PUBLIC SCHOOLS

# A MESSAGE FROM THE SUPERINTENDENT

**Dr. Brian Yearwood**

In Columbia Public Schools, we believe in inspiring greatness in our scholars, in our staff, in our families and in our community.

Our district's mission is to be the best school district in the state. Our vision is to provide an excellent education for all scholars. I'm proud of our CPS family and the work we do to make our mission and vision a reality.

I'm equally proud of our scholars and all they accomplish with the guidance and support of our CPS staff.

Our scholars consistently earn local, state, and national accolades, including arts and athletic championships, research recognitions, and academic success.

**Our five-year strategic plan emphasizes our collective purpose to continue putting scholars first by focusing on goals in the areas of growth, innovation, and achievement.**

These goals clearly articulate our firm belief in continued progress toward greatness and examining innovative ways to help our scholars grow and learn so they may be successful at the highest levels in all they do.

We will continue to measure academic achievement and individual progress across the district to demonstrate our scholars' success and underscore our commitment that every scholar will graduate college-, career- and life-ready.

CPS is made up of exceptional schools, scholars, teachers, and staff. All of whom represent #CPSBest every day. Our continued work toward excellence is possible because of the support of our community and its investment in our schools.

**“ Our vision is to provide an excellent education for all scholars. I’m proud of our CPS family and the work we do to make our mission and vision a reality. ”**

Columbia Public Schools is the fourth largest school district in Missouri. It includes 21 elementary schools, seven middle schools, four high schools and the Columbia Area Career Center, as well as an early childhood education program. Total enrollment is 18,801 students.

The school district is accredited by the Missouri Department of Elementary and Secondary Education, citing such educational advantages as:

Comprehensive curriculum and services at all grade levels, preschool and adult

Exceptional programs for at-risk students and students with special needs

Extensive depth and breadth in middle school and high school course offerings

Award-winning career education programs designed for all students

Successful community partnerships and volunteer programs

Significant emphasis on staff development and school improvement efforts

Student performance on the ACT and SAT exams exceed state and national averages. In 2023, 82.5 percent of graduates took the ACT. Additionally, of the 947 students taking advanced placement courses in 2023, more than 79 percent earned college credit.

Our district's teachers represent the primary reason Columbia's schools and students are so successful. More than 71.8 percent of teachers hold a master's degree or higher and average 13.2 years of professional experience.

The community understands the importance of maintaining a high-quality educational program. Most recently, bond issues were passed in 1994, 1996, 1998, 2000, 2002, 2004, 2007, 2010, 2012, 2014, 2016, 2018, 2020 and 2022. A tax levy increase received voter approval in 1999, 2003, 2012 and 2016.

Columbia Public Schools is also ranked as a top 10 district for exemplary and innovative use of technology by the National School Boards Association and continually receives national recognition for financial reporting excellence and transparency.

Columbia's students excel in the classroom and in their post-secondary education careers. Approximately 85-90 percent of Columbia students extend their education beyond high school, with more than 64.2 percent attending a college, university or post-secondary program. Our career and Technical Education students have a 91.6 percent placement rate.

**The district's focus, from preschool to adult career education, is excellence.**
