WILLIAM PROCK

SOCIAL STUDIES

BIOGRAPHY

Hello. I am Mr. Prock, one of the Social Studies Teachers with Rising Scholars Academy. I am so excited to start this school year with our amazing students! I have been a Texas educator since 2012, having taught as an adjunct college professor as well as a middle and high school teacher. Although I was born in the Houston area, I have been a resident of the Rio Grande Valley for most of my life. After graduating from St. Joseph Academy in Brownsville, Texas, I attended the University of Texas at Austin. Upon graduation, I received my Bachelor of Arts Degree in Government. I then attended the University of Texas at San Antonio and upon graduation, received my Master's of Science Degree in Criminal Justice. As an educator, my career objective each academic school year is to ensure the quality education of every child that I have the pleasure to teach. I believe all children can learn at any age or in any group when they have a teacher who cares and is willing to put in the work. My mission is to teach all students to believe in themselves and to help each and every student reach their academic potential while in a positive and safe learning environment.

Go Rockets!
