

Voluntary Pre-Kindergarten

Voluntary Prekindergarten/Early Learning Initiative is a program available to children who are 4 years old on or before September 1 of the current school year. This program teaches children the skills they need for a successful transition into kindergarten. This specialized program is offered at no cost to parents for three hours of VPK instruction. A full school day program is available for an additional cost to parents if they choose to attend.

Volusia County Schools VPK teachers have one primary goal when planning and preparing our students: kindergarten readiness. Kindergarten readiness is a journey and transition into formal academic instruction. Many skills and capabilities are needed for this transition to be successful. Kindergarten readiness does not mean already knowing kindergarten skills but rather having a foundation of knowledge and exposure that helps students better prepare for their kindergarten experience.

During this program, the students will be taught the Florida Early Learning and Developmental Standards: Physical Development, Approaches to Learning, Social and Emotional Development, Language and Literacy, Mathematical Thinking, Scientific Inquiry, Social Studies, Creative Expression Through the Arts.

Extended Day Enrichment (EDEP) Programs

Extended Day Enrichment Program (EDEP) provides structured academic enrichment for school-age children in grades K-8. Every child and youth should have a safe and supportive environment while engaging in activities that support academic achievement and promote social, emotional and physical development before and after the regular school day.

VOLUSIA EDEP
