The ABSA Boarder Leadership Conference is an online day designed to assist our boarders to be successful in the unique leadership roles within our residential communities.

The conference will have a range of collaborative lecture style sessions to ensure practical leadership skills and plans can be taken away and used within the boarding setting. ABSA have engaged Burn Bright who are experts in running engaging and impactful leadership programs for high school students to jointly host this conference. Through experiential learning and inspirational team leadership from keynote speakers and practical sessions with the engaging youthful team at Burn Bright, our aim is for boarders to leave confident and with the knowledge about how to lead in a boarding setting.

To attend the conference, we will require boarders to take a period of time off school as detailed below:

Burn Bright Workshop #3: Setting a Successful Vision
What is vision? How do we set ourselves a vision that is going to be successful? In this collaborative workshop Burn Bright will explore the elements of a successful vision and provide students with the tools to set a short term goal (6 months) and a long term goal (12 months). We recognise that the journey to achieving vision isn't linear and requires more than aspiration to be successful. We believe accountability is a major contributor to success; students will have the opportunity to connect and share their vision with others, to ensure a support network in achieving their goals.
