Components of LNSU Administrator Supervision and Evaluation System

Part I SELF ASSESSMENT

The administrator self-assessment process is used as an opportunity for the administrator to reflect on individual strengths, needs, and areas for professional growth. The self-assessment survey provides baseline information to identify potential areas of focus and improvement. In addition to the self-assessment results, past evaluations, climate surveys, and the school's continuous improvement plan could be used as data to set goals for ongoing administrator growth and development. Your self assessment should have evidence to support your rating.

Self Assessment due by September 15

Part II PROFESSIONAL / PERSONAL GOAL SETTING

Administrators will set three (3) professional goals. The superintendent, or supervisor if it is not the superintendent, will select one additional goal for each administrator. Administrators have the option to select one personal/wellness goal which is in addition to the professional goals. Professional goals are designed to build from previous evaluations, reflections, conversations, administrator self assessments, climate surveys, and school continuous improvement plans to set priorities and professional learning goals for the school year. Goals should be written as SMART goals and should be geared towards improving student learning through organizational instructional leadership, designing and sustaining effective systems of supports for all learners, and community engagement.

Goals due by September 30

Part III EVIDENCE COLLECTION

Throughout the year, the administrator and superintendent will review evidence of goal attainment through direct observation of the administrator conducting meetings or professional development, and through the review of artifacts such as meeting agendas, school CIP, data meetings, or other sources. In addition, teacher evaluation documents and walk-through forms will be regularly reviewed and discussed.

Part IV CLIMATE SURVEYS

School Climate surveys will be disseminated in October and in April to all staff and students and the results will be shared with students and their families. These provide information for additional analysis. Climate surveys are used for reflection only and are therefore not evaluative in and of themselves.

Part V ADMINISTRATOR MEETINGS

Administrators and the superintendent will meet on a schedule determined by both parties throughout the school year to discuss progress towards goal attainment. The director of curriculum and instruction and the director of students services will also work in collaboration with the administrator to support the work of the principal's professional goals. The directors will serve in a supportive capacity and do not play a role in the formal evaluation process. The purpose of these meetings is to promote the success of the administrator and the success of LNSU students and teachers.

Part VI SCHOOL GOALS ON CONTINUOUS IMPROVEMENT PLAN

The principal leads the school team in developing/revising the school's Continuous Improvement Plan goals. The principal and school leadership team use the supervisory union's Continuous Improvement Plan as a tool to align/develop school goals. The school goals can also include additional non-supervisory union aligned goals.

CIP Goals due by April 15

Part VII ADMINISTRATOR END-OF-THE-YEAR REFLECTION

Administrators will reflect on the progress they have made towards meeting their professional and personal goals; identify areas of success and progress and areas that need continued efforts to improve. Additionally, administrators will reflect upon the results of their climate surveys and identify any supports that might help them to continue to learn and grow as an administrator.

Reflections due by June 30

Part VIII SUMMATIVE EVALUATION

A summative evaluation meeting between the superintendent and the administrator will occur before June 30th. The purpose of this meeting is to review administrator goals, evidence, survey results, and a reflective summary of the administrator’s accomplishments. Following this meeting, a written summary will be developed by the superintendent and shared with the administrator prior to placement in the employee’s permanent file.

Summative Evaluations completed by the end of the summer

Part IX RESOURCES

LNSU administrators are provided resources and professional development to promote their success as school leaders. All new administrators will have a mentor for at least two (2) years. Any administrator can request additional support in the form of coaching or other forms of professional development as needed.

SMART Goal Template (Reference)

A SMART Goal meets the criteria of the terms of the acronym SMART: Specific, Measurable, Attainable, and Relevant.

Acronym	Description	Developing SMART Goals
S	Specific	Goals are clear, detailed and unambiguous. A specific goal will usually answer the five “W” questions: <ul style="list-style-type: none"> ● What: What do I want to accomplish? ● Why: Specific reasons, purposes or benefits of accomplishing the goal. ● Who: Who is involved? ● Where: Identify a location. ● Which: Identify requirements and constraints.
M	Measurable	This term stresses the need for concrete criteria for measuring progress toward the attainment of the goal. If a goal is not measurable, it is not possible to know whether progress toward successful completion is being made.

		<p>A measurable goal will usually answer questions such as:</p> <ul style="list-style-type: none"> • How much? • How many? • How will I know when it is accomplished?
A	Attainable	<p>This term stresses the importance of goals that are realistic and attainable. While an attainable goal may stretch the goal setter in order to achieve it, the goal is not extreme. An attainable goal may cause goal setters to identify previously overlooked opportunities to bring themselves closer to the achievement of their goals.</p> <p>An attainable goal will usually answer the question:</p> <ul style="list-style-type: none"> • How: How can the goal be accomplished?
R	Relevant	<p>A relevant goal must represent an objective that the goal setter is willing and able to work towards.</p> <p>A relevant goal will usually answer the question:</p> <ul style="list-style-type: none"> • Does this seem worthwhile?
T	Time-Bound	<p>The fifth term stresses the importance of giving goals a target date. A commitment to a deadline helps focus efforts on completion of the goal on or before the due date. Timeliness is intended to prevent goals from being overtaken by the day-to-day crises that invariably arise in an organization.</p> <p>A timely goal will usually answer the question:</p> <ul style="list-style-type: none"> • When? • What can I do 6 months from now? • What can I do 6 weeks from now? • What can I do today?

Writing SMART Goals - Template

The following template will help in the writing of a SMART Goal:

(I or accountable party) will (action word/s) (object of the goal) by (time) for the purpose of (relevance/results).

Examples of a SMART Goal Using the Template Format

I will complete 100 minutes of Teachpoint walk-through observations on all probationary teachers by January 15, 2021, and another 100 minutes of Teachpoint walk-through observations by April 1, 2021, in order to provide formative feedback to staff and provide data for the two formal evaluations all new teachers are required to receive in their first two years of employment.

I will conduct three parent forums related to Goal ____ from our CIP to improve understanding and support for our work on or before March 1, 2021. I will solicit feedback from parents in reference to these sessions both in advance and again after each session to ensure communication is effective.

END-OF-THE-YEAR ADMINISTRATOR REFLECTION FORM
