

# 2024-25 Elementary School Supplies

In Wichita Public Schools, our elementary schools request the same supplies from families at all schools. For the 2024-25 school year, the items needed for Kindergarten through 2nd grade will be slightly different than those needed for 3rd-5th grades. Students in middle and high school will receive supply lists directly from their schools and/or teachers. This changes in middle school because students all have unique schedules and supply needs that align with classes selected.

## Kindergarten - 2nd Grades
