

Genesee Valley Central School
STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
Standards of Conduct Governing Student Access to the District Computer System

Inappropriate use of the DCS may result in disciplinary action, including suspension or cancellation of access. Prior to suspension or revocation of access to the DCS, students will be afforded applicable due process rights. Each student who is granted access will be responsible for that usage. The DCS is provided for students in support of their educational program and to conduct research and communicate with others. Student access to external computer networks not controlled by the District is provided to students who act in a considerate and responsible manner. Individual users of the District's computerized information resources are responsible for their behavior and communications over the District computer network. It is presumed that users will comply with District standards and will honor the agreements they have signed.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be GVCS District property and subject to control and inspection. The computer coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of District policy and regulations regarding student access to the DCS. Students should NOT expect that information stored on the DCS will be private.

Use of the DCS which violates any aspect of GVCS District policy; the Code of Conduct; and federal, state or local laws or regulations is strictly prohibited and may result in disciplinary action in compliance with applicable District guidelines and/or federal, state and local law including, but not limited to, suspension and/or revocation of access to the DCS. In addition to the District's general requirements governing student behavior, specific activities shall be prohibited by student users of the DCS including, but not limited to, the following:

- 1) Using the DCS to obtain, view, download, send, print, display or otherwise gain access to or to transmit materials that are unlawful, obscene, pornographic or abusive.
- 2) Use of obscene or vulgar language.
- 3) Harassing, insulting, bullying, threatening or attacking others.
- 4) Damaging, disabling or otherwise interfering with the operation of computers, computer systems, software or related equipment through physical action or by electronic means.
- 5) Using unauthorized software on the DCS.
- 6) Changing, copying, renaming, deleting, reading or otherwise accessing files or software not created by the student without express permission from the computer coordinator.
- 7) Violating copyright law, including the illegal file sharing of music, videos and software.
- 8) Employing the DCS for non-educational, commercial purposes, product advertisement or political lobbying.

- 9) Disclosing an individual password to others or using others' passwords.
- 10) Transmitting material, information or software in violation of any District policy or regulation, the District Code of Conduct, and/or federal, state and local law or regulation.
- 10) Revealing personal information about oneself or of other students including, but not limited to, disclosure of home address and/or telephone number.
- 11) Accessing personal, interactive sites (social media sites, such as Facebook) unless under the direct supervision of a staff member.
- 12) Creating or using a website or blog which may cause a substantial disruption in the school environment or interfere with the rights of others.
- 13) Using a digital device (such as cell or camera phones), electronic technology and/or media to facilitate cheating, plagiarism, etc.

Network accounts are to be used only by the authorized owner of the account. Any user of the DCS that accesses another network or computer resources shall be subject to that networks acceptable use policy.

If a student or a student's parent/guardian has a District network account, a non-district network account, or any other account or program which will enable direct or indirect access to a District computer, any access to the DCS in violation of District policy and/or regulation may result in student discipline. Indirect access to a District computer shall mean using a non-district computer in a manner which results in the user gaining access to a District computer, including access to any and all information, records or other material contained or stored in a District computer.

Sanctions

- 1) Violations may result in suspension and/or revocation of student access to the DCS as determined in accordance with appropriate due process procedures.
- 2) Additional disciplinary action may be determined at the building level in accordance with existing practices and procedures regarding inappropriate language or behavior, as well as federal, state and local law.
- 3) When applicable, law enforcement agencies may be involved.
