Discussion:

Between meetings, committee members were provided a spreadsheet with the list of projects identified in the previous meeting so that they could prioritize the scopes of work identifying the highest priority \$25m. The committee discussed their proposed priorities for each site.

The attachment shows how the committee prioritized the scopes identified in meetings #6 & #7 in order to create a Tier 1 which totals about \$25m.

Overall, the committee recommends prioritizing safety and accessibility as well as ensuring any work done on the levy is able to be incorporated into larger potential future projects.
