230. PUBLIC PERFORMANCES BY STUDENTS

The Board recognizes the value to students of sharing their talents and skills with the community through student participation and performance in public events.

The Board endorses such performances when they constitute a learning experience which contributes to the educational program.

All requests for public performances by student groups require the approval of the principal, who shall report such requests to the Board.

The Superintendent shall develop procedures to implement this policy which require that: parental permission is sought and received before students may participate; no student is compelled to participate in a public performance or penalized in any way for failure to do so; and all students who are members of the group invited to perform are polled for their willingness to do so and that no request for a performance be granted unless faculty advisor believes that a sufficient number will participate to represent the school fairly and to acquire a valuable learning experience.
