How the plan works

Each member on the plan can choose a primary care physician (PCP) from one of the physician group systems in the Southern California Select Network² – whether it's the one closest to home, school or work.

- PCP selection determines the physician group system with which each member is aligned. Each covered plan member can select a different PCP with any of the physician group systems.
- The PCP coordinates care, including referrals to other providers or specialists.⁴
- Each member must receive care from providers and facilities within the group selected to be considered in-network.⁵
- PCP selection can be changed anytime after the plan start date by visiting myCigna.com[®] or using the [myCigna](#)[®] App.

Provider group coverage by county

Plans may be limited geographically. Providers are located throughout most of the counties. Not all providers may be in the Southern California Select Network.
