

Professional Development

The Inter-Lakes School Board and professional staff understand the value of professional development in improving student learning and achievement. The Inter-Lakes School Board recognizes the importance of professional development and supports the staff in their efforts to further their professional growth through professional development strategies.

The priorities that guide the district's support of professional development are:

1. Improvement in student achievement
2. Staff needs, as determined by the administration, relative to improving student achievement
3. The recertification requirements of the staff
4. **Furthering district initiatives as outlined by the district's strategic plan**
