

2023-2024 Reagan Positive Behavior Intervention and Support Annual Summary

How is Reagan's PBIS Tier I implementation progressing?

This school year, our TFI score indicates that we are implementing School-wide Positive Behavior at 70% fidelity. To improve for next year, we need to continue to focus on teaching the school-wide expectations in all grade levels and classrooms. This year, with the support of the Ronald Reagan Parent Club, we have been able to implement quarterly school-wide incentives (Magician Ron Saylor, Glow Party Dance, Zoo to You) for ALL students who are meeting our school-wide expectations. In addition, this year, we have implemented PBIS Surveys to elicit input from students, staff and families. We appreciate your feedback!

For Tier II, we earned a score of 82%. We will continue to strive to provide additional academic, social-emotional and behavioral support to our Reagan students. One of the goals next year is to provide this PBIS Summary quarterly.

What is our Office Discipline Referral recidivism rate?

What is recidivism? It is the rate which the same students return to the office for behavior violations, earning an Office Discipline Referral (ODR) Typically, the expected rates are: 85% or more of student of the population would have 0-1 ODR; 10% or less of the students would earn between 2-5 ODRs; 5% or less of students would earn 6+ ODRs.

We are excited that Reagan's students continually demonstrate excellent behavior. Reagan's recidivism rates are exceedingly better than expected.

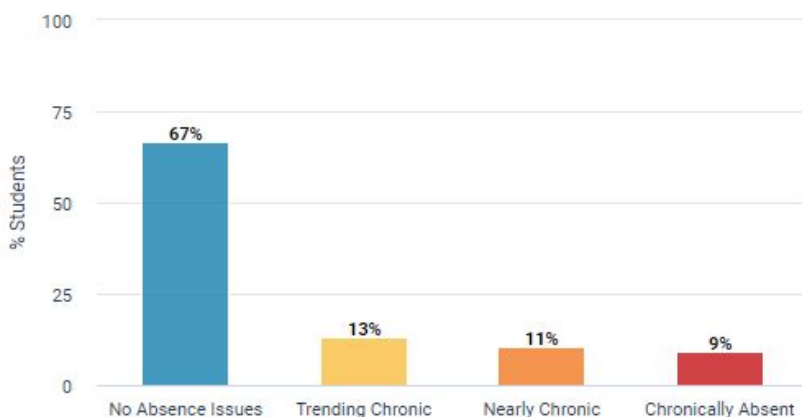

97.64% of Reagan's students have earned 0-1 ODR.

2.25% of Reagan's students have earned between 2-5 ODRs.

.12% of Reagan's students have earned 6 or more ODRs.

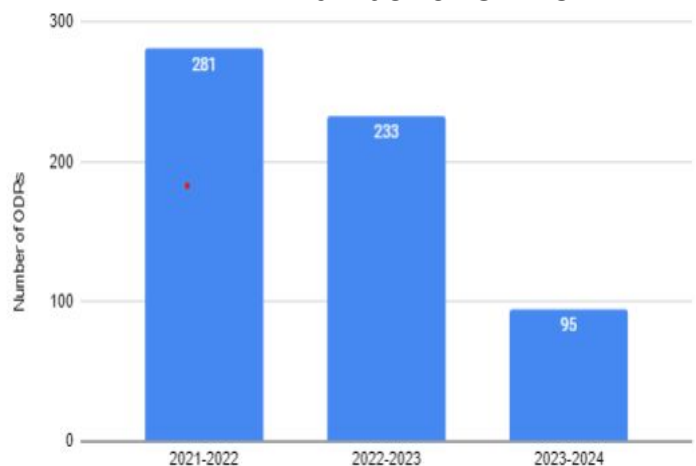

School-wide Data

The percent of students and their level of chronic absence.
