We, the undersigned, certify that the attached annual financial reports of the above named school district were reviewed and (check one) approved disapproved for the year ended August 31, 2022, at a meeting of the Board of Trustees of such school district on the 12th day of December 2022.

Signature of Board Secretary

Signature of Board President

If the board of trustees disapproved of the auditors' report, the reason(s) for disapproving it is (are):
(attach list as necessary)

Independent Auditor's Report

To the Board of Trustees of
Kerrville Independent School District
Kerrville, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kerrville Independent School District (the District) as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2022, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Adoption of New Accounting Standard

As discussed in Note 15 to the financial statements, the District has adopted the provisions of Government Accounting Standards Board (GASB) Statement No. 87, *Leases*, for the year ended August 31, 2022. Accordingly, a restatement has been made to the governmental activities' net position as of September 1, 2021, to restate beginning net position. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management’s discussion and analysis, pension plan schedules, OPEB plan schedules, and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District’s basic financial statements. The combining nonmajor fund financial statements, TEA required schedules and the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, TEA required schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated November 29, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

The image shows a handwritten signature in black ink that reads "Eide Bailly LLP". The signature is written in a cursive, flowing style.

Abilene, Texas
November 29, 2022

The management of Kerrville Independent School District (“the District”) offer readers of the annual financial report this narrative discussion and analysis of the District’s financial performance for the year ended August 31, 2022. Readers are encouraged to consider the information presented here in conjunction with the District’s financial statements, which follow this analysis.

FINANCIAL HIGHLIGHTS

- At the close of the year ended August 31, 2022, the District’s assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources. Net position was \$44,416,028. Net investments in capital assets was \$44,189,888.
- The government-wide statements reported total revenues of \$63,345,510, which exceeded total expenses of \$55,802,725 and resulted in a net increase of net position of \$7,542,785 over restated beginning net position of \$36,873,243.
- The governmental funds financial statements reported combined ending fund balance of \$35,038,014 for the year ending August 31, 2022. This balance includes \$23,841,973 in the General Fund which is unassigned and available for spending at the District’s discretion. Restricted fund balance for grants and debt service totals \$2,586,915 and \$845,119 and is included in the Debt Service Fund and Non-Major Funds, respectively. Restricted fund balance for capital acquisitions totals \$4,095,428 and is included in the Capital Projects Fund. Committed fund balance is \$3,354,397 and is included in the General Fund for future construction projects, other future identified needs and other nonmajor funds for campus activity funds. Non-spendable fund balance is \$314,182.
- The General Fund had \$45,793,107 in revenues, which primarily consisted of state aid and property taxes, and \$41,898,282 in expenditures and \$4,957,988 in other financing sources (property sale), which resulted in an increase in fund balance by \$8,852,813 for the year ended August 31, 2022.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—management’s discussion and analysis (this section), the basic financial statements, and required supplementary information.

The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both long-term and short-term information about the District’s overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the government, reporting the District’s operations in more detail than the government-wide statements.
 - The *governmental funds* statements tell how general government services were financed in the short term as well as what remains for future spending.
 - *Proprietary fund* statements offer short- and long-term financial information about the activities the government operates like businesses.
 - *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Major features of the District’s [government-wide](#) and [fund financial statements](#) are summarized below:

Type of Statement	Government-Wide	Fund Financials		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District’s government (except fiduciary funds)	The activities of the District that are not propriety or fiduciary	Activities the District operates similar to private business-health insurance	Instances in which the District is the trustee or agent for someone else’s resources
Required Financial Statements	<ul style="list-style-type: none"> Statement of net position Statement of activities 	<ul style="list-style-type: none"> Balance sheet Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> Statement of net position Statement of revenues, expenses, and changes in net position Statement of cash flows 	<ul style="list-style-type: none"> Statement of fiduciary net position Statement of change in net position
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
Type of Inflow/Outflow Information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after year-end, expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenue and expenses during the year, regardless of when cash is received or paid.	All revenue and expenses during the year, regardless of when cash is received or paid.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District’s finances, in a manner similar to a private-sector company. These statements include:

The Statement of Net Position. The Statement of Net Position (Exhibit A-1) focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of what the District owns (assets), what it owes (liabilities), and the net difference (net position). Net position may be further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in the District's net position may serve as a useful indicator of whether the financial health is improving or deteriorating.

The Statement of Activities. The Statement of Activities (Exhibit B-1) presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing for when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

To assess the overall health of the District, additional nonfinancial factors should be considered, such as changes in the District's property tax base, student enrollment, and facility conditions.

The government-wide financial statements of the District are as follows:

- **Governmental activities**—Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, rather than the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required by State law and by bond covenants, while many other funds are established by the District to help manage resources for particular purposes and compliance with various grant provisions. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out of those funds and (2) the balances left at year-end that are available for spending in future periods. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's educational programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement that explain the relationship (or differences) between them.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, ESSER III Fund, the Capital Projects Fund, and the Debt Service Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation as nonmajor funds.

Proprietary Funds. Services for which the District charges users (other units of the District) a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long and short-term financial information. The District uses internal service funds to report activities that provide supplies and services for the District's transportation fund.

Fiduciary Funds. The District is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that, because of a trust arrangement, may be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. Fiduciary funds are excluded from the District's government-wide financial statements because these resources are not available to finance District operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents other supplementary information, including schedules required by the Texas Education Agency.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's combined net position increased \$7,542,785 from the previous year, as restated, as can be seen on the following table.

Kerrville Independent School District

Management's Discussion and Analysis

August 31, 2022

	Governmental Activities				
	2022		2021 (as restated)		Increase (Decrease)
	Amount	%	Amount	%	Amount
Current and other assets	\$39,240,806	23	\$35,857,351	21	\$ 3,383,455
Capital assets, net of accumulated depreciation	134,331,578	77	135,534,630	79	(1,203,052)
Total assets	173,572,384	100	171,391,981	100	2,180,403
Total deferred outflows of resources	5,841,630	100	6,329,468	100	(487,838)
Other liabilities	3,167,344	3	4,035,415	3	(868,071)
Long-term liabilities outstanding	113,258,413	97	121,688,412	97	(8,429,999)
Total liabilities	116,425,757	100	125,723,827	100	(9,298,070)
Total deferred inflows of resources	18,572,229	100	15,124,379	100	3,447,850
Net position:					
Net investment in capital assets	44,189,888	99	47,918,772	160	(3,728,884)
Restricted	3,454,841	6	2,374,082	8	1,080,759
Unrestricted	(3,228,701)	(36)	(13,419,611)	(68)	10,190,910
Total net position	\$44,416,028	100	\$36,873,243	100	\$ 7,542,785

The District's capital assets, which consist of the District's land, buildings, building improvements, vehicles, and equipment, represent about 77 percent of total assets. The remaining assets consist mainly of investments, cash, grants received, property taxes receivable, inventories and prepaid assets.

The District's long-term liabilities include general obligation bonds, premium on bonds and lease liability (81%) and net pension and OPEB liability (16%). Other liabilities consist almost entirely of payables on accounts and salaries and benefits (3%).

The District's net position includes its investment in capital assets (e.g., land, buildings, equipment, leased assets) less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position may be used to meet the District's ongoing obligations to students, employees, and creditors.

The change in net position is attributed to the following:

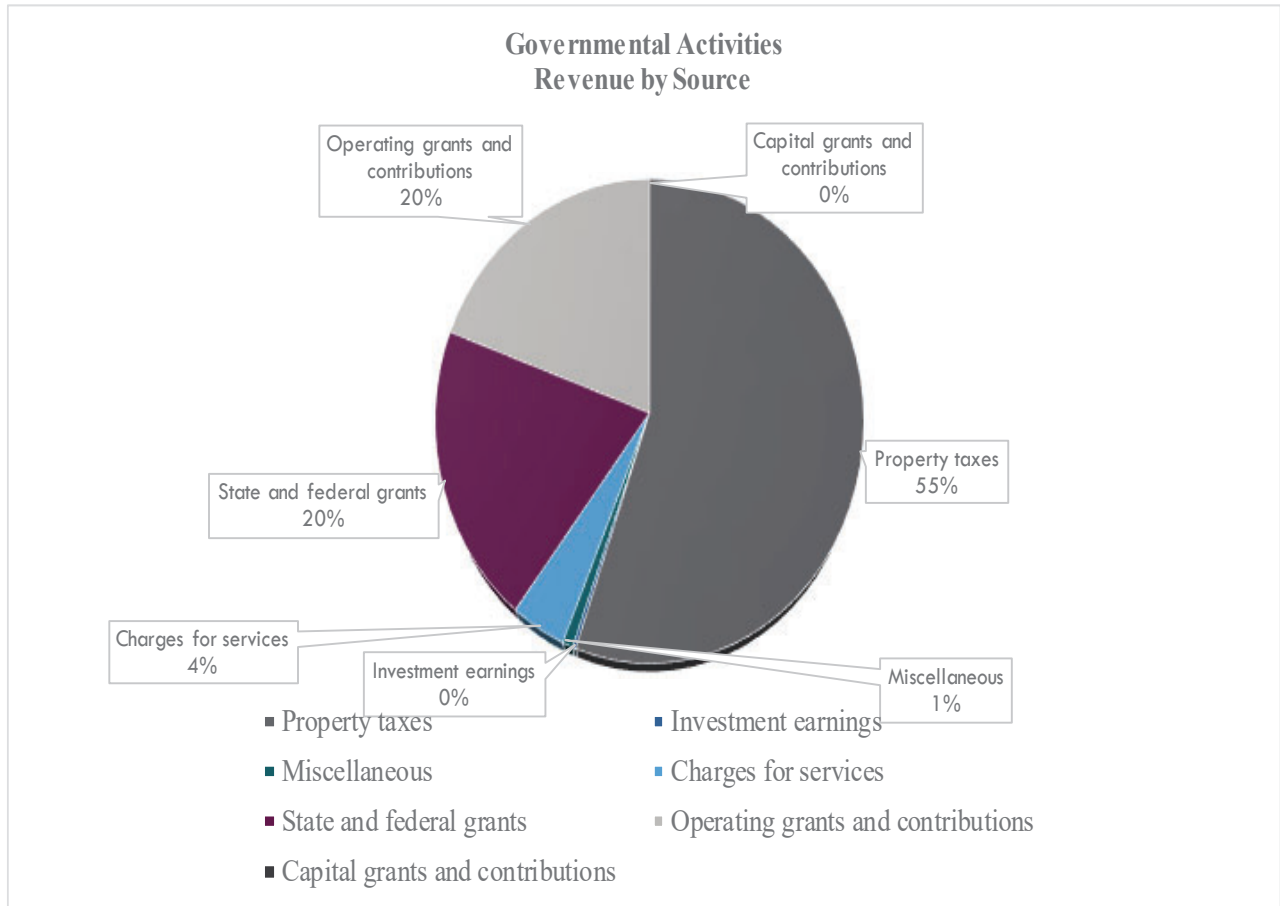

- There was an increase in the property tax base which resulted in additional property tax revenues of approximately \$510,854 during the current fiscal period.
- There was a significant increase in operating grants and contributions (mostly due to ESSER funding) of \$1,056,767.

Governmental Activities

Funding for government-wide activities is by the specific program revenue or through general revenues such as property taxes and investment earnings. Revenues for the District's governmental activities increased \$2,069,454 while total expenses increased \$1,850,732 which resulted in a net increase of net position of \$218,722.

Revenues

The District's total revenues were \$63,345,510, representing an increase of \$2,069,454 from the previous year. The majority of this increase is due to a \$510,854 increase in property tax revenue, \$1,331,581 increase in grants and contributions, and a \$416,979 increase in State Aid. As seen below, approximately 55% of the District's revenue comes from taxes while the remaining 40% comes primarily from program revenue and state and federal sources.

Expenses

The District's total expenses were \$55,802,725, representing an increase of \$1,850,732 from the previous year. The District's primary functional expenses are

- Instruction - \$29,946,829 or 54 percent of total expenses
- Facilities maintenance and operations - \$4,883,111, or 9 percent of total expenses

In total, governmental activities increased the District's net position by \$7,542,785. Key elements of this change are as noted on the following page:

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balance of \$35,038,014, an increase of \$4,531,438 in comparison with the prior year. Approximately 68 percent of this total amount (\$23,841,973) constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of fund balance is nonspendable, restricted, committed or assigned to indicate that it is not available for new spending because it has already been 1) used to purchase inventories (\$38,884), 2) to purchase services for the next fiscal period (\$275,298), 3) committed for construction (\$448,000), 4) committed for various future purposes, such as various capital projects, Instructional Materials Allotment and other items (\$2,260,648), 5) restricted to pay for capital acquisitions (\$4,095,428), 6) restricted to pay debt service (\$2,586,915), 7) for a variety of other restricted purposes (\$845,119). The District's committed fund balance includes \$645,749 for campus activity funds. Assignments reflect the District's self-imposed limitation on the use of otherwise available expendable financial resources in governmental funds.

General Fund. The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$23,841,973, while total fund balance reached \$26,849,266. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 56.9 percent of total General Fund expenditures, while total fund balance represents 64.1 percent of that same amount.

The fund balance of the District's General Fund increased by \$8,852,813 during the current fiscal year. A key factor in this growth are as follows:

- Revenues totaled \$45,793,107 which is a 4 percent increase from previous year.

ESSER III Fund 282. The ESSER III Special Revenue Fund has an ending fund balance of \$0. The fund received \$3,897,285 in revenue during the year, all of which was expended according to grant requirements.

Debt Service Fund. The Debt Service Fund has a total fund balance of \$2,586,915, all of which is restricted for the payment of debt service. The net increase in fund balance was \$501,389.

Capital Projects Fund. The Capital Projects Fund has a total fund balance of \$4,110,965, all of which is restricted for the payment of ongoing capital projects with the issuance of the 2019/2020 Bond Program.

National School Breakfast/Lunch Program Fund. The National School Breakfast/Lunch Program fund has a total fund balance of \$845,119. The net increase in fund balance during the current year in the Child Nutrition Fund was \$551,108.

Budgetary Highlights

The District adopts an annual appropriated budget for the General Fund, the National School Breakfast and Lunch Program, and the Debt Service Fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with statutory requirements.

General Fund. The most significant fund for the District is the General Fund, funded primarily through local property tax revenue. The District's budget amendments presented to the Board of Trustees throughout the year are summarized as follows:

- ***Variances of original expenditure budget compared to amended budget.***
The amended expenditure budget increased in the General Fund \$2,359,748 from the original budget.
- ***Variances of amended budget to actual expenditures.***
Expenditures were \$3,627,213 less than final budgeted amounts.
- ***Variances of original revenue budget compared to actual revenue***
Revenues were more than the final budget by \$2,393,360, largely attributed to State revenue and property taxes.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2022, the District had invested \$134,331,578 in a broad range of capital assets, including land, buildings, equipment, and right of use assets. This amount represents a net decrease of \$1,203,052 or 0.9 percent over last year. Additional information on the District's capital assets can be found in Note 5 of this report.

Net OPEB liability	13,412,754	13,240,339
Lease liability	191,309	300,391
Totals	\$ 113,258,413	\$ 121,688,412

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The local economy continues to be strong. The 2022-23 appraised property values increased by approximately 10.3%. The State funding formulas currently provide that as property tax revenues increase, state funding decreases by a comparable amount.

The Maintenance and Operations (M&O) tax rate decreased to \$0.855 per \$100 valuation for the 2022-23 year. The Interest and Sinking (I&S) tax rate remained at \$.18 per \$100 valuation for an overall rate of \$1.0346 for the 2022-23 year.

General Fund expenditures are budgeted to increase \$1,767,292 over the prior year budgeted expenditures, due to the increase in property values and Indirect Cost from ESSER funding.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Department at 1009 Barnett Street, Kerrville, TX 78028.

Kerrville Independent School District

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position (Exhibit C-1r)
August 31, 2022

Total Fund Balances - Governmental Funds (Exhibit C-1)		\$35,038,014
1 The District uses internal service funds to charge the costs of certain activities, such as transportation costs, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.		839,662
2 Capital assets, net of accumulated depreciation, less assets held in internal service funds, are not financial resources and therefore are not reported as assets in governmental funds.		133,105,292
3 Some liabilities, including bonds payable and leases are not due and payable in the current period and therefore not reported in the funds:		
Lease liability	(191,309)	
Bonds payable	(86,660,000)	
Unamortized premiums on bonds payable	<u>(7,385,809)</u>	(94,237,118)
4 Accrued interest is not due and payable in the current period and therefore is not reported as a liability in the governmental funds.		(153,311)
5 Certain assets are not available to pay for current period expenditures and therefore are deferred in the funds. These are:		
Deferred resource inflow for property taxes		1,079,495
6 The government-wide statements include the District's proportionate share of the TRS net pension liabilities and TRS-Care net OPEB liabilities, as well as certain pension and OPEB related transactions accounted for as deferred inflows and outflows of resources, less amounts held in internal service funds:		
Net pension liability	\$ (5,520,949)	
Deferred outflow of resources - TRS pension	3,422,793	
Deferred inflow of resources - TRS pension	(7,291,030)	
Net OPEB liability	(13,203,279)	
Deferred outflow of resources - TRS-Care OPEB	2,327,605	
Deferred inflow of resources - TRS-Care OPEB	(10,991,146)	<u>(31,256,006)</u>
19 Net position of governmental activities - Statement of Net Position (Exhibit A-1)		<u>\$44,416,028</u>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities (Exhibit C-2r) Year Ended August 31, 2022

Total Net Change in Fund Balances - Governmental Funds (Exhibit C-2)	\$ 4,531,438
The District uses internal service funds to charge the costs of certain activities, such as transportation costs, to appropriate functions in other funds. The change in net position of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase net position.	243,835
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2022 capital outlays of \$6,731,705, removing the remaining net book value of disposed assets of \$3,823,519, bond principal payments of \$2,085,000, lease principal payments of \$109,082 is to increase net position.	5,102,268
2022 depreciation expense of \$4,383,011, less depreciation on assets held in internal service funds, increases accumulated depreciation. 2022 amortization of right of use assets of \$123,844 increases accumulated amortization. The net effect of the current year's activity is to decrease net position.	(4,506,855)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing deferred tax revenue of \$1,079,495 as revenue and removing the prior year's tax collection of \$1,182,721.	(103,226)
Interest payable on long-term debt is accrued in the government-wide financial statements, whereas in the fund financial statements, interest expense is reported when due. The current year change in the accrual is a decrease of \$3,054. The net effect is to increase net position.	3,054
Bond premiums are recorded as other financing sources when received in the fund financial statements but are capitalized and amortized in the government-wide financials. This is the current year amortization.	288,562
Changes in the deferred outflow of resources, deferred inflows of resources and net pension liability must be recorded as expense, less amounts recorded in internal service funds. Changes in contributions made after the measurement date caused the change in net position to increase in the amount of \$380,222. The District's share of the unrecognized deferred inflows and outflows for TRS as of the measurement date must be amortized and the District's proportionate share of the pension expense must be recognized. These cause the change in net position to increase in the amount of \$582,635. The net effect is an increase in net position.	962,857
Changes in the deferred outflow of resources, deferred inflows of resources and net OPEB liability must be recorded as expense, less amounts recorded in internal service funds. Changes in contributions made after the measurement date caused the change in net position to increase in the amount of \$15,191. The District's share of the unrecognized deferred inflows and outflows for TRS as of the measurement date must be amortized and the District's proportionate share of the OPEB expense must be recognized. These cause the change in net position to increase in the amount of \$1,005,661. The net effect is an increase in net position.	1,020,852

Note 1 - Summary of Significant Accounting Policies**Reporting Entity**

The Board of Trustees, a seven-member group, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the Kerrville Independent School District (the District). The public elects the members of the Board of Trustees. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the TEA or to the State Board of Education are reserved for the trustees, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. There are no component units included within the reporting entity. The financial statements of the District include all activities for which the Board exercises these governance responsibilities.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements, as well as the proprietary and fiduciary fund financial statements, are reported using the *economic resources measurement focus* and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

The Proprietary Fund Types and Fiduciary Funds are accounted for using the *economic resources measurement focus and the accrual basis of accounting*. Revenues are recognized in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

Property taxes and penalties and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *ESSER III Grant* accounts for resources restricted by the grantor agency for this federal program.

The *Debt Service Fund*, a governmental fund type, accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *Capital Projects Fund*, a governmental fund type, is used to account for the proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.

Additionally, the District reports the following fund types:

The *special revenue funds*, a governmental fund type, account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The District accounts for each federal and state grant in a separate special revenue fund.

The *internal service fund* is a proprietary fund type. Revenues and expenses are related to services provided to organizations inside the District on a cost reimbursement basis. Internal service funds inherently create redundancy because their expenses are recorded a second time in the fund that are billed for the services they provide. Therefore, on the government-wide financial statements, the operations of the internal service funds are consolidated and interfund transactions are eliminated. The District has an internal service fund for its transportation fund.

The *fiduciary funds*, the District has the following:

Custodial funds – The District accounts for resources held for others in a custodial capacity in custodial funds. The District's Custodial Fund is the student activity fund.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from *nonoperating items*. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the transportation internal service fund are District contributions for the transportation fund. Operating expenses include depreciation and other operating expense and administrative expense for administering the transportation fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources, as they are needed.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments in investment pools are reported at amortized cost.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities column in the government-wide financial statements and in the proprietary fund financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings and improvements	20-50 years
Furniture and equipment	5 years

Inventories

Inventories of supplies on the balance sheet are stated at weighted average cost, while inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Inventory items are recorded as expenditures when they are consumed. Supplies are used for almost all functions of activity, while food commodities are used only in the food service program. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount. Inventories also include plant maintenance and operation supplies as well as instructional supplies.

Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities.

Deferred Outflows/Inflows of Resources

Deferred outflows/inflows of resources are separate elements of the financial statements. The District has deferred inflows of resources, which arises under the modified accrual basis of accounting, unavailable revenue from property taxes and for its proportionate share of TRS's deferred inflow related to pensions as described in Note 9 and its OPEB liability as described in Note 10. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District has deferred outflows of resources for its proportionate share of TRS's deferred outflow related to pensions as described in Note 9 and for its proportionate share of TRS-Care's deferred outflow related to OPEB as described in Note 10.

Property Tax

In the governmental fund financial statements, property tax revenues are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by January 31 of the year following the October 1 levy date. The assessed value of the property tax roll (net of exemptions), upon which the levy for the August 31, 2022 fiscal year was based, was \$3,355,840,589. Taxes are delinquent if not paid by February 1. Delinquent taxes are subject to both penalty and interest charges plus delinquent collection fees for attorney costs.

Current tax collections for the year ended August 31, 2022 were 97.9% of the year-end adjusted tax levy. Allowances for uncollectible taxes within the General Fund are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2022, property taxes receivable, net of estimated uncollectible taxes, totaled \$1,233,017.

The tax rate to finance general governmental services was \$0.872 per \$100 and the tax rate to finance the payment of principal and interest on long-term obligations was \$0.18 per \$100 for the year ended August 31, 2022.

Fund Balance

The District classifies governmental fund balance in accordance with Government Accounting Standards Board (GASB) 54, Fund Balance Reporting and Governmental Fund Type Definitions:

Nonspendable fund balance includes fund balance that cannot be spent either because it is not in spendable form or because of legal or contractual constraints. As of August 31, 2022, the District had \$38,884 of nonspendable fund balance for inventories and \$275,298 for prepaid items.

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. As of August 31, 2022, \$4,095,428 was restricted for capital acquisition and \$845,119 was restricted for Federal grants. Fund balance restricted for the retirement of funded indebtedness totaled \$2,586,915 as of August 31, 2022.

Committed fund balance is established and modified by a resolution from the District's Board, the District's highest level of decision-making authority, and can be used only for the specific purposes determined by the Board's resolution. At August 31, 2022, the District had fund balance committed for the following purposes:

Future turf replacement	\$ 210,000
Future track resurfacing	238,000
Committed - construction	<u>\$ 448,000</u>
Future band uniforms	\$ 65,000
Future E-rate match	170,500
IDEA-B Special Ed set aside	215,000
IMA-Future Use	497,818
Instrument Replacement	67,600
STEM/FFE	85,000
Vehicle Replacement	105,000
Technology Replacement	370,000
Capital Projects	389,530
Bus Replacement	220,000
Campus Activities	645,749
Instructional Technology	75,200
Committed - other	<u>\$ 2,906,397</u>

Assigned fund balance is intended to be used by the District for specific purposes but does not meet the criteria to be classified as restricted or committed. The Board has delegated the authority to assign fund balance to the Superintendent or the Chief Financial Officer. At August 31, 2022, the District had no assigned funds.

Unassigned fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in other classifications.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. The District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made. The District does not have a formal minimum fund balance policy.

Pensions

The fiduciary net position of the Teacher Retirement System (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General Fund is typically used to liquidate pension liabilities.

OPEB

The fiduciary net position of the TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources relating to other-post employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account. The General Fund is typically used to liquidate OPEB liabilities.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Implementation of GASB Statement No. 87

As of September 1, 2021, the District adopted GASB Statement No. 87, *Leases*. The implementation of this standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The standard requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The effect of the implementation of this standard on beginning net position is disclosed in Note 15 and the additional disclosures required by this standard is included in Note 7.

New Accounting Pronouncements***GASB Statement No. 89: Accounting for Interest Cost Incurred Before the End of a Construction Period.***

Statement 89 was issued in June 2018. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This statement becomes effective for the District in fiscal year 2022. The implementation had no significant effect on the District's financial statements

GASB Statement No. 91: Conduit Debt Obligations. Statement 91 was issued in May 2019. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 92: Omnibus 2020. Statement 92 was issued in January 2020. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This standard becomes effective for the District in fiscal year 2022. The implementation had no significant effect on the District's financial statements.

GASB Statement No. 93: Replacement of Interbank Offered Rates. Statement 93 was issued in March 2020. The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. This standard became effective for the District in fiscal year 2021. The implementation had no significant effect on the District's financial statements.

GASB Statement No. 94: Public-Private and Public-Public Partnerships and Availability Payment Arrangements. Statement 94 was issued in March 2020. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. This standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 95: Postponement of Effective Dates of Certain Authoritative Guidance. Statement 95 was issued in May 2020. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. This standard became effective for the District in fiscal year 2020. The implementation had no significant effect on the District's financial statements.

GASB Statement No. 96: Subscription-Based Information Technology Arrangements. Statement 96 was issued in May 2020. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset— an intangible asset— and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. This standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 97: Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. Statement 97 was issued in June 2020. The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. This standard becomes effective for the District in fiscal year 2022. The implementation had no significant effect on the District's financial statements.

GASB Statement No. 98: The Annual Comprehensive Financial Report. Statement 98 was issued in October 2021. This Statement establishes the term "annual comprehensive financial report" and its acronym "ACFR". That new term and acronym replace instances of "comprehensive annual financial report" and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym for "comprehensive annual financial report" sounds like a profoundly objectionable racial slur. This Statement's introduction of the new term is founded on a commitment to promoting inclusiveness. This standard becomes effective for fiscal years ending after December 15, 2021. The District has implemented this statement.

GASB Statement No. 99: Omnibus 2022. Statement 99 was issued in April 2022. The objective of this Statement are to enhance comparability in accounting and financial reporting and to improve consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

The practice issues addressed by this Statement include the classification and reporting of derivative instruments within the scope of *Statement No. 53, Accounting and Financial Reporting for Derivative Instruments*, that do not meet the definition of either an investment derivative instrument or a hedging derivative instrument. Clarification of provisions in *Statement No. 87, Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives. Clarification of provisions in *Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public partnership (PPP) term and (b) recognition and measurement of installment payments and the transfer of the underlying PPP asset. Clarification of provisions in *Statement No. 96, Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability. Extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt. Accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP). Disclosures related to nonmonetary transactions. Pledges of future revenues when resources are not received by the pledging government. Clarification of provisions in *Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, as amended, related to the focus of the government-wide financial statements. Terminology updates related to certain provisions of *Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Terminology used in Statement 53 to refer to resource flows statements.

The requirements of Statement 99 that are related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance. The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. The District has not yet determined the impact of this statement.

GASB issued Statement No. 100, Accounting Changes and Error Corrections. Statement 100 was issued in June 2022 and is an amendment of GASB Statement No. 62. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for accounting changes and error corrections made in fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

GASB issued Statement No. 101, *Compensated Absences*. Statement 101 was issued in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. The effects of this change on the District's financial statements have not yet been determined.

Note 2 - Stewardship, Compliance and Accountability

Budgetary Information

Formal budgetary accounting is employed for all required Governmental Fund Types, as outlined in TEA's Financial Accounting Resource (FAR) module and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required Governmental Fund Types prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Debt Service Fund, and the Child Nutrition Program. The remaining special revenue funds adopt project-length budgets that do not correspond to the District's fiscal year.

Note 3 - Fair Value Measurements

GASB Statement No. 72, *Fair Value Measurement and Application* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into three-level fair value hierarchy as follows:

Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.

Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.

Level 3 inputs are observable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

Market approach – uses prices generated by market transactions involving identical or comparable assets or liabilities.

Cost approach – uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).

Income approach – uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Note 4 - Detailed Notes on All Funds

Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent, bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) coverage. In order to maximize return on cash balances, the District uses consolidated bank accounts from which all disbursements are made, with cash in excess of the District's total daily requirement being invested for future needs.

At August 31, 2022, the bank balance of \$8,055,416 was on deposit with the contracted depository bank. District funds are insured up to \$250,000 for the combined amount of all time and savings accounts, and up to an additional \$250,000 for the combined total of all Demand Deposit Accounts (DDA's). Interest-bearing accounts were collateralized by pledged United States government securities with a fair value of \$11,899,530 at August 31, 2022, held by Security State Bank & Trust. Because Security State Bank & Trust holds the pledged securities in trust on behalf of the District, the deposits were deemed collateralized under Texas law. All campus activity funds were centralized and were on deposit with the contracted depository.

Investments

The Texas legislature passed the Public Funds Investment Act of 1995 ("Public Funds Investment Act") which authorizes the District to invest its excess funds in the following:

- Obligations of the United States or its agencies and instrumentalities,
- Obligations of the State of Texas or its agencies, and instrumentalities,
- Other obligations guaranteed by the United States or the State of Texas or their agencies and instrumentalities,
- Public funds investment pools,
- No load money market funds with a weighted average maturity of 90 days or less,
- Fully collateralized repurchase agreements,

- Obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality not less than an “A”, or its equivalent, by a nationally recognized investment rating firm,
- Commercial paper having a stated maturity of 365 days or fewer from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies or one nationally recognized credit agency and is fully secured by an irrevocable letter of credit,
- Guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds,
- Guaranteed or secured certificates of deposit, issued by state and national banks domiciled in Texas, and insured by federal depository insurance or secured by the obligations mentioned above,
- Bonds issued, assumed or guaranteed by the State of Israel, and Secured corporate bonds rated not lower than “AA—” or the equivalent.

The Public Funds Investment Act requires an annual review and approval of investment policies and practices. The review disclosed that in this area of investment practices, management reports and establishment of appropriate policies, the District materially adhered to the requirements of the Public Funds Investment Act. Additionally, investment practices of the District were in accordance with local policies, which are more restrictive than state statutes.

As of August 31, 2022, the following are cash equivalents and investments held by the District, with respective maturities and credit rating:

Type of Investment	Book Value	Percent	Fair Value	Percent	Maturity in Less Than 1 Year	Maturity in 1-10 years	Credit Rating
Cash	\$ 6,348,849	20.0%	\$ 6,348,849	0.5%	\$ 1,338,438	\$ -	N/A
Investment pools:							
TexPool	2,670,979	8%	2,670,979	48%	2,670,979	-	AAAm
Lone Star/First Public	22,748,765	72%	22,748,765	51%	22,748,765	-	AAA
Total investment pools	25,419,744	80.0%	25,419,744	99.5%	25,419,744	-	
Total cash and investments	\$31,768,593	100%	\$31,768,593	100%	\$ 26,758,182	\$ -	

Investment Pools are measured at amortized cost or net asset value, i.e. fair value. As such, these investments are not required to be reported in the fair value hierarchy.

The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both Participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool Shares. Audited financial statements of the pool are available at First Public, 12008 Research Blvd., Austin, Texas 78759. In addition, TexPool is subject to review by the State Auditor's Office and by the Internal Auditor of the Comptroller's Office.

Lone Star Investment Pool is governed by an 11-member board and is a AAA rated investment program tailored to the investment needs of local governments within the state of Texas. Lone Star Investment Pool assists governments across Texas make the most of taxpayer dollars. Local officials can improve the return on their invested balances by pooling their money with other entities to achieve economies of scale in a conservative fund in full compliance with the Texas Public Funds Investment Act. Lone Star Investment Pool is a local government investment pool organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. Lone Star uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in Lone Star is the same as the value of Lone Star Shares. Lone Star is administered by First Public LLC, who also serves as the investment advisor. The reported value of the pool is the same as the fair value of the pool shares.

Interest Rate Risk

In accordance with the District's investment policy, investments are made in a manner that ensures the safety of the principal, to maintain liquidity and to maximize financial returns within current market conditions. Investments shall be made in a manner to ensure the preservation of capital in the overall portfolio, and offsets during a twelve-month period any market price losses resulting from interest-rate fluctuations by income received from the balance of the portfolio. The District's investment strategy states that no individual transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio.

Credit Risk

The District's investments in Local Government Investment Pools (LGIP's) includes: TexPool and Lone Star/First Public. This is a public fund investment pool operating in full compliance with the Public Funds Investment Act. TexPool is rated AAAM by Standard and Poor's. Lone Star/First Public is rated AAA b Standard and Poor's.

Concentration of Credit Risk

The District's investment portfolio is diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from overconcentration of assets in a specific class of investments, specific maturity or specific issuer.

Custodial Credit Risk – Deposits

This is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. All deposits not covered by FDIC insurance but held in the depository bank, Security State Bank & Trust, were fully collateralized.

Foreign Currency Risk

As of August 31, 2022, there are no foreign currency investments in the District's portfolio.

Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2022, are summarized below:

Governmental Activities	State Grants/ Entitlements	Federal Grants	Total
General fund	\$ 1,120,976	\$ -	\$ 1,120,976
Fund 282 - ESSER III	-	2,240,159	2,240,159
Nonmajor governmental funds	183,609	2,389,571	2,573,180
	\$ 1,304,585	\$ 4,629,730	\$ 5,934,315

Interfund Receivables / Payables

In the fund financial statements, interfund balances are the results of normal transactions between funds and will be liquidated in the subsequent fiscal year.

Interfund balances at August 31, 2022, resulting from payroll and accumulated fund charges, consisted of the following individual fund balances:

Due from/to other funds	Interfund Receivables	Interfund Payables
General fund	\$ 3,893,759	\$ 70,285
Fund 282 - ESSER III	-	1,635,700
Debt service fund	13,396	-
Capital projects fund	56,502	20,060
Nonmajor governmental funds	-	2,236,437
Internal service fund	-	1,175
	\$ 3,963,657	\$ 3,963,657

Related Party Transactions

For the year ended August 31, 2022, the District paid \$19,054 to a vendor that employs a member of the Board.

Note 5 - Capital Asset Activity

Capital asset activity for the District for the year ended August 31, 2022, was as follows:

	Beginning Balances (as restated)	Additions	Reductions	Ending Balances
Governmental activities				
Capital assets, not being depreciated				
Land	\$ 5,922,426	\$ -	\$ -	\$ 5,922,426
Construction in progress	-	15,350	-	15,350

	<u> </u>
Total depreciation expense - governmental activities	<u><u>\$ 4,564,767</u></u>

Amortization expense was charged to the District's functions as follows:

Amortization expense was charged to the District's functions as follows:

Governmental activities	
11 Instruction	\$ 123,844
	<u> </u>
Total amortization expense - governmental activities	<u><u>\$ 123,844</u></u>

Construction Commitments

The construction in progress noted above is for a storage shed for an upcoming project. Budget details on the upcoming project are still being planned out.

Note 6 - Long-Term Debt

The long-term indebtedness of the District pertains to the Governmental Activities of the District. Expenditures for the debt service requirements of the long-term debt are accounted for in the General Fund and Debt Service Fund.

A summary of bond issuances and other general long-term debt original amounts issued, interest rates, and maturity dates as of August 31, 2022 is as follows:

Bond Issuances	Amounts Original Issued	Interest Rate Payable	Maturity Date
Unlimited Tax School Building Bonds Series 2013	\$ 5,970,000	2% to 4%	August 15, 2033
Unlimited Tax School Building Bond Series 2019	49,070,000	2% to 5%	August 15, 2048
Unlimited Tax School Building Bond Series 2020	34,055,000	2% to 5%	August 15, 2049
Total bonds payable

Notes to Financial Statements

August 31, 2022

A summary of changes in general long-term debt for the year ended August 31, 2022 is as follows:

Bond Issuances	Beginning Balance (as restated)	Debt Issued	Principal Retired	Ending Balance	Due Within One Year
Unlimited Tax School Building Bonds Series 2013	\$ 5,620,000	\$ -	\$ (375,000)	\$ 5,245,000	\$ 390,000
Unlimited Tax School Building Bond Series 2019	49,070,000	-	(1,060,000)	48,010,000	1,080,000
Unlimited Tax School Building Bond Series 2020	34,055,000	-	(650,000)	33,405,000	680,000
Total bonds payable	88,745,000	-	(2,085,000)	86,660,000	2,150,000
<u>Leases</u>					
Xerox	289,600	-	(103,288)	186,312	123,693
Quadient	10,791	-	(5,794)	4,997	4,997
Total leases payable	300,391	-	(109,082)	191,309	128,690
Total general long-term debt	\$ 89,045,391	\$ -	\$ (2,194,082)	\$ 86,851,309	\$ 2,278,690

Debt service requirements for the District's bonds are as follows:

Year Ended August 31,	Principal	Interest	Total Requirements
2023	\$ 2,150,000	\$ 3,449,506	\$ 5,599,506
2024	2,225,000	3,374,306	5,599,306
2025	2,275,000	3,318,931	5,593,931
2026	2,395,000	3,209,381	5,604,381
2027	2,490,000	3,105,981	5,595,981
2028-2032	14,350,000	13,652,155	28,002,155
2033-2037	15,015,000	10,568,925	25,583,925
2038-2042	17,560,000	7,442,675	25,002,675
2043-2047	21,520,000	3,483,038	25,003,038
2048-2049	6,680,000	272,575	6,952,575
	\$ 86,660,000	\$ 51,877,473	\$ 138,537,473

Payment requirements for the District's leases are as follows:

Year Ending August 31,	Principal	Interest	Total Requirements
2023	\$ 128,690	\$ 2,114	\$ 130,804
2024	62,619	249	62,868
Total	<u>\$ 191,309</u>	<u>\$ 2,363</u>	<u>\$ 193,672</u>

A summary of changes of total bonds payable and other long-term debt follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
Bonds payable					
General obligation bonds	\$88,745,000	\$ -	\$(2,085,000)	\$86,660,000	\$ 2,150,000
Premium on bond payable	7,674,371	-	(288,562)	7,385,809	-
Total bonds payable, net	<u>96,419,371</u>	<u>-</u>	<u>(2,373,562)</u>	<u>94,045,809</u>	<u>2,150,000</u>
Lease liability	300,391	-	(109,082)	191,309	128,690
Governmental activities long-term liabilities	<u>\$96,719,762</u>	<u>\$ -</u>	<u>\$(2,482,644)</u>	<u>\$94,237,118</u>	<u>\$ 2,278,690</u>

There are a number of limitations and restrictions contained in the general obligation bond indentures. Management has indicated that the District is in compliance with all significant limitations and restrictions as of August 31, 2022.

Vacations are to be taken within the same year they are earned, and any unused days at the end of the year are forfeited. Therefore, no liability for vacation leave has been accrued in the accompanying financial statements. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, a liability for unused sick leave has not been recorded in the accompanying financial statements.

Note 7 - Leases

The District entered an agreement to lease copiers for District-wide use beginning January 2020. Under the terms of the lease, the District pays a monthly fee of \$10,487. The lease terminates on February 11, 2024.

The District entered an agreement to lease postage meter for District-wide use beginning July 2018. Under the terms of the lease, the District pays a monthly fee of \$508. The lease terminates on June 30, 2023.

At August 31, 2022, the District has recognized a right to use asset, net of accumulated amortization, of \$185,247 and a lease liability of \$191,309 related to these agreements. During the fiscal year, the District recorded \$123,844 in amortization expense and \$4,220 in interest expense for the right to use the copier and postage meter. The District used a discount rate of 1.66% on the copier lease and 3.75% for the postage meter lease. The discount rates were based on the risk-free rate published by the United States Treasury as the District has no comparable publicly traded debt. The rates are then adjusted for the specific terms of each lease and the rating of the entity.

Remaining obligations associated with these leases are as follows:

Year Ending August 31,	Principal	Interest	Total Requirements
2023	\$ 128,690	\$ 2,114	\$ 130,804
2024	62,619	249	62,868
Total	<u>\$ 191,309</u>	<u>\$ 2,363</u>	<u>\$ 193,672</u>

Note 8 - Contingencies

The District is a party to legal proceedings that allege violations of Title IX of the Education Amendments of 1971. Management intends to vigorously defend the case and believes that there will be no material effect on the financial condition of the District. Legal advice obtained as of the date of the financial statements indicated that should the plaintiff prevail, the plaintiff may be entitled to actual damages, compensatory damages and attorney fees; however, no range of loss can be estimated. Accordingly, no provision for losses has been recorded in the accompanying financial statements for such contingencies.

The District participates in numerous state and federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2022, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Note 9 - Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C.

The pension trust fund is a qualified pension trust under Section 401 (a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_publications.aspx ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a State contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025.

	Contribution Rates	
	2021	2022
Member	7.70%	8.00%
Non-employer contributing entity (State)	7.50%	7.75%
Employers/District	7.50%	7.75%

The contribution amounts for the District are as follows:

	2021	2022
Member contributions	\$ 2,285,574	\$ 2,467,923
NECE on-behalf contributions (State)	1,718,948	1,748,802
District contributions	939,837	1,320,059

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools and regional education service centers must contribute 1.6% of the member's salary beginning in fiscal year 2020, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of the TRS the employer shall pay both the member contribution and State contribution as an employment after retirement surcharge.

Actuarial Assumptions

The total pension liability in the August 31, 2020 actuarial valuation rolled forward to August 31, 2021 was determined using the following actuarial assumptions:

Valuation Date	August 31, 2020 rolled forward to August 31, 2021
Actuarial Cost Method	Individual entry age normal
Asset Valuation Method	Market value
Single Discount Rate	7.25%
Long-term expected Investment Rate of Return	7.25%
Municipal Bond Rate as of August 2020	1.95%
Inflation	2.30%
Salary Increases including inflation	3.05% to 9.05%
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. For a full description of these assumptions, please see the actuarial valuation report dated November 9, 2020.

Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 session. It is assumed that future employer and State contributions will be 8.5% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and State contributions for active and rehired retirees.

Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System’s target allocation as of August 31, 2021 (see page 53 of the TRS ACFR) are summarized on the following page.

**Teacher Retirement System of Texas
Asset Allocation and Long-Term Expected Real Rate of Return as of August 31, 2021**

Asset Class ⁴	Target Allocation ¹	Long-Term Expected Arithmetic Real Rate of Return ²	Expected Contribution to Long-Term Portfolio Returns
Global Equity			
USA	18.0%	3.6%	0.94%
Non-U.S. Developed	13.0%	4.4%	0.83%
Emerging Markets	9.0%	4.6%	0.74%
Private Equity	14.0%	6.3%	1.36%
Stable Value			
Government Bonds	16.0%	-0.2%	0.01%
Absolute Return	0.0%	1.1%	0.00%
Stable Value Hedge Funds	5.0%	2.2%	0.12%
Real Return			
Real Estate	15.0%	4.5%	1.00%
Energy and Natural Resources and Infrastructure	6.0%	4.7%	0.35%
Commodities	0.0%	1.7%	0.00%
Risk Parity			
Risk Parity	8.0%	2.8%	0.28%
Leverage			
Cash	2.0%	-0.7%	-0.01%
Asset Allocation Leverage	-6.0%	-0.5%	0.03%
Inflation Expectation			2.20%
Volatility Drag ³			-0.95%
Total	<u>100%</u>		<u>6.90%</u>

¹ Target Allocation based on the FY 2021 policy manual.

² Capital Market Assumptions come from Aon Hewitt (as of 8/31/2021).

³ The volatility drag results from the conversion between arithmetic and geometric mean returns.

⁴ Absolute Return includes Credit Sensitive instruments.

Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.25%, and what the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate.

	1% Decrease Discount Rate (6.25%)	Discount Rate (7.25%)	1% Decrease in Discount Rate (8.25%)
Total TRS net pension liability	\$ 55,648,259,551	\$ 24,466,461,134	\$ 979,861,293
District's proportionate share of the net pension liability	\$ 12,756,465	\$ 5,608,541	\$ 224,617

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2022, the District reported a liability of \$5,608,541 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 5,608,541
State's proportionate share that is associated with the District	10,241,303
Total	\$ 15,849,844

The net pension liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

At August 31, 2021, the employer's proportion of the collective net pension liability was .0220232% which was a decrease of .000125% from its proportion measured as of August 31, 2020.

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the fiscal year ended August 31, 2022, the District recognized pension expense of \$369,701 and revenue of \$1,716,159 for support provided by the State.

At August 31, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 9,386	\$ 394,846
Changes in actuarial assumptions	1,982,510	864,204
Difference between projected and actual investment earnings	-	4,702,689
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	165,142	1,444,966
Contributions paid to TRS subsequent to the measurement date	1,320,059	-
Total	\$ 3,477,097	\$ 7,406,705

\$1,320,059 is reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended August 31, 2023.

The other net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended August 31,	Pension Expense Amount
2023	\$ (938,241)
2024	(1,076,794)
2025	(1,449,345)
2026	(1,675,276)
2027	(102,085)
Thereafter	(7,926)
Total	\$ (5,249,667)

Note 10 - Postemployment Health Benefits**Plan Description**

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code, Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend the benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet https://www.trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-retirement benefit changes, including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Premium Monthly Rates

	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor:

Contribution Rates		
	2021	2022
Active employee	0.65%	0.65%
Non-employer contributing entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private funding remitted by employers	1.25%	1.25%
	2021	2022
Employer contributions	\$ 271,641	\$ 286,832
Member contributions	192,936	200,520
NECE on-behalf contributions	332,716	340,318

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations authorized by Senate Bill 1264 of the 86th Legislature as the Non-Employer Contributing Entity in the amount of \$5.5 million in fiscal year 2021 for consumer protections against medical and health care billing by certain out-of-network providers.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2021. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for the TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2020 TRS pension plan actuarial valuation that was rolled forward to August 31, 2021:

Rates of mortality	General inflation
Rates of retirement	Wage inflation
Rates of termination	Salary increases
Rates of disability incidence	

The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Rates. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2018.

Additional Actuarial Methods and Assumptions

Valuation Date	August 31, 2020 rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Discount Rate	1.95% as of August 31, 2021
Aging Factors	Based on plan specific experience
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65; 25% of pre-65 retirees are assumed to discontinue coverage
Salary Increases	3.05% to 9.05%
Healthcare Trend Rates	4.25% to 8.5%
	The initial medical trend rates were 8.50% for Medicare retirees and 7.10% for non-Medicare retirees. There was an initial prescription drug trend rate of 8.5% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65; 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Ad hoc post-employment benefit changes	None

Discount Rate

A single discount rate of 1.95% was used to measure the total OPEB liability. There was a decrease of 0.38% in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-Year Municipal GO AA Index.”

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% lower than and 1% higher than the discount rate that was used (1.95%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (0.95%)	Discount Rate (1.95%)	1% Decrease in Discount Rate (2.95%)
Total TRS Net OPEB Liability	\$ 46,529,697,637	\$ 38,574,468,613	\$ 32,313,444,468
District's proportionate share of the Net OPEB Liability	\$ 16,178,872	\$ 13,412,754	\$ 11,235,729

Healthcare Cost Trend Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates used:

	1% Decrease in Healthcare Trend Rate	Current Single Healthcare Trend Rate	1% Increase in Healthcare Trend Rate
Total TRS net OPEB liability	\$ 31,244,041,262	\$ 38,574,468,613	\$ 48,410,081,189
District's proportionate share of the OPEB liability	\$ 10,863,886	\$ 13,412,754	\$ 16,832,701

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2022, the District reported a liability of \$13,412,754 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 13,412,754
State's proportionate share that is associated with the District	17,970,101
	<hr/>
Total	\$ 31,382,855
	<hr/> <hr/>

The Net OPEB Liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

At August 31, 2022, the District's proportion of the collective Net OPEB Liability was 0.0347710666% compared to 0.0348296925% as of August 31, 2021.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability since the prior measurement period:

- The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021. This change increased the Total OPEB liability.

Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2022, the District recognized OPEB expense of \$907,823 and revenue of \$363,938 for support provided by the State.

At August 31, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 577,483	\$ 6,492,711
Changes in actuarial assumptions	1,485,620	2,836,549
Difference between projected and actual investment earnings	14,562	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	36	1,836,264
Contributions paid to TRS subsequent to the measurement date	286,832	-
Total	\$ 2,364,533	\$ 11,165,524

\$286,832 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the year ended August 31, 2023.

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended August 31,	OPEB Expense Amount
2023	\$ (1,739,825)
2024	(1,740,154)
2025	(1,740,064)
2026	(1,387,008)
2027	(909,026)
Thereafter	(1,571,746)
Total	<u>\$ (9,087,823)</u>

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for TRS-Care to receive retiree drug subsidy payments from federal governments to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments have been recognized as equal revenue and expenditures by the District in the amount of \$131,583, \$131,724, and \$127,737, for the years ended August 31, 2022, 2021 and 2020, respectively.

Note 11 - Unavailable Revenue and Unearned Revenue

Unavailable revenue at year-end in the fund financial statements consisted of the following:

	General Fund	Debt Service	Total
Unavailable tax collections	\$ 918,914	\$ 160,581	\$ 1,079,495
Total	<u>\$ 918,914</u>	<u>\$ 160,581</u>	<u>\$ 1,079,495</u>

Unearned revenue at year-end in the fund financial statements consisted of the following:

	General Fund	Debt Service	Total
Unearned state revenue	\$ -	\$ 7,830	\$ 7,830
Unearned local revenue	100,470	-	100,470
Total	<u>\$ 100,470</u>	<u>\$ 7,830</u>	<u>\$ 108,300</u>

Note 12 - Revenues from Local and Intermediate Sources

For the year ended August 31, 2022, revenues from local and intermediate sources for governmental fund types consisted of the following:

	General Fund	Debt Service Fund	Capital Projects Fund	Nonmajor Governmental Funds	Total
Property taxes	\$ 29,195,036	\$ 6,005,341	\$ -	\$ -	\$ 35,200,377
Penalties, interest, and other tax related income	388,113	68,140	-	-	456,253
Food service sales	-	-	-	294,631	294,631
Investment income	123,898	21,003	19,912	-	164,813
Campus activity related income	-	-	-	970,053	970,053
Tuition	292,579	-	-	-	292,579
Cocurricular student activities	121,407	-	-	-	121,407
Other	331,538	-	-	1,575	333,113
Total	\$ 30,452,571	\$ 6,094,484	\$ 19,912	\$ 1,266,259	\$ 37,833,226

Note 13 - General Fund Federal Source Revenues

Revenues from federal sources, which are reported in the General Fund, consist of:

	CFDA	Amount
Medicaid Administrative Claiming	93.778	\$ 30,094
School of Health and Related Services	N/A	532,797
Indirect costs:		
Title I, Part A	84.010A	40,625
Career and Technical Education	84.048	2,276

Note 14 - Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2022, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

During the year ended August 31, 2022, employees of the District were covered by TRS-ActiveCare, a statewide health care benefits program for active public education employees, authorized by House Bill 3343 by the 77th Texas Legislature. The program is administered by the TRS, with Aetna as the health plan administrator and Caremark as the pharmacy benefits manager. The District contributes \$360 per month per active employee to the plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to TRS-ActiveCare.

Workers' Compensation Insurance

During the year ended August 31, 2022, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's workers' compensation program is authorized by Chapter 504, Texas Labor Code. All districts participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the District is responsible for a certain amount of claims liability as outlined on the District's Contribution and Coverage Summary document. After the District's deductible has been met, the Fund is responsible for additional claims.

The Fund and its members are protected against higher-than-expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully fund those reserves. As of August 31, 2021, the Fund carries a discounted reserve of \$44,985,187 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2022, the Fund anticipates no additional liability beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each plan year on August 31 and is approved by the Fund's Board of Trustee in February of the following year. The Fund's audited financial statements as of August 31, 2021, are available at the TASB offices and have been filed with the Texas State Board of Insurance in Austin.

Tax Abatements

In compliance with GASB Statement No. 77, the District did not have any outstanding tax abatements for the year ended August 31, 2022.

Note 15 - Adoption of New Standard

As of September 1, 2021, the District adopted GASB Statement No. 87, *Leases*. The implementation of this standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. See additional disclosures required by this standard in Note 7.

Beginning net position was restated to retroactively adopt the provisions of GASB Statement No. 87 as follows:

	Governmental Activities
Net position at September 1, 2021 as previously reported	\$ 36,864,543
Add right-to-use intangible asset, net of amortization under GASB Statement No. 87 at September 1, 2021	309,091
Add lease liability under GASB Statement No. 87 at September 1, 2021	(300,391)
Net position at September 1, 2021, as restated	\$ 36,873,243

Note 1 - Budget

Budgetary Information

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the general fund, debt service fund, and the National School Breakfast and Lunch Program special revenue fund. The Texas Education Code requires the budget to be prepared not later than August 20 and adopted by August 31 of each year. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

The following procedures are followed in establishing the budgetary data reflected in the fund financial schedules:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is formally approved and adopted by the Board.

The appropriated budget is prepared by fund and function. The District's campus/department heads may make transfers of appropriations within a campus or department. Transfers of appropriations between campuses or departments require the approval of the District's management. Increasing any one of the functional spending categories, or revenues object accounts and other resources require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. All annual appropriations lapse at fiscal year-end.

Note 2 - Pension

Changes of Benefit Terms

There were no changes to benefit terms that affected the measurement of the total pension liability during the measurement period.

Changes in the Size or Composition of the Population Covered by the Benefit Terms

There were no changes in the size or composition of the population covered by the benefit terms during the measurement period.

Changes of Assumptions

There were no changes in assumptions since the prior measurement date.

Note 3 - OPEB

Changes of Benefit Terms

There were minor benefit revisions that have been adopted since the prior remeasurement date. These changes are not expected to have a significant impact on plan costs.

Changes in the Size or Composition of the Population Covered by the Benefit Terms

There were no changes in the size or composition of the population covered by the benefit terms during the measurement period.

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB Liability since the prior measurement period:

- The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021. This change increased the Total OPEB liability.

Kerrville Independent School District

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Trustees of
Kerrville Independent School District
Kerrville, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kerrville Independent School District (the District) as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated November 29, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The image shows a handwritten signature in cursive script that reads "Eide Bailly LLP". The signature is written in black ink and is positioned to the left of the typed address and date.

Independent Auditor’s Report on Compliance for Each Major Federal Program, Report on Internal Control Over Compliance Required by the Uniform Guidance

The Board of Trustees of
Kerrville Independent School District
Kerrville, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Kerrville Independent School District’s (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended August 31, 2022. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District’s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses or significant deficiencies, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal government for the year ended August 31, 2022. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

Note 2 - Summary of Significant Accounting Policies

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All federal expenditures were accounted for in the General Fund and Special Revenue Funds, components of the Governmental Fund type. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. No federal financial assistance has been provided to a subrecipient.

Federal grants are considered to be earned to the extent of expenditures made under the provisions of the grant.

School health and related services revenues are considered earned income at the local government level and thus are not included in the Schedule of Expenditures of Federal Awards. The following is a reconciliation of Federal Revenues on Exhibit C-2 to the Schedule of Expenditures of Federal Awards:

Total expenditures of federal awards per Exhibit K-1	\$ 11,628,296
School Health and Related Services	532,797

Total federal revenues per Exhibit C-2	\$ 12,161,093

Note 3 - Indirect Cost Rate

The District is not eligible to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance because the District has previously received a negotiated indirect cost rate for its federal awards.

Note 4 - Food Donation

Nonmonetary assistance is reported in this schedule at the fair market value of the commodities received and disbursed.

Section I – Summary of Auditor’s Results

FINANCIAL STATEMENTS

Type of auditor's report issued	Unmodified
Internal control over financial reporting:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	None reported
Noncompliance material to financial statements noted?	No

FEDERAL AWARDS

Internal control over major program:	
Material weakness identified	No
Significant deficiencies identified not considered to be material weaknesses	None reported
Type of auditor's report issued on compliance for major programs:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance 2 CFR 200.516:	No

Identification of major programs:
