Dear Parents and Guardians,

As we continue to integrate technology into our classrooms, making sure that each student has access to the tools they need to succeed is a priority. Many of our students rely on district-owned devices, such as iPads and Chromebooks, for their daily learning and assignments. With this in mind, we understand that accidents can happen and unexpected repairs can be costly.

To help protect your investment in your child's education, we are pleased to offer an optional Device Insurance Program for the 2024-2025 school year. For an annual fee of just \$20, this program will cover up to two repairs for accidental damage to your child's district-owned device throughout the academic year.

This program provides peace of mind, knowing that in the event of accidental damage, you won't have to worry about the financial burden of repairs. Whether it's a cracked screen, a broken keyboard, or another common issue, this insurance will help minimize disruptions to your child's learning experience.

We encourage all parents and guardians to consider enrolling in this program as a proactive way to safeguard your child's essential learning tools. The enrollment process is simple and the cost is minimal compared to potential repair fees.

For more details on how to enroll, or if you have any questions, please see the attached flyer.

Thank you for your continued partnership in supporting your child's education. Together, we can ensure that our students have the resources they need to thrive in today's digital learning environment.

Best regards,

Dr. Jason A. Boone
Superintendent
Southmoreland School District
