### **Academic Programs Flexibility Rationale:**

A small, rural school district in the northeast area of the state, Rabun County School System has seen continual growth in student enrollment over the past three years. Economic opportunities in our geographic area have led to growth in the number and demographic diversity of families living within our school system boundaries. To ensure that our educational system was equipped to best serve the needs of our growing population, Rabun County School System embarked on a strategic planning process in collaboration with our local business, and civic leaders. Our resulting vision is, “We will educate every child for success in life.” Not only are we focused on increasing literacy and numeracy levels beginning with our youngest learners, but we are committed to providing our students with access to real-world experiences that blur the lines between the classroom and the community. The waivers of specified rules and laws pertaining to academic programs will allow Rabun County School System to make unique adjustments to our teaching and learning that will increase student achievement and position our schools to be centers of innovation.

<p><b>Competencies and Core Curriculum, Online Learning</b></p> <p>§20-2-140.1</p>	<p>The Rabun County School System launched a new strategic plan during the 2022-2023 school year with a focus in five strategic goal areas. One such area is to achieve Excellence in Student Achievement, Readiness, and Engagement. Rural challenges vary, requiring adaptable course structures to meet diverse student needs effectively. A waiver allows us to design programs that foster well-rounded education, aligning with local realities. For example, all teachers are expected to create, prepare, utilize, and implement online learning opportunities in their classrooms on a regular basis. However, a waiver of this law will allow Rabun County Schools to waive the providers and entities written in the law.</p>
