2021-2022

Arvin increased 3.3% clear credentials. While the county dropped slightly, we still lag behind the county and state.

Arvin significantly decreased out of field and is less than county and state.

Increase for Arvin and continues to exceed state and county.

County, state, and local increases in permitted teachers

Current numbers aligned to county/state - Dual coding

A huge thanks to Randy, Ludim, and John as they continue to learn and implement best practices with AERIES and CALPADS
