District Requirements for CPR Certification

- Certification through the HSI Pediatric First Aid, CPR, AED Child/Infant/Adult course with an active instructor and through a valid training center.
 - This can be taken with the District or an outside vendor who provides this HSI course.
 - Outside vendors and training centers will be verified before the certification can be accepted.
 - Provide the front and back of the certification card.
- The course must include:
 - Child, Infant, and Adult CPR, AED, & First Aid
 - In-person, hands-on demonstration of the following skills:
 - Removal of contaminated gloves
 - High-quality chest compressions for children, infants, and adults
 - Rescue breaths using a CPR mask or barrier shield for a child, infant, and adult
 - Primary assessment for an unresponsive child, infant, and adult
 - High-quality CPR
 - Use of an AED
 - First aid treatment for a choking infant
 - Control of severe external bleeding
 - Severe allergic reactions (auto-injector)
- No other certifications or online courses will be accepted.
