From the Woodpecker that lives in our very county to the Macaw found in South America. These critters have a wide spectrum of color, shapes, sizes and habitats giving the students a surplus of room for creativity.</p>	<p><u>Abstract Parts (3-5):</u> Students will delve deep into complex imaginative artwork by creating abstract art through various parts and pieces that they are given. Creativity has no bounds!</p>
<p><u>Academic Enrichment (K-5):</u> Students will be given the space to complete individual homework with support from staff. Should a student not have homework, they can participate in enriching games such as trivia, mancala, chess, checkers, etc.</p>	<p><u>Academic Enrichment (K-5):</u> Students will be given the space to complete individual homework with support from staff.
