4. Check the box next to your child or children's name/s for each program you want to enroll them in. In this example, there is only one option: Champions Summer. Click continue. You may select multiple children at once on this screen if enrolling more than one child.

5. Select your desired recurring schedule for each child and click 'Continue'. This schedule will auto-populate for all weeks for the duration of your student's enrollment. If your schedule will vary per week, you may set a blank recurring schedule and then use the custom schedule to add care as needed. Please keep in mind, a spot is not held for your student unless they are on the schedule. If there is a waitlist, you will see a gray box on the day before selecting it. Click the box to be added to the waitlist (it will turn yellow).

Ensure your start date is correct. There is a 48 business hour hold period on allowed start date, translating to 3 days out from the time of enrollment. Example: If enrolling Monday, earliest allowed start is Thursday.
