

Holland Central School District
Smart Schools Committee Meeting

Jr. Sr. High Library

May 23, 2016

5:00-6:00 p.m.

Agenda:

- I. Overview of Smart Schools Funding and Purpose of Committee
- II. Review of Current Technology Plan
- III. Committee Suggestions for 16-17 Goals and Utilization of Funds

Minutes-

Ideas and Questions for the Utilization of Funds-

-How many people would benefit from resources like "hot spots" to provide them with better internet connectivity? Should there just be a central location for this? Possibly opening up the library to the community again? We are going to survey all stakeholders to get an idea about this.

-Security cameras? The Board may be working this project through the budget.

-Smart Boards? Do we wait until we move to the other building? The Board may be working this project through the budget.

-Professional Development may be needed for Distance Learning

-Create a survey for input and create a wish list

-An app for the district would be great to stay up to date and organized. Michelle – there is a plan for an app to be developed for next year.

-Whatever tools we purchase, we need to provide the appropriate professional development.

-Angela- look at what other schools are doing ([link to the NYSED site that shows schools projects that were approved](#))

-Study Corners – limited or open access to the library as a public library again

-Charging stations in lunch or library

-maker space labs in both libraries- not sure what elements will be eligible for this? Michelle mentioned that in conversations ZSpace was not eligible.

-Software licenses – Adobe Photoshop

-More variety of devices- MAC carts, Microsoft Surfaces, etc.
