About Litzinger School

Litzinger School, established in 1962, is one of the public, separate, special education schools in the Special School District of St. Louis County. We serve a diverse population of students in grades K-8 from the Central corridor of the county. In doing so, we provide significant supports to meet students' unique needs as outlined in the Individualized Education Plan (IEP).

Litzinger Pride is the school-wide program used to promote recognition of students demonstrating appropriate social skills relating to the school rules: Be Safe, Be Kind, Be Peaceful, and Be Cooperative. Teachers implement regular social skills instruction to promote student learning. Students earn paw prints and have the opportunity to participate in activities and win prizes.

The Litzinger School staff are a dedicated group of individuals. Most teachers hold a Master's Degree or higher. The Para-educators serving the Litzinger School community come from an array of backgrounds including teaching, nursing, business and special education. Additionally, Litzinger students are supported by a variety of related service providers including registered nurses, occupational therapists, physical therapists, music therapists, social workers, speech and language pathologists and a whole host of itinerant service providers in areas of vision, communication, hearing and mobility. School staff are regularly recognized for their exemplary service.

The Litzinger School community prides itself on the accomplishments of the students it serves. It is through the celebration of each individual student's self-determination in meeting their personal goals that our mission to "*enable them to contribute to the community in positive ways*" is achieved. Take a moment to review this student/family handbook for more information about Litzinger School.

The building at 10094 Litzinger Road is just that; a building. It becomes a school only when families, staff, and students enter and create a positive, safe environment where learning takes place. That's Litzinger School.

Family Support

Our students are most successful when school and home work together to create an environment where learning can take place. You can support your child's education by adhering to the following:

IEP Participation

- It's important to share ideas and concerns about your child's education as we partner in your student's success.

Arrival and Dismissal

Universal Lunch and School Breakfast Program

Litzinger School is participating in a Universal Lunch and School Breakfast Program for the current school year. If your child attends Litzinger School, breakfast and lunch will be available to them at no charge. All students enrolled at this school may participate in the breakfast and lunch program at no charge to them.

Studies have shown that children who are not hungry perform better in school. By providing lunch to all children at no charge, we are hoping to create a better learning environment for our students.

The school breakfasts and lunches that we serve follow U.S. Department of Agriculture guidelines for healthy school meals. The School Breakfast and Lunch Programs cannot succeed without your support; please encourage your children to participate in the school meal programs.

- Meals will be served to all students at no charge regardless of the eligibility status.
- If you have any questions about the program please feel free to contact us at (314) 989-8800.

Positive Behavioral Interventions and Supports, Character Education, & Restorative Practices

We believe all behavior is a form of communication. We are proactive in behavior intervention through the use of PBIS, Restorative Practices, Character Education, social skills instruction, and brain-based neuroscience.

School Rules

Be Safe

Be Kind

Be Peaceful

Be Cooperative

PBIS

Litzsinger Pride is the name of Litzsinger's school-wide positive behavior support program. The goal of Litzsinger Pride is to promote the school rules: Be Safe. Be Kind. Be Peaceful. Be Cooperative. Through direct instruction, teachers teach students pro-social skills in the classroom, in the community, and in all other areas of the school environment. Students are reinforced for demonstrating the school rules with "paw prints". Students then get to participate in school-wide and classroom activities to reinforce social skill development.

Litzsinger Pride activities are a favorite for the staff, students and administration at Litzsinger School. Students who earn a paw print are recognized weekly. The students who earn paw prints participate in:

- Arts and Crafts
- Ice Cream Socials
- Dances
- Carnival Activities
- Popcorn, Snow Cone and Cotton Candy gatherings
- All School Assemblies
- School Store

All members of the school community participate in the teaching of prosocial skills at and around Litzsinger School including paraeducators, secretaries, food service workers, custodians and bus drivers. You can help too! Talk to your child about the school rules. Ask your child to tell you about the school rules using words, gestures, pictures or communication devices! Reinforce the school rules in the home and during family activities to promote generalization of learning for your child. Remember...*Together Everyone Achieves More!*

Character Education

Character education is the intentional effort to develop good character in young people. "When we think about the kind of character we want for our children, it's clear that we want them to be able to judge what is right, care deeply about what is right, and to do what they believe is right."

--Thomas Lickona, *Educating for Character*

Core Ethical Values and Performance Values

These two aspects of character are mutually supportive. The core ethical values enable us to treat each other with fairness, respect, and care, and ensure that we pursue our performance goals in ethical rather than unethical ways. The performance values, in turn, enable us to act on our ethical values and make a positive difference in the world. We take initiative to right a wrong or be of service to others; we persevere to overcome problems and mend relationships; we work selflessly on behalf of others or for a noble cause, often without recognition or reward. In all realms of life, good intentions aren't enough; being our best requires work.

These school-based strategies do not replace the important contribution that parenting practices make to performance character development; nor do they reduce the need for schools to reach out to families as partners in encouraging their children's effort and learning. But these practices, especially taken together, can help to shape a school and peer-group culture that maximizes the motivation to learn and achieve, even in students who might not bring such dispositions to the classroom.

At Litzinger we will focus on a different character trait each month. Staff will use lesson plans that combine Character Education and PBIS best practices.

Restorative Practices

Restorative practices is the science of relationships and community. It is a social science that studies how to improve and repair relationships between people and communities. The purpose is to build healthy communities, increase social capital, decrease antisocial behavior, repair harm and restore relationships. Classrooms participate in daily Community Circles with the purpose of building community throughout the school. Restorative practices is how we build, maintain, and sustain healthy relationships through community building and repairing harm based on the needs of those involved.

School and Classroom Observations

Observations by Stakeholders Other than Parents

Planned Outcome: Stakeholders will gain information about special education schools in a way that maintains the integrity and continuity of instruction and programs.

Rationale: SSD Board Policy IGBC states the Board's belief that the education of each student is a responsibility shared by the school as well as the family. One element of parent involvement the policy lists is regular, two-way, meaningful communication between home and school, including personal visits. Policy KK states that parents and patrons are welcome to visit district schools: visitors must check in at the school office, obtain and wear a visitor badge, and refrain from disturbing classes, hindering the instructional process, or using the school as a site for visiting students.

The following rules and flow charts outline the process for stakeholders visiting and observing schools.

Guidelines:

1. Each observation will last no more than 60 minutes or one class period, whichever is less.
2. Observations will take place only after approval by the school administrator.
3. Any individual wishing to observe a school or classrooms will inform the school administrator of the purpose of the observation prior to starting the observation.

4. The staff member arranging the observation may show discretion about the areas to be observed. Reasons for omitting an area include ensuring the integrity and continuity of instruction, minimizing disruptions to students, ensuring the confidentiality of a student, or safety.
5. The school administrator has the right to identify classrooms, students, activities, and areas of the school to be observed.
6. All observations will be scheduled at least 48 hours in advance. The school administrator may waive this requirement.
7. The staff being observed will be selected by the school administrator in advance.
8. The school principal or designee will observe at the same time as a parent's representative. Students performing the observation to complete coursework will discuss this with the school administrator prior to starting the observation.
10. Stakeholders taking tours or completing observations will refrain from initiating interactions with students.
12. The frequency of tours or observations by an individual will be determined with the school administrator in advance. The principal has final discretion about the number of observations or tours.
13. All stakeholders will complete an observation agreement prior to the observation and provide it to the school administrator prior to the observation.
14. All stakeholders touring or observing will follow SSD Board policies.
15. Any of the above guidelines may be waived by the school administrator. The school principal will maintain a written record of the date of each observation, the role(s) of observer(s), the number of observers, the classrooms or school area(s) observed, and pluses/deltas for each observation. The region leadership team will review these data to evaluate the efficiency of guidelines and the extent to which they facilitate achieving the planned outcome.

Guidelines:

1. Each observation will last no more than 60 minutes or one class period, whichever is less.

2. All tours and observations will take place only after approval by the school principal.
3. Parents of a student attending a partner district school who wish to visit a school must contact the Area Coordinator for their child's partner district school to arrange the tour. **The student's area coordinator will obtain permission from the parent to share information with the school principal.** The school principal and the student's Area Coordinator will **then** communicate about the student and the purpose of the facility tour prior to scheduling.
4. The staff member arranging the observation may exercise discretion about what school areas to show. Reasons for omitting an area include ensuring the integrity and continuity of instruction, minimizing disruptions to students, ensuring the confidentiality of a student, or safety.
5. The school administrator has the right to identify classrooms, students, activities, and areas of the school to be observed.
6. All observations will be scheduled at least 48 hours in advance. The school administrator may waive this requirement.
7. The staff being observed will be selected by the school administrator in advance, based upon the parents' stated purpose of the observation.
8. The school principal or designee will observe at the same time as the parent.
9. If the parent's child lives in an attendance area other than the one for the school at which the parent wishes to observe, the student's Area Coordinator must accompany the parent for the tour or observation. When the parent initially contacts the Area Coordinator about observing, the Area Coordinator should refer the parent to the school in the student's attendance area and the parent must observe that school first.
10. Stakeholders taking tours or completing observations will refrain from initiating interactions with students or staff.
12. The frequency of tours or observations by an individual will be determined with the principal in advance. An individual may observe one time per academic quarter. Variation from this is to be requested of the principal. The principal has final discretion about the number of observations or tours.
13. All parents will complete an observation agreement prior to the observation and provide it to the school administrator prior to the observation or tour.
14. All parents observing will follow SSD Board policies.
15. Any of the above guidelines may be waived by the school administrator.

Educating Missouri's Homeless Children

The McKinney-Vento Act, part of the Every Student Succeeds Act of 2015, guarantees homeless children and youth an education equal to what they would receive if not homeless.

Who is Homeless?

According to the McKinney-Vento Act, homeless children and youth include individuals who lack a fixed, regular, and adequate nighttime residence. This includes the following situations:

- Sharing the housing of others (known as doubling-up) due to loss of housing or economic hardship • Living in motels, hotels, trailer parks, or camping grounds
- Living in emergency or transitional shelters
- Abandoned in hospitals
- Living in a nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation
- Living in cars, parks, abandoned buildings, substandard housing, bus or train stations, or similar settings

The McKinney-Vento Act also recognizes unaccompanied youth who are homeless. According to the act, an unaccompanied youth is a youth not in the physical custody of a parent or legal guardian.

Which School Can a Homeless Child Attend?

There are two choices for a student in a homeless situation – the school of origin and the school of residency. The school of origin is the school the child attended when permanently housed or the school in which the child was last enrolled. The school of residency is the school serving the area where the child or youth is currently physically dwelling. When determining the school of best interest, a homeless child or youth should remain in the school of origin (to the extent feasible) unless doing so is contrary to the wishes of the parent or guardian or to the wishes of the unaccompanied youth.

Enrollment

The McKinney-Vento Act requires the immediate enrollment of homeless children and youth. These children must be allowed to attend school even if they are unable to produce previous academic records, immunization and medical records, proof of residency, birth certificates or other documentation that is usually required.

Transportation

School districts must provide transportation for homeless children and youth to the school of best interest. Districts must also provide transportation during the resolution of any pending disputes. While disputes over enrollment, school placement or transportation arrangements are being resolved, students must be transported to the school of choice of the parent or the unaccompanied youth.

The Homeless Coordinator

A school district's homeless coordinator plays a vital role in ensuring that children and youth experiencing homelessness enroll and succeed in school. The McKinney-Vento Act requires that every school district appoint a homeless coordinator who serves as the link between homeless families and school staff, district personnel, shelter workers and social-service providers. ***Special School District's homeless liaison is Esthere Scott who can be reached at 314-989-8542 or 314-239-1586 (cell-after 3:30 p.m.). Student Code of Conduct

DRUGS/ALCOHOL DISCIPLINE

Discipline relating to a student or students possessing drugs or alcohol on school grounds or at a school-sponsored event

Drugs and alcohol includes, but is not limited to unauthorized prescription drugs, alcoholic beverages, narcotic substances, unauthorized inhalants, illegal drugs, counterfeit, and controlled substances, imitation controlled substances, or drug or alcohol related paraphernalia (pipe, rolling papers, etc.).

First Offense: A student who is found to be in possession of, or under the influence of, alcohol or drugs on school grounds, at a school-sponsored activity or on any school property will receive an up to five (5) days suspension from school. This suspension may be an out-of-school suspension or a combination of out-of-school and in-school suspension. The number of days may be reduced, at the discretion of the building administrator, in the following manner:

The family would voluntarily agree to have the student go through a drug/alcohol assessment through the National Council on Alcohol and Drug Abuse (NCADA) or an agency mutually agreed upon by the family and the principal. This assessment could be used to reduce suspension days for the first-time offense.

Second Offense: A student who is found to be in possession of or under the influence of either alcohol or drugs on school grounds, at a school-sponsored activity or on any school property will receive a minimum of ten (10) days of suspension. This suspension may be an out-of-school suspension or a combination of out-of-school and in-school suspension at the discretion of the principal. The family will be encouraged to have the student go through drug/alcohol assessment through the National Council on Alcohol and Drug Abuse (NCADA) or an agency mutually agreed upon by the family and the principal. At the discretion of the principal and following the drug/alcohol assessment, the ten (10) day suspension may be reduced; the number of days will be determined by the principal.

Prior to the student's re-entry into school, a meeting with the principal, student and his/her parents/guardians will be held. The principal will determine what representatives from the District will participate in this re-entry meeting.

Third Offense: A student who is found to be in possession of or under the influence of either alcohol or drugs on school grounds, at a school-sponsored activity or on any school property will receive ten (10) days of suspension and a recommendation for further action/consequences to be determined by the superintendent.

For all offenses:

- Police will be informed of all offenses (first, second and third).
- At administrator discretion a safety check will be conducted to ensure the student does

not continue to bring contraband substances. This may include a search of belongings, person or vehicle.

- At administrator discretion the student may also receive a loss or adjustment of privileges based upon reasonable safety concerns.

Discipline related to students selling drugs/alcohol on school grounds or a school-sponsored event

If an Administrator has a reasonable suspicion that a student is selling and/or distributing either drugs or alcohol on school grounds, at a school-sponsored activity or on any school property will receive ten (10) day out of school suspension and a recommendation for further actions/consequences to be determined by the superintendent. The police will be informed when it occurs.

TOBACCO USE

All Special School District Schools are smoke free. The use and/or possession of tobacco and/or smokeless tobacco products will not be permitted in school buildings, on school premises, or at school sponsored activities. These products will be confiscated. Any violation of this policy resulting in disruption of the educational environment will result in more significant consequences.

A student who violates the District's tobacco use policy will be dealt with on an individual basis by the principal. The principal is empowered to impose or recommend the following, but not limited to:

- conference with the family or parent;
- seizing the tobacco product;
- removal of the student from extracurricular activities;
- recommendation of enrollment in smoking cessation programs;
- assignment to in-school suspension

Referral for Therapy

Special School District seeks to be supportive of students who are using tobacco and wish to quit. Students who would like assistance are invited to see their counselor or the principal.

WEAPON(S) POSSESSION AND/OR USE

Per Board Policy JFCJ, a student shall not possess, handle, use, or transmit a razor, knife, ice pick, gun (firearm), pellet-type gun, ammunition, brass knuckles, imitation gun, imitation weapon, mace, taser, tear gas container, pepper spray, stun guns, or other weapon. A weapon is defined as any object used or displayed, or which could be used or displayed with the intent to harm or intimidate persons or damage property. Students who unintentionally bring an object that could be considered a weapon should report this immediately to an administrator.

When a legitimate item (such as a scissors or other classroom items) is used or displayed as a potential weapon against another person or property, the weapon policy will be enforced.

First Offense and All Other Offenses (any time during a student's enrollment): Up to 10 days out-of-school suspension and/or recommendation to the Superintendent for a hearing to determine

additional days of suspension up to 180 days and/or recommendation to the Board of Education for expulsion. Police may be contacted when a weapon is used or attempted to be used.

Firearms

A student possessing a firearm in a school building, on school property, or at a school function will be permanently expelled from the school district, or suspended for a minimum of one school year, unless the Superintendent or the Board determines, in the exercise of the Superintendent's or Board's discretion, that such a permanent expulsion or one-year suspension is not appropriate in the particular case. For the purposes of this paragraph, a firearm shall be defined as any weapon which can expel a projectile by the action of an explosive (§571.010.2.RSMo.).

DRESS CODE ADDITIONAL CRITERIA

1. Students are not permitted to wear any head coverings inside the school building including but not limited to hats, skull caps, bandanas, do-rags, bonnets, scarves, wave caps, shower caps, hoods, ski masks, non-medical face masks, etc. except for religious reasons, documented medical reasons, or instructional purposes.
2. In the technical high schools all students are expected to attend every day in professional dress appropriate for their program.

CYBERBULLYING/BULLYING

The District policy JFCF-R prohibits cyberbullying that does not involve District property, activities or technology resources. This includes but is not limited to in person communication as well as digital methods such as text chains, group chats, social media posts/messages, phone calls, etc. The District will impose consequences and discipline for those who engage in cyberbullying if:

- a. there is a sufficient nexus to the educational environment,
- b. the behavior materially and substantially disrupts the educational environment,
- c. the communication involves a threat as defined by law, or
- d. the District is otherwise allowed by law to address the behavior.

Discipline Referral Process

At Litzsinger, we firmly believe that discipline serves as a means to support the growth and development of our students while ensuring a safe and enriching learning environment for all. Our intention is never to impose punishment for its own sake, but rather to equip young individuals with the necessary tools for both academic success and personal growth. We take the time to understand the unique needs of each student and approach their challenges with patience and appropriate support, aiming to enable every student to thrive.

Our ultimate aspiration is to inspire self-discipline in every student, fostering a lifelong trait that will benefit them beyond their academic years. We strive to approach student behavior without bias, acknowledging that it often arises from underlying issues or events in their lives, be it related to their homes, families, peers, social media, or the community. Our approach to discipline revolves around

fostering growth rather than imposing punitive measures. We consistently convey the message that all students have the capacity to make positive choices that lead to success.

Our discipline policy is designed with the ultimate goal of teaching students the skills necessary to monitor and correct their own behavior, thereby ensuring an engaged and productive learning environment. We understand that maintaining students' active participation in the learning process is crucial. As a staff, we are committed to administering discipline rules consistently, fairly, and equitably.

Creating positive relationships with our students is the foundation of effective classroom management. Teachers bear the responsibility of cultivating a classroom environment that is conducive to learning. Through the use of community building circles, we aim to foster a caring community that takes care of and supports one another. We firmly believe that classrooms characterized by strong, positive relationships between students and teachers foster engaging learning environments. We recognize that learning flourishes within a community where students collaborate with one another and develop the skills necessary to thrive in both society and the workforce. Consequently, any form of classroom disruption or actions that impede the educational process are not deemed acceptable.

In the case of a classroom disruption the following table outlines our discipline referral process:

Scenario	Response
Initial Problem	Classroom staff refers to BIP (if applicable) and redirects student to the expected behavior.
Continued Problem	Classroom staff implements a behavior management technique within or near the classroom, including but not limited to offering the student a break or strategy.
Problem is not resolved after first trying to solve the issue within or near the classroom.	Classroom staff may direct the student to the refocus room. *Note: If the initial problem includes a behavior that is dangerous or unsafe in nature, the use of the refocus room may be the first response.
Problem is not resolved, student escalates, or student refuses to utilize the refocus room.	Classroom staff may call for support and/or a room clear may be utilized. Once in refocus the student should process with an adult present at the time of the unexpected behavior. This time of reflection is meant to help the student plan for appropriate or expected behaviors in the future, as well as to make a plan to restore any harm that may have been caused. The goal is always for the student to regulate and return to class as soon as safety and resolution allows. Resolution may include a restorative conversation

	with all parties involved and may or may not include family members.
Problem is not resolved, the student escalates, and the student is engaging in behaviors that are dangerous or unsafe in nature.	Classroom or support staff can call for an administrator. Teacher will contact the family.
Problem is not resolved after administrative consultation.	Include more intensive, individualized interventions. Depending upon the severity, repeated nature of the behavior and/or safety concerns, this may include the student's short-term removal from class and/or school. Administrator will contact the family.
Note*: If the initial problem was a Safe School Violation the student should be immediately directed to the refocus room and an administrator should be called.	May include long-term administrative supported, out-of-school exclusionary and referral responses such as a long-term suspension or expulsion.

When making disciplinary decisions, our administrative team carefully considers a range of factors to ensure fairness and understanding. These factors include:

- Student's age and cognitive ability: We take into account the developmental stage and cognitive abilities of the student involved, recognizing that disciplinary measures should be age-appropriate and aligned with their understanding.
- Circumstances surrounding the incident: We thoroughly examine the specific details and context of the incident in question, understanding that each situation is unique and requires a comprehensive evaluation.
- Previous serious disciplinary infractions: We consider any prior instances of misconduct, taking into account the nature of the misconduct, the frequency of such behavior, and the progressive disciplinary actions that have been implemented in response.
- Imminent threat of serious harm: We prioritize the safety and well-being of all individuals within our school community. If there is a clear and immediate risk of serious harm, our response will be swift and focused on ensuring the safety of everyone involved.
- Other mitigating or aggravating circumstances: We recognize that certain circumstances, such as hate language, images, or symbols, have the potential to cause substantial disruption. While we prohibit their inclusion or display, we are committed to promoting responsible discussions surrounding these subjects for educational purposes.

By taking into account these factors, we strive to approach disciplinary decisions in a fair, understanding, and thoughtful manner that fosters a safe and supportive learning environment for all students. Creating a warm and inclusive school environment is a shared aspiration for everyone involved - students, families, staff, and the community at large. Through collaboration and mutual support, we can transform our school into a truly exceptional place of learning and growth.

Bell to Bell, NO CELL Policy

We understand that in this day and age, students may need a phone before or after school, however, there is no educational need for phones during the school day. Through the years student cell phone use at Litzsinger has lead to multiple safety concerns and even theft. We would appreciate your support in enforcing our **BELL TO BELL, NO CELL POLICY.**

Students are expected to turn their phones and other electronic devices into classroom staff at the beginning of each day (8:45am). They will be kept in a secure location within the classroom, and staff will return them to students at the end of each day (3:25pm).

The first time a student refuses to turn their phone in, it will be taken. The family will be notified, and their phone will be returned to them at the end of the day.

The second time a student refuses to turn their phone in, it will be taken. Their phone will be given to the administration. A family member will have to come to school to get the phone.

**PROHIBITION AGAINST ILLEGAL DISCRIMINATION, HARASSMENT, AND
RETALIATION**
Notice of Nondiscrimination

General Rule

The Special School District Board of Education is committed to maintaining a workplace and educational environment that is free from discrimination and harassment in admission or access to, or treatment or employment in, its programs, services, activities, and facilities. In accordance with law, the District strictly prohibits discrimination and harassment against employees, students, or others on the basis of race, color, religion, sex, sexual orientation, gender identity, gender expression, national origin, ancestry, disability, veteran status, age, genetic information, or any other characteristic protected by law in its programs, activities or in employment. Special School District is an equal opportunity employer.

The Board also prohibits retaliatory actions against those who report or participate in the investigation of prohibited discrimination or harassment. In addition, employees and applicants will not be retaliated against for opposing discriminatory practices, filing discrimination complaints, or participating in investigations of these complaints, including when responding to questions during investigations. Retaliatory actions of prohibited discrimination or harassment include, but are not limited to, acts of intimidation, threats, coercion, or discrimination against those who report, make complaints of, or participate in an investigation, formal proceeding, or informal resolution, whether conducted internally or outside the District.

The District also prohibits discrimination based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by the USDA.

As used in this policy, "discrimination, harassment, or retaliation" has the same meaning as "illegal discrimination, harassment, or retaliation" and is limited to acts prohibited by law. All employees, students, and visitors must immediately report to the District for investigation any incident or behavior that could constitute discrimination, harassment, or retaliation in accordance with this policy. If a student alleges sexual misconduct on the part of any District employee to any person employed by the District, that person will immediately report the allegation to the Children's Division (CD) of the Department of Social Services (DSS) in accordance with state law. In accordance with this policy and as allowed by law, the District will investigate and address discrimination, harassment, and retaliation that negatively impacts the school environment, including instances that occur off District property or are unrelated to the District's activities.

Sexual Harassment Reporting and District Response

Sexual harassment is prohibited under this policy and policy ACA, but policy ACA applies only to a narrower category of sexual harassment under Title IX, as defined in the federal regulations. All sexual harassment reports must be made to the Title IX coordinator identified in policy ACA and evaluated for policy ACA applicability. If a sexual harassment report is made to any other District employee, the report must be promptly referred to the Title IX coordinator for intake. Incidents of alleged sexual harassment that are not investigated under policy ACA may be referred for processing

under this policy.

Additional Prohibited Behavior

Behavior that is not unlawful or does not rise to the level of illegal discrimination, harassment, or retaliation might still be unacceptable for the workplace or the educational environment. The District encourages students, employees, and the public to report such behavior so that it can be promptly addressed, but the grievance process in this policy is reserved for allegations of illegal discrimination, harassment, and retaliation.

Student-on-Student Harassment

Administrators have the ability to immediately discipline a student for prohibited behavior in accordance with the District's discipline policy. Administrators will report all incidents of illegal discrimination, harassment, and retaliation to the Compliance Officer and will direct the parent/guardian and student to the Compliance Officer who may determine that the incident has been appropriately addressed or recommend additional action.

When a complaint is filed, the investigation and complaint process detailed in AC-R will be used.

Boy Scouts of America Equal Access Act

As required by law, the District will provide equal access to District facilities and related benefits and services and will not discriminate against any group officially affiliated with the Boy Scouts of America, the Girl Scouts of the United States of America, or any other youth group designated in applicable federal law.

School Nutrition Programs

In accordance with federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its agencies, offices, and employees, and institutions participating in or administering USDA programs (including the District), are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal, or retaliation for prior civil rights activity in any program or activity conducted or funded by the USDA. These programs include the National School Lunch Program, the Special Milk Program, the School Breakfast Program, and the Summer Food Service Program.

Any person or representative alleging discrimination based on a prohibited basis has the right to file a complaint within 180 days of the alleged discriminatory action with the USDA Office of the Assistant Secretary for Civil Rights or the district's compliance officer using the process outlined in policy EF.

Individuals with Disabilities

The District will identify, evaluate, and provide free, appropriate education to all students with disabilities, in accordance with law. Anyone who knows or believes that a child may have a disability

regardless of whether the child is currently enrolled in the Special School District - is encouraged to contact the District's compliance officer listed below.

Anyone who, because of a disability, requires an auxiliary aid or service for effective communication or requires a modification of policies or procedures to participate in a program, service, or activity should contact the District's compliance officer listed below as soon as possible, but no later than 48 hours before the scheduled event.

Consequences and Remedies

If the District determines that illegal discrimination, harassment, or retaliation has occurred, the District will take prompt, effective, and appropriate action to address the behavior, prevent its recurrence, and remedy its effects.

Employees who violate this policy will be disciplined, up to and including employment termination. Students who violate this policy will be disciplined, which may include suspension or expulsion. Patrons, contractors, visitors, or others who violate this policy may be prohibited from District property or otherwise restricted while on District property. The superintendent or designee will contact law enforcement or seek a court order to enforce this policy when necessary or when actions may constitute criminal behavior.

Students, employees, and others will not be disciplined for speech in circumstances where it is protected by law.

Public Notice

The superintendent or designee will continuously publicize the District's policy prohibiting illegal discrimination, harassment, and retaliation and disseminate information on how to report illegal discrimination, harassment, and retaliation.

Reporting

Unless the concern is otherwise voluntarily resolved, all persons must report incidents that might constitute discrimination, harassment, or retaliation directly to the compliance officer or acting compliance officer. If a student alleges sexual misconduct on the part of any District employee to any person employed by the District, that person will immediately report the allegation to the Children's Division in accordance with state law.

In accordance with law and District policy, any person suspected of abusing or neglecting a child will be reported immediately to the Children's Division.

Confidentiality and Records

To the extent permitted by law and in accordance with Board policy, the District will keep confidential the identity of the person filing a grievance and any grievance or other document that is generated or received pertaining to grievances. Information may be disclosed if necessary to further

the investigation, appeal, or resolution of a grievance, or if necessary to carry out interim or disciplinary measures. The District will disclose information to the District's attorney, law enforcement, the CD, and others when necessary to enforce this policy or when required by law. In implementing this policy, the District will comply with state and federal laws regarding the confidentiality of student and employee records. Information regarding any resulting employee or student disciplinary action will be maintained and released in the same manner as any other disciplinary record. The District will keep any documentation created in investigating the complaint including, but not limited to, documentation considered when making any conclusions, in accordance with the Missouri Secretary of State's retention manuals and as advised by the District's attorney

Investigation

The District will immediately investigate all complaints of unlawful discrimination, harassment, or retaliation pursuant to this policy. All persons are required to cooperate fully in the investigation.

Training

The District will provide training to employees on identifying and reporting acts that may constitute illegal discrimination, harassment, or retaliation.

The District will provide information to parents/guardians and students regarding this policy and will provide age-appropriate instruction to students.

PROHIBITION AGAINST ILLEGAL DISCRIMINATION, HARASSMENT, AND RETALIATION COMPLIANCE COMPLAINT PROCEDURE

Discrimination, harassment, or retaliation against employees, students, or others on the basis of race, color, religion, sex, national origin, sexual orientation or perceived sexual orientation, ancestry, disability, veteran status, age, genetic information, or any other characteristic protected by law is strictly prohibited in accordance with applicable law. Illegal retaliation is prohibited, as well. The following are the definitions of and procedures for reporting, investigation, and resolution of complaints of illegal discrimination, harassment, and retaliation.

Definitions

Complaint - Submission to the District compliance officer of a written allegation that there has been a violation of Policy AC. The complaint must include:

- Date of filing.
- Discrimination category at issue (e.g., sex, national origin, etc.).
- Names of persons involved, including possible witnesses.
- Facts alleged to have happened.
- A statement of why the facts constitutes a violation of Policy AC.
- A suggestion of the desired remedy.
- A description of any informal adjustment attempts or progress within the complainant's knowledge as of the date of the complaint. Exhibits may be attached.

Complainant - A person who, by the filing of a complaint under this procedure, claims to be the victim, or the parent or guardian of a student who claims the student was a victim of a violation of Policy AC.

Discrimination -

- Conferring benefits upon, refusing or denying benefits to, or providing differential treatment to a person or class of persons.
- In violation of law based on race, color, religion, sex, national origin, sexual orientation or perceived sexual orientation, ancestry, disability, veteran status, age, genetic information, or any other characteristic protected by law, or based on a belief that such a characteristic exists.

Harassment - A form of discrimination, as defined above, that occurs when the school or work environment becomes permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive enough that it unreasonably alters the employment or educational environment.

Behaviors that could constitute illegal harassment include, but are not limited to, the following acts if based on race, color, religion, sex, national origin, sexual orientation, ancestry, disability, veteran status, age, genetic information, or any other characteristic protected by law or based on a belief that such a characteristic exists:

- Graffiti.

- Jokes.
- Gestures.
- Threatening, intimidating, or hostile acts.

- The school or work environment becomes permeated with intimidation, ridicule, or insult that is based on sex or is sexual in nature and that is sufficiently severe or pervasive enough to alter the conditions of participation in the District's programs and activities or the conditions of employment.

Sexual harassment may occur between members of the same or opposite sex. The District presumes a student cannot consent to behavior of a sexual nature with an adult regardless of the circumstance. "Sexual Harassment under Title IX" is a subset of this definition, and the District's response to qualifying allegations as set forth in Policy ACA.

Behaviors that could constitute sexual harassment include, but are not limited to:

- Sexual advances and requests or pressure of any kind for sexual favors, activities, or contact.

- Gender-based harassment and acts of verbal, nonverbal, written, graphic, or physical conduct based on sex or sex-stereotyping, but not involving the conduct of a sexual nature.

All employees, students, and visitors must immediately report to the District any incident or behavior that could constitute illegal discrimination, harassment, or retaliation. If a student alleges sexual misconduct on the part of any District employee to any person employed by the District, that person will immediately report the allegation to the Children's Division (CD) of the Department of Social Services (DSS) in accordance with state law. In accordance with law and District policy, any person suspected of abusing or neglecting a child will be reported immediately to the Children's Division (CD) of the Department of Social Services, or the Missouri Department of Health and Senior Services (DHSS). In accordance with this policy and as allowed by law, the District will investigate and address illegal discrimination, harassment or and retaliation that occurs and whether it negatively impacts the school environment, including instances that occur off District property, are unrelated to the District's activities, or occur on social media. The District will investigate and address the behavior in accordance with this policy, as allowed by law.

Any person or representative alleging discrimination based on prohibitions from the U.S. Department of Agriculture (USDA) has the right to file a complaint within 180 days of the alleged discriminatory action with the USDA Office of the Assistant Secretary for Civil Rights or the District's compliance officer using the process outlined in Policy EF.

Interim Measures

When a report is made or the District otherwise learns of potential illegal discrimination, harassment, or retaliation, the District will take immediate action to protect the alleged victim, including implementing interim measures. For example, the District may alter a class seating arrangement, provide additional supervision for a student, or suspend an employee pending an investigation. The District will take immediate steps to prevent retaliation against the alleged victim, any person associated with the alleged victim, or any witnesses or participants in the investigation. These steps may include, but are not limited to, notifying students, employees, and others that they are protected from retaliation, ensuring that they know how to report future complaints, and initiating follow-up contact with the complainant to determine if any additional acts of illegal discrimination, harassment, or retaliation have occurred.

General Provisions

1. Students, employees, and others may attempt to resolve minor issues by addressing concerns directly to the person alleged to have violated this policy, but they are not expected or required to do so.
2. All persons must report incidents that might constitute discrimination, harassment, or retaliation directly to the compliance officer. All District employees will instruct all persons seeking to make a complaint to communicate directly with the compliance officer. Even if the potential suspected victim of illegal discrimination, harassment, or retaliation does not file a complaint, District employees are required to report to the compliance officer any observations, rumors, or other information regarding actions prohibited by the policy. If a verbal complaint is made, the person will be asked to submit a written complaint to the compliance officer. If a person refuses or is unable to submit a written complaint, the compliance officer will summarize the verbal complaint in writing. A complaint is not needed for the District to take action upon finding a violation of law, District policy, or District expectations. Even if a complaint is not directly filed, if the compliance officer otherwise learns about possible illegal discrimination, harassment, or retaliation, including violence, the District may conduct a prompt, impartial, adequate, reliable, and thorough investigation to determine whether unlawful conduct occurred and may implement appropriate interim measures, if necessary.
3. This complaint procedure exists to provide formal resolution of complaints that Policy AC has been violated. It does not prohibit the informal resolution of any complaint. In addition to keeping the superintendent informed of likely violations of Policy AC throughout the district, the compliance officer should also confidentially contact putative victims of likely violations of Policy AC to investigate, further explain Policy AC if necessary, and make sure the putative victim is aware of the complaint procedure. Actions involving employees or students implemented as remedial action for a violation of policy AC are not exempt from such constitutional due process requirements as apply case-by-case, to such an individual and/ or the nature of the action taken. However, this regulation is not meant to provide any additional substantive or procedural rights to employees or students who must be involved in remedial actions.
4. All documents, communications, and records pertaining to this complaint procedure will be kept separate from personnel records of employees.
5. The District will not be relieved of its responsibility to respond to a complaint filed under this complaint procedure by the fact that an outside enforcing agency has received a complaint arising from the same circumstances.
6. Students, employees and others will not be disciplined for speech in circumstances where it is protected by law.

7. To the extent permitted by law, the District may investigate complaints, even if an outside enforcing agency such as the Office for Civil Rights, law enforcement, or the CD is also investigating a complaint arising from the same circumstances.
8. The District will only share information regarding an individually identifiable student or employee with the person filing the complaint or other persons if allowed by law and in accordance with Board policy.
9. Upon receiving a complaint, the District may implement interim measures as described in this policy if necessary to prevent further potential illegal discrimination, harassment, or retaliation during the pending investigation.
10. The District will investigate all complaints. All persons are required to cooperate fully in the investigation. The compliance officer or other designated investigator may utilize an attorney or other professionals to conduct the investigation. In determining whether alleged conduct constitutes illegal discrimination, harassment, or retaliation, the District will consider the circumstances, the nature of the behavior, the relationships between the parties involved, past incidents, the context in which the alleged incidents occurred, and all other relevant information. Whether a particular action or incident constitutes a violation of this policy requires a determination based on the facts and circumstances.
11. If, after investigation, school officials determine that it is more likely than not that illegal discrimination, harassment, retaliation, or other prohibited behavior has occurred, the District will take immediate corrective action. The District will take prompt, effective, and appropriate action to address the behavior, prevent its recurrence and remedy its effects.
12. Employees who violate this policy will be disciplined, up to and including employment termination. Students who violate this policy will be disciplined, which may include suspension or expulsion. Patrons, contractors, visitors, or others who violate this policy may be prohibited from school grounds, District property, or otherwise restricted while on school grounds/District property. The superintendent or designee will contact law enforcement or seek a court order to enforce this policy when necessary or when actions may constitute criminal behavior.

Complaint Procedure

Level I - A complaint is to be filed with the compliance officer. The Human Resources Department (if an employee complaint), the compliance liaison director (if a student complaint), the safety and security director (if a visitor complaint), or their designee will handle the complaint. The human resources department, compliance officer, safety and security director, or a designee shall conduct an investigation, including interviews that are reasonably necessary, such as interviews of the complainant and witnesses identified by the complaint. The human resources department, compliance officer, safety and security director, or designee will:

- Gather the facts.
- Draw conclusions on whether they constitute a violation of Policy AC based on the appropriate, legal standards.
- If a violation of Policy AC is found, the human resources department, compliance officer, safety and security director, or designee will document in writing what remedial action will be implemented to address the illegal discrimination, harassment, or retaliation; prevent recurrence; and remedy its effects. The complainant will be notified in writing, of the completion of the investigation. Notification will be provided in accordance with law and District policy. The District's compliance officer or designee will determine whether the District policy was violated.

Level II - After receiving notification of the completion of Level I, the complainant may request review by the superintendent. The superintendent may refer the matter to a designee. The superintendent or designee will review the Level I materials, conduct further investigations if necessary, and seek counsel if necessary. The superintendent or designee will evaluate whether a violation of Policy AC exists and, if so, what remedial actions will be implemented. The complainant will be notified in writing of the completion of the investigation. The superintendent or designee will send a copy of the notification to the compliance officer. For District purposes, and without waiving the right to take any actions later deemed necessary, the completion of the superintendent's or designee's review and any actions taken are final.

Student-on-Student Harassment

Building-level administrators are in a unique position to identify and address illegal discrimination, harassment, and retaliation between students, particularly when behaviors are reported through the normal disciplinary process and not through a complaint. Administrators have the ability to immediately discipline a student for prohibited behavior in accordance with the District's discipline policy.

Administrators will report all incidents of illegal discrimination, harassment, and retaliation to the compliance officer and will direct the parent/guardian and student to the compliance officer who may determine that the incident has been appropriately addressed or recommend additional action. When a complaint is filed, the investigation and complaint process detailed above will be used.

Confidentiality and Records

Information may be disclosed if necessary to further the investigation, or resolution of a complaint, or if necessary to carry out disciplinary measures. The District will disclose information to the District's attorney, law enforcement, the CD, and others, when necessary to enforce this policy and in accordance with applicable law. In implementing this policy, the District will comply with state and federal laws. Information regarding any resulting employee or student disciplinary action will be maintained and released in the same manner as any other disciplinary record. The District will keep any documentation created in investigating the complaint including, but not limited to, documentation considered when making any conclusions, in accordance with the Missouri Secretary of State's retention manuals and applicable law.

Training

The District will instruct employees to make all complaints to the District's compliance officer or acting compliance officer and will provide current contact information for these persons. The District will inform employees of the consequences of violating this policy and the remedies the District may use to rectify policy violations. All employees will have access to the District's current policy, required notices, and complaint forms.

Public Notice

The superintendent or designee will continuously publicize the District's policy prohibiting illegal discrimination, harassment, and retaliation and disseminate information on how to report the same. A copy of this policy will be made available online to the public, employees, families, and students. The District

will provide information in alternative formats when necessary to accommodate persons with disabilities.

TECHNOLOGY USAGE
(Access to Blocked or Filtered Content)

This procedure allows employees acting on their own behalf or on the behalf of students to request that the district review or adjust the content filter to allow access to a website or specific Internet content. Any student requests for access to specific content must be made to their teacher who then submit a request on behalf of the student if they deem the request is necessary and appropriate.

Unblocking Content

District technology users who believe that a website or web content has been inappropriately blocked by the district's content filter must use the following process to request access to the blocked Internet content:

1. Users must submit a request, by e-mail or by submitting a ticket in the ticketing system, to the superintendent or designee for access. The request should include reasoning in support of the request.
2. Requests will be acted on within ten business days of the superintendent or designee receiving the request. The superintendent or designee will unblock access to the content unless there is an articulated and legal reason not to do so. The superintendent or designee may consult the district's attorney prior to making a decision. The user requesting access will be notified of the decision.
3. If access is denied, the user may request to be put on the agenda for the next board meeting to discuss the issue. The board has the discretion to grant or deny the agenda request. The requested material will remain blocked until the board makes a decision, if any.

Disabling Content Filters

The superintendent or designee may fully or partially disable the district's content filter to enable access for an employee who is authorized to use district internet resources to access content for bona fide research or other lawful purposes. Employee users must use the following process to request that a content filter be disabled:

1. Employee users must submit a request by e-mail or by submitting a ticket in the ticketing system to the superintendent or designee to have the content filter disabled. The request should include reasoning in support of the request.
2. Requests will be acted on within ten business days of the superintendent or designee receiving the request. The filter will be disabled only if the superintendent or designee

determines that it will serve a legitimate educational purpose or otherwise benefit the district. The adult user will be notified of the decision.

3. If the request is denied, the employee user may request to be put on the agenda for the next board meeting to discuss the issue. The board has the discretion to grant or deny the agenda_request. The requested material will remain blocked until the board makes a decision, if any.

Parent and Family Engagement in Instructional and Other Programs

The Board believes that the education of each student is a responsibility shared by the school and the family. Parents and families of all economic, racial and ethnic, cultural, and educational backgrounds can have positive effects on their children's learning. The Board recognizes families as essential partners in their child's academic, social, and emotional success.

The District objectives for Parent and Family Engagement are to have schools that:

- Build open, honest, and respectful relationships with our parents and families from cradle to career;
- Ensure a safe, open environment for parents and families so they may become engaged in the learning community;
- Make parents and families feel welcome in our schools and feel that they are an essential part of the learning community; and
- Increase opportunities for parents and families to engage in academic learning events, i.e., school events that are linked to learning.

In order to meet the District's expectations and objectives for meaningful parent and family engagement, the District will:

- a) Involve families in the development of SSD's Comprehensive School Improvement Plan (CSIP), Title I.A LEA Plan, and the development of support and improvement plans that utilize the most current evidence-based research on family engagement and strategies to lower barriers to participation by parents and families.
- b) Provide the coordination, technical assistance, and other support necessary to assist and build the capacity of all participating schools in planning and implementing evidence-based parent and family engagement activities to improve student academic achievement and improve school performance. Schools will provide families with multiple modes of communication, offer varying times and days for engagement activities, and provide the structure and support needed for families to access educational resources. The District and SSD schools will reach out to families frequently and strategically to ensure two-way communication is in place to evaluate family engagement practices.
- c) When feasible, coordinate and integrate parent and family engagement strategies under Federal Programs* with other relevant Federal, state, and local laws and programs. This may include sharing information and training opportunities through workshops, fairs, resource links, information packets, etc.
- d) With the meaningful involvement of parents and families, conduct an annual evaluation of SSD's Parent and Family Engagement Policy. The purpose of the evaluation is to examine the content of the policy and the effectiveness of the policy in improving the academic quality of all schools. Areas to be identified and addressed during the evaluation include:

- Barriers to family participation including, but not limited to, time and financial constraints, transportation, childcare, limited English proficiency, etc.
 - Needs of parents and family members to assist with the learning of their child and to engage with school personnel and teachers.
 - Evidence-based strategies to support successful school and family interactions.
- e) Use the findings from the annual evaluation to design evidence-based strategies and to revise the SSD Parent and Family Engagement Policy as needed.
- f) Provide for parent and family engagement for all of its students through the Parent Advisory Council (PAC) as required by Missouri statute.
- g) Ensure that each School will establish a Parent Advisory Council for the purposes of developing, reviewing, and revising the School Parent and Family Engagement Policy and to assist in planning and implementing family engagement activities that are linked to learning. All populations are to be represented on the School Parent Advisory Council. Through the use of open, transparent communication, school administrators and teachers will build trusting, respectful relationships with families and help families navigate the educational system.

*Federal Programs include Carl Perkins Act, Title I, and Individuals with Disabilities Education Act (IDEA).

The Board is committed to providing professional development opportunities to enhance district staff's understanding of effective parent and family engagement strategies. The Board also recognizes the importance of administrative leadership in setting expectations and creating a climate conducive to parent and family engagement.

STUDENT DISCIPLINE

It is essential that the District maintain a classroom environment that allows teachers to communicate effectively with all students in the class and allows all students in the class to learn. To assist District staff in maintaining an appropriate classroom environment, the Board has created a discipline code that addresses consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of other students.

Regulation JG-R is the District's Code of Conduct. This policy and Code of Conduct apply to students enrolled in District schools and programs. Students receiving services from SSD and attending Partner District Schools follow the Code of Conduct of that Partner District. A copy of the District's comprehensive written code of conduct will be distributed to every student and the parents/guardians of every student at the beginning of each school year and will be available in the Superintendent's office during normal business hours and on the District's website.

Application

These policies, regulations and procedures will apply to all students enrolled in and attending District instructional and support programs, as well as attending school-sponsored activities.

Off-campus misconduct that adversely affects the educational climate will also be subject to these policies, regulations and procedures. Students who have been charged, convicted, or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

The Board authorizes the immediate removal of a student upon a finding by a principal or Superintendent that the student poses an immediate threat of harm to self or others. Any such removal will be subject to the appropriate due process procedures and in accordance with law.

No student may be confined alone unattended in an enclosed space from which the student is physically prevented from leaving except in an emergency situation while awaiting the arrival of law enforcement personnel. For the purpose of this policy, a student is unattended if no person has visual contact with the student, and a locked space is a space that the student cannot reasonably exit without assistance.

Enforcement

Building principals are responsible for the development of additional rules and procedures regarding student conduct needed to maintain proper behavior in schools under their supervision. All such rules and procedures shall be consistent with Board-adopted discipline policies and regulations.

District teachers have the authority and responsibility to make and enforce necessary rules for internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom. All District staff are required to enforce District policies, regulations and procedures in a manner that is fair and developmentally appropriate and that considers the student, the individual circumstances involved, and the student's IEP or Section 504 Plan if applicable.

Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal or designee to either contact the parent or guardian by written notice, through the mail, or by direct telephone contact.

All employees of the District shall annually receive instruction related to the specific contents of the District's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties, including, but not limited to, approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity for and requirements of confidentiality.

STUDENT DISCIPLINE

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of District schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, or any aggravated circumstance of any offense or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, Superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the Superintendent or designee to be manifestly unfair or not in the interest of the District, the Superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on District property, including playgrounds, parking lots and District transportation, or at a District activity, whether on or off District property. The District may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law. Any suspension with a recommendation of more than 10 days of suspension will require that a Discipline Hearing be held.

Students with disabilities will be disciplined pursuant to applicable law in accordance with this regulation and Policy JG, as applicable, and in accordance with Policy JGE. Out of School Suspensions, Students with Disabilities.

Reporting to Law Enforcement

It is District policy to report all crimes occurring on District property to law enforcement, including, but not limited to, the crimes the District is required to report in accordance with law. Policy JCF includes a list of crimes the District is required to report.

The principal or designee shall, as soon as possible, notify the appropriate law enforcement agency and Superintendent if a student is discovered to possess a controlled substance or weapon in violation of the District's policy. In addition, the Superintendent or designee shall notify the appropriate division of the Family Court upon suspension for more than ten (10) days or expulsion of any student of whom the District is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee, or other administrators, or school staff will maintain all discipline records, as deemed necessary for the orderly operation of the schools and in accordance with law and Policy JGF.

Conditions of Suspension, Expulsion, and other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any District activity or being on or near District property or the location of any District activity for any reason unless permission is granted by the Superintendent or designee. When appropriate, the District may prohibit students from participating in activities or restrict a student's access to SSD or partner district property as a disciplinary consequence, even

if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence.

In accordance with law, any student who is suspended for any offenses listed in §160.261, RSMo. or any act of violence or drug-related activity defined by Policy JGF as a serious violation of school discipline shall not be allowed to be within 1,000 feet of any District property or any activity of the District, regardless of whether the activity takes place on District property, unless one of the following conditions exist:

1. The student is under the direct supervision of the student's parent, legal guardian, custodian or another adult designated in advance, in writing, to the student's principal by the student's parent, legal guardian, or custodian, and the Superintendent or designee has authorized the student to be on District property.
2. The student is enrolled in and attending an alternative school that is located within 1,000 feet of a public school in the District.
3. The student resides within 1,000 feet of a public school in the District and is on the property of his or her the student's residence.

Students who violate the prohibitions in this section may be suspended or expelled in accordance with the offense, "Failure to Meet Conditions of Suspension, Expulsion or Other Disciplinary Consequences," listed below.

Pursuant to law, no student will be confined in an unattended, locked space, except in an emergency situation, while awaiting the arrival of law enforcement personnel.

Impact on Grades

As with any absence, absences due to an out-of-school suspension may result in the student earning a lower grade in accordance with the District's policy on absences. Unless otherwise specified by law or District policy, a student will be allowed to make up work missed due to suspension (see regulation JED-R).

Prohibited Conduct

The following are descriptions of prohibited conduct as well as potential consequences for violation. Building-level administrators are authorized to more narrowly tailor potential consequences as appropriate for the age level of students in the building. BEHAVIOR INTERVENTION STRATEGIES

The District has established this policy to ensure the care, welfare, safety, and security of all students, staff, and others in all school settings, both on and off grounds. This policy applies to:

- a. All Special School District (SSD) personnel employed by Special School District,
- b. All individuals volunteering for the SSD, and
- c. All individuals performing services on behalf of the SSD in District or other facilities or at the direction of the SSD.

SSD personnel assigned to schools or facilities not located on SSD premises will follow the schools' or facilities' policies. If there is a conflict between SSD's policy and that of the facility, the employee will notify his or her supervisor and follow the SSD policy until otherwise directed by the SSD's superintendent or designee.

Nothing in this policy prevents a school resource officer, police officer employed by the District, or off-duty police officer from exercising appropriate police authority when attempting to prevent a criminal act from occurring or when responding to a criminal act.

For all students whose behavior significantly impedes the learning of the student or others, staff will provide universal supports throughout the school environment and will implement the process of functional behavioral assessment and the development/implementation of a behavior intervention plan.

In a time of crisis, staff will use physical intervention only as a last resort when less restrictive interventions have failed and the safety of the student or others is at risk. Unless there is a risk of injury, SSD personnel will only use intervention techniques for which they have completed District-approved training. When implementing physical intervention techniques, staff must place primary emphasis on the safety of the student and others.

SSD personnel who use physical intervention techniques may only do so in the presence of at least one (1) additional trained adult who is in the line of sight unless no other adult is immediately available due to an unforeseeable emergency situation.

Physical restraint, mechanical restraint, seclusion, and the secure observation room are to be used only when

- a. As determined in the student's IEP or Section 504 plan to address a student's behavior,
- b. An emergency occurs, in which there is a risk of injury to the student or others, or
- c. All less restrictive interventions have failed to achieve de-escalation.

The following are prohibited:

- a. Prone restraint,
- b. Chemical restraint, and
- c. Aversive interventions.

Violation of the above may result in disciplinary action up to and including termination.

As soon as possible after the resolution of the crisis:

1. Staff will notify family/guardians unless otherwise agreed in the student's IEP or Section 504 plan. Notification will be documented,
2. A staff member will re-establish rapport with the student,
3. Debriefing and/or other support (for example, counseling, referral to the Employee Assistance Plan (EAP), social work) will be made available to the student and to the staff members involved,
4. Documentation of the incident will be provided to the director electronically and kept on file.

Staff will regularly meet to discuss occurrences of the use of the secure observation room, and/or restraint. Following any emergency situation, the student's team shall meet as soon as possible, but no later than two (2) school days, after the situation occurred.

The Board will receive an annual report on behavior crisis incidents. The District will provide training about this policy and about seclusion, restraint, and behavior crisis strategies to all staff members who have contact with students.

Definitions

Assistive Technology Device – Any item, piece of equipment, or product system that is used to increase, maintain, or improve the functional capacities of a student with a disability. This includes devices provided by an occupational or physical therapist which may temporarily isolate specific movement patterns intended for the sole purpose of providing postural stability and/or body alignment, in order to position the student for improved functioning. All therapeutic equipment and/or techniques which could be deemed as restrictive should only be implemented upon the recommendation and instruction of a qualified staff member who specializes in positioning and motor intervention. These are not considered mechanical restraints.

Behavioral Intervention – An individualized instructional and environmental support that teaches students appropriate behaviors to replace problem behaviors that interfere or impede accessing the educational environment for self or others. Behavioral interventions are guided by a functional behavior assessment (FBA) that takes into consideration any known medical, developmental, or psychological limitation(s) of the student.

Behavior Management – Comprehensive individualized, classroom, school-wide procedures applied in a proactive manner that constitute a continuum of strategies and methods to support and/or alter behavior in all students.

Behavior Intervention Plan (BIP) - A formal detailed plan in the IEP to address problem behaviors that interfere with or impede accessing the educational environment for self or others. A BIP includes information regarding the target behavior, behavior goals, and steps to decrease occurrences of inappropriate behavior and to increase occurrences of desired or replacement behaviors. BIPs are guided by an FBA. The plan should also include information on progress monitoring and review of the plan.

Confinement – The act of preventing a student from leaving an enclosed space.

Discipline – Consequences for violating the District's student code of conduct.

Emergency Situation or Crisis– A situation in which a student's behavior poses a serious, probable threat of imminent danger to self or others.

Functional Behavior Assessment (FBA) - A formal systematic process for describing problem behavior and identifying the environmental factors and surrounding events associated with problem behavior. The team that works closely with the child exhibiting problem behavior: 1) observes the behavior and identifies and defines its problematic characteristics, 2) identifies which actions or events precede (antecedents) and follow the behavior, and 3) determines how often the behavior occurs. The results of the FBA should be used to develop an effective and efficient behavior intervention plan.

Individualized Education Program (IEP) – A student's individualized education program as

defined by the Individuals with Disabilities Education Act (IDEA).

Law Enforcement Officer – Any public servant having both the power and duty to make arrests for violations of local, state, or federal law.

Positive Behavior Supports – A range of instructional and environmental supports to teach students pro-social alternatives to problem behavior and allow multiple opportunities to practice pro-social skills and receive high rates of positive feedback.

Physical Restraint - The use of person-to-person physical contact to restrict the free movement of all or a portion of a student's body. It does not include briefly holding a student without undue force for instructional or other purposes, briefly holding a student to calm the student, taking a student's hand to transport him or her for safety purposes, physical escort, or intervening in a fight.

School or District Employee or Personnel – Any person employed by SSD, volunteering for the District, or performing services on behalf of the District or at the direction of the District. This applies to staff employed by Special School District who work for the District, whether employed or as a volunteer or a contractor on our campuses, including student teachers, school resource officers (SROs) or employed off-duty police officers, and persons employed by another agency who are providing educational or related services to students.

Seclusion - The involuntary confinement of a student alone in a room or area that the student is physically prevented from leaving and that complies with the building code in effect in the District. Seclusion does not include time-out, in-school suspension, detention, or other appropriate disciplinary measures.

Section 504 Plan - A student's individualized plan, as defined by Section 504 of the Rehabilitation Act of 1973.

Continuum of Interventions

When intervening with a student in crisis, staff are to follow a continuum of interventions. The continuum starts with non-physical intervention, using physical intervention only if necessary to ensure the safety of the student or others. Staff are only to use interventions that are approved and taught by the District. Preventative strategies and non-physical interventions within the continuum include evidence-based practices such as positive behavior supports and behavioral interventions based on FBAs.

The continuum of interventions includes the following:

- A. *Preventative strategies* - These non-physical strategies are intended to prevent the escalation of negative behavior to the crisis stage. They include such things as active listening, encouragement, problem solving, clarifying expectations, redirections, restructuring the environment, schedules, social skills training, and use of sensory or visual supports.
- B. *Non-physical intervention* – The types of non-physical intervention are explained in the following paragraphs. In a time of crisis, staff must, whenever possible, first intervene with non-physical interventions. These interventions include non-verbal de-escalation techniques, verbal de-escalation techniques, and time-out. It must be noted that at times the

risk to safety of the student or others may be so great that staff must immediately intervene physically.

Non-verbal de-escalation techniques are non-physical strategies that do not use verbal statements or exchanges and are intended to de-escalate negative behavior. Examples include the use of proximity or personal space, and body language including facial expressions, gestures, posture, and movement.

Verbal de-escalation techniques are non-physical strategies that involve the use of neutral voice tone, rate of speech, volume, and appropriate language.

Time-out is a brief removal from sources of reinforcement within instructional contexts. Examples include planned ignoring or changing a seat location.

- C. *Physical intervention* - Physical intervention is to be used only when the safety of the student or others is at risk. Physical intervention strategies are techniques including personal safety techniques, physically transporting a student to a secure setting, and/or physical restraint. They may be used only when the safety and well-being of the student, other students, staff, or other persons are threatened, and only when other avenues of non-physical crisis intervention have been exhausted or cannot be used because of the immediacy of the situation. This regulation lists specific circumstances, limitations, and guidelines under which physical intervention techniques are to be used. When implementing physical intervention techniques, staff must place primary emphasis on the safety of the student and others.

Personal safety techniques encompass a variety of actions or disengagement procedures staff members use in order to maintain safety while intervening with a student who is exhibiting a range of aggressive behaviors. Personal safety techniques include a) methods to block contact from a dangerous object such as a thrown item, punch, hit, slap, head-butt, or kick, and b) a variety of procedures to disengage from students attempting to hold, choke, or bite another person, or pull on the other person's clothing, hair, or other body parts. Personal safety techniques do not include physical restraint.

Physical transport is the temporary touching or holding of a student's hand, wrist, arm, shoulder, or back for the purpose of moving a student who is acting out or eloping. This includes assisting the student off the floor to move to another location.

Physical restraint is the person-to-person restriction that immobilizes or reduces the mobility and ability of a student to move their torso, arms, legs, or head freely for one minute or more. Physical restraint may not be used as a punitive form of discipline, as a threat to control the student, or to coerce compliant behavior.

Seclusion is the involuntary confinement of a student alone in a room or area that the student is physically prevented from leaving and that complies with the building code in effect in the District. Seclusion does not include time-out, in-school suspension, detention, or other appropriate disciplinary measures.

Secure Observation Room is a specially designed room in which the door is locked and students are continuously observed. Visual monitoring must occur through a technology-supported device using a camera and monitor and/or line of site vision.

Specific Circumstances, Limitations, and Guidelines Under Which Physical Intervention Techniques are Used

Physical Interventions are to be used only

- a. As a last resort when the safety of the student, other students, staff, or other persons is threatened, and only when other avenues of non-physical crisis intervention and/or less intrusive interventions have been exhausted, or
- b. In an imminently physically threatening situation, when the safety of others is in imminent danger.

Except for situations presenting the imminent risk of physical harm to individuals, non-physical intervention strategies must be exhausted before using physical interventions.

Physical interventions will be:

- a. Used only for as long as necessary to resolve the actual risk of danger or harm that warranted the use of physical intervention,
- b. Used only with continuous monitoring of the student's breathing and circulation,
- c. No greater than the degree of force necessary to protect the student or other persons from imminent bodily injury,
- d. Applied only by SSD personnel trained in its proper use.

Physical interventions will not:

- a. Place a student in any position that puts pressure or weight on the chest, lungs, sternum, diaphragm, back, neck, or throat,
- b. Include a prone restraint,
- c. Obstruct views of the student's face,
- d. Obstruct the student's respiratory airway, impair the student's breathing or respiratory capacity, or restrict the movement required for normal breathing to cause positional or postural asphyxia,
- e. Place pressure or weight on, or causes the compression of the student's chest, lungs, sternum, diaphragm, back, abdomen, or genitals,
- f. Obstruct the student's circulation of blood,
- g. Involve pushing on or into the student's mouth, nose, eyes, or any part of the face, or involves covering the face or body with anything including, but not limited to, soft objects such as pillows, blankets, or washcloths,
- h. Endanger the student's life or significantly exacerbate the student's medical condition,
- i. Be purposely designed to inflict pain,
- j. Restrict the student from communicating. If an employee physically restrains a student who uses sign language or an augmentative mode of communication as the student's primary mode of communication, the student shall be permitted to have the student's hands free of restraint for brief periods unless an employee determines that such freedom appears likely to result in harm to self or others.

Types of Restraint

Chemical restraint – Administration of a drug or medication to manage a student’s behavior. This does not include medicine given in response to a seizure or allergic reaction. Chemical restraints shall never be used by SSD personnel. If involved in a situation consistent with the guidelines in this regulation, a law enforcement official will use chemical restraints in accordance with the officer’s policies and professional standards.

Prone restraint – Placing an individual’s body face-down upon any surface while applying pressure to the individual’s torso, shoulders, hips, and/or legs to physically prevent the individual from moving from the prone position. The use of prone restraint at any time for any reason is prohibited.

Mechanical restraint - The use of any device or equipment to restrict a student’s freedom of movement. Examples of mechanical restraints include but are not limited to helmets with fasteners, muffs, and mitts with fasteners, waist straps, head straps, and similar devices. If involved in a situation consistent with the guidelines in this regulation, a law enforcement official will use mechanical restraints in accordance with the officer’s policies and professional standards. The term does not include devices used by trained school personnel that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which they are designed, such as:

1. Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports,
2. Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle, in compliance with the student’s IEP and state and federal regulations,
3. Restraints for medical immobilization, or
4. Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Mechanical restraints intended to prevent self-injurious behavior will be used only:

1. In compliance with the student’s IEP, and
2. Based upon consultation with a physician, and
3. After less restrictive measures have been shown to be ineffective,
4. With a plan to use, fade, and monitor the use of the mechanical restraint included in the behavior plan.

Mechanical restraints will not:

- a. Obstruct views of the student's face,
- b. Obstruct the student's respiratory airway, impair the student's breathing or respiratory capacity, or restrict the movement required for normal breathing to cause positional or postural asphyxia,
- c. Place pressure or weight on or causes the compression of the student's chest, lungs, sternum, diaphragm, back, abdomen, or genitals,
- d. Obstruct the student's circulation of blood,
- e. Involve pushing on or into the student's mouth, nose, eyes, or any part of the face or involves covering the face or body with anything including, but not limited to, soft objects such as pillows, blankets, or washcloths,

- f. Endanger the student's life or significantly exacerbate the student's medical condition,
- g. Be purposely designed to inflict pain,
- h. Restrict the student from communicating. If an employee physically restrains a student who uses sign language or an augmentative mode of communication as the student's primary mode of communication, the student shall be permitted to have the student's hands free of restraint for brief periods unless an employee determines that such freedom appears likely to result in harm to self or others.

Physical restraint – Person-to-person restriction that immobilizes or reduces the mobility and ability of a student to move his or her torso, arms, legs, or head freely for one minute or more. Physical restraints may not be used as a punitive form of discipline, as a threat to control the student, or to coerce compliant behavior.

Seclusion and Secure Observation Room

A *secure observation room (SOR)* is a specially designed room in which the door is locked and students are continuously observed. Visual monitoring must occur through a technology-supported device using a camera and monitor and/or line of site vision. The SOR shall only be used:

- a. With parental approval as stated on the IEP or 504 Plan, or
- b. In an emergency situation.

The SOR may not be used as a punitive form of discipline. Trained staff who are able to see and hear the student at all times must continually monitor and assess any student in a secure observation room. Monitoring shall take place no less than every thirty (30) seconds and shall be through line-of-sight visualization or through a technology-supported device using a camera and monitor. The student may remain until staff determine that the student no longer presents a safety risk to self or others

Debriefing and Communication

1. Staff Debriefing - Staff will regularly meet to discuss occurrences of use of the SOR, seclusion, or restraint. Following any emergency situation, the student's team shall meet as soon as possible, but no later than two (2) school days, after the situation occurred. The following are points that should be considered in the debriefing and in planning for possible future occurrences:
 - a. Is the behavior resulting in restraint or seclusion?
 - b. If the behavior is not isolated, what does our data tell us about the behavior (e.g., when it began, increasing, decreasing, how often)?
 - c. What was the duration and intensity of the behavior before the restraint was initiated?
 - d. Who was involved in the restraint?
 - e. Are all staff involved in the restraint fully trained in all units on nonviolent crisis intervention? Is an informal refresher necessary?
 - f. Are there other nonphysical interventions that could be utilized prior to using restraint should the behavior occur again?
 - g. What was the risk (e.g., likelihood of injury and severity of harm) to the student?
 - h. What was the risk (e.g., likelihood of injury and severity of harm) of harm to others?
 - i. Does the student have any factors that should be considered in the use of restraint such

- as medical conditions, history of trauma, use of medications, or high body mass that may contribute to risk?
- j. What were the risks and benefits of using the restraint? Are there alternative crisis intervention options or ways to mediate risk that could be considered?
 - k. What is the nature of the student's disability and how might the disability be impacting behaviors?
 - l. Are there patterns of behavior the team should consider (e.g., time of day, settings, activities) that occur immediately prior to behavior?
 - m. Is there anything in the IEP about the student's behavior?
 - n. Is there anything in the student's evaluation report about the behavior? If "yes," how recently was the student evaluated? If "no," is another evaluation called for?
 - o. Is there a behavior intervention plan in the IEP? If "yes," what does it say? Was it followed? If "no," why not?
 - p. Should a behavior intervention plan be written or revised?
 - q. What additional supports will be made available to the student (e.g., environmental or scheduling changes, counseling, instruction on alternative skills or behaviors, debriefing)?
 - r. What additional supports will be made for staff (e.g., training, behavioral support, personal protective equipment, structured debriefing, and rational detachment)?
 - s. How will staff be made aware of these supports?
 - t. Did the team re-establish rapport and debrief with the student after the restraint?
 - u. Other factors?
2. Re-establishing Rapport – Following any emergency situation, a staff member will reestablish rapport with the student according to the District's crisis intervention training program.

Notice to Families/Guardians

Except as otherwise specified in a student's IEP or Section 504 plan, following an emergency situation involving the use of seclusion or restraint, the family/guardian of the student shall be notified through verbal or electronic means of the incident as soon as possible, but no later than one hour after the end of the school day of the incident. Family/guardians will be informed at that time that they shall receive a written report of the incident.

The family/guardian shall receive a written report of the emergency situation within five school days of the incident. The written incident report shall include all of the following:

1. Date, time of day, location, duration, and description of the incident and interventions,
2. Event(s) that led up to the incident necessitating restraint or seclusion,
3. A description of the methods of seclusion or restraint used,
4. Nature and extent of any injury to the student,
5. Nature and extent of any injury to other students or staff,
6. Names, roles, and certifications of each employee involved in the use of seclusion or restraint,
7. Name, role, and signature of the person who prepared the report,
8. Name of a school employee the parent or guardian can contact regarding the incident,
9. A plan to prevent the need for future use of seclusion or restraint, and
10. A statement directing parents and legal guardians to a sociological, emotional, or

behavioral support organization and a hotline number to report child abuse and neglect.

Documentation

IEP or Section 504 Plan

If the IEP team determines, and the family/guardian consents, that a form of restraint may be appropriate in certain identified situations, the team may set forth the conditions and procedures in the IEP or 504 plan. These conditions and/or procedures must not violate any SSD policy. Any use of restraint or seclusion must be limited to what is set forth in the IEP or 504 plan.

If the IEP or 504 plan permits the use of restraint or seclusion, it must also contain a plan to eliminate the need for their use. Before adding the use of restraint or seclusion to an IEP or 504 plan, the school team must complete a functional behavior assessment and a positive behavior support plan for the student. The team should include, but not be limited to, the following people: family/guardian, classroom teacher, or specialists who work with behaviors that interfere with a student's ability to participate in their education.

District Documentation

The SSD superintendent or designee shall maintain records documenting the use of restraint and seclusion by SSD staff. The report will include the following: when, reason for use, duration, names of staff involved, whether students or staff were injured and the type of injury, name and age of the student, whether the student has an IEP, BIP, or personal safety plan, when the family/guardian was notified, if the student was disciplined, and any other documentation required by federal or state law. When law enforcement officers are involved, who are not District personnel, documentation is completed as required by the municipality and not by SSD staff, unless otherwise explicitly required by law.

Involvement of Law Enforcement Officers

Staff will include a police officer in crisis intervention only:

1. To prevent a crime, to respond when a crime is being committed, or if a crime has been committed,
2. If approved steps for de-escalation or to ensure the safety of staff and students are ineffective,
3. If the student is posing a danger to self or others.

Police should become involved only if requested by principal or designee. If an officer becomes involved, the officer will proceed in accordance with the officer's policies and professional standards. The officer will document his/her involvement and meet documentation requirements of the officer's jurisdiction.

A law enforcement officer will use handcuffs only according to the policies of that officer's law enforcement agency and according to the officer's professional standards.

Student education will include the following:

- Information about mental health, well-being, and suicide prevention and awareness;
- Promotion of a climate that encourages peer referral and which emphasizes school connectedness;
- Recognition of the signs that they or peers are at risk for suicide;
- Identification of issues that may lead to suicide including depression, anxiety, anger, and drug/alcohol dependency;
- Identification of a trusted adult on campus with whom students can discuss concerns about suicide.

Suicide Prevention and Response Protocol Education for Staff

All staff working with students will have an annual online overview addressing the policy, regulation, definitions, risk factors, and process for reporting. Members of the suicide response team will be identified for all staff. Additional training can be provided as requested. The members of the suicide response team will be chosen and trained annually.

Reporting

Any school employee, in SSD or partner district schools, who has a reasonable belief that a student may be at risk for suicide or witnesses any attempt towards self-injury will immediately notify a member of the suicide response team and/or the building administrator or his/her designee. Staff assigned to partner districts will follow the partner district's reporting protocols. The staff member must stay with the student until one of those individuals arrives.

Response from Suicide Response Team

In response to a report, the suicide response team member or building administrator/designee should do the following:

- Ensure the student is in a safe and private area. The student should not be unsupervised or allowed to leave the campus. Ensure the student does not have any weapons or other items to inflict self-harm.
- Assess the student using a district-approved tool that includes level of risk and/or safety plan.
- Notify an administrator of the results of the assessment.
- Notify the family or guardian if an assessment is completed or changes are made to the safety plan.
- If appropriate or requested by the family/guardian, staff will provide information about outside services. At the family/guardian's request, staff will make a referral to an outside service selected by the family/guardian. Staff will not promise or imply that the district will assume any financial responsibility.
- If the family/guardian refuses to cooperate or there is any concern regarding the student's safety, local mental health service providers and/or law enforcement may need to be engaged. A report may be made to the Missouri Children's Division or the Missouri Department of Aging.
- Follow-up with the referring staff member by providing information that the staff member needs to know to perform his/her duties as they relate to the student.
- Staff will document actions and communication in the district documentation system.

Student suicidal behaviors are not confidential and may be revealed to the student's family (unless own educational decision maker), guardians, school personnel, or other appropriate authorities when the health, welfare, or safety of the student is at risk. Staff are not permitted to promise students complete confidentiality.

Responding to Suicidal Behavior or Death by Suicide in the School Community

When the school community is impacted by suicidal behavior or a death by suicide, the district will confer with their suicide response teams and, when appropriate, confer with local community resources and professionals to identify and make available supports that may help the school community understand and process the behavior and/or death.

The suicide response team, the building administrator, or their designee will collaborate with the district leadership to determine appropriate procedures for informing the school community of a death by suicide and the supports that will be offered. Staff and students who need immediate attention following a death by suicide will be provided support and resources as deemed necessary.

Publication of Policy and Regulation

The District will notify employees, students, and parents of this policy and regulation by posting the policy and related procedures and documents on the district's website and in school handbooks, along with discussing this policy and regulation during employee training as detailed herein.

COMPREHENSIVE NEEDS ASSESSMENT (school level)

Section 1114(b)(6)

NEEDS ASSESSMENT: SCHOOL PROFILE

Student Demographics

The following data regarding student demographics has been collected, retained, and analyzed:

- Enrollment (Required)
Grade level (Required)
Ethnicity (Required)
Attendance (Required)
Mobility (Required)
Socioeconomic status (Required)
Discipline (Required)
Limited English Proficiency (Required)

Summarize the analysis of data regarding student demographics:

Strengths:

Strengths: restorative practice and co-regulation have lead to a decrease in suspensions. The distribution of students across learning communities has started to level out which speaks to Litzinger ensuring students are appropriately placed as well as partner districts are better meeting needs.

Weaknesses:

Needs related to strengths and weaknesses: break down of attendance to figure avoidable vs unavoidable absences to better target

Indicate needs related to strengths and weaknesses:

We put representation on the forefront of curriculum. Multi-cultural event will be added.

Student Achievement

The following data regarding student achievement has been collected, retained, and analyzed:

- MAP results by content area and grade level, including multi-year trends (required)
MAP results by ESEA Annual Measurable Objective: comparative data showing performance of disadvantaged students against all other meaningful categories of students in the school; comparison of performances of students in various subgroups (required)

- Completion rates: promotion/graduation rate, retention rates (if applicable)
- Post-Secondary trends: students attending and/or completing post-secondary schools, students accepted in the armed forces (if applicable)
- Other performance indicators used in analysis:

Summarize the analysis of data regarding **student achievement**:

Strengths:

Large number of students with 50+ SGP on district assessment. Growth from previous years. Our intervention model has shifted to classes rather than pulling 1:1 for a short stint which has cut down on refusals leading to a solid 45 minute intervention daily. Interventionist have taken over iReady which has lead to larger engagement and growth in Math and Reading. More students scoring proficient/advanced in ELA, Math, and Science.

Weaknesses:

Still have students basic and below. Gap still exists between STAR, MAP, and instruction.

Indicate needs related to strengths and weaknesses:

MAP assesses ELA not just reading. So in order to see those scores moving, we will need to address instruction in ELA not just reading.

Curriculum and Instruction

Data has been collected, retained, and analyzed regarding each of the following factors of **curriculum and instruction** at the school:

- Learning expectations
- Instructional program
- Instructional materials
- Instructional technology
- Support personnel

Weaknesses:

*Reading interventionist retirement
 *A portion of student population struggle with decoding and phonics
 *No Math Interventionist was available to hire for the FY23 school year

Indicate needs related to strengths and weaknesses:

ELA is different than reading instruction. Utilization of supplemental pieces of Wonders. Deeper training on these pieces for classroom teachers.

High Quality Professional Staff

Data has been collected, retained, and analyzed regarding each of the following factors of a **high quality professional staff**:

- Staff preparation
- Core courses taught by appropriately certified teachers
- Staff specialists and other support staff
- Staff demographics
- School administrators

Summarize the analysis of data regarding **high quality professional staff**:

Lack of diversity in age, gender, and race. We need more people of color represented in our teacher level staff. Lack of diversity in age, gender, and race in teacher level staff.

Indicate needs related to strengths and weaknesses:

Moving to a schoolwide Title status (starting FY24 school year). Training staff from equity lens. Still working towards a more diverse staff. Schoolwide would allow for more funding and less restrictions on PD for our staff.

Family and Community Engagement

Data has been collected, retained, and analyzed regarding each of the following factors of **family and community engagement** at the school:

- Parental involvement
- Communication with parents
- Policy Involvement

NEEDS ASSESSMENT: IDENTIFYING PRIORITIES

"In most schools, conducting a comprehensive needs assessment will result in the identification of a large number of issues that could be addressed to improve the achievement of students. However, no school should attempt to address every identified need in a single year. Most planning experts suggest that schools prioritize their major issues and address no more than three of the most important..." (Designing Schoolwide Programs Non-Regulatory Guidance, March 2006)

List and number, in order of priority, the critical needs identified in the school profile.

Prioritized needs

1	Literacy Coaching: Reading in the Content Area
2	Address avoidable attendance through Family/School Partnerships
