Union Public Schools Publicity Opt-Out Form

The Union Public School District uses student names, photographs, and other student information on our websites, social media pages, in news releases, student honor rolls, athletic programs, and in similar school-related or school partner-related publications. Union also provides student information such as names, photographs, and contact information to institutions of post-secondary education who desire to notify students of educational and scholarship opportunities; to the media and community partners for publicity; to governmental agencies; and to the armed services for recruitment purposes. The district will continue to identify students in connection with any of the district's programs or related activities in which students are enrolled or involved, for the purposes listed above and for other similar educational purposes, unless it receives this completed form signed by the student's parent or legal guardian or by the student, if 18 or older.
