GRADE LEVEL: 2nd grade COURSE NAME: Science
MEASUREMENT TOPIC: Determine Physical Properties of Matter

4	In addition to Score 3, the student makes in-depth inferences and applications. The student can: <ul style="list-style-type: none">• Justify why one structure is more successful than another.
3	The student can: <ul style="list-style-type: none">• Determine suitable uses of materials based on their observable properties, including strength, flexibility, hardness, absorbency, and texture. (2)• Explain how structures can be disassembled and then reassembled as a new and different structure. (3)
2	The student can: <ul style="list-style-type: none">• Sort materials based on properties, including strength, flexibility, hardness, absorbency, and texture.• Demonstrate how structures can be disassembled and then reassembled as new and different structures.

1

With help, a partial understanding of some of the simpler details and processes and some of the more complex ideas and processes.

Key Vocabulary: Structure, assemble, disassemble, flexibility, hardness, absorbency, strength
