- 8. Improve Your Job Security** – The Bureau of Labor Statistics expects job opportunities for bus drivers to increase 21% through 2030, which is much higher than the average for all occupations.
- 9. Frequent Social Interaction** – School bus drivers are one of the first familiar faces students see in the morning, and their friendly greeting can help start their days off on a positive note.
- 10. Make An Impact In Your Community** – You can make a difference in your neighborhood. You get to interact with families in your area and provide the essential service of making school transportation available to as many students as possible.
