

This assignment is intended to give AP Chemistry students an introduction to a few of the skills that are needed in the course. The assignment is very brief and should not take more than a few hours. The assignment consists of a few short Khan Academy lessons on the following topics: *atomic structure, isotopes and ions, the Bohr model and atomic structure.*

*Assignment Due Date: August 26th, 2024 at 11:59 pm*

You will need to join my AP Chem 24-25 Khan Academy class to access the assignment. Follow these steps to sign up for the Khan Academy class:

**(I recommend signing up for the Khan Academy class before your leave for the summer)**

1. Go to [khanacademy.org/join](https://khanacademy.org/join)
2. Enter class code N2TKAM7K and press "Add".
3. If you don't already have an account, press "Create a new account". Enter your date of birth, then sign up using Google (use your school account).
4. Enter your grade and course. Now you're ready to complete the assigned sections.

Having trouble? Have questions?

Email me at [darmor@gasd-pa.org](mailto:darmor@gasd-pa.org)

Have a great summer! I am looking forward to seeing you in the fall,

*Mr. Armor*
