

# Parent Quickstart Guide for CHISD Technology

## STUDENT LOGINS

**Chromebook/Google login** (Used for Email, Google Drive, Schoology)

- Username - firstnamelastname@chisd.net
- Password - 8-digit birthday (mmddyear) - use 0 for single-digit months and days.

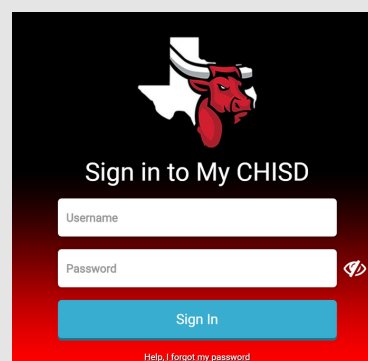

**Network login:** (Used for My CHISD)

- Username - 5-digit Student ID number (You can find this in Skyward)
- Password - 8-digit birthday (mmddyear) - use 0 for single-digit months and days.

## MY CHISD ([MY.CHISD.NET](http://MY.CHISD.NET))

To log in, students will use their network login

My CHISD is a Single-Sign On Solution for our district. Once logged in, students should be able to access most district resources including Schoology, G Suite, and District Textbooks.

Sometimes on platforms like Schoology and Google Drive, an extra layer of security will require your student to log in again, even though they have logged in through My CHISD. If you are prompted to enter a username and password for Schoology or Google Drive - it is the student's full email address and their CHISD password. (See "Student Logins" section above).

## SCHOOLY (LMS)

To log in, students will use their network login to log in to My CHISD. They will select the Schoology icon. Students will then need to login with their Google (email) login to get into Schoology.

Scholars will use Schoology to access and complete assignments, meeting links, and more. Scholars are expected to be engaged daily in their Schoology Courses.
