 subjects. This is based on the previous semester: for example, to be eligible for the fall shows; the student must have met the above academic requirements either the previous May or at the end of summer school. To be eligible for the spring the student must have met the above requirements during the first semester of school.
2. No student may miss a class he/she is presently failing based on the previous nine week's grades.
3. No student will be allowed to participate in any event on the night or day he/she is under suspension from school.
4. A student must be in attendance at school at least one hour prior to release time to participate in a contest. Only the school administrator can grant exceptions to this rule.
5. All work missed by students while on these events must be made up and completed in a manner that would be required of any other students.
6. Students who are absent from school for these activities are representing our school, so they will be provided with both adequate and necessary time to make up the work missed while they are away from school. Students who are excused from school for school-related activities regardless of the number of days absent will be given a minimum of 3 school days to make up the work when they return.
7. Midterm requirement
 2 credit courses - based on the final grade (two nine weeks)
 1 or 2 credit courses - based on the first two nine-weeks grades only. Midterm is not counted. Numerical grade is converted to letter grade each nine weeks.

ATTENDANCE

In accordance with state law, it is the responsibility of every parent, tutor, or legal guardian of a child between the ages of seven (7) and eighteen (18) to enforce the attendance of his or her child at the school to which the student is assigned. Once a pupil arrives at school, he/she is expected to remain and attend each class throughout the day.

A student is considered to be in attendance when he or she (1) is physically present at a school site or is participating in an authorized school activity and (2) is under the supervision of authorized personnel. This definition for attendance would extend to students who are homebound, assigned to and participating in drug rehabilitation programs that contain a state-approved education component, or participating in school-authorized field trips or other school-approved activities.

- *Half-day attendance* - A student is considered to be in attendance for one-half day when he or she (1) is physically present at a school site or is participating in an authorized school activity and (2) is under the supervision of authorized personnel for more than 25% but not more than half (26% -50%) of the student's instructional day.
- *Whole-day attendance* - A student is considered to be in attendance for a whole day when he or she (1) is physically present at a school site or is participating in an authorized school activity and (2) is under the supervision of authorized personnel for more than 50% (51%-100%) of the student's instructional day.

Compulsory attendance laws and Louisiana Board of Elementary and Secondary Education (BESE) regulations require high school students to be in attendance a minimum 83.5 school days per semester or 167 school days a school year for schools not operating on a semester basis in order to be eligible to receive credit for courses taken. To receive Carnegie credit for a course, students must be present ninety-four percent (94%) of the required time. Elementary students shall be in attendance a minimum of 167 days a school year in order to be eligible to receive credit for courses taken.

Seat-Time Recovery opportunities are available to students who have been absent more than the allowable number of instructional periods during a semester but would have obtained credit had the student met attendance requirements. If assigned **Seat-Time Recovery** is successfully completed the student will receive credit and the grade earned in the course. Because **Seat-Time Recovery** must occur outside of instructional hours and there must be a school employee to oversee this process, there will be \$20 fee per class (with a cap of \$80) per semester to offset the cost incurred for a lab facilitator for **Seat-Time** supervision.

*Failure to complete seat time minutes and/or pay the fee within the allotted time will result in denial of credit in each class seat time is owed in.

All excuses for a student's absence, including medical verification of extended personal illness, must be presented within five (5) school days of the student's return to school, or the student's absence shall be considered unexcused and the student not allowed to make up work missed.

Students must bring a note from their parent or guardian after being absent for any reason. This note must be dated, signed by the parent/guardian, and must state the reason for the absence. Valid excuses include illness or medical or dental appointment of student, serious illness in family, death in immediate family, and absence for the observation of special and recognized holidays of the student's own religious faith. Verification may be requested for any absence. Should a student accumulate five or more excused absences in any one grading period, a grade of "I" may be assigned. Incomplete work must be completed during the next grading period to have the "I" removed. Students are responsible for all make-up work. Upon returning from an absence, students are responsible for getting all make-up work done and the dates the work is due. **Each student who has been suspended for ten (10) days or fewer shall receive the missed assignments from each academic teacher. The student shall have one (1) school day for each day out due to suspension to complete and submit the work. If a student does not complete the assignment in the allotted amount of time, the student shall receive a zero (0) for the assignments.**

GIFTED PROGRAM

Spark

SPARK (Seeking Purposeful Analytical Realistic Knowledge) is the local name for the program for academically gifted students in Calcasieu Parish. The identification of gifted students begins with a referral by a teacher, friend, or parent of the student with approval of the local school committee (SBLC). A screening test is given and if a student scores high enough on this, then a full evaluation is given by a Pupil Appraisal team. Once a student is classified as academically gifted, an Individual Education Program (IEP) conference is held and the student is placed in the program. Pupil Appraisal accepts evaluations by local psychologist for review.

Talented Visual Arts Program

A student is recommended as having artistic abilities by his/her regular or special education teacher, parent/guardian, grandparent, or the student himself/herself. The program is for students identified as

possessing measurable abilities that give clear evidence of unique talent in visual arts. Students qualify on talent only. Academic scores are not considered in the qualification process. Middle School students are served in either pull-out enrichment programs or academic content courses, while High School students travel to Lake Charles-Boston Academy to attend classes.

Pupil Appraisal works with the Gifted/Talented department to arrange and schedule students for state evaluations. Pupil Appraisal is an integral part of the evaluation process and is present with students at the testing location during the entire evaluative process.

High School Final Grade

The final grade for one-half (1/2) credit courses shall reflect an average of two marking periods. Courses for one or more credits shall reflect an average of the marking periods. In order to receive credit, a total of 2 quality points are needed for a ½ credit class. A total of 4 quality points are needed for a one credit class, with the exception of Algebra I, Geometry, English II, English III, Biology, and American History. Those classes have an EOC test that counts as a fifth grade, making it necessary to have 5 quality points to pass.

Testing Information

In order to graduate students must pass End of Course tests (EOC) in Algebra I or Geometry, English I or English II, and Biology or American History. All EOC tests will be given to students enrolled in above classes and the grade scored will count as 20% of the course grade for regular ed. students. Special Ed and LAA 2 counts as 5%.

RTI

The primary purpose of RTI is to decrease retention rates and elevate the levels of academic success. RTI will allow us to identify students who are showing signs of academic struggle and provide support and services to assist them in meeting their educational goal.

- We have built a 47-minute 6th period into the schedule for RTI/ General Elective. This intervention time will allow teachers to work with students in an individualized manner focusing on the acquisition of specific skills. Also, intervention will benefit those who have performed poorly on an exam or had difficulty mastering a particular concept. In addition, Intervention will allow students to make up work from an absence. Finally, intervention can also serve those students that can be challenged to a higher level.

SATURDAY RTI

- If a student is failing or is in jeopardy of failing any class he/she will be required to attend Saturday RTI. A certified teacher will be provided for these failing students every other Saturday beginning on the first Saturday after Labor Day. The student will be required to attend 1 hour per subject that he or she is failing.

RECOVERY

- The administration will determine which students will be placed in recovery. Once a student is placed in recovery, he/she will remain there until the end of the 9-weeks period or removal by the administration. Recovery will be facilitated by teachers with the assistance of paraprofessionals. Students in recovery will remain with their recovery teacher through the lunch period, continuing to work on needed skills.

ENRICHMENT

- Enrichment teachers will be able track their students' attendance of intervention classes by accessing the H-drive.
- Enrichment will consist of ACT remediation for juniors and seniors and study skills for all high school students.

INTERVENTION

- Core teachers chose to place students in intervention based on daily classroom assignments and participation. Participation in intervention is mandatory if selected by their teacher. Students do not have the option of attending. If the student fails to show up for an intervention session, they will be referred to the administration for disciplinary consequences. Students are responsible for knowing when they have intervention and who they have it with.
- Core teachers will facilitate the intervention classes and non-core teachers/paraprofessionals will facilitate the enrichment classes. Intervention teachers will verbally assign a minimum of 5 students per day to attend intervention classes for the following day. The names of these students will be placed on the H-drive by 8:30 each morning. This list will be printed and posted to ensure the students are at the appropriate classroom each day. All students will be accounted for.
- A daily roster will be kept for all students attending interventions with names, date, and reason for intervention.

TRANSPORTATION POLICY

Buses

Transportation is provided for any student who resides a distance beyond one-mile radius from the school so long as his/her conduct while riding the bus is satisfactory. Students are under the school's jurisdiction while on the bus and misconduct may forfeit the student's privilege for riding a bus. Students must ride the bus they are assigned and get on or off at their assigned stop. Only on an emergency day-to-day basis, and with written permission signed by a school administrator, may a student ride a bus that he/she is not regularly assigned to.

ALTERNATE TRANSPORTATION

- No student will be allowed to ride a bus other than his/her assigned bus. No notes from home can be accepted regarding a bus change for that day. Transportation forms requesting a bus change must be completed, given to Admin, and these will be sent to CPSB Transportation Department for approval. Special circumstances should be addressed through BCHS administration. Should an emergency arise after 12:00 pm and your child will need to be picked up, please be sure that you arrive no later than 2:30 pm to allow enough time to check them out through the school office. As per CPSB policy, in order to decrease the added activities at dismissal and the communication issues due to timing, **schools will not accept phone calls after 2:00 p.m.** informing them how the child is to get home that day. It is important that you let your child know in the morning how they will get home. As always, we appreciate your help with this matter.
