HEALTH

We're thrilled to announce the official launch of the new dining services program at Villa Maria Academy High School!

Get ready to embark on a delicious journey as we introduce a dining experience like no other. We believe in nourishing both body and mind. That's why we pour our hearts into creating a vibrant space where students, staff, and faculty can come together to enjoy nutritious meals, foster connections, and fuel their potential.

Our menu is carefully crafted to delight taste buds and support healthy choices. From fresh salads to hearty sandwiches, flavorful entrees to mouthwatering desserts, there's something for everyone to savor. Plus, we're committed to sourcing locally whenever possible, ensuring the freshest ingredients and supporting our community. In fact, we will be growing our own herbs and greens onsite using Babylon Microfarms (www.babylonmicrofarms.com).

But our new cafe isn't just about food—it's about creating a welcoming environment where every meal is an opportunity to

connect, recharge, and thrive. Whether you're grabbing a quick bite between classes or sitting down for a leisurely lunch with friends, we're here to make every moment memorable.

The reimagined Hurricane Hut will allow students to have 24x7 ability to grab a snack, wrap or beverage using self-checkout technology. Students and faculty will be able to utilize My Kids Spending (www.mykidsspending.com) to fund accounts, check balances and purchase food seamlessly. Account information, as well as more details related to the café, will be shared this summer.

So come on in, take a seat, and let us serve you. Together, we will make the cafe not just a place to eat, but a hub of community, creativity, and culinary delight.

If you have any questions prior to opening day, please contact:
