

Funding of Co-Curricular Opportunities for Travel, Events, Competitions, Etc.

The School Board will consider contributing funds to any school-sponsored co-curricular opportunity for students which is constrained by budget and time.

The School Board may require the students/faculty members participating to pursue fundraising efforts before asking the Board for funding. This may include setting a timeline for fundraising. All decisions to fund the request are at the discretion of the Board

The Board recommends that any co-curricular opportunity begin fundraising as early in the year as possible in order to take advantage of unexpected opportunities.

Parents/guardians participating in co-curricular opportunities will be responsible for their own expenses.
