Superintendent of Schools

The Every Student Succeeds Act (ESSA) was signed by President Obama on December 10, 2015, and represents good news for our nation's schools. This bipartisan measure reauthorizes the 50 year-old Elementary and Secondary Education Act (ESEA), the nation's national education law and longstanding commitment to equal opportunity for all students.

The previous version of the law, the No Child Left Behind (NCLB) Act, was enacted in 2002. NCLB represented a significant step forward for our nation's children in many respects, particularly as it shined a light on where students were making progress and where they needed additional support, regardless of race, income, zip code, disability, home language, or background. The law was scheduled for revision in 2007, and, over time, NCLB's prescriptive requirements became increasingly unworkable for schools and educators. Recognizing this fact, in 2010, the Obama administration joined a call from educators and families to create a better law that focused on the clear goal of fully preparing all students for success in college and careers.

The Conneaut School District is committed to ESSA and supporting students to succeed.

ABOUT THE CONNEAUT SCHOOL DISTRICT

The Conneaut School District is located in northwest Pennsylvania's Crawford County and geographically encompasses approximately the western third of the county. The School District is approximately 8 miles west of Meadville, 49 miles south of Erie and 91 miles north of Pittsburgh. Comprised of a total area of approximately 319 square miles, the School District is bordered on the south by Mercer County, on the west by the state of Ohio, on the north by Erie County and on the east by the city of Meadville. Included in the School District are the Boroughs of Conneaut Lake, Conneautville, Linesville and Springboro. Townships comprising the School District include Beaver, Conneaut, East Fallowfield, Greenwood, North Shenango, Pine, Sadsbury, Spring, Summerhill, Summit and West Fallowfield. The School District can be classified as rural with the majority of the work force employed in areas contiguous to that of the School District.

The Conneaut School District is comprised of three areas: Linesville, Conneaut Lake and Conneaut Valley. Each area represents a small diverse community. Linesville is a small community located near the Pennsylvania and Ohio state line. It is a close – knit community. Many tourists visit Linesville because of the town's proximity to Pymatuning Lake. Conneaut Lake is a resort town on the shores of Conneaut Lake. Tourism flourishes here particularly during summer months. Conneaut Valley represents the community of Conneautville and Springboro, small towns in the north-central part of the school district. The Conneaut Valley community is also centered in a predominantly agricultural area of Crawford County.

The Conneaut School District consists of 2 elementary schools, grades kindergarten through 4th grade, 2 middle schools, grades 5 through 8 and 1 high school, grades 9 through 12. The Administration Building, located on the Linesville campus, houses the district's administrative office staff.

The Board of School Directors is comprised of nine members, elected by region. The school board governs the Conneaut School District. As the chief administrative officer, the Superintendent of Schools, is assisted by the professional and supervisory staff which presently includes the Business Manager, Assistant to the Superintendent/Director of Student Services, Director of Curriculum, Instruction & Assessment/Federal Programs, Director of Technology, Director of Buildings and Grounds and six building administrators.

A NOTE TO THE TEACHER

I send my child to school this day and place him in your care.
Although he's one-of-a-kind- to me, he's just one of thirty there.

But please be patient with him when you see him raise his hand;
He may not learn to quickly but tries hard to understand.

Sometimes he does things differently; he paints his snowflakes blue.
But that's the way he sees things, from a different point of view.

He may at times seem pesty 'cause he wants so much to share
His life and thoughts, his love with you please be kind and care.

And discipline him, if you must, but do it carefully,
For you're his introduction to adult society.

You've both come to this place in time, each life to touch the other.
Perhaps for lessons to be taught—or learned from one another.

Though neither of you knows just how or why it's meant this way.
I'm certain there's a reason for your paths to cross this day.

Evelyn Mika

The use of video surveillance is strictly monitored and controlled to ensure the protection of individual rights and compliance with federal and state laws addressing issues such as wire tapping/electronic surveillance and the privacy and disclosure of student records. School District Policy No 709.1 Video Camera Surveillance addresses video surveillance systems further.

TEACHER CERTIFICATION:

The Conneaut School District employs certified teachers for every position. Teachers must hold a valid instructional certificate endorsed for all the areas they teach.

The Instructional I Certificate is valid for a maximum of six years of teaching in the area for which it is endorsed. It may be converted to an Instructional II Certificate after three (3) years of satisfactory teaching if the mandatory additional credits have been earned. It must be converted to an Instructional II Certificate before the seventh (7th) year of teaching.

The Instructional II Certificate is a permanent certificate issued by the Pennsylvania Department of Education to an applicant who has completed at least three years of satisfactory teaching on an Instructional I Certificate attested to by the superintendent. In addition, the applicant must have completed twenty-four (24) semester credit hours of post-baccalaureate study at a State approved, degree-granting institution. The twenty-four (24) semester credit hours requirement may be satisfied, in whole or in part, through in-service programs approved by the Pennsylvania Department of Education.

The Induction Program is designed to assist new professional employees. It includes a mentor relationship with an experienced teacher plus in-service throughout the first year of employment. All experiences must be documented to support the eventual application for an Instructional II Certificate.

IT IS THE RESPONSIBILITY OF THE PROFESSIONAL EMPLOYEE TO APPLY FOR INSTRUCTIONAL II CERTIFICATION. THIS IS NOT AN AUTOMATIC PROCESS!

Professional employees must accept this process as a very important personal responsibility. A teacher or professional employee who permits a Provisional or Instruction I Certificate to expire without having

secured the additional credits (and participation in the Induction Plan, if required) is without certification. The Pennsylvania Department of Education will not recognize an application for emergency certification in such cases. Such a person would automatically be ineligible to hold a professional position in any school district within the state of Pennsylvania.

Parents of a student attending school in the Conneaut School District, have the right to know the professional qualifications of the classroom teachers who instruct their child. They are as follows:

- The right to inspect and review the student’s education records within 45 days of the day the LEA receives a written request for access. The supervisor of student records will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
- The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading. The parents or eligible students should write the supervisor of student records, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the LEA decides not to amend the record as requested by the parent or eligible student, the LEA will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

Students with disabilities who do not require special education services, but who need some accommodation, can receive support through Protected Handicapped service agreements.

The District participates in pro-active screening activities to help identify students who may be experiencing difficulties. The screening activities include the following:

Level I: screening of group-based data such as cumulative records, enrollment records, health records, report cards, and group achievement tests. This is done when a student enrolls in the school district and after group testing is completed.

Level II: screening of sensory areas which include motor, hearing, vision and speech and language skills. This is done when a problem is suspected and/or as required by the PA school code.

Level III: screening the Instructional Support Team (Grade K-6) which include the parent/guardian in determining strengths and needs of the student. The team determines strategies to use to help the student to be successful in school.

Notice is also given to parent/guardians regarding confidentiality requirements for students who are referred for special education services. These requirements are found in both Federal and State regulations. Records generated by the identification, evaluation, and programming process are confidential and cannot be released outside the School District or Intermediate Unit without written parental consent. A copy of the Confidential Plan for collecting, disseminating, and destroying of records can be seen at each school building upon request.

SCHOOL CLOSING AND DELAY: POLICY #804:

In all cases of inclement weather, the Superintendent, in conjunction with the transportation contractors, will make a decision by 6:00 AM to either call off school or delay school. Parents, Guardians, Students and Employees should listen to his/her local radio station or television station for updated information. Parents, Guardians, Students and Employees must continue to listen to the radio or television for it is possible that road conditions will not be safe, and after announcing that the District will have a late start, school could be cancelled.

Two (2) hour delays will be the only delay used by the district. A final decision on the cancellation of school, after a two (2) hour delay has been instituted, will be made by 7:30 AM.

SCHOOL MESSENGER SYSTEM:

School Messenger notification service in order to provide the Conneaut School District community with District-related information associated with school cancellations and delays, emergencies, activities, and other relevant information.

HOMELESS STUDENTS

According to School Board Policy #251 of the Conneaut School District homeless students have access to the same educational programs and services provided to other District students.

Conneaut School District is helping children and youth experiencing homelessness access PA's public schools by removing barriers to a free and appropriate public education. The goal of the program is to have a student's education continue as uninterrupted as possible while he or she is homeless.

The McKinney-Vento Act

On July 22, 1987, the Stewart B. McKinney Homelessness Act became public law. This was the first comprehensive federal law that addressed homelessness in America. It was included in the 2001 No Child Left Behind Act as the McKinney-Vento Homeless Education Assistance Improvements Act of 2001 (Public Law 107-110). Subtitle B addresses education for homeless children and youth (Sec. 721-726).

Provisions of the Act

- Homeless Children have the right to attend either their original school or the school in the area in which they currently reside for the duration of their homelessness, or until the end of the school year if the family finds permanent housing.
- Schools are to immediately enroll homeless children and unaccompanied youth, even if they are unable to produce records normally required for enrollment, such as previous academic records, medical records, proof of residency, and any other required documentation.
- In the case where the educating district is different than the district where the student is temporarily residing, both school districts are responsible for the facilitation of transportation in the best interest of the student.
- Immediately upon enrollment, homeless students are entitled to receive a daily, free school lunch.

Children and youth experiencing homelessness:

A child is considered homeless if he or she is living with or without a parent or court appointed custodial guardian:

- In a homeless or domestic violence shelter
- In a public or private place not designated as a regular sleeping accommodation, such as a vehicle, park, hotel, or campground
- With relatives or friends due to lack of housing
- Outside of his or her home as a runaway or because he/she has been forced out of the home
- In a house for unwed mothers and has no other living accommodations
- In any of the situations listed above as a child of a migrant family

Assistance available through the program:

- Assisting with school enrollment and placement
- Providing agency referrals for clothing, food, shelter, rent, and school supplies
- Coordinating support services
- Providing training on the McKinney-Vento Act
- Increase public awareness of homelessness

EDUCATIONAL FIELD TRIP: POLICY #121:

Purpose:

The Conneaut School District recognizes the value and importance of well-planned and executed educational field trips. Field trips for the educational experience by class units or by the students of a particular instructional area are considered as part of the instructional program. Therefore, field trips arranged by teachers must have a sound educational value. Such trips must also consider the relative value of such a trip with reference to some other type of activity that might be equally worthwhile and less expensive.

Definitions:

For the purposes of clarity and general understanding, the following words and/or terms, when referred to herein, shall have the following meanings, unless the context clearly indicates otherwise.

Educational Field Trip shall mean a trip with a purpose to enhance the student's knowledge of interest in, and/or appreciation of a particular concept or group of concepts related to the education objectives established as an integral part of the curriculum.

Day Trip shall mean an anticipated activity will take place within the parameters of the school day or during an out-of-school period previously scheduled but shall require the group to leave and return on the same day.

Overnight Trip shall mean an anticipated activity will involve the whole or parts of two (2) days and one (1) overnight.

Extended Trip shall mean an anticipated activity will involve a period of time involving two or more overnight periods.

Chaperone shall be a professional employee of the district or another responsible adult individual, at least twenty-one (21) years of age, preferably identified as a resident of the Conneaut School District and meeting with the approval of the building principal, delegated to ensure proper behavior of the students.

Authority:

Each year as part of the regular budget adoption process, the Board will approve the SC 517, 1361 expenditure of a budgeted amount of money to be expended during the fiscal year for the purpose of educational field trips. These funds will then be allocated by the Business Manager.

Field trips are to be arranged with the full knowledge and consent of the principal before they are presented to the Superintendent. All overnight and extended trips must have prior Board approval. Approval of the principal, the Superintendent, and for overnight and extended trips, the Board, should be secured before discussion in any detail with students.

The building principal is to be aware of the plans for each year that each teacher hopes to implement before consenting to any plans. The principal must be especially alert to the possibility of students being taken on the same educational field trips by more than one (1) teacher in the same year or repeating the same experience in more than one (1) year. The principal should therefore make every effort to coordinate their plans for

educational field trip experiences.

Overnight and Extended Trips:

Overnight trips must reflect an outstanding educational experience unique in the lives of the great majority of students at the time of participation. Student field trips at times other than school time will be considered by the Board on an individual basis if educational value is evident.

Delegation of Responsibility:

Authorization of Expenditure for Field Trips:

The Superintendent of schools is empowered and directed to authorize:

- The expenditure of approved funds on behalf of the Board.
- The hiring of necessary substitute staff within the guidelines contained within this policy.

The Superintendent will report to the Board at the next regularly scheduled meeting as part of information.

Expenditures that are to be included within these approved expenditures will include:

- The actual cost of a contracted commercial carrier.
- The estimated cost of district operated transportation. This estimate will include the actual cost of drivers (and their expenses) and an estimated cost per mile for the operation of the vehicle.
- Actual cost of admission.

Substitute staff will be hired if necessary and will be paid through the general fund; however, this expenditure will not be deducted from the amounts authorized for expenditures for transportation; they will be credited to the substitute teacher account.

General Requirements:

- All trip requests must be made on proper forms.
- All educational field trip requests must include a statement of the relationship of the trip to the curriculum of the school, specifically the educational assignment of the person requesting the trip. This statement must include the pre- and post- teaching activities planned during the trip.
- All educational field trips must involve a sufficient number of students to utilize a bus or two-thirds of its rated capacity.
- All educational field day trips should be within the distance that enables the student to leave the home school no earlier than 7:00 a.m. and return to the home school no later than 5:00 p.m. Trips that fall outside these deadlines may be approved by the Superintendent. All overnight and extended trips must have prior Board approval.
- No teacher may schedule more than one (1) educational field trip in a fiscal year.
- There will be no charge to students involved other than cost of meals.
- The Superintendent may develop and issue additional regulations as the need arises.

Chaperones:

- All chaperones must be approved by the building principal.

- All chaperones must have volunteer clearances on file with the District Office (personnel) as per School Volunteers Policy #913.
- Each educational field trip must be accompanied by faculty and adult chaperones in accordance with the following student ratios:
- Grades K-4 - one (1) chaperone per ten (10) students.
- Grades 5-8 - one (1) chaperone per twenty-five (25) students.
- Grades 9-12 - one (1) chaperone per thirty (30) students.

In any case, a minimum of one (1) faculty chaperone is required. The faculty member scheduling the trip shall be in charge.

- Overnight or extended trips will require chaperones as follows:
- Grades 5-8 - one (1) chaperone per ten (10) students.
- Grades 9-12 - one (1) chaperone per five (5) students.
- Co-educational trips will require both male and female chaperones.
- A complete list of chaperones must be given to the administration at least two (2) weeks prior to the trip and any significant problems or changes of chaperones must be reported to the administration prior to leaving on the trip.
- No educational field trip shall leave without the faculty member in charge, regardless of the number of chaperones. All chaperones, as well as the faculty member in charge, must be in attendance before the bus may leave.

Rules of Conduct:

- The general rules of student conduct as set forth in the discipline policies of the Conneaut School District and the student handbook shall govern student conduct while on educational field trips.
- The trip must be one for which the School District's insurance carrier will insure the District, its agents, employees, servants and chaperones for liability from any negligent act or omission under the policy of the district then in effect.
- All students and chaperones are to be given a list of expectations and rules governing the trip and student behavior. This should be verbally covered as well in class before the trip.
- Each field trip participant should be given an itinerary and an overview of the nature of the trip, points of emphasis and other such guides.
- Parent approval forms and medical releases shall be required of all participants. A careful roll check must be made prior to departure.
- No small groups are permitted to leave the whole unless accompanied by a chaperone. No group is to be unattended.

Overnight and Extended Trips:

When traveling and staying overnight, you must be cognizant of Conneaut School District Policies 231 and 317. Both of these policies explain in detail Guidelines and Responsibilities as well as penalties for both the students as well as the faculty/support staff/chaperones. These policies are located on the Conneaut School District website. It is the faculty/support staff/chaperones/parents/students responsibility to know these policies.

Students traveling as part of an overnight or extended field trip shall be part of a group. Scheduled activities are group activities and the students are expected to participate. Minimum rules and regulations for overnight and extended field trips are in addition to the rules governing student conduct as contained in additional policies of the Conneaut School District and the rules governing day trips and are as follows:

- The selection of dining and entertainment facilities should be sensitive to the resources and impressions of the age group.
- No student shall be permitted to leave the tour or group activity to undertake any personal activity.
- No student is permitted to rent a bicycle, moped, motorcycle, motor vehicle, or vehicle of any kind.
- No male student shall be permitted in female student rooms and vice versa after 11:00 p.m. Prior to this curfew, students in an assigned room may visit with students in other assigned rooms, but no students shall engage in any type of conduct which may be construed as a sexual interaction, sexual promiscuity and/or sexual relations. **Safety is of the utmost concern, therefore, when appropriate, the door will be blocked open or a chaperone in the room.** Periodic, unannounced room inspections by a chaperone of the same sex as the students in an assigned room shall be conducted to police this rule.
- There shall be a general curfew on all Conneaut School District overnight and extended field trips after 11:00 p.m. and all students must be in their assigned rooms in their hotel or other residence after 11:00 p.m. and shall remain in their assigned rooms until students are scheduled for breakfast the next morning. (In the event of scheduled activity past 11:00 p.m., the curfew shall begin when the students arrive back at their hotel or residence). A chaperone of the same sex as the students in an assigned room shall conduct periodic, unannounced room inspections to police this rule.
- Students are expected to respect the rights and privacy of other guests at the hotel or residence and shall keep the noise down after 10:00 p.m.
- A chaperone of the same sex as the students in an assigned room shall arrange to have a room on the same floor as the students and in an adjacent room wherever possible.
- Students are required to participate in all group activities, such as sightseeing and excursions since this constitutes the Conneaut School District overnight or extended field trip.
- During any free time periods, students are required to remain under the supervision of the trip advisor, or other adult chaperone and to follow his/her directions. Students are not permitted to go off alone during free time periods.
- Small group activities may be planned during free time periods, provided that all small group activities are supervised by the faculty member or other adult chaperone.
- Any student found to have violated the rules and regulations governing student conduct on an educational field trip, including overnight and extended trips, shall be disciplined according to the rules governing student conduct, including but not limited to the rules governing conduct on overnight and extended trips.
- Any student who violates the rules and regulations governing students' conduct while on overnight or extended field trips, in addition to any other disciplinary action taken in accordance to the rules and regulations governing student conduct, may be prohibited from participating in any subsequent educational field trip for the remainder of the school year.

These rules and regulations are designed to maintain student safety while traveling on district-sponsored overnight or extended field trips. They must be taken seriously by all students participating in the overnight or

extended field trip. Participation in an overnight or extended field trip is a privilege extended to students and places students in a very important and responsible position. By granting permission, students' parents or legal guardian are demonstrating great faith and trust in the student, and the students must be prepared to accept this responsibility. Students must recognize that they are not only representing the Conneaut School district but their families and hometown as well. Overnight and extended field trips provide a great educational experience to the students and they should be prepared to enthusiastically participate.

Requiring children to obtain permission from parents before embarking on an educational field trip is no defense against the charge of negligence. Reasonable prudence and responsibility must be shown. Preparation such as the securing of adequate supervision over the students, preliminary discussion of the purpose of the trip, and special instruction before the excursion are in order.

Extracurricular Activities Social Events and Class Trips:

This policy applies only to educational field trips of which the purpose is to enhance the student's knowledge of, interest in or appreciation of a particular concept related to the educational objectives established as an integral part of the curriculum. This policy does not apply to field trips scheduled in conjunction with extracurricular activities, including interscholastic athletics, social events, or class trips, all of which are governed by Policy 231.

Code of Professional Practices:

Commonwealth of Pennsylvania State Board of Education CODE OF PROFESSIONAL PRACTICES

The State Board of Education adopted a code of professional practice and standards for educators as required by Act 71 of 1989. Although written to apply to professional employees, these standards reflect the formal expectations held for all employees.

As provided in 22 Barcode 235.1 et.seq. the State Professional Standards and Practices Commission and this Board are committed to providing leadership for improving the quality of education in this Commonwealth by establishing high standards for preparation, certification, practice and ethical conduct in the profession.

The following is a summary of the Code. The above legal citation should be used for the full text.

1. When individuals become educators in this Commonwealth, they make a moral commitment to uphold these values.
2. Educators believe that the quality of their service directly influences the nation and its citizens. Educators recognize their obligation to provide services and to conduct themselves in a manner that places the highest esteem on human rights and dignity. Educators seek to ensure that every student receives the highest quality of service and that every educator maintains a high level of competence from entry through ongoing professional development. Educators are responsible for the development of sound educational policy and obligated to implement that policy and its program to the public.
3. Educators recognize their primary responsibility to the student and the development of the student's potential. Central to that development is the educator's valuing the worth and dignity of every person, student and colleagues alike, the pursuit of truth, devotion to excellence, acquisition of knowledge and democratic principles. To those ends the educator engages in continuing professional development and keeps current with research and technology. Educators encourage and support the use of resources that best serve the interests and needs of students. With the context of professional excellence, the educator and student together explore the challenge and the dignity of the human experience.
4. Practices
 - a. Professional practices are behaviors and attitudes that are based on a set of values that the education community believes and accepts. These values are evidenced by the educator's conduct toward students and colleagues, and the educator's employer and community.
 - b. When candidates become educators, they are expected to abide by the following: the Public School Code of 1949, as amended, provisions of the Public Employee Relations Act, as amended and other school laws of the Commonwealth.
 - c. Educators shall be prepared, and legally certified, in their area of assignment. Educators may not be assigned or willingly accept assignments they are not certified to fulfill. Educators may be assigned to or accept assignments outside their area of certification on a temporary, short-term, emergency basis.
 - d. Educators shall maintain high levels of competence throughout their careers.
 - e. Educators shall exhibit consistent and equitable treatment of students, fellow educators, and parents. They shall respect the civil rights of all and not discriminate

- on the basis of race, national or ethnic origin, culture, religion, sex or sexual orientations, marital status, age, political beliefs, socioeconomic status, disabling condition or vocational interest. This list of bases is not all-inclusive.
- f. Educators shall accept the value of diversity in educational practice. Diversity requires educators to have a range of methodologies, and to request the necessary tools for effective teaching and learning.
 - g. Educators shall impart to their students principles of good citizenship and societal responsibility.
 - h. Educators shall exhibit acceptable and professional language and communications skills. Their verbal and written communications with parents, students, and staff shall reflect sensitivity to the fundamental human rights of dignity, privacy and respect.
 - i. Educators shall be open-minded, knowledgeable, and use appropriate judgment and communications skills when responding to an issue within the education environment.
 - j. Educators shall keep in confidence information obtained in confidence in the course of professional service unless required to be disclosed by law or by clear and compelling professional necessity as determined by the educator.
 - k. Educators shall exert reasonable effort to protect the students from conditions that interfere with learning or are harmful to the student's health and safety.
5. Conduct – Individual professional conduct reflects upon the practices, values, integrity and reputation of the profession. Violations of this Code of Conduct may constitute an independent basis for private or public reprimand, and may be used as supporting evidence in cases of certification suspension and revocation.
 6. Legal obligations:
 - a. The educator may not engage in conduct prohibited by the Teacher certification Law, as amended.
 - b. The educator may not engage in conduct prohibited by:
 1. The Public School Code of 1949, as amended and other laws relating to the schools or the education of children.
 2. The applicable laws of the Commonwealth establishing ethics of public officials and public employees, including the Public Official and Employee Ethics Law. Violations of the above shall have been found to exist by an agency of proper jurisdiction to be considered an independent basis for discipline.
 7. Certification – The educator may not:
 - a. Accept employment, when not properly certified, in a position for which certification is required.
 - b. Assist entry into or continuance in the profession of an unqualified person.
 - c. Employ, or recommend for employment, a person who is not certified appropriately for the position.
 8. Civil Rights – The educators may not:
 - a. Discriminate on the basis of race, national or ethnic origin, culture religion, sex or sexual orientation, marital status, age, political beliefs, socioeconomic status, disabling condition or vocational interest against a student or fellow educator. This list of bases in not all-inclusive. This discrimination shall have been found to exist by an agency of proper jurisdiction to be considered an independent basis for discipline.

MAINTAINING PROFESSIONAL ADULT/STUDENT BOUNDARIES: Policy #824:

Authority

This policy applies to district employees, volunteers, student teachers and independent contractors and their employees who interact with students or are present on school grounds. For purposes of this policy, such individuals are referred to collectively as **adults**. The term **adults** does not include district students who perform services on a volunteer or compensated basis.

All adults shall be expected to maintain professional, moral and ethical relationships with district students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

Definition

For purposes of this policy, **educational reasons** include: matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the adult's job duties.

Delegation of Responsibility

The Superintendent or designee shall annually inform students, parents/guardians, and all adults regarding the contents of this Board policy through employee and student handbooks, posting on the district website,

and by other appropriate methods such as opening day in-service with the possibility for questions and answers.

The building principal or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.

Guidelines

Adults shall establish and maintain clear personal boundaries with students and not engage in any purposeful behavior that is prohibited by this policy or that creates the appearance of prohibited behavior.

Prohibited Conduct

Romantic or Sexual Relationships-

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the district, regardless of the student's age. Students of any age are not legally capable of consenting to romantic or sexual interactions with adults.

Prohibited romantic or sexual interaction involving students includes, but is not limited to-

1. Sexual physical contact.
2. Romantic flirtation, propositions or overt sexual remarks.
3. Sexual slurs, epithets, or sexual comments.
4. Overt sexual jokes, notes, stories, drawings, gestures and pictures.
5. Spreading sexual or romantic rumors.
6. Accepting or giving massages other than in the course of injury care administered by and athletic trainer, coach, or health care provide.

8. Displaying explicit sexual objects, pictures, or depictions to a student with romantic intent.

Social Interactions-

1. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional adult-student relationship.
2. Arranging to (and taking) a student out of class without a legitimate educational reason.
3. Inviting a student to the adult's home without a parental consent or knowledge.
4. Taking a student on outings without prior notification to and approval from both the parent/guardian and the building principal.

6. Furnishing alcohol, drugs or tobacco to a student.
7. Engaging in harassing or discriminatory conduct prohibited by other district policies or by state or federal law and regulations.
8. Displaying explicit sexual objects, pictures, or depictions to a student with romantic intent.

Electronic Communications-

For purposes of this policy, electronic communication shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, computer network. Electronic communications include, but are not limited to, emails, instant messages, and

communications made by means of an Internet website, including social media and other networking websites and apps.

As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational reasons only.

When available, district-provided email or other district-provided communication devices shall be used when communicating electronically with students. The use of district-provided email or other district-provided communication devices shall be in accordance with district policies and procedures.

Electronic communications from coaches and advisors to team or club members shall be sent in a single communication to all participating team or club members whenever possible, except for communications concerning an individual student's medical or academic privacy matters, in which case the building principal and/or Athletic Director will be made aware.

Communications that do not pertain to the sport or activity will be shared with the building principal. Adults shall not follow or accept a request from currently enrolled students to be **friends or connections** on personal social networking sites and shall not create any networking site for communication with students other than those provided by or approved by the district for this purpose, without the prior written approval of the building principal.

Exceptions

An emergency situation or legitimate educational reason may justify deviation from professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationship" section of this policy.

There will be circumstances where personal relationships develop between an adult and a student's family, e.g. when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many adults are involved in various other roles in the community through non-district-related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict an adult's ability to serve in those roles; however, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

Reporting Inappropriate or Suspicious Conduct

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an adult and a student, shall immediately notify the superintendent, principal or another administrator.

All district employees, independent contractors, and volunteers who have reasonable cause to suspect that a child is the victim of child abuse shall immediately report the suspected abuse, in accordance with applicable law, regulations and Board policy.

An educator who knows of any action, inaction, or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline act shall report such misconduct to the Pennsylvania Department of Education on the required form, and shall report such misconduct to the Superintendent and his/her immediate supervisor, within fifteen (15) days of discovery of such misconduct.

If the Superintendent or designee reasonable suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and Board policy.

It is a violation of this policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

Investigation

Allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures utilized for complaints of harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported adult is cleared of any wrongdoing shall not result in disciplinary action against the reporter or any witnesses. If as the result of an investigation any individual, including the reported adult, the reporter, or a witness is found to have intentionally provided false information in making the report or during the investigation or hearings related to the report, or if an individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and district policies. **Obstruction** includes, but is not limited to, violation of “no contact” orders given to the reported adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

Disciplinary Action

A district employee who violates this policy may be subject to disciplinary action, up to and including termination, in accordance with all applicable district disciplinary policies and procedures.

A volunteer, student teacher, or independent contractor or an employee of an independent contractor who violates this policy may be prohibited from working or serving in district schools for an appropriate period of time or permanently, as determined by the Superintendent or designee.

Training

The district shall provide training with respect to the provisions of this policy to current and new district employees, volunteers and student teachers subject to this policy.

The district, at its sole discretion, may require independent contractors and their employees who interact with students or are present on school grounds to receive training on this policy and related procedures.

CURRICULUM

Conneaut School District ~ Curriculum Adoption:

Step 1. Review of current Scope and Sequence

- Committee Representatives review current Curriculum Scope and Sequence and discuss Implementation of PA Core Standards as they apply.
- Discussion on suggested additions/changes to current curriculum is initiated.

Step 2. Alignment to both PA Anchors and PA Assessments

- Committee Representatives realign their current/proposed curriculum to grade-level Pennsylvania anchors and assessments by indicating resource, time of year (month) taught. (include all resources).
- The aligned documents are collected so that the information can eventually be entered into a Scope and Sequence/Curriculum Plan Document.
- Note: additions/changes to be made may take place when texts and additional resources are selected. However: Our Scope and Sequence/Curriculum Documents should *drive instruction, not texts.*

Step 3. Review of Texts, Software, Materials, etc.

- All information shared by Committee Representatives at building and department levels. Thoughts and ideas brought back to planning meetings.
- Votes may be requested if deemed necessary and/or appropriate.

Step 4. Conversation

- Once all alignments are completed and the scope and sequence is updated committee representatives meet to review the scope and sequence document.
- Alignments are updated and elements of the scope and sequence/curriculum plan document are discussed with a focus on the following:
 - Requested texts and materials are identified and reviewed for alignment with the scope and sequence/curriculum plan document.
 - Do teachers need training on any teaching strategies related to the standards?
 - Are the resources comprehensive and effective?
 - Are there holes and gaps in the alignment that need to be addressed?
 - Are all teachers using like resources? If not, is this an issue to address?

Step 5. Scope and Sequence/Curriculum Plan Document

- The completed alignments for the assessed indicators for each grade are transferred to the Scope and Sequence/Curriculum Plan Document.
- The Scope and Sequence/Curriculum Plan documents are shared with teachers. As teachers teach the indicators throughout the year, they should record their instructional activities, essential questions and vocabulary words used in their lessons.
- Teachers do NOT need to create a new Scope and Sequence/Curriculum Plan document every time they teach to an assessed indicator. They can indicate a status of "ongoing" right on their copy of the Scope and Sequence/Curriculum plan document. If a teacher should choose to change their teaching style or activity to an assessed indicator, they should note this on their Scope and Sequence/Curriculum Plan Document and ask to bring this up for possible revision discussion through the Curriculum Director.

Step 6. Curriculum Calendar — build into the Scope and Sequence/Curriculum Plan Document

- While using the Scope and Sequence/Curriculum Plan Document, teachers note their monthly teaching of assessed indicators on the Curriculum Calendar.
- Special attention to activities that prepare students for necessary assessments are noted on the Curriculum Calendar as well.

Step 7. Presentation of recommended Scope and Sequence/Curriculum Plan Document made to the Board for review and possible adoption.

- Presentation made by Director of Curriculum and various members of the adoption committee.

Step 8. Materials ordered following official Adoption of new Scope and Sequence/Curriculum Plan Document

Step 9. End Review — after taught for one year

- Once the Scope and Sequence/Curriculum Plan Document documents and the Curriculum Calendar are created and carried out for the first year, teachers meet to review their alignment against what was actually taught and assessed.
- If there are differences between the alignment and what was taught, the alignment can be updated on the Scope and Sequence/Curriculum Plan Document.
- Use of resources and any additional staff development viewed as necessary should be discussed during this time as well.
- Revisions would need to go to the Board and made to curriculum.

Additional Suggested Activities and Resources

- **Additional Scope and Sequence/Curriculum Plan Document Meetings**
 - Grade level teachers should meet periodically to review their Scope and Sequence/Curriculum Plan Document documents. This can be done

informally at the building level and whenever grades get together such as on certain Act 80 or Staff Development Days. Variations on how to teach indicators can be discussed. This activity is a good way to ensure the Scope and Sequence/Curriculum Plan Document documents are up being followed and are up to date.

- **Data Analysis**
 - On-going part of instruction, assessment and remediation.
