CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this Fourteenth (14th) day of December, 2016, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Bernards which is a contractor licensed by the State of California, with its principal place of business at 555 First Street, San Fernando, CA 91340 (hereinafter referred to as "Contractor").

WHEREAS, the District operates Elm Street Elementary School, located at 450 East Elm Street, Oxnard, California 93033 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct and modernize facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1G below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#16-199

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended,

- 2 -

#16-199

which is incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibits A and B** attached hereto.
- F. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- G. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- H. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.
- I. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- J. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.

#16-199

- K. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- L. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- M. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Education, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00)**. The GMP consists of (1) a Sublease Tenant Improvement Payment in the amount of **Twenty-One Million Four Hundred Sixty-Two Thousand Seven Hundred One Dollars and No Cents (\$21,462,701.00)** and, (2) a Contractor Contingency in the amount of **Six Hundred Seventy-Eight Thousand Eight Hundred Forty-One Dollars, and No Cents (\$678,841.00)**, and, (3) Sublease Payments in the amount of **\$97,112.00** per month for **12** months, for a total lease value of **One Million One Hundred Sixty-Five Thousand Three Hundred Forty-Four Dollars and No Cents (\$1,165,344.00)** pursuant to terms and payment schedule as set forth in the Sublease.

The GMP is based upon the plans and specifications existing at the time this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work set forth in **Exhibits A and B** attached hereto. Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement is entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

#16-199

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH CONSTRUCTION

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice of Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the

- 6 -

#16-199

competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.

- 7 -

#16-199

- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities at the School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.
- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of

- 8 -

#16-199

proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.

- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications"); and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, makes strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- 9 -

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.
- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign **Jaime Pace** as Project Manager/Superintendent for the Project. So long as **Jaime Pace** remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to

#16-199

the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.

- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.
- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

- 11 -

#16-199

- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

- 12 -

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.
- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

#16-199

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

Bernards
555 First Street
San Fernando, CA 91340
Attn: Rick Fochtman

If to the District:

Alameda, CA 94501

And with an additional copy to Scott Burkett,

- 16 -

Caldwell Flores Winters, Inc.
6425 Christie Ave., Suite 270
Emeryville, CA 94608

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

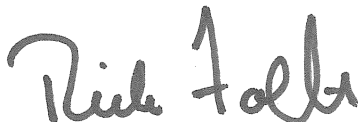

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Ratification of Change Order No. 22 to Construction Services Agreement #16-199 with Bernards Bros Inc. to adjust costs for the Elm Elementary School Reconstruction (Penanhoat/CFW)

COR No. 567R1 adds code-required cane detection rails, in conformance with California State Building Code disabled access requirements, under stairs which descend to the ground. Change Order No. 022 provides for the Board's ratification of the following one (1) COR:

- COR No. 567R1 - Add Metal Railing Under Stair 1 & 3

FISCAL IMPACT:

Thirty-One Thousand Seven Hundred Ninety-Two Dollars and Zero Cents (\$31,792.00) to be paid out of the Master Construct and Implementation Funds within the approved project budget as per the June 2019 six-month report.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in consultation with Caldwell Flores Winters, that the Board of Trustees ratify Change Order #22 for Master Agreement #16-199 with Bernards Bros, Inc.

ADDITIONAL MATERIALS:

Attached: [Change Order #022 - Bernards Bros Inc. \(2 Pages\)](#)
[COR No. 567R1 - Add Metal Railing Under Stair 1 and 3 \(12 Pages\)](#)
[Construction Services Agreement #16-199 \(108 Pages\)](#)

**Elm Street Elementary School
Bulletin # 25 Narrative**

Revision:

07/16/2018

*Note: This Bulletin is issued for clarification of the Contract Documents or a proposed change to the Contract Documents requested by Owner. It is **not** an authorization to proceed with the items described. Submit a written proposal to the Architect for any anticipated changes in contract price and/or schedule as a result of this Bulletin. **Do not proceed** with any items described in this Bulletin without written authorization from the Owner.*

Changes to Drawings and/or Specifications:

Revisions to Architectural Sheets:

- A1-45.1 – Classroom – Bldg 1 – Enlarged Stair #1 Plans
Provided guardrail elevations and details under stairs.
- A1-45.3 – Classroom – Bldg 1 – Enlarged Stair #3 Plans
Updated stair plan to shown dimensions on concrete steps at landing (detail 1 and 3).
Added finish grades at bottom of concrete steps.
Updates plan to show guardrails below stairs.
- A1-45.5 – Classroom – Bldg 1 – Stair#3 Guardrail Elevations and Details
Provided guardrail elevations and details for Stair #3.
- SKA-1 – Stair #3 flashing detail
Provided flashing detail between stringer and face of building.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this Fourteenth (14th) day of December, 2016, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Bernards which is a contractor licensed by the State of California, with its principal place of business at 555 First Street, San Fernando, CA 91340 (hereinafter referred to as "Contractor").

WHEREAS, the District operates Elm Street Elementary School, located at 450 East Elm Street, Oxnard, California 93033 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct and modernize facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1G below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#16-199

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended,

- 2 -

#16-199

which is incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibits A and B** attached hereto.
- F. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- G. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- H. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.
- I. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- J. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.

#16-199

- K. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- L. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- M. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Education, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00). The GMP consists of (1) a Sublease Tenant Improvement Payment in the amount of Twenty-One Million Four Hundred Sixty-Two Thousand Seven Hundred One Dollars and No Cents (\$21,462,701.00) and, (2) a Contractor Contingency in the amount of Six Hundred Seventy-Eight Thousand Eight Hundred Forty-One Dollars, and No Cents (\$678,841.00), and, (3) Sublease Payments in the amount of \$97,112.00 per month for 12 months, for a total lease value of One Million One Hundred Sixty-Five Thousand Three Hundred Forty-Four Dollars and No Cents (\$1,165,344.00) pursuant to terms and payment schedule as set forth in the Sublease.

The GMP is based upon the plans and specifications existing at the time this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work set forth in **Exhibits A and B** attached hereto. Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement is entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

#16-199

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH CONSTRUCTION

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the

- 6 -

#16-199

competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.

- 7 -

#16-199

- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities at the School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.
- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of

- 8 -

#16-199

proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.

- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications"); and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, makes strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- 9 -

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.
- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign **Jaime Pace** as Project Manager/Superintendent for the Project. So long as **Jaime Pace** remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to

#16-199

the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.

- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.
- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

- 11 -

#16-199

- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

- 12 -

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.
- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

#16-199

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

Bernards
555 First Street
San Fernando, CA 91340
Attn: Rick Fochtman

If to the District:

Oxnard School District
1051 South A Street
Oxnard, California 93030

Attn: Dr. Cesar Morales, Superintendent

With a copy to Nitasha Sawhney,
Garcia, Hernandez, Sawhney & Bermudez LLP
2490 Mariner Square Loop, Suite 140
Alameda, CA 94501

And with an additional copy to Scott Burkett,

- 16 -

Caldwell Flores Winters, Inc.
6425 Christie Ave., Suite 270
Emeryville, CA 94608

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

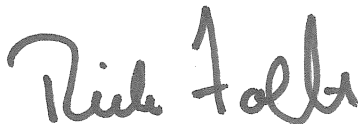

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

Plan Sheets Prepared by SVA Architects, Arch. Project No. 1340159, DSA No. 03-116407, DSA Approval 8/1/2016

PROJECT DESCRIPTION

DEMOLITION OF EXISTING SCHOOL, AND NEW CONSTRUCTION OF KINDERGARTEN, CLASSROOM, ADMIN/MEDIA, AND MULTI-PURPOSE BUILDINGS, AND BOTH ON AND OFF SITE IMPROVEMENTS

The Project will be completed in two (2) Phases over a twenty-one (22) month duration. **Phase 1**, (construction of new campus facilities), shall commence in January 2017 and complete in June 2018. **Phase 2**, (demolition of the existing campus and completion of the new sports field) shall commence in June 2018 and complete in October 2018. A total duration of Six-Hundred Sixty-One (661) Calendar Days. The total of the Guaranteed Maximum Price ("GMP") for the Elm E.S. Reconstruction Project shall be: **Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00)**.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Ratification of Change Order No. 23 to Construction Services Agreement #16-199 with Bernards Bros Inc. to adjust costs for the Elm Elementary School Reconstruction (Penanhoat/CFW)

Over the course of the construction of the Elm Elementary School Reconstruction Project, the District has requested modifications to the project to enhance the functionality of the new buildings and campus. COR's No. 427 & 551R1, revise the bubblers on classroom sinks to meet disabled access code requirements and provide covering for plumbing pipes under the sinks. COR 452R1 provides added structural reinforcement to site column pedestals. Change Order No. 23 provides for the Board's ratification of the following three (3) COR's:

- COR No. 427 - Plumbing Classroom Sinks
- COR No. 551R1 - Add backs to Casework at Sinks
- COR No 452R1 - Rebar for Added Col Pedestals

FISCAL IMPACT:

Twenty Thousand Nine Hundred Thirty Nine Dollars and Zero Cents (\$20,939.00) to be paid out of the Master Construct and Implementation Funds within the approved project budget as per the June 2019 Six-month report.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in consultation with Caldwell Flores Winters, that the Board of Trustees ratify Change Order #23 for Master Agreement #16-199 with Bernard Bros. Inc.

DESCRIPTION OF WORK

RFI 536

SUMMARY OF COSTS

Item Description	Company	Amount Requested
Subcontract Costs		
Cost to add offset tail pieces and extensions to the classroom building sinks so ADA knee space requirements could be met.	Precision Plumbing-Mechanical	4,236
<p>Reason: The classroom sinks have an integrated hole for the installation of a bubbler, and that bubbler needs to be within 5" of the front edge of the countertop to meet ADA code requirements. When the sink is installed in the location where the bubbler meets ADA requirements, the traps and original tail pieces infringed upon the knee space required by ADA code, hence the necessity of installing offset tail pieces and extensions. This was rework/additional materials that was not included in the original scope.</p> <p>Requested By: SVA Architects</p> <p>Ref: RFI 536</p>		
		Subtotal: 4,236
Contractual Costs		
Overhead 15%		635
		Subtotal: 635
Total Change Order Request Amount:		4,871

REQUEST FOR INFORMATION FOR SUBCONTRACTOR ACTION

RFI No. : 536

Project: Elm Elementary School Reconstruction Project

Date: 11-13-18
Discipline: Plumbing

Subject: Offset Grid Drains at ST-1 Classroom Sinks

DRAWING & SPECIFICATION REFERENCES

Drawing Sheet / Specification	Detail / Sub Section	Comments

QUESTION

Due to the ST-1 classroom sinks being moved closer to the front of the casework the p-traps will intrude into the ADA knee clearance. The only solution for this issue is to use offset drains as shown in attachment "A". There will be additional costs associated with this. Please advise.

ANSWER

Concurred. No Exceptions Taken

H. Mozaffari, R & A - Nov.14, 2018

RESPONSE DISTRIBUTION

Company	Contact	Date Sent
Precision Plumbing-Mechanical	Daniel Bascom	11/15/2018

Please review and advise Bernards, WITHIN 7 days, if there are any additional costs or schedule impacts associated with incorporating the RFI response with the Contract Work. (Include a brief description and rough order estimate of the change with this notification. If no response is received within 7 days, Bernards shall trust that there is no impact to your Contract Price or Schedule.

REQUEST FOR INFORMATION FOR SUBCONTRACTOR ACTION

RFI No. : 345

Project: Elm Elementary School Reconstruction Project

Date: 02-02-18
Discipline: Structural

Subject: Steel Column Concrete Pedestals

DRAWING & SPECIFICATION REFERENCES

Drawing Sheet / Specification	Detail / Sub Section	Comments
A64.4	3	
S-302	10	
S-303	14	

QUESTION

All of the steel columns that were installed per 14/S-303(caisson-type) will need a concrete pedestal added around them. The wood framing (3/A-64.4) around the column must terminate above finish surface.

SUGGESTION

We recommend doweling rebar into the top of the footing and creating a cage around the steel column for the concrete pedestal similar to 10/S-302.

ANSWER

Structurally acceptable to use 10/S-302. Min. 6" embedment for rebar dowels into footing, PSE-02/02/18

RESPONSE DISTRIBUTION

Company	Contact	Date Sent
JT Wimsatt Contracting Co Inc	Mike Taylor	2/10/2018

Please review and advise Bernards, **WITHIN 7 days**, if there are any additional costs or schedule impacts associated with incorporating the RFI response with the Contract Work. (Include a brief description and rough order estimate of the change with this notification. If no response is received within 7 days, Bernards shall trust that there is no impact to your Contract Price or Schedule.

REQUEST FOR INFORMATION FOR SUBCONTRACTOR ACTION

RFI No. : 345

Project: Elm Elementary School Reconstruction Project

Date: 02-02-18
Discipline: Structural

Subject: Steel Column Concrete Pedestals

DRAWING & SPECIFICATION REFERENCES

Drawing Sheet / Specification	Detail / Sub Section	Comments
A64.4	3	
S-302	10	
S-303	14	

QUESTION

All of the steel columns that were installed per 14/S-303(caisson-type) will need a concrete pedestal added around them. The wood framing (3/A-64.4) around the column must terminate above finish surface.

SUGGESTION

We recommend doweling rebar into the top of the footing and creating a cage around the steel column for the concrete pedestal similar to 10/S-302.

ANSWER

Structurally acceptable to use 10/S-302. Min. 6" embedment for rebar dowels into footing, PSE-02/02/18

RESPONSE DISTRIBUTION

Company	Contact	Date Sent
JT Wimsatt Contracting Co Inc	Mike Taylor	2/10/2018

Please review and advise Bernards, **WITHIN 7 days**, if there are any additional costs or schedule impacts associated with incorporating the RFI response with the Contract Work. (Include a brief description and rough order estimate of the change with this notification. If no response is received within 7 days, Bernards shall trust that there is no impact to your Contract Price or Schedule.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this Fourteenth (14th) day of December, 2016, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Bernards which is a contractor licensed by the State of California, with its principal place of business at 555 First Street, San Fernando, CA 91340 (hereinafter referred to as "Contractor").

WHEREAS, the District operates Elm Street Elementary School, located at 450 East Elm Street, Oxnard, California 93033 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct and modernize facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1G below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#16-199

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended,

- 2 -

#16-199

which is incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibits A and B** attached hereto.
- F. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- G. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- H. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.
- I. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- J. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.

#16-199

- K. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- L. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- M. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Education, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00). The GMP consists of (1) a Sublease Tenant Improvement Payment in the amount of Twenty-One Million Four Hundred Sixty-Two Thousand Seven Hundred One Dollars and No Cents (\$21,462,701.00) and, (2) a Contractor Contingency in the amount of Six Hundred Seventy-Eight Thousand Eight Hundred Forty-One Dollars, and No Cents (\$678,841.00), and, (3) Sublease Payments in the amount of \$97,112.00 per month for 12 months, for a total lease value of One Million One Hundred Sixty-Five Thousand Three Hundred Forty-Four Dollars and No Cents (\$1,165,344.00) pursuant to terms and payment schedule as set forth in the Sublease.

The GMP is based upon the plans and specifications existing at the time this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work set forth in **Exhibits A and B** attached hereto. Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement is entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

#16-199

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH CONSTRUCTION

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the

- 6 -

#16-199

competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.

- 7 -

#16-199

- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities at the School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.
- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of

- 8 -

#16-199

proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.

- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications"); and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, makes strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- 9 -

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.
- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign **Jaime Pace** as Project Manager/Superintendent for the Project. So long as **Jaime Pace** remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to

#16-199

the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.

- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.
- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

- 11 -

#16-199

- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

- 12 -

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.
- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

#16-199

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

- 16 -

Caldwell Flores Winters, Inc.
6425 Christie Ave., Suite 270
Emeryville, CA 94608

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

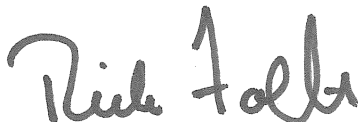

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

PROJECT DESCRIPTION

DEMOLITION OF EXISTING SCHOOL, AND NEW CONSTRUCTION OF KINDERGARTEN, CLASSROOM, ADMIN/MEDIA, AND MULTI-PURPOSE BUILDINGS, AND BOTH ON AND OFF SITE IMPROVEMENTS

The Project will be completed in two (2) Phases over a twenty-one (22) month duration. **Phase 1**, (construction of new campus facilities), shall commence in January 2017 and complete in June 2018. **Phase 2**, (demolition of the existing campus and completion of the new sports field) shall commence in June 2018 and complete in October 2018. A total duration of Six-Hundred Sixty-One (661) Calendar Days. The total of the Guaranteed Maximum Price ("GMP") for the Elm E.S. Reconstruction Project shall be: **Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00)**.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Ratification of Change Order No. 24 to Construction Services Agreement #16-199 with Bernards Bros Inc. to adjust costs for the Elm Elementary School Reconstruction (Penanhoat/CFW)

This change order addresses backing and blocking associated with mechanical systems. COR's No. 259 and 260 are mechanical attachment upgrades. COR's 488R1 and 513 are revisions for louvers and TVs at the Kindergarten Building. Change Order No. 024 provides for the Board's ratification of the following four (4) COR's:

- COR No. 259 - Substitute Angle Irons for Thru bolts
- COR No. 260 - Unistrut in Lieu of Wood Blocking
- COR No. 488R1 - Revise Kinder Louver Framing
- COR No. 513 - Added Backing for Kindergarten TV's

FISCAL IMPACT:

Twenty-Five Thousand Eight Hundred Ninety-Seven Dollars and Zero Cents (\$25,897.00) to be paid out of the Master Construct and Implementation Funds within the approved project budget as per the June 2019 six-month report.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in consultation with Caldwell Flores Winters, that the Board of Trustees ratify Change Order #24 for Master Agreement #16-199 with Bernard Bros. Inc.

ADDITIONAL MATERIALS:

Subject: Elm Street Elementary School
SMC COR #15 Unistrut in lieu of Wood Blocking for Fan Coil Units located in Closets

Dear Kyle,

Below is our cost to Furnish and Install Unistrut backing in lieu of Wood Blocking for the Fan Coil Units located in the Closets. The IOR would not accept Wood Blocking within the Closets because of the Closets being Rated.

DFI Invoice including Sales Tax.....	\$1,893.00
Foreman (12.5 Hours @ \$118.91).....	\$1,486.00
Journeyman (12.5 Hours @ 98.14).....	\$1,227.00
Sub Total.....	<u>\$4,696.00</u>
Overhead and Profit – 15%.....	\$N/A
Cost for SMC COR #15.....	\$4,696.00

If you have any questions please call me.

Sincerely,

Dillon J. Boute'

David/Peter,

Is the double shear required at these locations? RFI #188 says it's a "Recommendation", so we are a bit uncertain whether it's required or not. Pleas clarify.

Thanks,

Alex Rivera

QUESTION

Please provide locations and heights for all TV's in the Kindergarten Building. Also, please clarify if the additional AV boxes that are not at the TV locations are required Please advise.

ANSWER

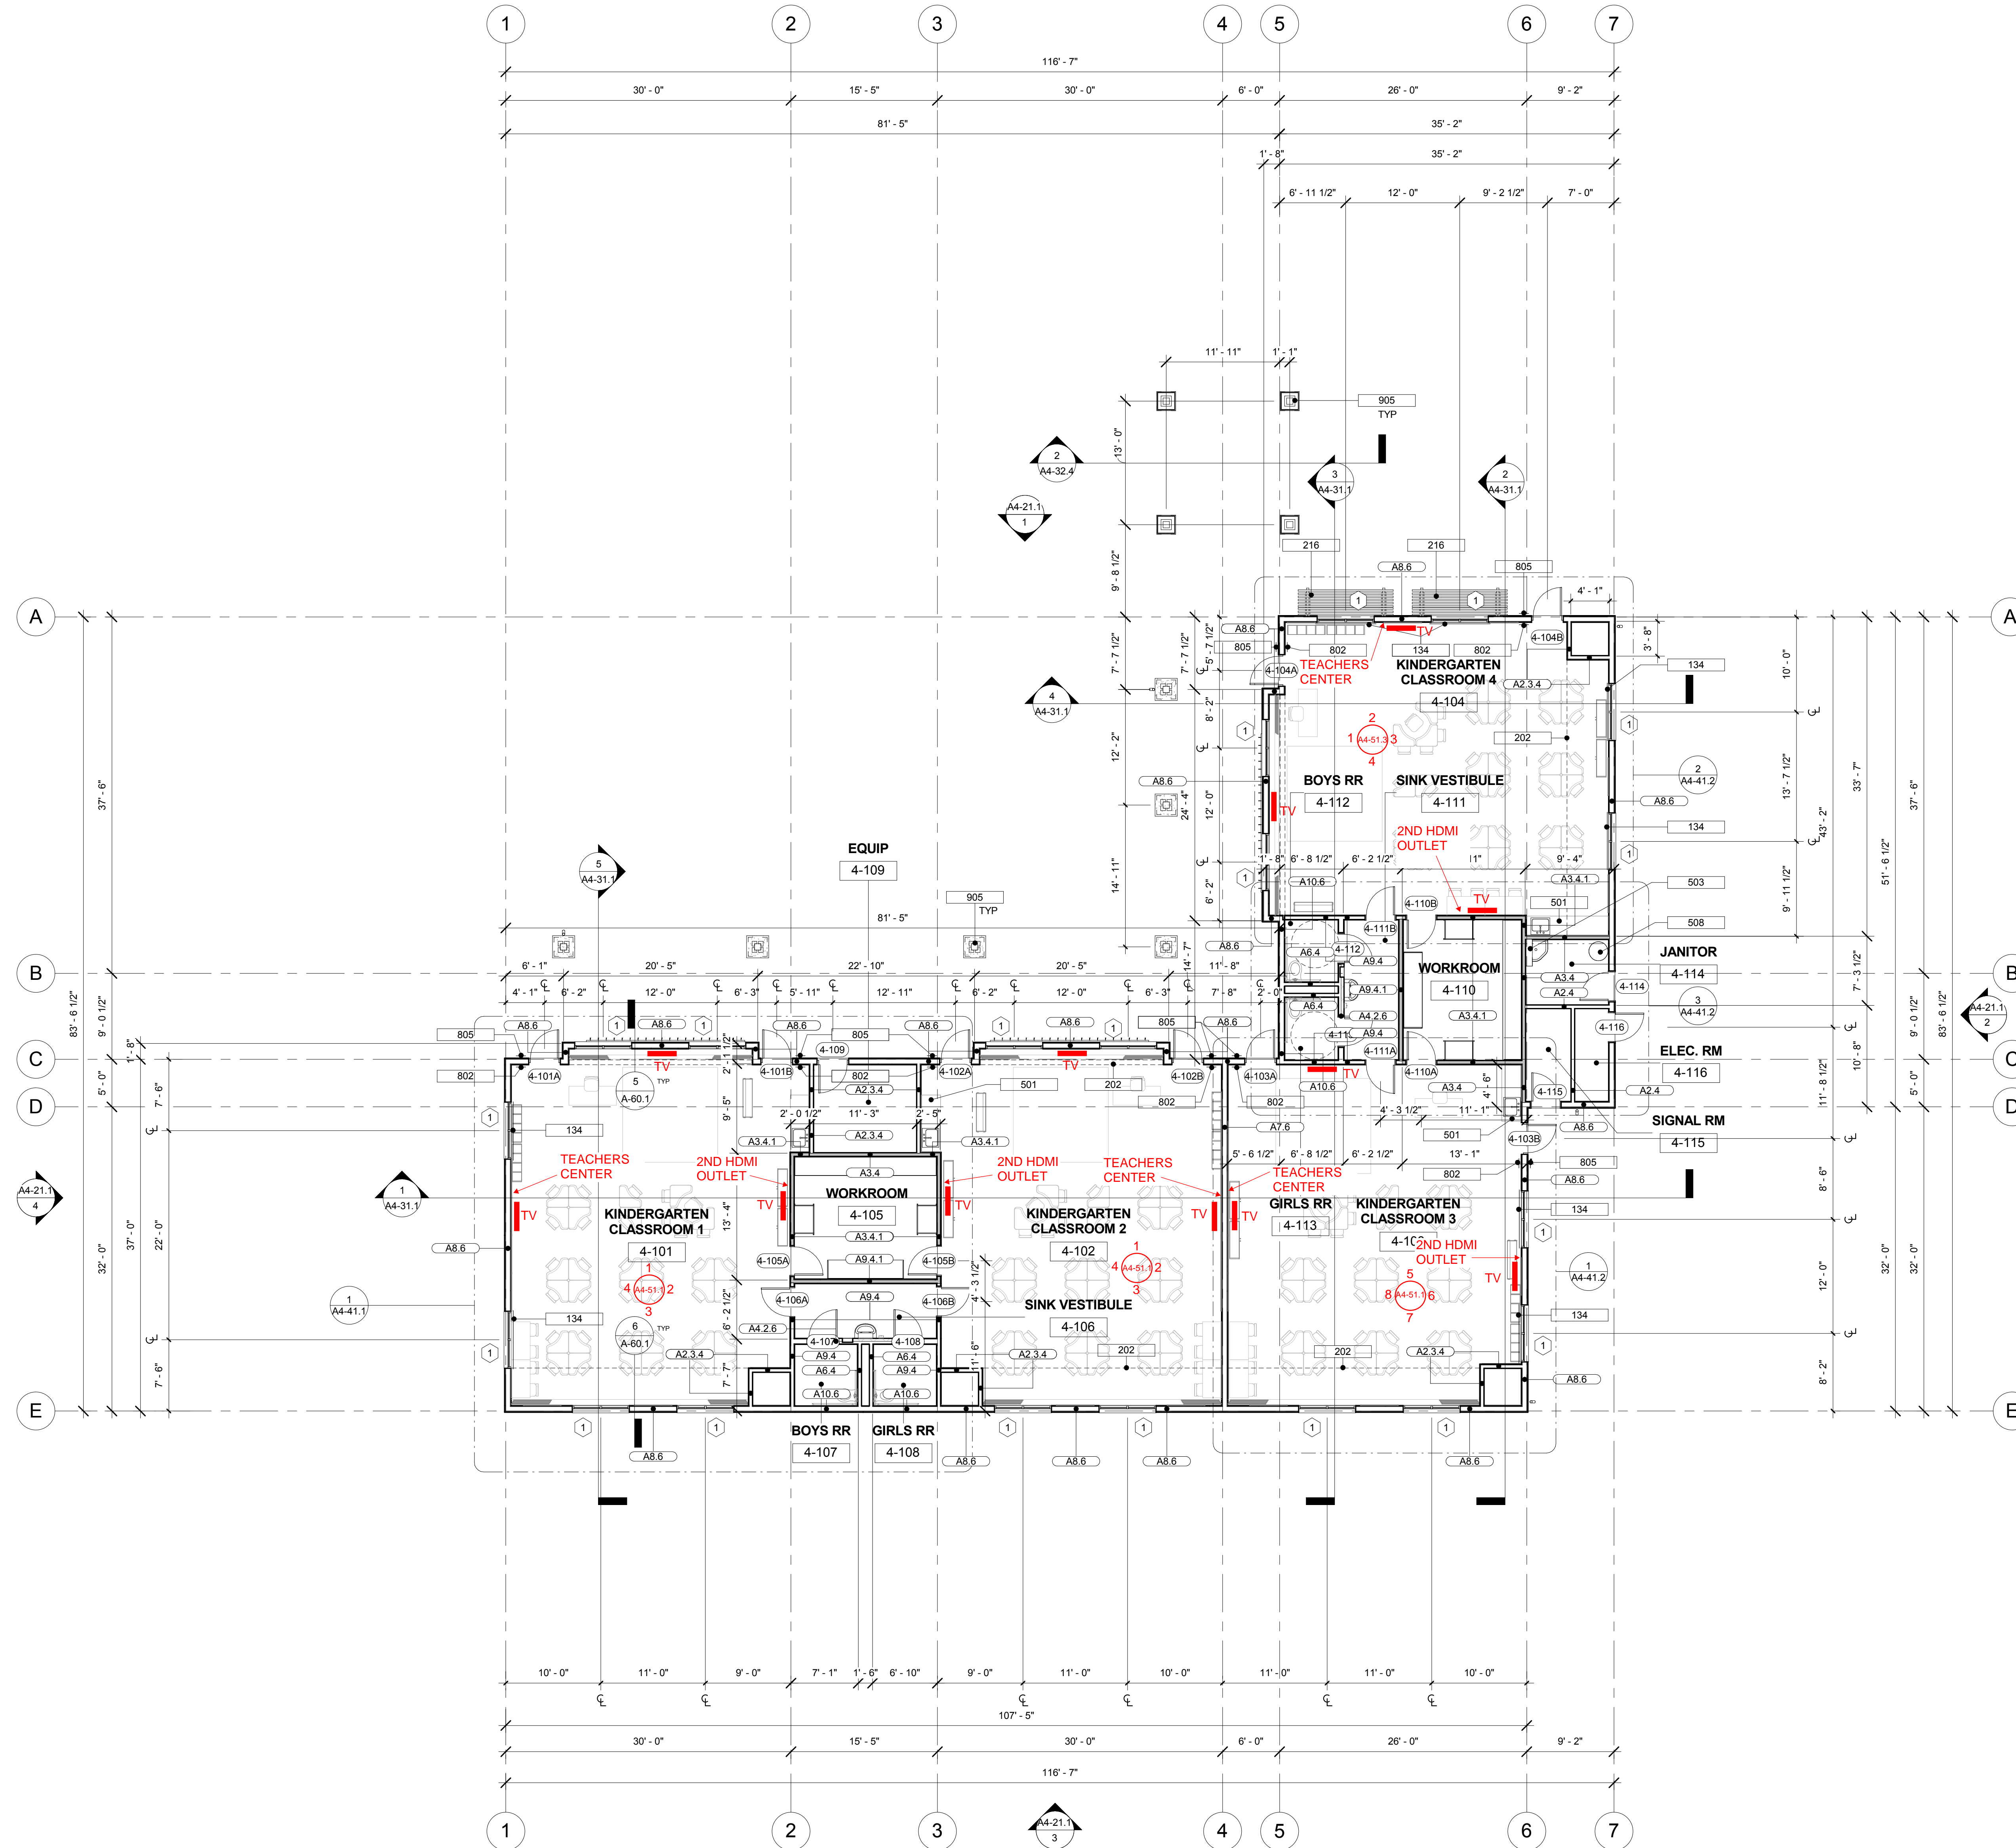

See attached sketch for the TV locations in the Kindergarten Building. Mount TVs at 4'-0" AFF. Provide furred walls below TVs per the attached sketch. All AV boxes that were required in the Classroom Building for the TV's will be incorporated into the Kindergarten Building.

KINDERGARTEN - BLDG. 4 - FLOOR PLAN

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this Fourteenth (14th) day of December, 2016, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Bernards which is a contractor licensed by the State of California, with its principal place of business at 555 First Street, San Fernando, CA 91340 (hereinafter referred to as "Contractor").

WHEREAS, the District operates Elm Street Elementary School, located at 450 East Elm Street, Oxnard, California 93033 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct and modernize facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1G below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#16-199

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended,

- 2 -

#16-199

which is incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibits A and B** attached hereto.
- F. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- G. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- H. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.
- I. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- J. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.

- K. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- L. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- M. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Education, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00)**. The GMP consists of (1) a Sublease Tenant Improvement Payment in the amount of **Twenty-One Million Four Hundred Sixty-Two Thousand Seven Hundred One Dollars and No Cents (\$21,462,701.00)** and, (2) a Contractor Contingency in the amount of **Six Hundred Seventy-Eight Thousand Eight Hundred Forty-One Dollars, and No Cents (\$678,841.00)**, and, (3) Sublease Payments in the amount of **\$97,112.00** per month for **12** months, for a total lease value of **One Million One Hundred Sixty-Five Thousand Three Hundred Forty-Four Dollars and No Cents (\$1,165,344.00)** pursuant to terms and payment schedule as set forth in the Sublease.

The GMP is based upon the plans and specifications existing at the time this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work set forth in **Exhibits A and B** attached hereto. Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement is entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

#16-199

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH CONSTRUCTION

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice of Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the

- 6 -

#16-199

competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.

- 7 -

#16-199

- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities at the School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.
- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of

- 8 -

#16-199

proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.

- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications"); and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, makes strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.
- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign **Jaime Pace** as Project Manager/Superintendent for the Project. So long as **Jaime Pace** remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to

#16-199

the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.

- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.
- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

- 11 -

#16-199

- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

- 12 -

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.
- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

#16-199

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

And with an additional copy to Scott Burkett,

- 16 -

Caldwell Flores Winters, Inc.
6425 Christie Ave., Suite 270
Emeryville, CA 94608

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

PROJECT DESCRIPTION

DEMOLITION OF EXISTING SCHOOL, AND NEW CONSTRUCTION OF KINDERGARTEN, CLASSROOM, ADMIN/MEDIA, AND MULTI-PURPOSE BUILDINGS, AND BOTH ON AND OFF SITE IMPROVEMENTS

The Project will be completed in two (2) Phases over a twenty-one (22) month duration. **Phase 1**, (construction of new campus facilities), shall commence in January 2017 and complete in June 2018. **Phase 2**, (demolition of the existing campus and completion of the new sports field) shall commence in June 2018 and complete in October 2018. A total duration of Six-Hundred Sixty-One (661) Calendar Days. The total of the Guaranteed Maximum Price ("GMP") for the Elm E.S. Reconstruction Project shall be: **Twenty-Three Million Three Hundred Six Thousand Eight Hundred Eighty-Six Dollars and No Cents (\$23,306,886.00)**.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of Contractor Contingency Allocation #010 to the Marshall New Classroom Building Project's Contractor Contingency for an increase of cost for the work associated with the Project (Penanhoat/CFW)

The Oxnard School District ("District") Board of Trustees ("Board") Facilities Implementation Plan first adopted in January 2013, calls for the construction of the new classroom building at Marshall School ("Project"). The Project includes the construction of a new school building at the existing Marshall school site.

During the Regular Meeting of August 23, 2017, the Board of Trustees Approved Item C-12, the Construction Services Agreement between the Oxnard School District and Bernards Bros. Inc. for the Project. During that Meeting, the inclusion of a Three Hundred Forty-Five Thousand Nine Hundred Thirty-Two Dollars and No Cents (\$345,932.00) Contractor Contingency was explained. The Contractor Contingency is for payment of very specific items of Work: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved with the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency.

Contractor Contingency Allocation No. 10 provides for the Board's approval of three (3) items of cost agreed to in writing by the Contractor and District to be drawn from the Contractor Contingency. Contractor Contingency Allocation No. 10 will not increase Contract Time.

FISCAL IMPACT:

Contractor Contingency Allocation No. 10 will be a COST to the Contractor Contingency line item of the GMP Construction Services Agreement in the amount of Five Thousand Six Hundred Seventy- Five Dollars and Zero Cents (\$5,675.00) to be paid out of the Master Construct and Implementation Funds.

The Contractor Contingency is included within the approved total of the Construction Services Agreement for the Marshall New Classroom Building Project. The remaining Contractor Contingency Balance after Allocation No. 10 will be Nine Hundred Seventeen Dollars and Zero Cents. (\$917.00).

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in conjunction with Caldwell Flores Winters, Inc., that the Board of Trustees approve Contingency Allocation No. 010 to the Construction Services Agreement #17-117 with Bernards Bros Inc., for

additional items of work related to the Marshall New Classroom Building Project.

STANDARD PROPOSAL/CONTRACT FORM
CONTRACTORS LIC #209850
DIR #1000004833

Date: August 20, 2018

TO: Bernards Builders Management Services
ADDRESS: 555 First Street, San Fernando, CA. 91340
ATTENTION: Rebecca Miller (805) 394-9471

C.A. BUCHEN CORP hereinafter called the Seller, proposes to furnish the materials and work as listed below, according to the plans and specifications exhibited to us, subject to the latest Code of Standard Practice of the American Institute of Steel Construction; and to all terms and conditions herein, for the sum of:

*****FOUR THOUSAND THREE HUNDRED FIFTY THREE & 00/100 DOLLARS***** (\$4,353.00)
Including all taxes now in effect

SPECIFICATIONS:

Name of Job: Marshall Elementary School Specification Section:
Location: 2900 Thurgood Marshal Dr. Oxnard, CA Addendum Noted: C.O.R #15 Job #A190
Architect: Sheet Numbers:

SCOPE OF WORK:

Per CCD 024: Return 4/25/18 (3) columns (127C5, 127C1 and 127C2) back to shop for modification due to new door location. Column 127C5 replace base plate with 1 1/2 X 11" X 11". Columns 127C1 and 127C2 re-weld column to center line of post. Deliver & re-install column in field 6/18/18 with 40 ton crane. Include welding of plate washers, stud modification and detailing.

*The Subcontract Price is based on the current prices and surcharges for the steel types and shapes necessary for the Project as posted and made publicly available. Notwithstanding anything herein to the contrary, any increases or decreases in the price of the steel ordered by the Subcontractor for the Project, or any additional surcharges imposed on the steel ordered by the Subcontractor of the Project shall result in a corresponding dollar-for-dollar increase (or decrease) in the Subcontract Price.

Field Conditions:

- 1. Contractor to provide free and clear access (graded if necessary) to interior and exterior of building for trucks and erection equipment.
2. All anchor bolts to be checked and cleaned by others and left with leveling nuts set to correct elevations after having been properly set and straightened.
3. Two line safety cable of building perimeter (if included above in scope of work) to be maintained and removed by others.
All safety cable materials to be coiled and stored on ground by others for CABCO pick up.
4. Any protection required at floor or roof penetrations shall be provided by others so as not to delay the continuous erection of structural steel.

EXCLUSION: This proposal does not include the following items, unless specifically noted above:

Table with 3 columns listing exclusions: Items to be excluded (e.g., Bids, permits, concrete, etc.), Field conditions (e.g., Field welding, final painting, etc.), and Other items (e.g., Participating in penalties, pipe sleeves, etc.).

THIS PROPOSAL INCLUDES THE TERMS AND CONDITIONS ON THE REVERSE SIDE HEREOF, AND IS SUBJECT TO YOUR WRITTEN ACCEPTANCE WITHIN THIRTY (30) DAYS FROM DATE. WHEN ACCEPTED BY YOU WITHIN SUCH TIME, THIS PROPOSAL WILL CONSTITUTE A CONTRACT OF SALE BETWEEN YOU AND OURSELVES AS PURCHASER.

Accepted:

Buyer: _____

Seller: C.A. Buchen Corp.
By: John A. Oster - President
Date: _____

Article 1: STEEL PRICES The quoted price on the attached proposal is based on current steel warehouse prices in effect at the date of our proposal. These published warehouse prices are subject to change without notice, and are subject to surcharges of various types.

Article 2: DRAWING & SPECIFICATIONS The materials shall be fabricated and, if called for in the scope of work in this contract, erected in accordance with the steel design drawings and specifications listed in this contract (see Specifications) and (b) shop detail drawings prepared by Seller. If such design drawings and specifications are preliminary or incomplete, Buyer shall promptly furnish design drawings and specifications which are complete, final and fully approved by the state, county or city building department having jurisdiction thereof. Any difference between the complete, final and approved drawings and specifications and those listed on the specifications in this contract shall be deemed a change in the work ordered under Article 4 hereof. Details and workmanship of fabrication and erection shall conform to the Specification published in the Manual of the American Institute of Steel Construction, and to the latest code of Standard Practice of the American Institute of Steel Construction. Buyer shall cause shop drawings to be returned to Seller within fourteen (14) calendar days after submittal marked "approved" or "approved as corrected".

Article 3: INSPECTION OR TESTS Upon Buyer's written request, Seller shall furnish copies of the steel mill test reports, provided Buyer's written request is received prior to the date on which Seller has placed its mill order for the required steel or withdrawn steel from its stock. Seller will also arrange for further tests and inspection, in the shop or field or in a laboratory, of any of the material called for hereunder. Unless the furnishing of such tests and inspections are specifically called for in the scope of work in this contract, they shall be furnished at Buyer's expense and only after receipt of Buyer's written order therefore. Buyer may inspect fabricated materials before shipment from Seller's plant, provided that Buyer give Seller adequate notice of intention so to do and also furnish the name of inspector. Inspection of materials and workmanship at the erection site shall be performed in such manner as will not interfere with Seller's performance. Seller shall correct or replace any materials or workmanship condemned by Buyer's inspectors during the progress of the work which do not meet the contract requirements. Defective materials which are replaced shall be removed from the erection site.

Article 4: GUARANTEE At Buyer's written request and at any time within one year from the date of completion of the work covered by this contract, Seller shall replace or correct any fabricated material which contains defects not discoverable by visual inspection during fabrication or erection and any workmanship which is defective or not in conformance with the contract requirements. Seller's liability for any losses and damages sustained by Buyer or by others as a result of any defective materials or workmanship furnished by Seller under this contract shall be limited to the replacement or correction of such defective material and workmanship within the time above stated and Seller shall not be liable for any other direct or consequential loss, damage or liability resulting from defective material and workmanship.

Article 5: CHANGES IN THE WORK Seller shall make changes in the work which Buyer may order in writing provided that such changes do not constitute material alterations. If the parties are unable to agree upon the amount of the increase in price to be charged for additional work or the extent to be allowed for reductions in the work, Seller shall, nevertheless, proceed to make such changes in accordance with Buyer's order, provided that Buyer furnish all necessary information and all work to be done by others has been properly performed; and upon completion of execution of such change order Buyer shall pay to Seller its costs of performing the additional work, computed according to Seller's established accounting practices, as certified by its accountant plus ten per cent therefor for profit, or Buyer shall be credited with the amount of any savings, similarly computed and certified, resulting from any reduction in the work.

Article 6: LIABILITY The Seller will indemnify the Buyer against loss or expense by reason of liability imposed upon the Buyer by law for damages resulting from death of or injury to persons or destruction of property occurring during the performance of Seller's work to the extent that such death, injury or damage shall have been solely due to the negligent act or omission of the Seller, its agents or employees. However this indemnity will not extend to Seller, its agents or employees. However, this indemnity will not extend to any claims, loss, damage, or expense arising out of the negligent or willful misconduct of the owner, owner-builder or contractor or any of their agents, employees, servants, consultants, professional experts or independent contractors.

Article 7: WORKMEN'S COMPENSATION INSURANCE The Seller shall carry Workmen's Compensation insurance for the protection of all labor used in the construction of the said structure, employed by the Seller. The Buyer agrees to provide adequate and safe working conditions for the employees of the Seller in and about the work herein specified.

Article 8: PATENTS Seller shall indemnify and save Buyer harmless from and against liability for patent infringement due to any inventions incorporated in the products fabricated and/or erected hereunder in compliance with designs or specifications furnished by Seller. Buyer shall indemnify Seller and save him harmless from and against liability for patent infringement resulting from Seller's compliance with designs and specifications furnished by Buyer.

Article 9: BUILDER'S RISK Buyer shall assume all risk of loss or damage to all work incorporated in the structure and all material located in and about the erection site due to the occurrence of any insurable builder's risk (including, but not limited to fire, flood, wind, hurricane, earthquake, defective soil or any cause which Seller could not have reasonably foreseen and guarded against). To the extent of Seller's insurable interest, Buyer shall name Seller as co-insured in any policy or policies of builder's risk insurance which Buyer may carry covering such work and material during the period of construction. To the extent any such loss or damage is not compensated by insurance, Buyer shall reimburse Seller for all added costs incurred by him in repairing or replacing material or work which is damaged or destroyed.

Article 10: DELIVERIES, DELAYS AND CANCELLATIONS (a) If all required information, (including complete, final approved, design drawings and specifications) shall be furnished to Seller, and all work to be done by others shall be performed and completed in such time and manner as will not delay or interfere with Seller's work, all work called for hereunder shall be promptly delivered or completed. If Seller is delayed due to causes for which Buyer or those acting for Buyer (such as Buyer's other contractors or their subcontractors) are responsible, the time for delivery or completion of the work called for hereunder shall be extended for such period as may reasonably be necessary to enable Seller to perform a complete job and Buyer shall reimburse Seller for any and all costs and expenses which may incur as a direct result of any such delay.

(b) Any specified delivery or completion dates shall be correspondingly extended if and to the extent Seller is delayed in the performance of the work by floods, fires, earthquakes, epidemics, acts of God, labor disputes or slowdowns, riots, insurrections or war, governmental regulations, delays in receipt, or shortages of material, or by any cause beyond Seller's reasonable control.

(c) If for any reason Buyer is unable to accept scheduled delivery of fabricated materials or to permit delivery of materials at the erection site designated herein, then Buyer shall pay Seller, upon demand, the contract price for such material, less the value computed according to Seller's established accounting practices of any work hereunder remaining to be performed, and also reimburse Seller for all costs and expenses incurred in storing, caring for, handling and disposing of such material.

(d) Unless otherwise expressly provided herein, all work shall be performed during regular working hours of regular working days. If Buyer should require overtime, the added cost thereof shall be reimbursed to Seller, in addition to the contract price. (e) Unless specifically expressed herein, steel is to be shop primed with the Seller's standard primer, and the Seller will not be responsible for the condition of the paint after this work has been delivered to the custody of others.

Article 11: ERECTION CONDITIONS If erection is called for in the specifications listed in this contract, Buyer shall without cost to Seller: (a) Provide adequate foundations of proper height, any required wood blocking and/or wood backing for handholds, place wood-posts, shores and wall-plates to correct elevations and dimensions, set all anchor bolts, leveling plates and leave column base plates, and establish all levels and datum lines. Buyer to promptly report in writing to the Seller any deviations in the work of others which could cause a twist in the Seller's work. (b) Schedule operations so that erection work of Seller may be worked out in proper sequence and with a single erection trip and in one continuous operation, unless more than one trip would necessarily be required. (c) Protect and maintain necessary ingress and egress, and a firm and properly graded site that is free of all obstructions over the entire building area, safe for Seller's employees, and suitable for the safe operation of loaded trucks and crawler and truck cranes (without use of planks or supporting pads, excepting only in those cases where normal erection practice necessitates truck and crane operation over existing concrete, paving or flooring. (d) Remove any overhead obstructions to erection, including wires, before arrival of Seller's equipment at the site. (e) Furnish, place and maintain necessary lights, barricades, flagmen, safety railings, planking, overhead protection, and do and perform all things so required by the ordinances of the state, city or county in which the structure is located, or the rules and regulations of any of the departments of said state, city or county.

Article 12: TERMS OF PAYMENT The terms of payment shall be: (a) Material only: Net 10th for material delivered the previous month. (b) Material not in place: Payments to be made on or before the 10th of each month covering 95% of the contract value of all materials stored during the preceding month. (c) Material installed and in place: Payments to be made on or before the 10th of each month, covering 95% of the contract value of all materials installed in place during the preceding month. Balance of 5% to be paid within 30 days after completion of work covered by the terms of this Agreement. The entitlement of the Seller to payment shall be absolute and not contingent upon the Buyer receiving payment for such work. (d) If payment is to be made on the basis of the weight of materials and the method of calculating weights is not specified, materials shall be invoiced on the basis of weights calculated from detail drawings and shop bills in accordance with the method of calculating weights prescribed in the latest Code of Standard Practice of the American Institute of Steel Construction. (e) Until paid for, the title to and ownership and right of repossession of the material covered by this contract shall be and remain in the Seller, should the Buyer become insolvent or refuse or neglect to pay for said material. (f) No charges for labor or material furnished by the Buyer shall be allowed as a credit on this agreement, unless authorized in writing by the Seller.

All payments shall be made as stipulated at the address of the Seller. When not so paid, then the entire contract price shall become immediately due and payable. The Buyer agrees to pay the Seller interest on all past due balances at the rate of the higher of (a) ten percent (10%) per annum (0.833% per month), or (b) five percent (5%) per annum, plus the rate prevailing on the 25th of the month preceding the acceptance of this Proposal-Contract, established by the Federal Reserve Bank of San Francisco or advances to member banks under Sections 13 and 13 (a) of the Federal Reserve Act as in effect on said date of acceptance or as may be thereafter from time-to-time amended (or, if there is no such single determinable rate of advances, the lowest counterpart of such rate as shall be designated by the Superintendent of Banks of the State of California unless some other person or agency is delegated such authority by the Legislature.

Article 13: ATTORNEYS FEES If any Party brings an action or proceeding to enforce the terms hereof or declare rights hereunder, the Prevailing Party in any such proceeding, action or appeal thereon, shall be entitled to reasonable attorney's fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term "Prevailing Party" shall include without limitation, a Party who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other Party of its claim or defense. The attorney's fees award shall not be computed in accordance with any court fee schedule, but shall be such as to fully reimburse all attorney's fees reasonably incurred. Seller shall be entitled to attorney's fees, costs and expenses incurred in the preparation and service of notices of Default and consultations in connection therewith, whether or not a legal action is subsequently commenced in connection with such Default or resulting Breach.

Article 14: ARBITRATION Any claim arising out of or related to this Subcontract, except those waived in this Subcontract, shall be subject to arbitration. Claims shall be decided by arbitration which, unless the parties mutually agree otherwise, shall be in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association currently in effect. Demand for arbitration shall be filed in writing with the other party to this Subcontract and with the American Arbitration Association, and a copy shall be filed with the Architect.

Limitations on Consolidation or Joinder. Except by written consent of the person or entity sought to be joined, no arbitration arising out of or relating to the Subcontract shall include, by consolidation or joinder in any other manner, any person or entity not a party to the Subcontract under which such arbitration arises, unless it is shown at the time the demand for arbitration is filed that (1) such person or entity is substantially involved in a common question of fact or law, (2) the presence of such person or entity is required if complete relief is to be accorded in the arbitration, (3) the interest or responsibility of such person or entity in the matter is not insubstantial, and (4) such person or entity is not the Architect, the Architect's employee, the Architect's consultant, or an employee or agent of any of them. This agreement to arbitrate and any other written agreement to arbitrate with an additional person or persons referred to herein shall be specifically enforceable under applicable law in any court having jurisdiction thereof.

Claims and Timely Assertion of Claims. The party filing a notice of demand for arbitration must assert in the demand all claims then known to that party on which arbitration is permitted to be demanded.

Judgment on Final Award. The award rendered by the arbitrator or arbitrators shall be final, and judgment may be entered upon it in accordance with applicable law in any court having jurisdiction thereof.

SHOULD YOU DESIRE TO ENTER INTO A CONTRACT ON THE TERMS AND CONDITIONS SET FORTH ABOVE, PLEASE SO INDICATE BY SIGNING ON PAGE 1 AND INITIALING BELOW AND RETURN TO US WITHIN 30 DAYS FROM THE ABOVE DATE HEREOF, ONE COPY OF THIS PROPOSAL WHICH SHALL BECOME A CONTRACT SUBJECT TO THE APPROVAL OF THE BUYER'S CREDIT. SUCH CREDIT SHALL BE DEEMED APPROVED UNLESS BUYER IS GIVEN WRITTEN NOTICE TO THE CONTRARY, WITHIN 10 DAYS AFTER SELLER HAS RECEIVED BUYER'S ACCEPTANCE OF THIS PROPOSAL.

SPUD'S CRANE SERVICE, INC.

Hereinafter called the Owner, hereby rents and leases the equipment and supplies the operators as described on the job order, subject to the following conditions: **WARRANTY** The Lessee expressly agrees to indemnify and save Lessor harmless from and against all claims, demands, liabilities, suits or judgments of whatsoever kind or nature, and all costs or expenses in connection therewith, including court costs and attorney's fees, arising out of or resulting from death or injury to persons, including employees of the Lessee, and loss, damage or injury including the leased equipment, caused or occasioned, or claimed to be caused or occasioned directly or indirectly, by or in connection with the work being performed under this order or being done by said equipment or by any personnel furnished in connection with said equipment. It is expressly agreed that the leased equipment and the personnel furnished in connection therewith are under the exclusive jurisdiction, control and supervision of the Lessee. **PERFORMANCE** If the owner shall be prevented, delayed or interfered with by weather, unforeseeable equipment malfunctions, strikes, war, fire, causes beyond its control, exercise of governmental control, priorities, or any circumstances relating directly or indirectly to its operation of the job Government from performing any agreement hereon, or if said equipment shall be seized or taken over by the U.S. or governmental agency then the Owner shall be excused from the performance of this contract shall be so prevented or interfered with. **FORCE MAJEURE** Fire, flood, or other obstacles occur into the work area to be provided by the customer. **INDEMNIFICATION** If either party becomes a party to any litigation concerning this rental by reason of any act or omission of the other party or its authorized representatives, and not by any act or omission of its party that becomes a party to that litigation or any act or omission of its authorized representatives, the party that causes the other party to become involved in the litigation shall be liable for reasonable attorneys fees and court costs incurred by it in the litigation. If either party commences an action against the other party arising out of or in connection with this rental, the prevailing party shall be entitled to have and receive from the other party attorney's fees and cost of suit. **ASSIGNMENT** This agreement shall be deemed the exclusive agreement of the parties subject to its terms and conditions stated, when executed by acknowledgment or participation or performance by Owner.

APPLICATION FOR APPROVAL OF CONSTRUCTION CHANGE DOCUMENT - CCD CATEGORY A/B

This application is for construction changes, as defined in IR A-6, to approved contract documents. This form shall be completed by the Design Professional in General Responsible Charge of the project, in accordance with California Code of Regulations, Title 24, Part 1, Section 4-338 (c) and in compliance with DSA IR A-6.

General

Design method: ACI 318-11
Units: Imperial units

Anchor Information:

Anchor type: Cast-in-place
Material: AB
Diameter (inch): 0.750
Effective Embedment depth, h_{ef} (inch): 12.000
Anchor category: -
Anchor ductility: Yes
 h_{min} (inch): 14.25
 C_{min} (inch): 4.50
 S_{min} (inch): 4.50

Load and Geometry

Load factor source: ACI 318 Section 9.2
Load combination: not set
Seismic design: Yes
Anchors subjected to sustained tension: Not applicable
Ductility section for tension: D.3.3.4.3 (a) 3-6 is satisfied
Ductility section for shear: not satisfied
 Ω_n factor: not set
Apply entire shear load at front row: Yes
Anchors only resisting wind and/or seismic loads: Yes

Base Material

Concrete: Normal-weight
Concrete thickness, h (inch): 30.00
State: Cracked
Compressive strength, f_c (psi): 3000
 $\Psi_{c,v}$: 1.0
Reinforcement condition: B tension, B shear
Supplemental reinforcement: Not applicable
Reinforcement provided at corners: No
Do not evaluate concrete breakout in tension: Yes
Do not evaluate concrete breakout in shear: No
Ignore δ do requirement: No
Build-up grout pad: Yes

Base Plate

Length x Width x Thickness (inch): 11.00 x 11.00 x 1.50
Yield stress: 50000 psi

Profile type/size: HSS5X5X1/4

Interaction of Tensile and Shear Forces (Sec. D.7)

Tension	Factored Load, N _u s (lb)	Design Strength, φN _n (lb)	Ratio
Steel	10958	14528	0.75
Pullout	10958	44528	0.25

NO CHANGE

PAB6 (3/4"Ø) with hef = 12.000 inch meets the selected design criteria.

Base Plate Thickness

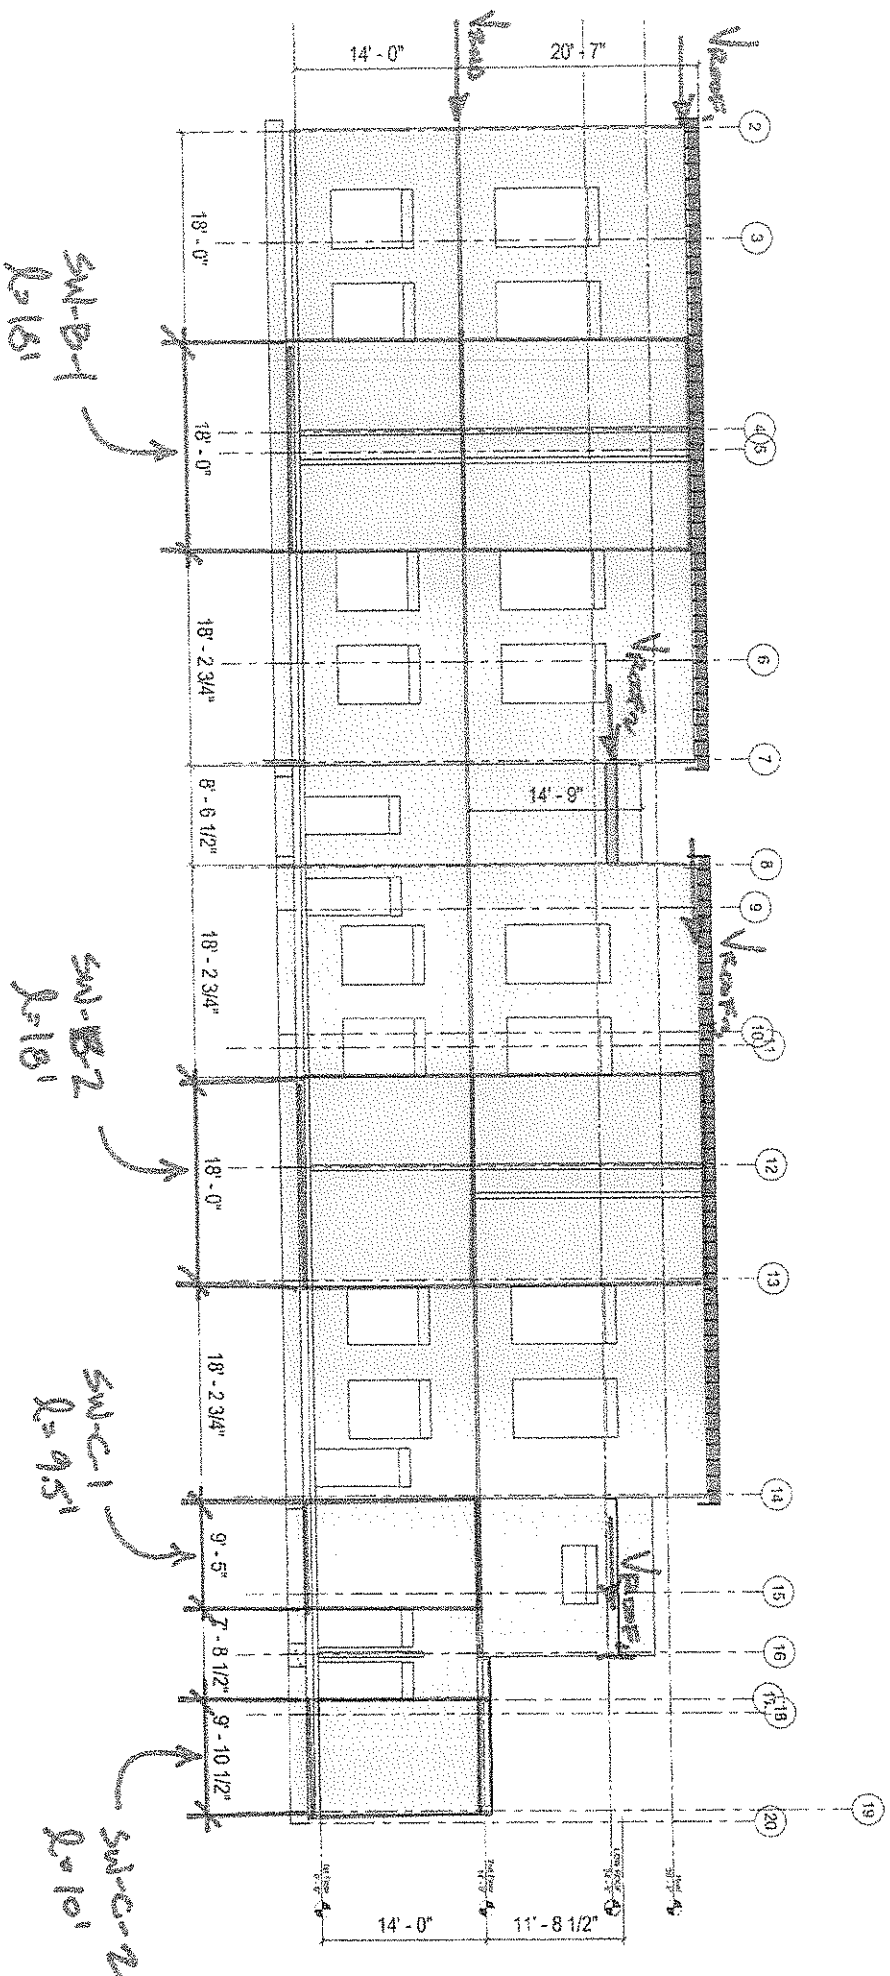

Required base plate thickness: 0.804 inch

12. Warnings

- Concrete breakout strength in tension has not been evaluated against applied tension load(s) per designer option. Refer to ACI 318 Section D.4.2.1 for conditions where calculations of the concrete breakout strength may not be required.
- Designer must exercise own judgement to determine if this design is suitable.

Project: Marshall Elementary - New 6-8 Classroom Bldg.

Date: 08-23-18

Discipline: Structural

Subject: Clarification of Deck Connections

DRAWING & SPECIFICATION REFERENCES

Drawing Sheet / Specification	Detail / Sub Section	Comments
S-212		

QUESTION

Please provide clarifications requested on page 2. See pages 3 and 4, for your reference.

ANSWER

NC Response:

See comments on submitted plan sheet. Contractor shall inform SEOR of any connection that is not feasible. By: DY/NC 08/22/18

Note: Contractor/sub-contractor is responsible for coordinating RFI response with previous RFI responses. SEOR shall be informed of any discrepancy so SEOR may address.

NC Additional Response:

See comments provided in PURPLE for additional information requested by Contractor.
By: DY/NC 08/23/18

NC Revised Response R2:

Per site visit on 08/27/18, revised responses provided in ORANGE. These revisions noted in orange should not affect beam lengths. SEOR shall be informed prior to commencement of work if this is not the case.

By: DY/NC 08/28/18

RESPONSE DISTRIBUTION

Company	Contact	Date Sent
JF Construction Corp	John Ferrante	8/23/2018

Please review and advise Bernards, WITHIN 7 days, if there are any additional costs or schedule impacts associated with incorporating the RFI response with the Contract Work. (Include a brief description and rough order estimate of the change with this notification. If no response is received within 7 days, Bernards shall trust that there is no impact to your Contract Price or Schedule.

The contractor signing below hereby agrees to the following:
 Equipment and operator are under the exclusive authority and supervision of Contractor/Owner. Contractor/Owner is responsible for all underground services and Contractor/Owner is liable for all damages to persons or property.
 The total amount due as set forth above will be billed to Contractor/Owner by separate invoice. All invoices are due in full upon receipt.
 An additional one and one-half percent service charge (or the maximum amount permitted by applicable law) will be charge to all accounts not paid within 30 days after due date and similarly each month thereafter. In the event it will become necessary to place this account with an attorney for collection, Contractor/Owner will pay costs of said attorney. Including all related costs of collection, whether or not legal proceedings are commenced. If suit is instituted, then in addition, Contractor/Owner will pay all court costs as allowed by applicable law.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this 24th day of August 2017, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Bernards which is a contractor licensed by the State of California, with its principal place of business at 555 First Street, San Fernando, CA 91340 (hereinafter referred to as "Contractor").

WHEREAS, the District operates Marshall Elementary School, located at 2900 Thurgood Marshall Drive, Oxnard, California 93036 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct and modernize facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1G below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibit A** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibit A** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#17-117

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibit A** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.

- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibit A** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.

- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and

#17-117

attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended, which is incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Not Used for this Agreement**
- F. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibit A** attached hereto.
- G. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- H. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- I. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.
- J. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.

#17-117

- K. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.
- L. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- M. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- N. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Education, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

- 4 -

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Eight Million Nine Hundred Ninety-Four Thousand Two Hundred Thirty-Six and No/Hundredths Dollars (\$8,994,236.00)**. The GMP consists of (1) no Preconstruction Fee, a Sublease Tenant Improvement Payment in the amount of **Eight Million One Hundred Ninety-Eight Thousand Five Hundred Ninety-Two Dollars and No Cents (\$8,198,592.00)** and, (2) a Contractor Contingency in the amount of **Three Hundred Forty-Five Thousand Nine Hundred Thirty-Two Dollars and No Cents (\$345,932.00)**, and, (3) Sublease Payments in the amount of **\$74,952.00** per month for **6** months, for a total lease value of **Four Hundred Forty-Nine Thousand Seven Hundred Twelve Dollars and No Cents (\$449,712.00)** pursuant to terms and payment schedule as set forth in the Sublease. THE "GMP" WILL NOT BE ESTABLISHED UNTIL DSA HAS APPROVED THE FINAL PLANS AND SPECIFICATIONS AND THE BOARD APPROVES IT PRIOR TO NTP FOR CONSTRUCTION. The GMP will then be brought to the Board of Trustees as a revision to this section of this agreement. Until such time this section will remain incomplete, the Site Lease and Sublease will not begin and the Contractor will proceed with subcontractor bidding to establish the final GMP for Board acceptance.

The GMP is based upon the DSA approved plans and specifications to exist after this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work to be set forth in **Exhibits A and B** attached hereto. Prior to DSA approval Contractor did not perform Preconstruction Services to assist in designing the project. Upon DSA approval of plans and specifications, and the establishment of the GMP the Contractor shall assume the risk of cost overruns which were foreseeable at the time this Agreement is entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall

#17-117

be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH CONSTRUCTION

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice of Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

- 6 -

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by

#17-117

the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.

- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities at the School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.
- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.

- 8 -

#17-117

- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.
- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications"); and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, makes strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the

#17-117

GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.
- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign **Carl Magness** as Project Manager/Superintendent for the Project. So long as **Carl Magness** remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.
- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.
- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location,

#17-117

accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.
- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and

- 13 -

#17-117

Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

- 14 -

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.

- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

Bernards
555 First Street
San Fernando, CA 91340
Attn: Rick Fochtman

If to the District:

Oxnard School District
1051 South A Street
Oxnard, California 93030
Attn: Dr. Cesar Morales, Superintendent

With a copy to Nitasha Sawhney,
Garcia, Hernandez, Sawhney & Bermudez LLP
2490 Mariner Square Loop, Suite 140
Alameda, CA 94501

And with an additional copy to Scott Burkett,
Caldwell Flores Winters, Inc.
6425 Christie Ave., Suite 270
Emeryville, CA 94608

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

ALLOWANCES

Marshall Classroom Building
Oxnard School District
2900 Thurgood Marshall Dr, Oxnard, CA 93036

GMP
July 20, 2017

Allowances Included in Proposal		
1	Natural gas service line.	\$ 50,000
2	Furnish and install new Gate G assembly including hardware	\$ 10,000
3	Temporary power during SCE electrical service switch-over in Summer of 2018.	\$ 25,000
TOTAL ALLOWANCES		\$ 85,000

QUALIFICATIONS & ASSUMPTIONS

Marshall Classroom Building

Oxnard School District

2900 Thurgood Marshall Dr, Oxnard, CA 93036

GMP

July 20, 2017

The following items provide additional clarifications regarding the scope of work included in the Proposal:	
1	All Testing and inspection including shop inspection. All testing and inspection will be performed by the authority having jurisdiction or a third party hired by the owner.
2	GMP excludes all permanent connection or use fees by outside utility companies.
3	Settlement surveys of adjacent properties or utilities are excluded.
4	Owner's FFE items - GMP does not include furnishing, installation, unloading / hoisting or storage of Owner's FF&E.
5	Metalworks Linear Faceted/Curved Ceiling system 8" panel per Note 9.03/G-006, see detail 4/A-541 (no sheet A-541 provided) at Elevators, is excluded.
6	Does not include Owner's mobile shelf units, rolling desks, or similar non-fixed furniture.
7	Natural gas service line to new building not shown on Site Utility Plan C-401,402,403,404 or P-sheets is not included, but is addressed by allowance.
8	Using Metal Sales Standing Seam roof in lieu of AEP Span Span-Lock per specifications.
9	Window blinds are not included at the sectional doors, only at the classroom windows even though they are not shown.
10	Epoxy grout is not included at ceramic tile.
11	Vapor emission treatment at concrete floors is not included.
12	TV brackets are OFCI. Televisions or monitors are not included.
13	Specification Section 23 25 00 - Water Treatment is excluded.
14	Hazardous or contaminated soils handling or removal, or removal of any existing underground tanks or appurtenances, is excluded.
15	No standing guard service is included for school site during the Edison rework of the main power. District to provide guard service.
16	Existing handball walls will be demolished (total of 5). GMP does not include any replacement of these ball walls.
17	GMP does not include any seal and re-stripe of existing asphalt play courts - not shown on plans.

July 19, 2017

CCD Required	NO	COST TRACKING DESCRIPTION	NEXT ACTION/STEP/COMMENTS
		Building	
CCD	ARC.1	Replace 8'6"x13' sectional roll up doors with smaller sized aluminum glazed window frames and plaster walls	JA to prepare elevation replace (10) sectional OH doors with windows in punched openings of a plaster wall and drywall wall Update 06/23/17: Sketched due 06/30/17 Update 7/6/17: Sketches received from CSDA and circulated to subs for pricing. Requested responses by no later than 7/10/17. Update 7/18/17: Clarification to aluminum window type and glass type received from CSDA and subs have provided their proposals.
CCD	ARC.2	Eliminate Smoke Containment doors at elevators, possibly not required	JA to call FLS plan checker to determine if these can be eliminated. Update 06/23/17: CCD-A to delete smoke doors shall be prepared by 06/30/17 and submitted when DSA Box is set up.
	ARC.3	Eliminate sliding markerboards, keep recessed wall space for mobile shelf units.	After discussion with the team this part of the programmatic design which cannot be eliminated. TM to work with bidders on how to reduce the cost of the current design Update 06/23/17: TM is working with Nelson Adams to achieve projected savings without impacting this programmatic element Update 7/6/17: Revised pricing received from Nelson Adams for sliding markerboards @ 6' in height, same widths as shown on interior elevations. VE credit combined with ARC.4 Additional cost for painting exposed wall surfaces are combined with ARC.3
	ARC.4	Decrease size of floor to ceiling markerboard and tackboard surfaces	JA to prepare revised elevation to reduce the height of the wall mounted markerboards and acoustical tackboard Update 06/23/17: TM is working with Nelson Adams to achieve projected savings without impacted this programmatic element Update 7/6/17: Revised pricing received for wall markerboards @ 6' in height, same widths as shown on interior elevations. VE credit combined with ARC.3 Additional cost for painting exposed wall surfaces are combined with ARC.3. Update 7/7/17: Jeremy C. provided clarification that sliding markerboards will not change in size. Carl will follow up with Nelson Adams to revise their VE proposal based on this information. Update 7/18/17: Revised pricing received from Nelson Adams. All sliding markerboards remain full height as shown on the drawings, wall markerboards and tackboards will become 6' in height.
	ARC.5	Eliminate acoustical wall panels in upper clerestory areas	JA to revise RCP to delete acoustical wall panels in upper clerestory. JA to incorporate use of acoustical ceiling panels on vertical surfaces. Update 06/23/17: SB directed JA to delete acoustical wall panels in the clerestory walls. TM to confirm \$30K saving Update 7/6/17: Credit provided for deleting these panels in the clerestory wall areas. Additional cost for painting exposed wall surfaces are also provided.
	ARC.6	Eliminate wall tile behind lockers in Rooms 111 & 114.	After discussion with the team it was determined that all tile will be eliminated from the scope of work in the changing rooms. See ARC.18 below
	ARC.7	Lower height of wainscot tile in restrooms to 4' high	RS to provide pricing for proposed revision Update 06/23/17: Pricing for credit received from Silverado Tile.
	ARC.8	Eliminate floor tile in Toilet and changing rooms. Replace with a sealed concrete finish.	See ARC 18 below

July 19, 2017

CCD Required	NO	COST TRACKING DESCRIPTION	NEXT ACTION/STEP/COMMENTS
	ARC.9	Replace entire roof with hot mop- Roofing VE Items	RS to provide pricing for hot mop roof through out the project. Update 06/23/17: TM working with Best Interior to develop a value engineering package that retains the existing design. Update 7/6/17: CM has discussed potential VE items with Best, including use of a lighter gauge standing seam roofing material. Update 7/18/17: Use of a lighter gauge standing seam roofing material is not acceptable to CSDA. Best Contracting looked again at their number and submitted a credit amount.
CCD	ARC.10	Use standard Hydraulic elevators in lieu of MRL elevator	JA to provide revised design for using a jack less hydraulic elevator Update 06/23/17: SB directed team to pursue the hydraulic elevator. TM to forward shop drawing for hydraulic elevator to JA for coordination with designed structure for the shaft and equipment room Update 7/6/17: Republic Elevator has provided drawings for space requirements of the elevator shaft and machine room. CSDA has reviewed and indicates that required space requirements will work within current designed structure.
	ARC.11	Delete energy management system.	RS to obtain credit to delete EMS in it entirety Update 06/23/17: Sheldon provided credit.
	ARC.12	Delete fire department ladders	JA to call fire marshal to understand requirement of exterior fire ladders Update 06/23/17: JA and TM to visit fire department to delete exterior ladders for building and elevator tower Update 7/6/17: Per Jose/CSDA the exterior ladders as shown on G-003 will not be required based on discussion with the local fire department.
CCD	ARC.13	Delete framing at elevator opening smoke doors.	SB accepted deletion. Finalize credit to GMP.
CCD	ARC.14	Delete hand dryers	SB accepted deletion. Finalize credit to GMP JA to revise specifications to include paper towel dispensers Update 06/23/17: Paper towel dispensers shall OFCI.
CCD	ARC.15	Revise Guardrail Detail	JA to review design of handrail detail and revise to simplify and reduce cost. Also see ARC.19 below Update 06/23/17:CA Buchen provided revised design for guardrails which was accepted by SB and JA. Credit provided by CA Buchen.
	ARC.16	Use thinset in lieu of mortar set tile	After discussion with the team it was determined that the mortar bed would be deleted at 1st and 2nd floor restrooms and that the tile would be thinset. Need to add the sloping of floor to drains. RB to provide pricing Update 06/23/17: Credit provided by Silverado.
CCD	ARC.17	Remove 2nd floor canopy over walkways	JA to review the shading study and determine if a portion of the walkway cover can be reduced Update 06/23/17: Still pending structural engineer response. JA to follow on 06/26/17 Update 7/6/17: Jose/CSDA has been working with the structural engineer for drawings/details in order for Bernards to request subcontractor pricing. Update 7/18/17: The structural engineer provided drawings on 7/18/17 for subs to review and provide pricing.
	ARC.18	Delete all tile from change rooms and provide painted walls and resilient tile with rubber base	RS to provide pricing for proposed revisions. Update 06/23/17:Credit provided by Silverado.
	ARC.19	Delete galvanized finish for stairs, guardrails and handrails and provide zinc primer with paint finish	RS to provide pricing for proposed revisions. Update 06/23/17: Steel contractor stated the is no cost difference with zinc coating and galvanizing.

July 19, 2017

CCD Required	NO	COST TRACKING DESCRIPTION	NEXT ACTION/STEP/COMMENTS
	ARC.20	Delete requirement of waterproof wrap around building	JA to review specification to determine what is required and RS to reach out to plaster subcontractors to determine what is included Update 06/23/17: TM got price to wrap the first 5 feet of the building.
	ARC.21	Delete drywall soffit at high ceiling and provide T-Bar and acoustical tile.	JA to prepare sketch of proposed T-Bar soffit for final pricing Update 7/6/17: Jose/CSDA has rejected this potential VE item.
	ARC.22	Revise operable windows to fixed windows	JA to revise specification for windows. TM to price Update 7/6/17: Jose/CSDA has revised the aluminum window spec and pricing has been requested from subcontractor. Update 7/18/17: CSDA revised the aluminum window spec. again and answered subcontractor questions. Subcontractor has provided credit for fixed windows in place of operable.
	ARC.23	Flush Aluminum Windows with Exterior wall	JA to revise specification for windows. TM to price Update 7/6/17: Jose/CSDA has revised the aluminum window spec and pricing has been requested from subcontractor. Update 7/18/17: CSDA revised the aluminum window spec. again and answered subcontractor questions. Subcontractor has provided credit for fixed windows in place of operable. JA to revise detail for window install. TM to price Update 7/6/17: Jose/CSDA has revised the aluminum spec and pricing has been requested from subcontractor. Update 7/18/17: CSDA revised the aluminum window spec. again. Window width is now 4 1/2" but still held to outside with return on inside of wall.
	ARC.24	HVAC VE Items	Meeting with CFW, Bernards and Sheldon Mechanical to discuss potential VE items. Items include deduct for standalone control system vs. DDC control system, deduct to change side discharge rooftop units to down shot, deduct to change ductwork from rectangular to round and added cost to install copper coils on rooftop units. Update 7/7/17: The copper fin added cost has been rejected. The (3) credit items are still under consideration. Jose A. to follow up with mechanical engineer to question why his response to down shot roof top units will not work. Update 7/18/17: Mechanical engineer has rejected the proposed down shot type units due to space limitations. Credits for standalone control system and use of round ducts will be accepted.
	ARC.25	Electrical VE Items	Taft Electric has been contacted regarding potential VE items and have submitted the following; Deduct for alternate light fixture package using a different manufacturer, deduct for use of MC cables for all branch circuits in lieu of flex conduit, deduct for use of aluminum brass in lieu of copper on all switchgear, deduct for use of native soil in lieu of concrete backfill at ductbanks. The Electrical Engineer has reviewed and provided a response, to be reviewed further with CFW & CSDA. Update 7/7/17: After reviewing the electrical VE items it was determined to still pursue the potential cost savings of an alternate lighting package and also request a cost savings number for use of slurry backfill in ductbank trenches. Update 7/18/17: Potential cost savings for the alternate lighting package is acceptable. Taft Electric confirmed no savings for use of slurry backfill in ductbank trenches.

CCD Required	NO	COST TRACKING DESCRIPTION	NEXT ACTION/STEP/COMMENTS
	ARC.26	Door Hardware Savings (hinges, etc.)	Scott B. requested a door hardware cost savings for use of butt hinges instead of the specified continuous hinges. Scott will forward a copy of District hardware standards to Carl for discussion with the subcontractor for any potential savings.
	ARC.27	Plumbing VE Savings	Carl M. will contact the low bid plumbing subcontractor to discuss any potential cost saving items.
	SIT.1	Eliminate construction of (5) CIP concrete seat benches, District to provide benches	SB accepted deletion. Finalize credit to GMP Update 7/6/17: Credit for deleted concrete benches requested from subcontractor. Update 7/18/17: Credit proposal received from subcontractor.
	SIT.2	Remove PCC Pavers and concrete sub-slab for pavers, leave existing AC paving.	SB accepted deletion. Finalize credit to GMP Update 7/6/17: Credit for deleted concrete pavers and sub slab requested from subcontractor. Update 7/18/17: Credit proposal received from subcontractor.
CCD	SIT.3	Remove raised planter walls - concrete, rebar, waterproofing and landscaping & irrigation	After discussion it was determined to eliminate all raised planters but retain all landscaping at grade. RS to finalize credit for deletion of raised planters JA to provide revised design for landscaping at grade for pricing Update 7/18/17: Credit proposal received from subcontractors for deleted raised planters. Revised landscape drawings not provided, no change in cost proposed for landscaping at planters.
CCD	SIT.4	Remove concrete mow strip, replace with natural grass	JA to review with DSA the need to 6' mow strip with plan checker Update 06/23/17: JA to submit CCD to delete 6' mow strip Update 7/6/17: Pricing has been requested from subcontractor for revising mow strip from 60" to 12" wide. Update 7/18/17: Credit proposal received from subcontractor.
	SIT.5	Delete gravity wall, use curb	JA to review with Civil if gravity wall can be deleted. This would me budget funds to delete the demolition of the ball walls could be removed. Update 06/23/17: JA to confirm with civil engineer that gravity wall can be deleted. Update 7/7/17: This potential VE item has now been rejected.
	SIT.6	Delete perimeter curb & 4" CAB w/ geo fabric at rubber play surface, install rubber surfacing	Rejected
	SIT.7	Delete site concrete mock-up	SB accepted deletion. Finalize credit to GMP
	SIT.8	Reduce cost reconstruction at new electrical service	JA to have civil engineer provide demo and construction for new electrical service. Update 7/6/17: Site photos of the area for SCE work and approximate electrical underground pathway back to the electrical room have been provided to CSDA for use by Civil Engineer. Update 7/7/17: Carl M. will go back into the GMP and verify if there are still potential costs available. Update 7/18/17: After reviewing costs again with estimators, a cost savings was determined.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Ratification of Credit Change Order No. 4 to Construction Services Agreement #17-212 with Viola Constructors Inc. to adjust costs for the Kinder/Flex project at McAuliffe Elementary School (Penanhoat/CFW)

The McAuliffe Elementary School Kindergarten Flex Classroom Building Addition project has been completed and the facility has been occupied by the school district. This credit change order is the final release of unused allowance funds from the contractor. These funds are part of the original guaranteed maximum price for the project. Change Order No. 4 provides for the Board's ratification of one (1) change order, PCO #009, with the following scope of work:

- PCO #009 – Credit for Unused Allowances

FISCAL IMPACT:

Eight Thousand Six Hundred Seven Dollars and Fifty- Eight Cents (\$8,607.58) to be credited to the Master Construct and Implementation Funds.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in conjunction with Caldwell Flores Winters, Inc., that the Board of Trustees ratify Credit Change Order No. 004 to Construction Services Agreement #17-212 with Viola Constructors Inc. to provide Construction Services related to the Kinder/Flex Project at McAuliffe Elementary School. If ratified, the decrease to budget and the allocation from the Program Reserve will be reflected in the District's next Semi-Annual Update to the Master Construct and Implementation Program Report.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this 1st day of November, 2017, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Viola Inc., a contractor licensed by the State of California, with its principal place of business at 1144 Commercial Ave., Oxnard, CA 93031 (hereinafter referred to as "Contractor").

WHEREAS, the District will operate McAuliffe Elementary School, located at 3300 Via Marina Avenue, Oxnard, California 93035 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct new facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1H below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

- 1 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

McAuliffe Elementary School New Addition

November 1, 2017

#17-212

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

-
- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended, which is

- 2 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

McAuliffe Elementary School New Addition

November 1, 2017

#17-212

incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Preconstruction Services.** The term "Preconstruction Services" as used in this agreement means to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services, as described in **Exhibit B** related to the Project plans and specifications for the purpose of designing the project within budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect.
- F. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibit A** attached hereto.
- G. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- H. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- I. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.

#17-212

- J. **Specifications.** The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- K. **Subcontractor.** As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.
- L. **Sublease.** The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- ~~M. **Sublease Payments.** The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.~~
- N. **Tenant Improvement Payments.** The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Trustees, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as

- 4 -

#17-212

limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. The GMP consists of (1) a Preconstruction Fee only in the amount of **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. (2) a Sublease Tenant Improvement and (3) a Contractor Contingency and Sublease Payments to be negotiated as an amendment to this agreement pursuant to terms and payment schedule as amended and set forth in the Sublease. THE "GMP" WILL NOT BE ESTABLISHED UNTIL DSA HAS APPROVED THE FINAL PLANS AND SPECIFICATIONS AND THE BOARD APPROVES IT PRIOR TO NTP FOR CONSTRUCTION. The GMP will then be brought to the Board of Trustees as an amendment to this section of this agreement. Until such time this section will remain as a Preconstruction Fee only, the Site Lease and Sublease will not begin and the Contractor will proceed with Preconstruction Services as set forth in **Exhibit B** with an NTP for Preconstruction from the District.

The GMP is based upon the DSA approved plans and specifications to exist after this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work to be set forth in **Exhibit A** attached hereto. Prior to DSA approval Contractor will perform Preconstruction Services to assist in designing the project and as set forth in **Exhibit B**. After preconstruction services, DSA approval of plans and specifications, and the establishment of the GMP the Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement was entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from

#17-212

undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. ~~The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.~~

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH PRECONSTRUCTION AND CONSTRUCTION

Prior to an approved GMP, the District shall issue a notice to Contractor to proceed with the Preconstruction of the Project. The Preconstruction Agreement in **Exhibit B** will serve as the whole agreement between the Contractor and the District until a GMP is established.

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is

- 6 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

McAuliffe Elementary School New Addition

November 1, 2017

#17-212

not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor ~~agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition.~~ Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

#17-212

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.
- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss, of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District

- 8 -

#17-212

representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.

- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- ~~I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.~~
- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications");

- 9 -

#17-212

and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, make strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted.

- 10 -

#17-212

Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.

- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign Patrick Waid as Project Manager/Superintendent for the Project. So long as Patrick Waid remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.
- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in open session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. ~~No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.~~

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these

#17-212

Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.

- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.
- E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.
- (1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.
- (2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.
- F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous

#17-212

materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.

- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters

- 15 -

#17-212

covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

If to Contractor:

Viola Inc.
1144 Commercial Ave.
Oxnard, CA 93035
Attn: Patrick Waid

#17-212

If to the District:

Oxnard School District
1051 South A Street
Oxnard, California 93030
Attn: Dr. Cesar Morales, Superintendent

With a copy to Nitasha Sawhney,
Garcia Hernandez Sawhney LLP
2490 Mariner Square Loop, Suite 140
Alameda, CA 94501

And with an additional copy to Scott Burkett,
Caldwell Flores Winters, Inc.
1901 Victoria Avenue, Suite #106
Oxnard, CA 93035

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

McAuliffe Elementary School New Addition

November 1, 2017

#17-212

EXHIBIT B

Oxnard School District – McAuliffe ES New Addition

Preconstruction Services

The District desires to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services related to the Project plans and specifications for the purpose of designing the project to budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect. The fee for this set of services will be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)** to be paid monthly on a design progress basis.

The CONTRACTOR will be expected to provide the following professional pre-construction services during the design phase of the Project:

1. Professional Construction Cost-Estimation Services

- A. During each phase of design or at the completion of each phase of design, (1) Conceptual, (2) Schematic, (3) Design Development and (4) Construction Development, CONTRACTOR shall prepare a cost estimate, in current, uninflated dollars, for the design and specifications prepared by the Architect. CONTRACTOR acknowledges that it shall prepare four (4) complete cost estimates commensurate with the level of detail of each phase of design. The cost estimate shall include all Project costs, including, all hard costs (site preparation, utility connections, off-site improvements, hazard abatement, construction costs, overhead & profit and general conditions), soft costs (survey, geo-hazard, geo-technical, environmental studies, inspection and testing) and furniture, fixture and equipment.
- B. Upon final approval by the Division of the State Architect (hereinafter, "DSA"), CONTRACTOR shall adjust its estimate to incorporate any and all changes required by DSA as part of the review and approval process.
- C. CONTRACTOR shall provide the cost estimates at such time as directed by the Program Manager during or at the conclusion of each phase of design, in a format approved by the District's Program Manager and consistent with Construction Specifications Institute (CSI) standards. During the schematic phase, Contractor shall estimate in the CSI UniFormat. For all other phases of design, Contractor shall utilize CSI MasterFormat.

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

McAuliffe Elementary School New Addition

November 1, 2017

1945

2. Professional Constructability Review

- A. Definition: Constructability Review shall mean the review of the design documents to ascertain whether the design of the Project as depicted in the Construction Documents, and the documents themselves: (i) accurately and completely reflects the District's objectives as explained to the Architect and CONTRACTOR by the District as approved by the District; and (ii) are free of errors, omissions, conflicts or other deficiencies so that the CONTRACTOR can construct the Project as therein depicted within the Project Budget and without delays, disruptions, or additional costs. The standard to be used for constructability is a contractor's standard of care in reviewing the plans and not that of an architect.
- B. CONTRACTOR shall conduct one comprehensive technical review of the Plans and Specifications at 50% Construction Development phase. The purpose of this review will be to examine whether the design intent can be successfully implemented in the field within the Project budget. A report of the CONTRACTOR's findings will be distributed to the Program Manager and the Architect. CONTRACTOR will participate in any meeting(s) with the Architect to determine if the comments will be included in the final bid set of documents. CONTRACTOR will work with Architect to ensure that all front end documents conform to technical specifications and meet District standards.
- C. At all times during design and DSA Review and Approval, the Architect shall remain responsible for completing, stamping, submitting and securing final DSA approval for the Project. Furthermore, the District acknowledges that CONTRACTOR is neither the Architect nor performing an architectural review of the Project. CONTRACTOR's responsibilities and duties under this subsection shall not include the architectural or structural design of the Project which is the responsibility of the Architect. Notwithstanding this qualification, CONTRACTOR shall conduct a detailed evaluation of the District's educational specifications, Project intent, Architect's Plans & Specifications, the proposed Project construction budget, schedule requirements and deliver a Constructability Review identifying any comments, recommendations or concerns that CONTRACTOR has as to the constructability of the Architect's Plans & Specifications consistent with the District's intent and budget.
- D. Deliverable: The CONTRACTOR shall deliver to the District a complete technical report of the Plans and Specifications with the opinion of the CONTRACTOR as to the constructability of the Architect's Plans and Specifications. The CONTRACTOR, in the report, shall identify any issues, concerns or requests for clarification that CONTRACTOR believes are necessary to complete the design within the District's proposed and approved Project budget. The report shall be made available to the Architect, the District and its Program Manager.

#17-212

3. Value Engineering Services

- A. Definition: CONTRACTOR shall be required to perform Value Engineering Services to identify opportunities to reduce Project cost at the conclusion of each phase of design and during DSA review. The Value Engineering Services shall be provided in the form of a report to the Program Manager and shall identify value engineering opportunities, alternative materials and alternative methods and the associated cost savings estimated by the CONTRACTOR.
- B. Deliverable: The CONTRACTOR shall maintain and distribute a running log of value engineering recommendations throughout the design process. The log shall identify and describe the recommendation, the estimated cost savings for each recommendation and a notation of whether the recommendation is accepted or rejected by the Architect and the District. Value engineering recommendations that are accepted by the District shall be incorporated into the plans and specifications at each phase of design. The log shall note when the recommendation was incorporated into the Plans and Specifications.
-

4. Building Information Modeling (BIM) Services

- A. Definition: BIM Modeling is defined as a 3-D model-based process involving the generation and management of digital representations of physical and functional characteristics of a proposed construction project for purposes of planning, designing, constructing, operating and maintaining the proposed new facility.
- ~~B. CONTRACTOR shall participate in and/or prepare a 3-D model of the Architect's design of the Project utilizing BIM software. The 3-D model shall be rendered in a format that can be made available to the Architect, the District, and/or any agent or representative thereof. The model shall contain sufficient detail to identify any and all ambiguities and clashes in the Architect's plans and specifications and produce a model from which a contractor or sub-contractors may bid for the project in question. The BIM Model must be in a format that can be shared or networked to support the decision-making process related to the design and specifications.~~
- ~~C. The 3-D BIM Model shall be completed prior to the Architect's submission of the plans and specifications to the Division of the State Architect. Any and all ambiguities or clashes will be resolved in a final 3-D BIM Model prior to this submittal.~~
- ~~D. The District shall hold title and interest in the completed 3-D BIM Model. At the request of the District, CONTRACTOR shall make the completed 3-D BIM Model files available to the District in a format acceptable to the District.~~

#17-212

- E. ~~Deliverable: A completed 3-D BIM Model in electronic format acceptable to the District.~~

5. Construction Scheduling Services

- A. Definition: Construction Scheduling is defined as the process of developing a detailed master baseline construction schedule for the Project that identifies all the major tasks and subtasks associated with the planning, design, construction, commissioning, close-out and final occupancy of the completed Project. The schedule shall be prepared in Primavera or comparable software and shall identify all long lead items, critical path, coordination of site activities, and any phasing of the Project. The Construction Scheduling services shall culminate in a final baseline construction schedule approved by the District to be used as a baseline schedule for the Project.
-
- B. ~~CONTRACTOR shall develop a detailed construction schedule utilizing the critical path method. This schedule will provide a logical means of establishing and tracking the Project and for the organization of activities into areas established by Project criteria. CONTRACTOR shall consider any potential disruptions to the learning environment and incorporate major school activities, such as site-wide or statewide testing dates, or as otherwise provided by the District, in the construction schedule.~~
- C. In addition to the Construction Schedule, CONTRACTOR shall develop a Responsibility Matrix and Construction Site Management Plan for the Project. The Responsibility Matrix shall identify the key team members (District/Architect/IOR) and the roles and responsibilities of each entity for the Project. The Construction Site Management Plan shall consist of, but is not limited to, staging areas, deliveries of materials and supplies, site fencing and location of construction site field office. The CONTRACTOR shall work with the Architect and Program Manager to develop these two deliverables in a format and content acceptable to the District.
- D. Deliverable: A completed and approved baseline construction schedule, a Responsibility Matrix and Construction Site Management Plan.

6. Cooperation and Attendance at Design Meetings

- A. CONTRACTOR shall attend regular meetings during Project design with the Architect, the District's Program Manager, the District, and any other applicable consultants of the District as necessary. CONTRACTOR shall contribute to the design meetings by providing applicable comments, feedback, recommendations, information and reports required under the scope of this Contract in a timely manner. Design meetings may be held as frequently as weekly.

#17-212

B. CONTRACTOR shall submit to the District's Program Manager, weekly report of its activities and progress related to deliverables identified in the scope of this Contract. The report shall be provided in a format that is acceptable to the Program Manager.

7. Schedule for Pre-Construction Services.

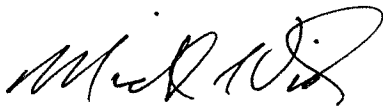

A. The services outlined herein shall commence on the date specified in the District's Notice to Proceed ("NTP"). The schedule of the services to be provided herein shall be consistent with the Design Schedule identified in the District's contract with the Architect for the Project. The service of this Contract shall conclude and terminate upon receipt of the stamped approval of the Project Plans and Specifications from DSA.

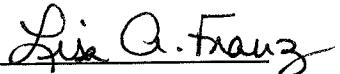

B. In the event that the CONTRACTOR is unable to perform the services anticipated in this Contract in the Architect's design schedule, CONTRACTOR shall notify the Program Manager and the Design Team shall work on a mutually agreeable modification to the design schedule.

C. Any extensions required for deliverables shall be subject to the reasonable approval in writing by the District.

**ADDITIONAL INSURED – OWNERS, LESSEES OR
CONTRACTORS – (FORM B)**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART.

SCHEDULE

Name of Person or Organization:

~~As required by written contract signed by both parties prior to loss.~~

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

WHO IS AN INSURED (Section II) is amended to include as an insured the person or organization shown in the Schedule, but only with respect to liability arising out of "your work" for that insured by or for you.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Person Or Organization:

As required by written contract signed by both parties prior to loss.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The following is added to Paragraph **8. Transfer Of Rights Of Recovery Against Others To Us** of **Section IV – Conditions:**

We waive any right of recovery we may have against the person or organization shown in the Schedule above because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under a contract with that person or organization and included in the "products-completed operations hazard". This waiver applies only to the person or organization shown in the Schedule above.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY .

**CONDITION 4, OTHER INSURANCE,
AMENDED - NON CONTRIBUTORY**

Paragraph 4.c. is deleted in its entirety and replaced by the following:

- c. If all of the other insurance permits contribution by equal shares, we will follow this method unless the insured is required by contract to provide insurance that is primary and non-contributory, and the "Insured Contract" is executed prior to any loss. Where required by a contract, this insurance will be primary only when and to the extent as required by that contract. However, under the contributory approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

5. Other Insurance

- a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this Coverage Form provides for the "trailer" is:
- (1) Excess while it is connected to a motor vehicle you do not own.
 - (2) Primary while it is connected to a covered "auto" you own.
- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".
- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Liability Coverage is primary for any liability assumed under an "insured contract".
- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

- b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory.
The coverage territory is:
- a. The United States of America;
 - b. The territories and possessions of the United States of America;
 - c. Puerto Rico;
 - d. Canada; and
 - e. Anywhere in the world if:

- (1) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
- (2) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico, or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Ratification of Change Order No. 5 to Construction Services Agreement #17-218 with Viola Constructors Inc. to adjust costs for the Kinder/Flex Project at Ritche Elementary School (Penanhoat/Fateh/CFW)

The Oxnard School District requested the provision of additional fencing and gates to be installed under the Ritche ES Kinder/Flex Project to properly secure and prevent student access to the rear of the new modular building and to improve supervision and student safety. Change Order No. 5 provides for the Board's ratification of one (1) change order, PCO #016, with the following scope of work:

- PCO #016 – Adding Chain link Fence & Gate

FISCAL IMPACT:

Eight Thousand Two Hundred Forty- Nine Dollars and Sixty- Eight Cents (\$8,249.68) to be paid out of the Master Construct and Implementation Funds.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in conjunction with Caldwell Flores Winters, Inc., that the Board of Trustees ratify Change Order No. 5 to Construction Services Agreement #17-218 with Viola Constructors Inc., to provide Construction Services related to the Kinder/Flex Project at Ritche Elementary School.

RE: Ritchen School

Pat:

Thank you for the opportunity to quote on installing two pedestrian gates with short fence panels at the above school. Proposal is based on the sketch that you sent me and is as follows:

1. Prevailing wages to be paid to workers. Magnum Fence DIR number is 100001033.
2. All material to be galvanized and school grade quality.
3. Fence and gate to be 6ft tall.
4. Chainlink to be 2-inch mesh, 9 gauge and both selvages knuckled over.
5. All posts to be 2 7/8-inch OD. These will be set in approximately 1ft x 3ft concrete footers. Assume these are out of the DSA scope of work, so no rebar cages to be installed.
6. Gate frames to be 1 7/8-inch OD. Gates to have standard chainlink hardware. Fork latch and heavy duty 180-degree hinges.
7. There will be a small panel installed between the portable and the gate post. This is due to the portable's footing.
8. Assume we have to set a post in the existing fence line for the new fence to terminate.
9. Holes will be cored drilled into the new asphalt for the new fence posts.

Installed price including labor, material and taxes: \$4,682.00

Please let me know if you have any questions.

Regards,
Ralph J. Coolman

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this 1st day of November, 2017, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Viola Inc., a contractor licensed by the State of California, with its principal place of business at 1144 Commercial Ave., Oxnard, CA 93031 (hereinafter referred to as "Contractor").

WHEREAS, the District will operate Ritchen Elementary School, located at 2200 Cabrillo Way, Oxnard, California 93030 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct new facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1H below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

#17-218

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.

- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.

- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended, which is

#17-218

incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Preconstruction Services.** The term "Preconstruction Services" as used in this agreement means to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services, as described in **Exhibit B** related to the Project plans and specifications for the purpose of designing the project within budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect.
- F. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibit A** attached hereto.
- G. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- H. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- I. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.

- 3 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

1963

#17-218

- J. **Specifications.** The term “Specifications” shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- K. **Subcontractor.** As used in this Agreement, the term “Subcontractor” means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.
- L. **Sublease.** The term “Sublease” as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
-
- M. **Sublease Payments.** The term “Sublease Payments” as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- N. **Tenant Improvement Payments.** The term “Tenant Improvement Payments” as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR’S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Trustees, Contractor shall not be paid for such claimed additional

- 4 -

#17-218

services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. The GMP consists of (1) a Preconstruction Fee only in the amount of **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. (2) a Sublease Tenant Improvement and (3) a Contractor Contingency and Sublease Payments to be negotiated as an amendment to this agreement pursuant to terms and payment schedule as amended and set forth in the Sublease. THE "GMP" WILL NOT BE ESTABLISHED UNTIL DSA HAS APPROVED THE FINAL PLANS AND SPECIFICATIONS AND THE BOARD APPROVES IT PRIOR TO NTP FOR CONSTRUCTION. The GMP will then be brought to the Board of Trustees as an amendment to this section of this agreement. Until such time this section will remain as a Preconstruction Fee only, the Site Lease and Sublease will not begin and the Contractor will proceed with Preconstruction Services as set forth in **Exhibit B** with an NTP for Preconstruction from the District.

The GMP is based upon the DSA approved plans and specifications to exist after this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work to be set forth in **Exhibit A** attached hereto. Prior to DSA approval Contractor will perform Preconstruction Services to assist in designing the project and as set forth in **Exhibit B**. After preconstruction services, DSA approval of plans and specifications, and the establishment of the GMP the Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement was entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have

#17-218

been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH PRECONSTRUCTION AND CONSTRUCTION

Prior to an approved GMP, the District shall issue a notice to Contractor to proceed with the Preconstruction of the Project. The Preconstruction Agreement in **Exhibit B** will serve as the whole agreement between the Contractor and the District until a GMP is established.

- 6 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

#17-218

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

- 7 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.
- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss, of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District

#17-218

representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.

- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.
- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications");

- 9 -

#17-218

and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, make strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted.

- 10 -

#17-218

Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.

- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign Patrick Waid as Project Manager/Superintendent for the Project. So long as Patrick Waid remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.
- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

- 11 -

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.
- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in open session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these

#17-218

Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.

- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.
- E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.
- (1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.
- (2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.
- F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous

- 14 -

#17-218

materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters

- 15 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

#17-218

covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

Oxnard, CA 93035

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

1977

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

EXHIBIT B

Oxnard School District – Ritche ES New Addition

Preconstruction Services

The District desires to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services related to the Project plans and specifications for the purpose of designing the project to budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect. The fee for this set of services will be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**, to be paid monthly on a design progress basis.

The CONTRACTOR will be expected to provide the following professional pre-construction services during the design phase of the Project:

1. Professional Construction Cost-Estimation Services

- A. During each phase of design or at the completion of each phase of design, (1) Conceptual, (2) Schematic, (3) Design Development and (4) Construction Development, CONTRACTOR shall prepare a cost estimate, in current, uninflated dollars, for the design and specifications prepared by the Architect. CONTRACTOR acknowledges that it shall prepare four (4) complete cost estimates commensurate with the level of detail of each phase of design. The cost estimate shall include all Project costs, including, all hard costs (site preparation, utility connections, off-site improvements, hazard abatement, construction costs, overhead & profit and general conditions), soft costs (survey, geo-hazard, geo-technical, environmental studies, inspection and testing) and furniture, fixture and equipment.
- B. Upon final approval by the Division of the State Architect (hereinafter, "DSA"), CONTRACTOR shall adjust its estimate to incorporate any and all changes required by DSA as part of the review and approval process.
- C. CONTRACTOR shall provide the cost estimates at such time as directed by the Program Manager during or at the conclusion of each phase of design, in a format approved by the District's Program Manager and consistent with Construction Specifications Institute (CSI) standards. During the schematic phase, Contractor shall estimate in the CSI UniFormat. For all other phases of design, Contractor shall utilize CSI MasterFormat.

2. Professional Constructability Review

- A. Definition: Constructability Review shall mean the review of the design documents to ascertain whether the design of the Project as depicted in the Construction Documents, and the documents themselves: (i) accurately and completely reflects the District's objectives as explained to the Architect and CONTRACTOR by the District as approved by the District; and (ii) are free of errors, omissions, conflicts or other deficiencies so that the CONTRACTOR can construct the Project as therein depicted within the Project Budget and without delays, disruptions, or additional costs. The standard to be used for constructability is a contractor's standard of care in reviewing the plans and not that of an architect.
- B. CONTRACTOR shall conduct one comprehensive technical review of the Plans and Specifications at 50% Construction Development phase. The purpose of this review will be to examine whether the design intent can be successfully implemented in the field within the Project budget. A report of the CONTRACTOR's findings will be distributed to the Program Manager and the Architect. CONTRACTOR will participate in any meeting(s) with the Architect to determine if the comments will be included in the final bid set of documents. CONTRACTOR will work with Architect to ensure that all front end documents conform to technical specifications and meet District standards.
- C. At all times during design and DSA Review and Approval, the Architect shall remain responsible for completing, stamping, submitting and securing final DSA approval for the Project. Furthermore, the District acknowledges that CONTRACTOR is neither the Architect nor performing an architectural review of the Project. CONTRACTOR's responsibilities and duties under this subsection shall not include the architectural or structural design of the Project which is the responsibility of the Architect. Notwithstanding this qualification, CONTRACTOR shall conduct a detailed evaluation of the District's educational specifications, Project intent, Architect's Plans & Specifications, the proposed Project construction budget, schedule requirements and deliver a Constructability Review identifying any comments, recommendations or concerns that CONTRACTOR has as to the constructability of the Architect's Plans & Specifications consistent with the District's intent and budget.
- D. Deliverable: The CONTRACTOR shall deliver to the District a complete technical report of the Plans and Specifications with the opinion of the CONTRACTOR as to the constructability of the Architect's Plans and Specifications. The CONTRACTOR, in the report, shall identify any issues, concerns or requests for clarification that CONTRACTOR believes are necessary to complete the design within the District's proposed and approved Project budget. The report shall be made available to the Architect, the District and its Program Manager.

#17-218

3. Value Engineering Services

- A. Definition: CONTRACTOR shall be required to perform Value Engineering Services to identify opportunities to reduce Project cost at the conclusion of each phase of design and during DSA review. The Value Engineering Services shall be provided in the form of a report to the Program Manager and shall identify value engineering opportunities, alternative materials and alternative methods and the associated cost savings estimated by the CONTRACTOR.
- B. Deliverable: The CONTRACTOR shall maintain and distribute a running log of value engineering recommendations throughout the design process. The log shall identify and describe the recommendation, the estimated cost savings for each recommendation and a notation of whether the recommendation is accepted or rejected by the Architect and the District. Value engineering recommendations that are accepted by the District shall be incorporated into the plans and specifications at each phase of design. The log shall note when the recommendation was incorporated into the Plans and Specifications.
-

4. Building Information Modeling (BIM) Services

- A. Definition: BIM Modeling is defined as a 3-D model-based process involving the generation and management of digital representations of physical and functional characteristics of a proposed construction project for purposes of planning, designing, constructing, operating and maintaining the proposed new facility.
- ~~B. CONTRACTOR shall participate in and/or prepare a 3-D model of the Architect's design of the Project utilizing BIM software. The 3-D model shall be rendered in a format that can be made available to the Architect, the District, and/or any agent or representative thereof. The model shall contain sufficient detail to identify any and all ambiguities and clashes in the Architect's plans and specifications and produce a model from which a contractor or sub-contractors may bid for the project in question. The BIM Model must be in a format that can be shared or networked to support the decision-making process related to the design and specifications.~~
- ~~C. The 3-D BIM Model shall be completed prior to the Architect's submission of the plans and specifications to the Division of the State Architect. Any and all ambiguities or clashes will be resolved in a final 3-D BIM Model prior to this submittal.~~
- ~~D. The District shall hold title and interest in the completed 3-D BIM Model. At the request of the District, CONTRACTOR shall make the completed 3-D BIM Model files available to the District in a format acceptable to the District.~~

#17-218

E. ~~Deliverable:~~ A completed 3-D BIM Model in electronic format acceptable to the District.

5. Construction Scheduling Services

- A. Definition: Construction Scheduling is defined as the process of developing a detailed master baseline construction schedule for the Project that identifies all the major tasks and subtasks associated with the planning, design, construction, commissioning, close-out and final occupancy of the completed Project. The schedule shall be prepared in Primavera or comparable software and shall identify all long lead items, critical path, coordination of site activities, and any phasing of the Project. The Construction Scheduling services shall culminate in a final baseline construction schedule approved by the District to be used as a baseline schedule for the Project.
- B. CONTRACTOR shall develop a detailed construction schedule utilizing the critical path method. This schedule will provide a logical means of establishing and tracking the Project and for the organization of activities into areas established by Project criteria. CONTRACTOR shall consider any potential disruptions to the learning environment and incorporate major school activities, such as site-wide or statewide testing dates, or as otherwise provided by the District, in the construction schedule.
- C. In addition to the Construction Schedule, CONTRACTOR shall develop a Responsibility Matrix and Construction Site Management Plan for the Project. The Responsibility Matrix shall identify the key team members (District/Architect/IOR) and the roles and responsibilities of each entity for the Project. The Construction Site Management Plan shall consist of, but is not limited to, staging areas, deliveries of materials and supplies, site fencing and location of construction site field office. The CONTRACTOR shall work with the Architect and Program Manager to develop these two deliverables in a format and content acceptable to the District.
- D. Deliverable: A completed and approved baseline construction schedule, a Responsibility Matrix and Construction Site Management Plan.

6. Cooperation and Attendance at Design Meetings

- A. CONTRACTOR shall attend regular meetings during Project design with the Architect, the District's Program Manager, the District, and any other applicable consultants of the District as necessary. CONTRACTOR shall contribute to the design meetings by providing applicable comments, feedback, recommendations, information and reports required under the scope of this Contract in a timely manner. Design meetings may be held as frequently as weekly.

- 24 -

#17-218

B. CONTRACTOR shall submit to the District's Program Manager, weekly report of its activities and progress related to deliverables identified in the scope of this Contract. The report shall be provided in a format that is acceptable to the Program Manager.

7. Schedule for Pre-Construction Services.

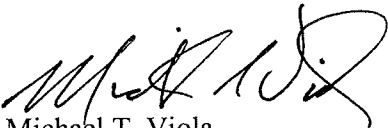

A. The services outlined herein shall commence on the date specified in the District's Notice to Proceed ("NTP"). The schedule of the services to be provided herein shall be consistent with the Design Schedule identified in the District's contract with the Architect for the Project. The service of this Contract shall conclude and terminate upon receipt of the stamped approval of the Project Plans and Specifications from DSA.

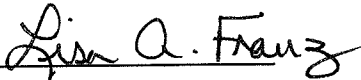

B. In the event that the CONTRACTOR is unable to perform the services anticipated in this Contract in the Architect's design schedule, CONTRACTOR shall notify the Program Manager and the Design Team shall work on a mutually agreeable modification to the design schedule.

C. Any extensions required for deliverables shall be subject to the reasonable approval in writing by the District.

COMMERCIAL GENERAL LIABILITY

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**ADDITIONAL INSURED – OWNERS, LESSEES OR
CONTRACTORS – (FORM B)**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART.

SCHEDULE

Name of Person or Organization:

~~As required by written contract signed by both parties prior to loss.~~

(If no entry appears above, information required to complete this endorsement will be shown in the Declarations as applicable to this endorsement.)

WHO IS AN INSURED (Section II) is amended to include as an insured the person or organization shown in the Schedule, but only with respect to liability arising out of "your work" for that insured by or for you.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART
PRODUCTS/COMPLETED OPERATIONS LIABILITY COVERAGE PART

SCHEDULE

Name Of Person Or Organization:
As required by written contract signed by both parties prior to loss.
Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

The following is added to Paragraph 8. **Transfer Of Rights Of Recovery Against Others To Us** of Section IV – Conditions:

We waive any right of recovery we may have against the person or organization shown in the Schedule above because of payments we make for injury or damage arising out of your ongoing operations or "your work" done under a contract with that person or organization and included in the "products-completed operations hazard". This waiver applies only to the person or organization shown in the Schedule above.

Insured By (Name of Insurance Company) Westchester Fire Insurance Company			

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY .

CONDITION 4, OTHER INSURANCE, AMENDED - NON CONTRIBUTORY

Paragraph 4.c. is deleted in its entirety and replaced by the following:

- c. If all of the other insurance permits contribution by equal shares, we will follow this method unless the insured is required by contract to provide insurance that is primary and non-contributory, and the "Insured Contract" is executed prior to any loss. Where required by a contract, this insurance will be primary only when and to the extent as required by that contract. However, under the contributory approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

5. Other Insurance

- a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this Coverage Form provides for the "trailer" is:
- (1) Excess while it is connected to a motor vehicle you do not own.
 - (2) Primary while it is connected to a covered "auto" you own.
- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".
- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Liability Coverage is primary for any liability assumed under an "insured contract".
- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

- b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory. The coverage territory is:
- a. The United States of America;
 - b. The territories and possessions of the United States of America;
 - c. Puerto Rico;
 - d. Canada; and
 - e. Anywhere in the world if:

- (1) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
- (2) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico, or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

**Ratification of Amendment #2 to Agreement #18-22 with DecisionInsite, LLC
(Penanhoat/Briscoe)**

At the Board meeting of June 20, 2018, the Board of Trustees approved Agreement #18-22 with DecisionInsite LLC, in the amount of \$20,115.00 per year for the 2018-19, 2019-20, 2020-21, 2021-22 and 2022-23 fiscal years, for professional services in community demographic analysis and enrollment projections for use in budget planning, facilities planning, program planning, staff planning, strategic planning and school configuration planning.

On August 8, 2018, the Board of Trustees approved Amendment #1 to cover additional costs related to Bus Stop Locator, a web-based application that provides services relative to transit eligibility zones, bus stops, pick-up and drop-off times, and special day bus schedules during the 2018-19 fiscal year, in the amount of \$3,295.00, for a total annual agreement amount of \$23,410.00 in 2018-19 FY, to be paid out of the General Fund.

Amendment #2 is required to cover costs related to Bus Stop Locator during the 2019-20 fiscal year, in the amount of \$3,295.00, for a total annual agreement amount of \$23,410.00 in 2019-20 FY, to be paid out of the General Fund. The term of Amendment #2 is August 1, 2019- June 30, 2020.

FISCAL IMPACT:

Not to exceed \$3,295.00 to be paid out of the General Fund.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, and the Director of Transportation that the Board of Trustees ratify Amendment #2 to Agreement #18-22 with DecisionInsite, LLC.

ADDITIONAL MATERIALS:

**AMENDMENT #2 TO AGREEMENT #18-22 with
DecisionInsite LLC
August 7, 2019**

At the Board meeting of June 20, 2018, the Board of Trustees approved Agreement #18-22 with DecisionInsite LLC, in the amount of \$20,115.00 per year for the 2018-19, 2019-20, 2020-21, 2021-22 and 2022-23 fiscal years, for professional services in community demographic analysis and enrollment projections for use in budget planning, facilities planning, program planning, staff planning, strategic planning and school configuration planning.

On August 8, 2018, the Board of Trustees approved Amendment #1 to cover additional costs related to Bus Stop Locator, a web-based application that will provide services relative to transit eligibility zones, bus stops, pick-up and drop-off times, and special day bus schedules during the 2018-19 fiscal year, in the amount of \$3,295.00, for a total annual agreement amount of \$23,410.00 in 2018-19 FY, to be paid out of the General Fund.

Amendment #2 is required to cover costs related to Bus Stop Locator during the 2019-20 fiscal year, in the amount of \$3,295.00, for a total annual agreement amount of \$23,410.00 in 2019-20 FY, to be paid out of the General Fund.

Dear Tony,

Thank you for your interest in our Bus Stop Locator solution. Below please find pricing and the agreement for this service.

Pricing	
Annual Bus Stop Locator License (Date: 08/01/2019-06/30/2020)	\$1,595 per year
Data Conversion Fee (not to exceed at \$85 per hour. Est. 20 hrs)	\$1,700

Bus Stop Locator User’s Agreement

This document constitutes an agreement between the authorized district representative submitting the Bus Stop Locator request form (District) and DecisionInsite regarding the use by the District of DecisionInsite’s Bus Stop Locator Application.

Bus Stop Locator: Features

Bus Stop Locator is a web-based application that allows parents or others to submit an address online and have the system retrieve a map showing the location of the address submitted, the locations of all schools in the District that serve that address, as well as bus information such as bus stop name, school served, pick-up, drop-off times and special day bus schedules. The District has the ability, within the limits of the application, to control and/or customize the information displayed regarding each school and stop. Depending on district needs and policies, Bus Stop Locator can be configured to:

- Display Transit eligibility zones,
- Provide access to district transportation policies
- Display emergency information as needed
- Require parents to enter a student’s bus pass number so that the system returns only the bus stop information directly related to a particular student pass.

Access Rights and Responsibilities

Access to the DecisionInsite Bus Stop Locator is granted as long as the District agrees to and/or conforms to the following requirements.

- Bus Stop Locator at all times remains the sole intellectual property of DecisionInsite, LLC.
- District agrees to promote its use as a service to its community through its public website.
- District agrees to properly recognize DecisionInsite as the source of Bus Stop Locator.
- District assumes full responsibility to keep the District editable school and district data and Bus Stop Locator customized messages up to date at all times.
- District agrees to notify DecisionInsite 30 days prior if it intends to discontinue use of Bus Stop Locator.

- District agrees to pay DecisionInsite the annual access fee until such time as the District notifies of its intent to discontinue the agreement.
- District agrees to pay DecisionInsite for initial set up costs as proposed by DecisionInsite and any boundary or school location changes that are required.
- District agrees to keep confidential the District Administrative access to the DI System through which Bus Stop Locator is administered.
- District agrees to assign responsibility for the District Administrative functions of Bus Stop Locator to a staff person and to provide DecisionInsite the contact information for that person.
- District will not disclose to any other party the District Administrative functions within the DI System that support the public expression of Bus Stop Locator.

Acceptance of Agreement

If the terms of this proposal are acceptable to the District, please sign and date in the signature boxes below and return a copy to DecisionInsite, 101 Pacifica, Suite 380, Irvine, CA 92618, or email a signed PDF copy to Lora Miller at lmiller@decisioninsite.com

We look forward to working with you.

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of Contractor Contingency Allocation No. 2 to Construction Services Agreement #17-218 with Viola Incorporated to adjust costs for the Ritche ES Kinder/Flex Project (Penanhoat/CFW)

The Oxnard School District ("District") Facilities Implementation Plan, approved by the Board of Trustees ("Board"), includes the construction of the new modular building at the existing Ritche Elementary School site.

Accordingly, the Board approved Construction Services Agreement (CSA #17-218) during the November 1, 2017 Board Meeting. This contract includes a Twenty Thousand Dollar and No Cents (\$20,000.00) Contractor Contingency. As outlined in the agreement, the Contractor Contingency may be utilized for specific items of work: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved with the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to by the Contractor and District.

At the District's request and pursuant to item (4) above, additional asphalt seal coat and additional striping was added to the scope of the project. Contractor Contingency Allocation No. 2 provides for the Board's approval for this additional work. This Contractor Contingency Allocation No. 2 will not increase Contract Time.

FISCAL IMPACT:

Contractor Contingency Allocation No. 2 will be a COST to the Contractor Contingency line item of the Construction Services Agreement in the amount of Eight Thousand One Hundred Forty-Five Dollars and Twenty-Nine Cents (\$8,145.29) and is to be paid out of Contractor Contingency included within the approved Construction Services Agreement #17-218 for the Ritche ES Kinder/Flex Project. The remaining Contractor Contingency Balance after approval of Allocation No. 2 will be Zero Dollars and Zero Cents (\$0.00).

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in conjunction with Caldwell Flores Winters, Inc., that the Board of Trustees approve Contractor Contingency Allocation No. 2 to the Construction Services Agreement #17-218 with Viola Inc., for additional items of work related to the Ritche Modular Building Project.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this 1st day of November, 2017, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Viola Inc., a contractor licensed by the State of California, with its principal place of business at 1144 Commercial Ave., Oxnard, CA 93031 (hereinafter referred to as "Contractor").

WHEREAS, the District will operate Ritchen Elementary School, located at 2200 Cabrillo Way, Oxnard, California 93030 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct new facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1H below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

- 1 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

2003

#17-218

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended, which is

incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Preconstruction Services.** The term "Preconstruction Services" as used in this agreement means to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services, as described in **Exhibit B** related to the Project plans and specifications for the purpose of designing the project within budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect.
- F. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibit A** attached hereto.
- G. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- H. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- I. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.

- 3 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

2005

#17-218

- J. **Specifications.** The term “Specifications” shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- K. **Subcontractor.** As used in this Agreement, the term “Subcontractor” means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.
- L. **Sublease.** The term “Sublease” as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
-
- M. **Sublease Payments.** The term “Sublease Payments” as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- N. **Tenant Improvement Payments.** The term “Tenant Improvement Payments” as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR’S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Trustees, Contractor shall not be paid for such claimed additional

#17-218

services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. The GMP consists of (1) a Preconstruction Fee only in the amount of **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. (2) a Sublease Tenant Improvement and (3) a Contractor Contingency and Sublease Payments to be negotiated as an amendment to this agreement pursuant to terms and payment schedule as amended and set forth in the Sublease. THE "GMP" WILL NOT BE ESTABLISHED UNTIL DSA HAS APPROVED THE FINAL PLANS AND SPECIFICATIONS AND THE BOARD APPROVES IT PRIOR TO NTP FOR CONSTRUCTION. The GMP will then be brought to the Board of Trustees as an amendment to this section of this agreement. Until such time this section will remain as a Preconstruction Fee only, the Site Lease and Sublease will not begin and the Contractor will proceed with Preconstruction Services as set forth in **Exhibit B** with an NTP for Preconstruction from the District.

The GMP is based upon the DSA approved plans and specifications to exist after this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work to be set forth in **Exhibit A** attached hereto. Prior to DSA approval Contractor will perform Preconstruction Services to assist in designing the project and as set forth in **Exhibit B**. After preconstruction services, DSA approval of plans and specifications, and the establishment of the GMP the Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement was entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have

#17-218

been reasonably foreseen from review of the Contract Documents, or costs arising from undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH PRECONSTRUCTION AND CONSTRUCTION

Prior to an approved GMP, the District shall issue a notice to Contractor to proceed with the Preconstruction of the Project. The Preconstruction Agreement in **Exhibit B** will serve as the whole agreement between the Contractor and the District until a GMP is established.

- 6 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

2008

#17-218

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.
- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss, of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District

#17-218

representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.

- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.
- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications");

- 9 -

#17-218

and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, make strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted.

- 10 -

#17-218

Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.

- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign Patrick Waid as Project Manager/Superintendent for the Project. So long as Patrick Waid remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.
- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

- A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

- B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.
- C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in open session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these

#17-218

Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.

- D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.
- E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.
- (1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.
- (2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.
- F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous

#17-218

materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters

- 15 -

#17-218

covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

- 17 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

2019

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

- 18 -

#17-218

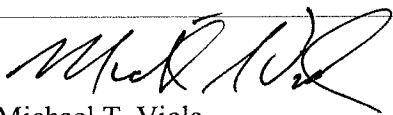

IN WITNESS, WHEREOF the parties hereto, intending to be legally bound thereby, have executed this Agreement effective as of the date first above written.

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ritchen Elementary School New Addition

November 1, 2017

2022

EXHIBIT B

Oxnard School District – Ritche n ES New Addition

Preconstruction Services

The District desires to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services related to the Project plans and specifications for the purpose of designing the project to budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect. The fee for this set of services will be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**, to be paid monthly on a design progress basis.

The CONTRACTOR will be expected to provide the following professional pre-construction services during the design phase of the Project:

1. Professional Construction Cost-Estimation Services

- A. During each phase of design or at the completion of each phase of design, (1) Conceptual, (2) Schematic, (3) Design Development and (4) Construction Development, CONTRACTOR shall prepare a cost estimate, in current, uninflated dollars, for the design and specifications prepared by the Architect. CONTRACTOR acknowledges that it shall prepare four (4) complete cost estimates commensurate with the level of detail of each phase of design. The cost estimate shall include all Project costs, including, all hard costs (site preparation, utility connections, off-site improvements, hazard abatement, construction costs, overhead & profit and general conditions), soft costs (survey, geo-hazard, geo-technical, environmental studies, inspection and testing) and furniture, fixture and equipment.
- B. Upon final approval by the Division of the State Architect (hereinafter, "DSA"), CONTRACTOR shall adjust its estimate to incorporate any and all changes required by DSA as part of the review and approval process.
- C. CONTRACTOR shall provide the cost estimates at such time as directed by the Program Manager during or at the conclusion of each phase of design, in a format approved by the District's Program Manager and consistent with Construction Specifications Institute (CSI) standards. During the schematic phase, Contractor shall estimate in the CSI UniFormat. For all other phases of design, Contractor shall utilize CSI MasterFormat.

#17-218

2. Professional Constructability Review

- A. Definition: Constructability Review shall mean the review of the design documents to ascertain whether the design of the Project as depicted in the Construction Documents, and the documents themselves: (i) accurately and completely reflects the District's objectives as explained to the Architect and CONTRACTOR by the District as approved by the District; and (ii) are free of errors, omissions, conflicts or other deficiencies so that the CONTRACTOR can construct the Project as therein depicted within the Project Budget and without delays, disruptions, or additional costs. The standard to be used for constructability is a contractor's standard of care in reviewing the plans and not that of an architect.
- B. CONTRACTOR shall conduct one comprehensive technical review of the Plans and Specifications at 50% Construction Development phase. The purpose of this review will be to examine whether the design intent can be successfully implemented in the field within the Project budget. A report of the CONTRACTOR's findings will be distributed to the Program Manager and the Architect. CONTRACTOR will participate in any meeting(s) with the Architect to determine if the comments will be included in the final bid set of documents. CONTRACTOR will work with Architect to ensure that all front end documents conform to technical specifications and meet District standards.
- C. At all times during design and DSA Review and Approval, the Architect shall remain responsible for completing, stamping, submitting and securing final DSA approval for the Project. Furthermore, the District acknowledges that CONTRACTOR is neither the Architect nor performing an architectural review of the Project. CONTRACTOR's responsibilities and duties under this subsection shall not include the architectural or structural design of the Project which is the responsibility of the Architect. Notwithstanding this qualification, CONTRACTOR shall conduct a detailed evaluation of the District's educational specifications, Project intent, Architect's Plans & Specifications, the proposed Project construction budget, schedule requirements and deliver a Constructability Review identifying any comments, recommendations or concerns that CONTRACTOR has as to the constructability of the Architect's Plans & Specifications consistent with the District's intent and budget.
- D. Deliverable: The CONTRACTOR shall deliver to the District a complete technical report of the Plans and Specifications with the opinion of the CONTRACTOR as to the constructability of the Architect's Plans and Specifications. The CONTRACTOR, in the report, shall identify any issues, concerns or requests for clarification that CONTRACTOR believes are necessary to complete the design within the District's proposed and approved Project budget. The report shall be made available to the Architect, the District and its Program Manager.

#17-218

3. Value Engineering Services

- A. Definition: CONTRACTOR shall be required to perform Value Engineering Services to identify opportunities to reduce Project cost at the conclusion of each phase of design and during DSA review. The Value Engineering Services shall be provided in the form of a report to the Program Manager and shall identify value engineering opportunities, alternative materials and alternative methods and the associated cost savings estimated by the CONTRACTOR.
- B. Deliverable: The CONTRACTOR shall maintain and distribute a running log of value engineering recommendations throughout the design process. The log shall identify and describe the recommendation, the estimated cost savings for each recommendation and a notation of whether the recommendation is accepted or rejected by the Architect and the District. Value engineering recommendations that are accepted by the District shall be incorporated into the plans and specifications at each phase of design. The log shall note when the recommendation was incorporated into the Plans and Specifications.
-

4. Building Information Modeling (BIM) Services

- A. Definition: BIM Modeling is defined as a 3-D model-based process involving the generation and management of digital representations of physical and functional characteristics of a proposed construction project for purposes of planning, designing, constructing, operating and maintaining the proposed new facility.
- ~~B. CONTRACTOR shall participate in and/or prepare a 3-D model of the Architect's design of the Project utilizing BIM software. The 3-D model shall be rendered in a format that can be made available to the Architect, the District, and/or any agent or representative thereof. The model shall contain sufficient detail to identify any and all ambiguities and clashes in the Architect's plans and specifications and produce a model from which a contractor or sub-contractors may bid for the project in question. The BIM Model must be in a format that can be shared or networked to support the decision-making process related to the design and specifications.~~
- ~~C. The 3-D BIM Model shall be completed prior to the Architect's submission of the plans and specifications to the Division of the State Architect. Any and all ambiguities or clashes will be resolved in a final 3-D BIM Model prior to this submittal.~~
- ~~D. The District shall hold title and interest in the completed 3-D BIM Model. At the request of the District, CONTRACTOR shall make the completed 3-D BIM Model files available to the District in a format acceptable to the District.~~

#17-218

E. ~~Deliverable:~~ A completed 3-D BIM Model in electronic format acceptable to the District.

5. Construction Scheduling Services

- A. Definition: Construction Scheduling is defined as the process of developing a detailed master baseline construction schedule for the Project that identifies all the major tasks and subtasks associated with the planning, design, construction, commissioning, close-out and final occupancy of the completed Project. The schedule shall be prepared in Primavera or comparable software and shall identify all long lead items, critical path, coordination of site activities, and any phasing of the Project. The Construction Scheduling services shall culminate in a final baseline construction schedule approved by the District to be used as a baseline schedule for the Project.
- B. ~~CONTRACTOR shall develop a detailed construction schedule utilizing the critical path method. This schedule will provide a logical means of establishing and tracking the Project and for the organization of activities into areas established by Project criteria. CONTRACTOR shall consider any potential disruptions to the learning environment and incorporate major school activities, such as site-wide or statewide testing dates, or as otherwise provided by the District, in the construction schedule.~~
- C. In addition to the Construction Schedule, CONTRACTOR shall develop a Responsibility Matrix and Construction Site Management Plan for the Project. The Responsibility Matrix shall identify the key team members (District/Architect/IOR) and the roles and responsibilities of each entity for the Project. The Construction Site Management Plan shall consist of, but is not limited to, staging areas, deliveries of materials and supplies, site fencing and location of construction site field office. The CONTRACTOR shall work with the Architect and Program Manager to develop these two deliverables in a format and content acceptable to the District.
- D. Deliverable: A completed and approved baseline construction schedule, a Responsibility Matrix and Construction Site Management Plan.

6. Cooperation and Attendance at Design Meetings

- A. CONTRACTOR shall attend regular meetings during Project design with the Architect, the District's Program Manager, the District, and any other applicable consultants of the District as necessary. CONTRACTOR shall contribute to the design meetings by providing applicable comments, feedback, recommendations, information and reports required under the scope of this Contract in a timely manner. Design meetings may be held as frequently as weekly.

#17-218

B. CONTRACTOR shall submit to the District's Program Manager, weekly report of its activities and progress related to deliverables identified in the scope of this Contract. The report shall be provided in a format that is acceptable to the Program Manager.

7. Schedule for Pre-Construction Services.

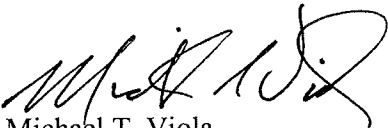

A. The services outlined herein shall commence on the date specified in the District's Notice to Proceed ("NTP"). The schedule of the services to be provided herein shall be consistent with the Design Schedule identified in the District's contract with the Architect for the Project. The service of this Contract shall conclude and terminate upon receipt of the stamped approval of the Project Plans and Specifications from DSA.

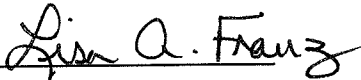

B. In the event that the CONTRACTOR is unable to perform the services anticipated in this Contract in the Architect's design schedule, CONTRACTOR shall notify the Program Manager and the Design Team shall work on a mutually agreeable modification to the design schedule.

C. Any extensions required for deliverables shall be subject to the reasonable approval in writing by the District.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY .

CONDITION 4, OTHER INSURANCE, AMENDED - NON CONTRIBUTORY

Paragraph 4.c. is deleted in its entirety and replaced by the following:

- c. If all of the other insurance permits contribution by equal shares, we will follow this method unless the insured is required by contract to provide insurance that is primary and non-contributory, and the "Insured Contract" is executed prior to any loss. Where required by a contract, this insurance will be primary only when and to the extent as required by that contract. However, under the contributory approach each insurer contributes equal amounts until it has paid its applicable limit of insurance or none of the loss remains, whichever comes first.

If any of the other insurance does not permit contribution by equal shares, we will contribute by limits. Under this method, each insurer's share is based on the ratio of its applicable limit of insurance to the total applicable limits of insurance of all insurers.

5. Other Insurance

- a. For any covered "auto" you own, this Coverage Form provides primary insurance. For any covered "auto" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "auto" which is a "trailer" is connected to another vehicle, the Liability Coverage this Coverage Form provides for the "trailer" is:
- (1) Excess while it is connected to a motor vehicle you do not own.
 - (2) Primary while it is connected to a covered "auto" you own.
- b. For Hired Auto Physical Damage Coverage, any covered "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" you own. However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".
- c. Regardless of the provisions of Paragraph a. above, this Coverage Form's Liability Coverage is primary for any liability assumed under an "insured contract".
- d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

- a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

- b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "accidents" and "losses" occurring:

- a. During the policy period shown in the Declarations; and
- b. Within the coverage territory. The coverage territory is:
- a. The United States of America;
 - b. The territories and possessions of the United States of America;
 - c. Puerto Rico;
 - d. Canada; and
 - e. Anywhere in the world if:

- (1) A covered "auto" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less; and
- (2) The "insured's" responsibility to pay damages is determined in a "suit" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico, or Canada or in a settlement we agree to.

We also cover "loss" to, or "accidents" involving, a covered "auto" while being transported between any of these places.

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us apply to the same "accident", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of Contractor Contingency Allocation No. 1 to Construction Services Agreement #17-215 with Viola Incorporated to adjust costs for the Ramona ES Kinder/Flex Project (Penanhoat /CFW)

The Oxnard School District (“District”) Facilities Implementation Plan, approved by the Board of Trustees (“Board”), includes the construction of the new modular building at the existing Ramona Elementary School site.

Accordingly, the Board approved Construction Services Agreement (CSA #17-215) during the November 1, 2017 Board Meeting. This contract includes a Twenty Thousand Dollar and No Cents (\$20,000.00) Contractor Contingency. As outlined in the agreement, the Contractor Contingency may be utilized for specific items of work: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved with the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to by the Contractor and District.

At the District’s request, additional asphalt seal coat and additional striping is provided and drawn from the Contractor Contingency. Contractor Contingency Allocation No. 001 provides for the Board’s approval for this additional work. This Contractor Contingency Allocation No. 001 will not increase Contract Time.

FISCAL IMPACT:

Contractor Contingency Allocation No. 001 will be a COST to the Contractor Contingency line item of the GMP Construction Services Agreement in the amount of Nine Thousand One Hundred Thirty-Three Dollars and Fourteen Cents (\$9,133.14) and is to be paid out of Contractor Contingency included within the approved Construction Services Agreement #17-215 for the Ramona ES Kinder/Flex Project. The remaining Contractor Contingency Balance after approval of Allocation No. 001 will be Ten Thousand Eight Hundred Sixty-Six Dollars and Eighty-Six Cents. (\$10,866.86).

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, in conjunction with Caldwell Flores Winters, Inc., that the Board of Trustees approve Contractor Contingency Allocation No. 1 to Construction Services Agreement #17-215 with Viola Inc., for additional items of work related to the Ramona Modular Building Project.

CONSTRUCTION SERVICES AGREEMENT

This Construction Services Agreement (hereinafter referred to as the "Agreement") is entered into this 1st day of November 2017, by and between the Oxnard School District, a California school district organized and existing under the laws of the State of California (hereinafter referred to as the "District") and Viola Inc., a contractor licensed by the State of California, with its principal place of business at 1144 Commercial Ave., Oxnard, CA 93031 (hereinafter referred to as "Contractor").

WHEREAS, the District will operate Ramona Elementary School, located at 804 Copper Road, Oxnard, California 93030 (hereinafter referred to as the "School Facility"); and

WHEREAS, the District desires to construct new facilities and improvements (as more fully described below) at those portions of the School Facility identified in the Site Lease, as defined in Section 1H below (the "Site"); and

WHEREAS, the District has determined that it is in its best interests to pursue the improvements to the School Facility through the lease-leaseback method of project delivery pursuant to California Education Code §17406 which permits the governing board of the District, without advertising for bids, to lease to Contractor property owned by the District if the instrument by which property is leased requires the lessee to construct, or provide for the construction, on the leased property, of a facility for the use of the District during the term of the lease, and provides that title to that facility shall vest in the District at the expiration of the lease; and

WHEREAS, the District desires to finance a portion of the improvements utilizing the lease/leaseback methodology; and

WHEREAS, the District has conducted an RFQ process by which it selected Contractor; and

WHEREAS, the District intends to undertake work to improve the School Facility, the scope of which is generally described in **Exhibits A and B** attached hereto and incorporated by reference herein; and

WHEREAS, in connection with the approval of this Agreement, the District will enter into a site lease with Contractor, under which it will lease to Contractor the Site in order for Contractor to construct the Project as described in the Scope of Work set forth generally in **Exhibits A and B** (hereinafter referred to as the "Scope of Work"); and

WHEREAS, assuming that the District and Contractor can agree on the terms, including the price, for the additional scope of work, the District and Contractor anticipate that the scope of the Project may be amended to include additional work; and

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

#17-215

WHEREAS, Contractor will lease the Site back to the District pursuant to a sublease agreement, under which the District will be required to make payments to Contractor for the use and occupancy of the Site, including the Project (hereinafter the "Financing"); and

WHEREAS, Contractor represents that it is sufficiently experienced in the construction of the type of facility and type of work sought by the District and is willing to perform said work for lease and the Financing to the District, all as more fully set forth herein; and

WHEREAS, at the expiration of the Site Lease, title to the Site and the improvements thereon will vest with the District;

NOW, THEREFORE, in consideration of the covenants hereinafter contained, the District and Contractor agree as follows:

SECTION 1. DEFINITIONS

-
- A. **Construction.** The term "Construction" as used in this Agreement includes all labor and services necessary for the construction of the Project, and all materials, equipment, tools, supplies and incidentals incorporated or to be incorporated in such construction as fully described in the Scope of Work set forth in **Exhibits A and B** attached hereto. Unless otherwise expressly stipulated, Contractor shall perform all work and provide and pay for all materials, labor tools and equipment, including, but not limited to, light, water, and power, necessary for the proper execution and completion of the Project shown on the drawings and described in the specifications developed pursuant to this Agreement.
- B. **Construction Documents.** The term "Construction Documents" means the final drawings, profiles, cross sections, design development drawings, construction drawings, and supplemental drawings based on the plans and specifications developed for the Project pursuant to the Scope of Work set forth in **Exhibits A and B** attached hereto, including any reference specifications or reproductions prepared by the architect hired by the District (the "Architect") and specifications approved by the District, the Division of the State Architect ("DSA"), and the local agencies having jurisdiction or other regulatory agencies whose approval may be required, which show or describe the location, character, dimensions or details for the Project and specifications for construction thereof.
- C. **Contract Documents.** The term "Contract Documents" as used in this Agreement refers to those documents which form the entire agreement by and between the District and Contractor. The Contract Documents consist of this Agreement, including the exhibits and attachments hereto, the Site Lease, including the exhibits and attachments thereto, the Sublease, including the exhibits and attachments thereto, the Project Manual including the General Conditions thereto, as amended, which is

- 2 -

#17-215

incorporated herein (the "General Conditions"), and the Construction Documents. The term "Contract Documents" shall include all modifications and addenda thereto.

- D. **Guaranteed Maximum Price.** The term "Guaranteed Maximum Price" or "GMP" as used in this Agreement means the Guaranteed Maximum Price established pursuant to Section 5 of this Agreement to be used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease, subject only to any adjustments for Extra Work/Modifications as provided in Section 10 of this Agreement.
- E. **Preconstruction Services.** The term "Preconstruction Services" as used in this agreement means to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services, as described in **Exhibit B** related to the Project plans and specifications for the purpose of designing the project within budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect.
- F. **Project.** The term "Project" shall mean the improvements and facilities to be constructed and installed by Contractor at the School Facility which will result in complete and fully operational facilities as more fully set forth on **Exhibit A** attached hereto.
- G. **Project Manual.** The term "Project Manual" shall mean the compilation of the Specification sections including Division 0, Procurement and Contracting Requirements, Division 1 General Requirements, and technical specifications Division 2 through 33 prepared by the Architect and approved by the District, the DSA, or other regulatory agencies which show or describe the location, character, dimensions or details for the Project, which shall be delivered to Contractor upon execution of this Agreement.
- H. **Site.** The term "Site" as used in this Agreement shall mean those certain parcels of real property and improvements thereon (if any) more particularly described in **Exhibit A** to the Site Lease.
- I. **Site Lease.** The term "Site Lease" as used in this Agreement shall mean the certain Site Lease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District leases the Site to Contractor.

#17-215

- J. **Specifications**. The term "Specifications" shall mean those numbered specifications set forth in the Project Manual which shall accompany this Agreement and which are incorporated by reference herein. Individual Specifications may be referred to by their specification number as set forth in the Project Manual.
- K. **Subcontractor**. As used in this Agreement, the term "Subcontractor" means any person or entity, including trade contractors, who have a contract with Contractor to perform any of the Construction.
- L. **Sublease**. The term "Sublease" as used in this Agreement shall mean the certain Sublease dated of even date herein between the District and Contractor, together with any duly authorized and executed amendment(s) thereto, pursuant to which the District subleases the Site from Contractor.
- M. **Sublease Payments**. The term "Sublease Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.
- N. **Tenant Improvement Payments**. The term "Tenant Improvement Payments" as used in this Agreement shall mean the payments made by the District to Contractor pursuant to Section 6 of the Sublease.

SECTION 2. CONTRACTOR'S DUTIES AND STATUS

Contractor covenants with the District to furnish reasonable skill and judgment in constructing the Project. Contractor agrees to furnish efficient business administration and superintendence and to furnish at all times an adequate supply of professionals, workers, and materials and to perform the work appropriately, expeditiously, economically, and consistent with the Contract Documents.

SECTION 3. ADDITIONAL SERVICES

If the District requests Contractor to perform additional services not described in this Agreement, Contractor shall provide a cost estimate and a written description of the additional work necessary to complete such additional services. The cost for such additional services shall be negotiated and agreed upon in writing in advance of Contractor performing or contracting for such additional services, and such cost shall be used to adjust the GMP established pursuant to Section 5 hereof. In the absence of a written agreement, the District will not compensate Contractor for additional services, will not adjust the GMP for such additional services, and Contractor will not be required to perform them. It is understood and agreed that if Contractor performs any services that it claims are additional services without receiving prior written approval from the District Board of Trustees, Contractor shall not be paid for such claimed additional services and the GMP will not be adjusted. Nothing in this Agreement shall be construed as

- 4 -

#17-215

limiting the valuation of such additional services and amount that the GMP will be adjusted for such additional services, should a written agreement for such services be executed by the parties. Notwithstanding the foregoing, Contractor shall not be entitled to compensation, nor will the GMP be adjusted, for additional services required as a result of Contractor's acts, errors or omissions.

SECTION 4. OWNERSHIP OF PLANS AND DOCUMENTS

All original field notes, written reports, drawings, specifications, Construction Documents, and other documents, produced or developed for the Project are the property of the District, regardless of whether the Project is constructed, and shall be furnished to the District. Such documents are not to be used by Contractor or by the Subcontractors on other work nor shall Contractor nor the Subcontractors claim any right to such documents. This shall not deprive Contractor from retaining electronic data or other reproducible copies of the Construction Documents or the right to reuse information contained in them in the normal course of Contractor's professional activities.

SECTION 5. ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE

The "GMP" for the Project shall be **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. The GMP consists of (1) a Preconstruction Fee only in the amount of **Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00)**. (2) a Sublease Tenant Improvement and (3) a Contractor Contingency and Sublease Payments to be negotiated as an amendment to this agreement pursuant to terms and payment schedule as amended and set forth in the Sublease. THE "GMP" WILL NOT BE ESTABLISHED UNTIL DSA HAS APPROVED THE FINAL PLANS AND SPECIFICATIONS AND THE BOARD APPROVES IT PRIOR TO NTP FOR CONSTRUCTION. The GMP will then be brought to the Board of Trustees as an amendment to this section of this agreement. Until such time this section will remain as a Preconstruction Fee only, the Site Lease and Sublease will not begin and the Contractor will proceed with Preconstruction Services as set forth in **Exhibit B** with an NTP for Preconstruction from the District.

The GMP is based upon the DSA approved plans and specifications to exist after this Agreement is entered into between Contractor and the District, and more fully described and referenced in the Scope of Work to be set forth in **Exhibit A** attached hereto. Prior to DSA approval Contractor will perform Preconstruction Services to assist in designing the project and as set forth in **Exhibit B**. After preconstruction services, DSA approval of plans and specifications, and the establishment of the GMP the Contractor shall assume the risk of cost overruns which were not foreseeable at the time this Agreement was entered into and the GMP determined, except for undocumented events of the type set forth in Section 19 hereof, work mandated by an outside agency after issuance of Construction Documents that could not have been reasonably foreseen from review of the Contract Documents, or costs arising from

- 5 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

#17-215

undocumented geotechnical issues. Contractor acknowledges that (i) Contractor has conducted a site inspection and is familiar with the site conditions based on records, studies and visible conditions relating to construction and labor and (ii) Contractor has reviewed the Contract Documents and is familiar with the contents thereof. District directed changes to the scope of the Project not contemplated in the Scope of Work shall be deemed Extra Work/Modifications pursuant to the procedures set forth in Section 10 of this Agreement. The GMP shall include, but not be limited to, increases in labor and materials. The GMP has been used to calculate the Tenant Improvement Payments and the Sublease Payments to be paid by the District to Contractor pursuant to the Sublease. The GMP includes the cost of all labor, materials, equipment, general conditions, overhead, profit and a Contractor Contingency as indicated above.

The Contractor Contingency is for the purpose of covering the cost of very specific issues that may arise during construction and it may be used only upon the written agreement of the Contractor, the architect of record, and the District. The Contractor Contingency is to be used only to pay Contractor for the following enumerated reasons: (1) additional costs resulting from discrepancies in the bid buy-out process; (2) conflicts, discrepancies or errors in the Construction Documents; (3) work required by the Inspector of Record or any governmental agency involved in the permitting or approval/certification process that is not otherwise shown in the Construction Documents; and (4) any other items of cost agreed to in writing by the Contractor and District to be included in the Contractor Contingency. The Contractor Contingency shall not be used for costs incurred as a result of Contractor's acts, errors or omissions.

Contractor shall be responsible for tracking expenditures of the Contractor Contingency and shall provide periodic written updates to the District as directed. Unused Contractor Contingency and Allowances at Project completion will reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and possibly the Sublease Payments.

The District shall at all times have the right to reduce the scope of the Project. If the District reduces the scope of the Project, the GMP shall be reduced commensurate with the reduced Scope of Work pursuant to the provisions of Section 10, below, and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 6. NOTICE TO PROCEED WITH PRECONSTRUCTION AND CONSTRUCTION

Prior to an approved GMP, the District shall issue a notice to Contractor to proceed with the Preconstruction of the Project. The Preconstruction Agreement in **Exhibit B** will serve as the whole agreement between the Contractor and the District until a GMP is established.

Upon receipt of an approved GMP, the District shall issue a notice to Contractor to proceed with the Construction of the Project. In the event that a Notice to Proceed with Construction is

- 6 -

#17-215

not issued for the Project, the Site Lease and the Sublease shall terminate upon written notice from the District to Contractor that a Notice to Proceed will not be issued.

SECTION 7. SAVINGS

If Contractor realizes a savings on one aspect of the Project, such savings shall be tracked and Contractor shall provide periodic written updates of such savings. Such savings shall be added to the Contractor Contingency and the use of such savings shall be as set forth in Section 5. However, if such savings are not so utilized, the amount of such savings shall reduce the GMP and will result in an adjustment of the Tenant Improvement Payments and, if applicable, the Sublease Payments.

SECTION 8. SELECTION OF SUBCONTRACTORS

In the interest of minimizing the expenditure of funds for the construction of the Project, Contractor agrees to select Subcontractors who are appropriately licensed by the State of California for each trade component of the Project in a manner that fosters competition. Contractor agrees that it will either solicit bids from potential subcontractors pursuant to the competitive bid procedures set forth in the California Public Contract Code, including specifically Public Contract Code section 20110, et seq., or that it will utilize an informal bidding process established by Contractor which also incorporates competitive bid procedures. Regardless of the method Contractor employs, Contractor will make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project in accordance with the procedures set forth in Section 1.77 of the General Conditions. In the event that Contractor chooses to select Subcontractors pursuant to an informal bidding process, Contractor shall ensure that it receives at least three competitive quotes from potential subcontractors for each trade component of the Project, unless the parties agree otherwise on a trade-by-trade basis. The District reserves the right to oversee the bidding process. Contractor shall inform all bidders that the District will not be a party to any contracts for construction services executed by Contractor and selected bidders. Contractor shall submit a listing of proposed subcontractors to the District for the District's review. In no case, will Contractor award any sub-contracts until the District has concurred in the scope and price of the sub-contracted services. In addition, Contractor shall provide the District with full documentation regarding the bids or competitive quotes received by Contractor. In no event, shall such documentation be redacted or obliterated. In the event Contractor does not comply with this provision, the District may terminate this Agreement in accordance with the provisions of the General Conditions. Subcontractors awarded contracts by Contractor shall be afforded all the rights and protections of listed subcontractors under the provisions of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100, et seq.).

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

2046

SECTION 9. CONSTRUCTION SCOPE OF WORK

- A. Prior to commencing Construction, Contractor shall comply with the initial schedule requirements set forth in the General Conditions.
- B. Contractor shall complete the Construction pursuant to the Construction Documents as amended subject to any additional DSA or other regulatory approvals as may be required, performing all work set forth in the Scope of Work, and shall make reasonable efforts in scheduling to prevent disruption to classes.
- C. Contractor shall be responsible for complying with all applicable building codes, including without limitation mechanical codes, electrical codes, plumbing codes and fire codes, each of the latest edition, required by the regulatory agencies and for arranging and overseeing all necessary inspections and tests including inspections by the DSA or regulatory agencies, permits and occupancy permits, and ensuring compliance with any Federal and State laws, including, but not limited to, safety procedures and requirements, and construction employee training programs which cover among other items, hazardous chemicals and materials.
- D. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site. Contractor assumes all risk of loss, of vandalism, theft of property or other property damage ("Vandalism") which occurs at a site at which Contractor is undertaking construction of the Project. Contractor assumes all risk of loss which occurs where Contractor is undertaking construction of the Project from causes due to negligence or misconduct by Contractor, its officers, employees, subcontractors, licensees and invitees. Contractor shall replace District property damaged by such Vandalism or theft or compensate the District for such loss, including payment of out of pocket expenses such as insurance deductibles the District might incur under such circumstances.
- E. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing School Facility, including procedures to control on-site noise, dust, and pollution during construction.
- F. The District shall cause the appropriate professionals to stamp and sign, as required, the original Construction Documents or parts thereof and coordinate the Project's design with all utilities.
- G. Contractor shall, for the benefit of the Subcontractors, attend pre-construction orientation conferences in conjunction with the Architect to set forth the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also attend construction and progress meetings with District

#17-215

representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare and promptly distribute official minutes of such meetings to all parties in attendance, including without limitation the District, the Architect and the District Inspector of Record.

- H. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District as requested. Contractor shall provide regular monitoring of the approved estimates for Construction costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, and for other work requiring accounting records.
- ~~I. Contractor shall record the progress of the Project and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the construction costs as of the date of each respective report.~~
- J. Contractor shall keep a log containing a record of weather, Subcontractors, work on the site, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District, the Architect, and the District's project manager. The District shall be promptly advised on all anticipated delays in the Project.
- K. The District shall bear the cost for the DSA Inspector, soils testing, DSA or other regulatory agency fees, and special testing required in the construction of the Project. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA or regulatory agency requirements or regulations implemented after the date the Final GMP is established and not reasonably anticipated at the time the Final GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly.

SECTION 10. EXTRA WORK/MODIFICATIONS

- A. The District may prescribe or approve additional work or a modification of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents ("Extra Work/Modifications");

#17-215

and for such purposes the District may at any time during the life of this Agreement, by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified in this Agreement or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which, in the opinion of Contractor, make strict compliance with the specifications impractical, Contractor shall notify the District of the need for Extra Work/Modifications by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for the Extra Work/Modifications is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves the request in writing, the costs of the Extra Work/Modification shall be added to or deducted from the GMP or the Scope of Work shall be modified to complete the Project within the GMP, as applicable. Any adjustments to the GMP will result in an adjustment of the Tenant Improvement Payment and, if applicable, the Sublease Payments.

- B. Extra Work/Modifications include work related to unforeseen underground conditions if, and only if, such conditions are not visible or identified on plans, reports or other documents available to Contractor. Extra Work/Modifications do not include underground conditions that are identified on plans, reports or other documents available to Contractor but are in a location different than is set forth on such plans, reports or other documents available to Contractor. It should be noted, however, that the District has advised and provided Contractor with information regarding the shallow water table and recent projects experience with encountering water when digging. Contractor has included in its calculation of the GMP an amount to mitigate for encountering water when completing the scope of work contemplated herein. Therefore, Extra Work/Modifications do not include expenses incurred by, and/or work performed by, Contractor in connection with such shallow water table and with encountering water when digging.
- C. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default or other situation (i) obligates the District to increase the GMP; or (ii) obligates the District to grant an extension of time for the completion of this Agreement; or (iii) constitutes a waiver of any provision in this Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE THE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including items used in valuing said claim. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted.

- 10 -

#17-215

Contractor's failure to notify the District within such ten (10) day period shall be deemed a waiver and relinquishment of the claim against the District.

- D. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, shall be included in an increase to the GMP if said expenses are the result of the negligent acts or omissions of the District, or its principals, agents, servants, or employees.

SECTION 11. NOT USED

SECTION 12. PERSONNEL ASSIGNMENT

- A. Contractor shall assign Patrick Waid as Project Manager/Superintendent for the Project. So long as Patrick Waid remains in the employ of Contractor, such person shall not be changed or substituted from the Project, or cease to be fully committed to the Project except as provided in this Section. In the event Contractor deems it necessary, Contractor shall replace the manager and/or the superintendent for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms of paragraph A of this Section 12 shall entitle the District to terminate this Agreement for breach, pursuant to the provisions of the General Conditions.
- B. Notwithstanding the foregoing provisions of paragraph A of Section 12, above, if any manager and/or superintendent proves not to be satisfactory to the District, upon written notice from the District to Contractor, such person(s) shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures: Within five (5) business days after receipt of a notice from the District requesting replacement of any manager and/or superintendent or discovery by Contractor that any manager and/or superintendent is leaving their employ, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution together with such information as the District may reasonably request about such replacement/substitution. The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. If the District and Contractor cannot agree as to the replacement/substitution, the District shall be entitled to terminate this Agreement for breach pursuant to the provisions of the General Conditions.

SECTION 13. BONDING REQUIREMENTS

Contractor shall fully comply with the requirements set forth in Section 6.9 of the General Conditions.

SECTION 14. PAYMENTS TO CONTRACTOR

A. Contractor shall finance the cost of construction of the Project which costs shall not exceed the GMP, which shall not be adjusted except as otherwise provided in this Agreement. The District shall pay Contractor Tenant Improvement Payments and Sublease Payments pursuant to the terms and conditions of Section 6 of the Sublease. In the event of a dispute between the District and Contractor, the District may withhold from the Tenant Improvement Payments and the Sublease Payments an amount not to exceed one hundred fifty percent (150%) of the disputed amount.

B. This Agreement is subject to the provisions of California Public Contract Code Sections 7107, 7201 and 20104.50 as they may from time to time be amended.

C. For purposes of this Agreement, the acceptance by the District means acceptance made only by an action of the governing body of the District in open session. Acceptance by Contractor of the final Tenant Improvement Payment or the Sublease Payment, as the case may be, shall constitute a waiver of all claims against the District related to those amounts.

SECTION 15. CONTRACTOR'S CONTINUING RESPONSIBILITY

Neither the final payment nor any provision in the Contract Documents shall relieve Contractor of responsibility for faulty materials or workmanship incorporated in the Project or for any failure to comply with the requirements of the Contract Documents.

SECTION 16. INSURANCE

Contractor shall provide, during the life of this Agreement, the types and amounts of insurance set forth in Article 6 of the General Conditions, which are incorporated by reference herein.

SECTION 17. USE OF PREMISES

Contractor shall confine operations at the Site to areas permitted by law, ordinances, permits and the Construction Documents and shall not unreasonably encumber the Site or existing School Facilities at the Site with any materials or equipment. Contractor shall not load or permit any part of the work to be loaded with a weight so as to endanger the safety of persons or property at the Site.

#17-215

SECTION 18. SITE REPRESENTATIONS

The District warrants and represents that the District has, and will continue to retain at all times during the course of construction, legal title to the Site and that said land is properly subdivided and zoned so as to permit the construction and use of said Site with respect to the Project. The District further warrants and represents that title to said land is free of any easements, conditions, limitation, special permits, variances, agreements or restrictions which would prevent, limit or otherwise restrict the construction or use of said Site pursuant to this Agreement. Reference is made to the fact that the District has provided information on the Site to Contractor. Such information shall not relieve Contractor of its responsibility; and the interpretation of such data regarding the Site, as disclosed by any borings or other preliminary investigations, is not warranted or guaranteed, either expressly or implicitly, by the District. Contractor shall be responsible for having ascertained pertinent local conditions such as location, accessibility and general character of the Site and for having satisfied itself as to the conditions under which the work is to be performed. No claim for any allowances because of Contractor's error or negligence in acquainting itself with the conditions at the Site will be recognized.

SECTION 19. HAZARDOUS WASTE AND UNKNOWN PHYSICAL CONDITIONS

Contractor shall comply with the District's Hazardous Materials Procedures and Requirements as set forth herein.

- A. If the District has identified the presence of hazardous materials on or in proximity to the Site (the "Pre-existing Hazardous Materials"), Contractor shall review all information provided by the District that characterizes the Pre-existing Hazardous Materials and shall take the actions approved by DTSC and issued by the District necessary to address the Pre-existing Hazardous Materials in the performance of the work. Contractor shall conduct the work based on this information issued at the time contract documents are executed. Contractor shall immediately communicate, in writing, any variances from available information to the District.
- B. The District will retain an additional independent environmental consultant to perform the investigation, inspection, testing, assessment, sampling and analysis necessary to prepare and recommend a remediation plan for the Pre-existing Hazardous Materials for the District's approval (the "Remediation Plan").
- C. The District will retain title to all Pre-existing Hazardous Materials encountered during the work. This does not include hazardous material generated by Contractor, including but not limited to used motor oils, lubricants, cleaners, etc. Contractor shall dispose of such hazardous waste in accordance with the provisions of the Contract Documents, as well as local, State and Federal laws and regulations. The District will be shown as the hazardous waste generator and will sign all hazardous waste shipment manifests for non-Contractor generated hazardous waste. Nothing contained within these

- 13 -

#17-215

Contract Documents shall be construed or interpreted as requiring Contractor to assume the status of owner or generator of hazardous waste substances for non-Contractor generated hazardous wastes.

D. Except as otherwise provided herein, it is the responsibility of Contractor to obtain governmental approvals relating to Hazardous Materials Management, including Federal and State surface water and groundwater discharge permits and permits for recycling and reuse of hazardous materials for all work noted in the contract documents. Contractor shall be responsible for coordinating compliance with such governmental approvals and applicable governmental rules with the District's hazardous materials consultant, including those governing the preparation of waste profiles, waste manifests, and bills of lading. If Contractor encounters hazardous materials, it shall immediately notify the District in writing. The District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District.

E. If, during construction, Contractor encounters materials, conditions, waste, contaminated groundwater or substances, not identified in the District's assessment report, that Contractor reasonably suspects are hazardous materials, Contractor shall stop the affected portion of the work, secure the area, promptly notify the District, and take reasonable measures to mitigate the impact of such work stoppage. The District shall retain the services of an environmental consultant to perform investigation, inspection, testing, assessment, sampling and analysis of the suspect materials, conditions, waste, groundwater or substances.

(1) Found Not to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances do not constitute hazardous materials, Contractor shall recommence the suspended work.

(2) Found to be Hazardous Materials. If the environmental consultant determines that the materials, conditions, waste, contaminated groundwater or substances constitute hazardous materials and such hazardous materials require remediation and disposal, then the District, Consultant and Contractor shall jointly establish the plan for disposition and actions to be taken with respect to the hazardous materials, subject to final written approval by the District. All such costs shall be the responsibility of the District.

F. Exacerbation of Pre-Existing Hazardous Materials.

If during construction Contractor encounters pre-existing environmental conditions that it knew or should have known involve hazardous materials (the "Point of Discovery") (which encounters may include an unavoidable release or releases of hazardous

#17-215

materials) then Contractor must immediately stop the affected portion of the work. If Contractor fails to immediately stop the affected portion of the work after the Point of Discovery, then Contractor is solely responsible for any resultant Exacerbation Cost. "Exacerbate," in all its forms, means the worsening effects of Contractor's failure to stop the affected portion of work after the Point of Discovery. "Exacerbation Cost" means the differential between (i) the actual increase in the cost of remediation and delays to the Project attributable to pre-existing environmental conditions involving hazardous substances, and (ii) the cost thereof or delays thereto had Contractor immediately stopped the affected portion of the work after the Point of Discovery. The standard of "should have known" applies to Contractor's supervisory personnel, whether or not on the Site. Contractor's supervisory personnel must have had the hazardous material training required by applicable OSHA and Cal OSHA rules or regulations.

SECTION 20. INDEPENDENT CONTRACTOR

- A. Contractor is retained as an independent contractor and is not employed by the District. No employee or agent of Contractor shall become, or be considered to be, an employee of the District for any purpose. It is agreed that the District is interested only in the results obtained from service under this Agreement and that Contractor shall perform as an independent contractor with sole control of the manner and means of performing the services required under this Agreement. Contractor shall complete this Agreement according to its own methods of work which shall be in the exclusive charge and control of Contractor and which shall not be subject to control or supervision by the District except as to results of the work. It is expressly understood and agreed that Contractor and its employees shall in no event be entitled to any benefits to which the District employees are entitled, including, but not limited to, overtime, retirement benefits, insurance, vacation, worker's compensation benefits, sick or injury leave or other benefits.
- B. Contractor shall be responsible for all salaries, payments, and benefits for all of its officers, agents, and employees in performing services pursuant to this Agreement.

SECTION 21. ACCOUNTING RECORDS

Contractor, and all Subcontractors, shall check all materials, equipment and labor entering into the work and shall keep or cause to be kept such full and detailed accounts as may be necessary for proper financial management under this Agreement, including true and complete books, records and accounts of all financial transactions in the course of their activities and operations related to the Project. These documents include sales slips, invoices, payrolls, personnel records, requests for Subcontractor payment, and other data relating to all matters

- 15 -

OXNARD SCHOOL DISTRICT

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

#17-215

covered by the Contract Documents (the "Data"). The Data shall be maintained for ten (10) years from the latest expiration of the term (as such may be extended) of any of the Contract Documents. Contractor shall use its best efforts to cause its Subcontractors to keep or cause to be kept true and complete books, records and accounts of all financial transactions in the course of its activities and operations related to the Project. Upon completion of the Project, Contractor shall provide the District with one (1) complete copy of the Data.

The District, at its own costs, shall have the right to review and audit, upon reasonable notice, the books and records of Contractor and any Subcontractors concerning any monies associated with the Project.

SECTION 22. PERSONAL LIABILITY

Neither the trustees, officers, employees, or agents of District, the District's representative, or Architect shall be personally responsible for any liability arising under the Contract Documents.

SECTION 23. AGREEMENT MODIFICATIONS

No waiver, alteration or modification of any of the provisions of this Agreement shall be binding upon either the District or Contractor unless the same shall be in writing and signed by both the District and Contractor.

SECTION 24. NOTICES

Any notices or filings required to be given or made under this Agreement shall be served, given or made in writing upon the District or Contractor, as the case may be, by personal delivery or registered mail (with a copy sent via fax or regular mail) to the respective addresses given below or at such other address as such party may provide in accordance with the provisions herein. Any change in the addresses noted herein shall not be binding upon the other party unless preceded by no less than thirty (30) days prior written notice.

Oxnard, CA 93035

Notices under this Agreement shall be deemed to have been given, and shall be effective upon actual receipt by the other parties, or, if mailed, upon the earlier of the fifth (5th) day after mailing or actual receipt by the other party.

SECTION 25. ASSIGNMENT

Neither party to this Agreement shall assign this Agreement or sublet it as a whole without the written consent of the other, nor shall Contractor assign any monies due or to become due to it hereunder without the prior written consent of the District.

SECTION 26. PROVISIONS REQUIRED BY LAW

Each and every provision of law and clause required to be inserted in these Contract Documents shall be deemed to be inserted herein and the Contract Documents shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted or is not inserted correctly, then upon application of either party the Contract Documents shall forthwith be physically amended to make such insertion or correction.

SECTION 27. HEADINGS

The headings in this Agreement are inserted only as a matter of convenience and reference and are not meant to define, limit or describe the scope or intent of the Contract Documents or in any way to affect the terms and provisions set forth herein.

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

2056

SECTION 28. APPLICABLE LAW

This Agreement shall be governed by and construed in accordance with the laws of the State of California. The parties irrevocably agree that any action, suit or proceeding by or among the District and Contractor shall be brought in whichever of the Superior Courts of the State of California, Ventura County, or the Federal Court for the Central District of California in Los Angeles, California, has subject matter jurisdiction over the dispute and waive any objection that they may now or hereafter have regarding the choice of forum whether on personal jurisdiction, venue, forum non conveniens or on any other ground.

SECTION 29. SUCCESSION OF RIGHTS AND OBLIGATIONS

All rights and obligations under this Agreement shall inure to and be binding upon the successors and assigns of the parties hereto.

SECTION 30. NOTIFICATION OF THIRD PARTY CLAIMS

The District shall provide Contractor with timely notification of the receipt by the District of any third-party claim relating to this Agreement, and the District may charge back to Contractor the cost of any such notification.

SECTION 31. SEVERABILITY

If any one or more of the terms, covenants or conditions of this Agreement shall to any extent be declared invalid, unenforceable, void or voidable for any reason whatsoever by a court of competent jurisdiction, the finding or order or decree of which becomes final, none of the remaining terms, provisions, covenants and conditions of the Contract Documents shall be affected thereby, and each provision of the Contract Documents shall be valid and enforceable to the fullest extent permitted by law.

SECTION 32. ENTIRE AGREEMENT

This Construction Services Agreement and the additional Contract Documents as defined in paragraph C of Section 1 herein, including the Site Lease, the Sublease, and the Specifications, drawings, and plans constitute the entire agreement between Contractor and the District. The Contract Documents shall not be amended, altered, changed, modified or terminated without the written consent of both parties hereto, except as otherwise provided in Section 10 hereof.

SECTION 33. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument.

CONSTRUCTION SERVICES AGREEMENT

Ramona Elementary School New Addition

November 1, 2017

EXHIBIT B

Oxnard School District – Ramona ES New Addition

Preconstruction Services

The District desires to retain a professional construction firm (hereafter "CONTRACTOR") to provide certain professional pre-construction services related to the Project plans and specifications for the purpose of designing the project to budget and eliminating unforeseen circumstances, errors, omissions and ambiguities in the construction documents prepared by the Architect. The fee for this set of services will be Five Thousand Two Hundred Eighty-Eight and No Cents (\$5,288.00), to be paid monthly on a design progress basis.

The CONTRACTOR will be expected to provide the following professional pre-construction services during the design phase of the Project:

1. Professional Construction Cost-Estimation Services

- A. During each phase of design or at the completion of each phase of design, (1) Conceptual, (2) Schematic, (3) Design Development and (4) Construction Development, CONTRACTOR shall prepare a cost estimate, in current, uninflated dollars, for the design and specifications prepared by the Architect. CONTRACTOR acknowledges that it shall prepare four (4) complete cost estimates commensurate with the level of detail of each phase of design. The cost estimate shall include all Project costs, including, all hard costs (site preparation, utility connections, off-site improvements, hazard abatement, construction costs, overhead & profit and general conditions), soft costs (survey, geo-hazard, geo-technical, environmental studies, inspection and testing) and furniture, fixture and equipment.
- B. Upon final approval by the Division of the State Architect (hereinafter, "DSA"), CONTRACTOR shall adjust its estimate to incorporate any and all changes required by DSA as part of the review and approval process.
- C. CONTRACTOR shall provide the cost estimates at such time as directed by the Program Manager during or at the conclusion of each phase of design, in a format approved by the District's Program Manager and consistent with Construction Specifications Institute (CSI) standards. During the schematic phase, Contractor shall estimate in the CSI UniFormat. For all other phases of design, Contractor shall utilize CSI MasterFormat.

#17-215

2. Professional Constructability Review

- A. Definition: Constructability Review shall mean the review of the design documents to ascertain whether the design of the Project as depicted in the Construction Documents, and the documents themselves: (i) accurately and completely reflects the District's objectives as explained to the Architect and CONTRACTOR by the District as approved by the District; and (ii) are free of errors, omissions, conflicts or other deficiencies so that the CONTRACTOR can construct the Project as therein depicted within the Project Budget and without delays, disruptions, or additional costs. The standard to be used for constructability is a contractor's standard of care in reviewing the plans and not that of an architect.
- B. CONTRACTOR shall conduct one comprehensive technical review of the Plans and Specifications at 50% Construction Development phase. ~~The purpose of this review will be to examine whether the design intent can be successfully implemented in the field within the Project budget. A report of the CONTRACTOR's findings will be distributed to the Program Manager and the Architect. CONTRACTOR will participate in any meeting(s) with the Architect to determine if the comments will be included in the final bid set of documents. CONTRACTOR will work with Architect to ensure that all front end documents conform to technical specifications and meet District standards.~~
- C. At all times during design and DSA Review and Approval, the Architect shall remain responsible for completing, stamping, submitting and securing final DSA approval for the Project. Furthermore, the District acknowledges that CONTRACTOR is neither the Architect nor performing an architectural review of the Project. CONTRACTOR's responsibilities and duties under this subsection shall not include the architectural or structural design of the Project which is the responsibility of the Architect. Notwithstanding this qualification, CONTRACTOR shall conduct a detailed evaluation of the District's educational specifications, Project intent, Architect's Plans & Specifications, the proposed Project construction budget, schedule requirements and deliver a Constructability Review identifying any comments, recommendations or concerns that CONTRACTOR has as to the constructability of the Architect's Plans & Specifications consistent with the District's intent and budget.
- D. Deliverable: The CONTRACTOR shall deliver to the District a complete technical report of the Plans and Specifications with the opinion of the CONTRACTOR as to the constructability of the Architect's Plans and Specifications. The CONTRACTOR, in the report, shall identify any issues, concerns or requests for clarification that CONTRACTOR believes are necessary to complete the design within the District's proposed and approved Project budget. The report shall be made available to the Architect, the District and its Program Manager.

#17-215

3. Value Engineering Services

- A. Definition: CONTRACTOR shall be required to perform Value Engineering Services to identify opportunities to reduce Project cost at the conclusion of each phase of design and during DSA review. The Value Engineering Services shall be provided in the form of a report to the Program Manager and shall identify value engineering opportunities, alternative materials and alternative methods and the associated cost savings estimated by the CONTRACTOR.
- B. Deliverable: The CONTRACTOR shall maintain and distribute a running log of value engineering recommendations throughout the design process. The log shall identify and describe the recommendation, the estimated cost savings for each recommendation and a notation of whether the recommendation is accepted or rejected by the Architect and the District. Value engineering recommendations that are accepted by the District shall be incorporated into the plans and specifications at each phase of design. The log shall note when the recommendation was incorporated into the Plans and Specifications.
-

4. Building Information Modeling (BIM) Services

- A. Definition: BIM Modeling is defined as a 3-D model-based process involving the generation and management of digital representations of physical and functional characteristics of a proposed construction project for purposes of planning, designing, constructing, operating and maintaining the proposed new facility.
- ~~B. CONTRACTOR shall participate in and/or prepare a 3-D model of the Architect's design of the Project utilizing BIM software. The 3-D model shall be rendered in a format that can be made available to the Architect, the District, and/or any agent or representative thereof. The model shall contain sufficient detail to identify any and all ambiguities and clashes in the Architect's plans and specifications and produce a model from which a contractor or sub-contractors may bid for the project in question. The BIM Model must be in a format that can be shared or networked to support the decision-making process related to the design and specifications.~~
- ~~C. The 3-D BIM Model shall be completed prior to the Architect's submission of the plans and specifications to the Division of the State Architect. Any and all ambiguities or clashes will be resolved in a final 3-D BIM Model prior to this submittal.~~
- ~~D. The District shall hold title and interest in the completed 3-D BIM Model. At the request of the District, CONTRACTOR shall make the completed 3-D BIM Model files available to the District in a format acceptable to the District.~~

#17-215

E. Deliverable: ~~A completed 3-D BIM Model in electronic format acceptable to the District.~~

5. Construction Scheduling Services

- A. Definition: Construction Scheduling is defined as the process of developing a detailed master baseline construction schedule for the Project that identifies all the major tasks and subtasks associated with the planning, design, construction, commissioning, close-out and final occupancy of the completed Project. The schedule shall be prepared in Primavera or comparable software and shall identify all long lead items, critical path, coordination of site activities, and any phasing of the Project. The Construction Scheduling services shall culminate in a final baseline construction schedule approved by the District to be used as a baseline schedule for the Project.
- B. CONTRACTOR shall develop a detailed construction schedule utilizing the critical path method. ~~This schedule will provide a logical means of establishing and tracking the Project and for the organization of activities into areas established by Project criteria.~~ CONTRACTOR shall consider any potential disruptions to the learning environment and incorporate major school activities, such as site-wide or statewide testing dates, or as otherwise provided by the District, in the construction schedule.
- C. In addition to the Construction Schedule, CONTRACTOR shall develop a Responsibility Matrix and Construction Site Management Plan for the Project. The Responsibility Matrix shall identify the key team members (District/Architect/IOR) and the roles and responsibilities of each entity for the Project. The Construction Site Management Plan shall consist of, but is not limited to, staging areas, deliveries of materials and supplies, site fencing and location of construction site field office. The CONTRACTOR shall work with the Architect and Program Manager to develop these two deliverables in a format and content acceptable to the District.
- D. Deliverable: A completed and approved baseline construction schedule, a Responsibility Matrix and Construction Site Management Plan.

6. Cooperation and Attendance at Design Meetings

- A. CONTRACTOR shall attend regular meetings during Project design with the Architect, the District's Program Manager, the District, and any other applicable consultants of the District as necessary. CONTRACTOR shall contribute to the design meetings by providing applicable comments, feedback, recommendations, information and reports required under the scope of this Contract in a timely manner. Design meetings may be held as frequently as weekly.

- 24 -

#17-215

B. CONTRACTOR shall submit to the District's Program Manager, weekly report of its activities and progress related to deliverables identified in the scope of this Contract. The report shall be provided in a format that is acceptable to the Program Manager.

7. Schedule for Pre-Construction Services.

A. The services outlined herein shall commence on the date specified in the District's Notice to Proceed ("NTP"). The schedule of the services to be provided herein shall be consistent with the Design Schedule identified in the District's contract with the Architect for the Project. The service of this Contract shall conclude and terminate upon receipt of the stamped approval of the Project Plans and Specifications from DSA.

B. In the event that the CONTRACTOR is unable to perform the services anticipated in this Contract in the Architect's design schedule, CONTRACTOR shall notify the Program Manager and the Design Team shall work on a mutually agreeable modification to the design schedule.

C. Any extensions required for deliverables shall be subject to the reasonable approval in writing by the District.

Staffing Service Agreement #18-72

This Staffing Service Agreement (“Agreement”) is entered into as of the 22nd day of August 2018 (the “Effective Date”), by and between 3Chords Inc., a California corporation d/b/a TherapyTravelers (“TherapyTravelers”), and Oxnard School District (the “Client”).

1. Services and Staffing Confirmation

(a) Subject to availability, TherapyTravelers will provide the services of one or more Rehabilitation Therapist Associates (each an “Associate”) on request from the Client on an as needed and as available basis (the “Services”). In order to initiate Services pursuant to this Agreement, the Client shall provide TherapyTravelers with a request (via telephone, email, facsimile, in person, or mail) describing the Services needed in reasonable detail. TherapyTravelers will promptly reply to each such request and indicate whether it has an Associate available to provide the requested Services. If TherapyTravelers elects to provide the requested Services, a confirmation of and detailed terms of the assignment will be provided to the Client in a “Staffing Confirmation Agreement” in substantially the form attached hereto as Exhibit A.

(b) Each Staffing Confirmation Agreement is incorporated herein by this reference as if fully set forth in this Agreement. If there is a conflict between the terms of this Agreement and a Staffing Confirmation Agreement, the terms of this Agreement shall prevail. The Client agrees to promptly execute and return a copy of each Staffing Confirmation Agreement to TherapyTravelers; provided, however, that if the Client fails to execute the Staffing Services Agreement, its acceptance of the terms thereof may be evidenced by its approval of the assigned Associate’s weekly timesheet or electronic timekeeping record. All Services become subject to this Agreement when TherapyTravelers accepts the Client’s request for Services by issuing a Staffing Confirmation Agreement or providing the Services.

(c) The Client acknowledges and agrees that any claim related to the Services provided hereunder must be reported in writing to TherapyTravelers by the earlier of (1) ninety (90) days after the claim arises, or (2) thirty (30) days after termination of the Associate’s assignment pursuant to a Staffing Confirmation Agreement. TherapyTravelers will not be responsible for, and the Client hereby waives the right to assert, any claims not reported in accordance with the foregoing.

2. Associates

(a) TherapyTravelers will refer qualified candidates without regard to race, sex, color, religion, national origin, marital status, veteran status, non-job related medical condition or any other statutorily protected category. The Client shall have the right of refusal regarding the Associate assigned by TherapyTravelers, consistent with the other terms of this Agreement, but agrees that no refusal will be made on account of race, gender, color, religion, national origin, marital status, veteran status, or any other statutorily protected category. The Client understands and agrees that any Associate assigned to the Client by TherapyTravelers, pursuant to this Agreement, shall perform all Services as an independent contractor to the Client and not as an employee, agent, partner, or venture participant of the Client.

(b) Associates shall perform Services at the work site of the Client and during the normal work hours of the Client. The Client will provide, at no cost to TherapyTravelers, working space facilities, and related services and supplies necessary to support each Associate engaged by the Client. Associates will work under the supervision and direction of the Client.

(b) The Client acknowledges that TherapyTravelers usually checks references on Associates only by asking specific questions to select past employers with regard to skills and work history before TherapyTravelers places an individual on his or her first assignment. TherapyTravelers has not engaged in any verification process other than this initial reference check (e.g., TherapyTravelers has not screened for drug use, administered a medical exam or conducted criminal background or credit checks).

(c) The Client is responsible for supervising the assigned Associates(s). The Client will not permit or require an Associate: (1) to perform Services outside of the scope of his or her assignment (2) to sign contracts on behalf of the Client, (3) to make any management decisions, (4) to sign, endorse, wire, transport or otherwise convey cash, securities, checks or any negotiable instruments or valuables, (5) to operate machinery (other than office machines) or automotive equipment, (6) to perform Services remotely (on premises other than the Client's premises), or (7) to use computers or other electronic devices, software or network equipment owned or licensed by the Associate.

(d) The Client agrees to provide safe working conditions. If any assignment under this Agreement is for work to be performed under a government contract or subcontract, the Client will notify TherapyTravelers immediately: (1) of any obligations in the government contract or subcontract relating to wages, and (2) if TherapyTravelers is legally required to initiate E Verify verification procedures for any Associate. TherapyTravelers reserves the right to re-assign any assigned Associate.

(e) The Client hereby acknowledges and agrees that it is responsible for implementing and maintaining usual, customary and appropriate internal procedures and controls (including accounting, information technology, proprietary information, creative designs and trade secret safeguards) for its business. The Client further agrees that it is fully responsible for, and that TherapyTravelers will not be responsible for any injuries, claims, damages or losses that may result from the Client's failure to comply with the foregoing.

(f) Assigned Associates will execute any confidentiality agreement that the Client may reasonably require. The Client is responsible for obtaining the assigned Associate's signature. The Client agrees to hold in confidence the identity of any assigned Associate and the assigned Associate's resume, social security number and other legally protected personal information, and further agrees to implement and maintain reasonable security procedures and practices to protect such information from unauthorized access, use modification or disclosure.

3. Compensation and Payment Terms

(a) The Client shall pay TherapyTravelers an agreed hourly bill rate for each hour worked by an Associate as set forth in the Staffing Confirmation Agreement, which will also specify the duration and location of the assignment. Overtime and Holiday hours worked will be billed at least 1.5 times the normal hourly bill rate, and in a greater amount if required by applicable State or local law. Holidays in consideration will be listed on the Staffing Confirmation Agreement. Overtime hours will be determined in accordance with applicable Federal, state and local laws. Federal law defines overtime as hours in excess of 40 hours per week, and state laws vary. If state law requires double time pay, the double time hours will be billed at 2.0 times the normal hourly bill rate.

(b) Assigned Associates will present a time sheet record to the Client or its designated representative for verification and approval at the end of each week. TherapyTravelers will bill the Client for the total hours worked, including applicable sales and service taxes all of which are payable by the Client. TherapyTravelers invoices are due and payable [upon receipt] [within ten (10) days of the billing date]. In the event that the Client fails to pay any invoice when due, the Client agrees to pay all of TherapyTravelers' costs of collection, including reasonable attorney's fees, whether or not legal action is initiated. Additionally, TherapyTravelers may, at its option, charge interest on any overdue amounts at a rate equal to the lesser of one and one half percent (1.5%) per month or the highest rate allowed by applicable law from the date the amount first became due.

(c) TherapyTravelers may increase its rates for the Services provided under this Agreement to reflect increases in its costs of doing business, including costs associated with higher wagers for workers and/or related tax, benefit and other costs.

TherapyTravelers will provide written or verbal notice of any increase in its rates for the Services, and such increase will be prospective, starting as of the effective date specified by TherapyTravelers.

(d) Invoices submitted by TherapyTravelers to the Client shall include all sales, use or similar taxes that are imposed by state or local law on the amounts to be paid by the Client to TherapyTravelers pursuant to this Agreement, and the Client shall pay to TherapyTravelers the amount of all taxes so included on any invoice.

(e) Consistent with applicable Federal, state and local laws, the Client agrees to investigation from time to time by TherapyTravelers of the Client's credit history, including but not limited to credit reports, rental history reports, BBB reports, and other means. TherapyTravelers reserves the right to refuse to enter into this Agreement or immediately cancel this Agreement, in its sole discretion based on the results of the credit history inspection. TherapyTravelers reserves the right to request prepayment for services rendered if the results of the credit history inspection so indicate.

4. Client Hiring of Associates and Conversion Fees

(a) In the event that the Client, after evaluating the performance and potential of an Associate on the job, desires to employ the Associate directly, the Client agrees to abide by certain restrictions and to pay any applicable "Conversion Fee" as provided hereinbelow. The Conversion Fee, if applicable, is payable if the Client hires an assigned Associate, regardless of the employment classification on either a full time, temporary (including temporary assignments through another agency) or consulting basis within twelve (12) months after the last day of such Associate's assignment hereunder. The Client acknowledges that a Conversion Fee, if applicable, is also payable if the assigned Associate is hired by a subsidiary or other related company or business of the Client.

(b) Neither the Client, nor its subsidiaries or affiliates, may, directly or indirectly, hire, offer employment to, or otherwise use the Services of any Associate or former Associate who has performed Services for Client equaling less than 1,500 hours at the Client's facility within the past twelve (12) months. The Client may elect to hire any Associate who has worked more than 1,500 hours at the Client's facility within the past twelve (12) months, subject to payment of a fee equal to thirty five percent (35%) of the Associate's annual total compensation, including bonuses (the "Conversion Fee"). The Client will pay the Conversion Fee to TherapyTravelers within 10 days of billing. In order for an Associate to be hired on as the Client's employee, the Client must have a zero balance on all outstanding invoices. The foregoing hiring restriction and Conversion Fee obligations shall survive until one (1) year after the last date of service by the subject Associate at the Client's facility.

(c) TherapyTravelers agrees to waive its right to a Conversion Fee after an Associate has completed 2,700 hours over the course of two (2) school years.

(d) The Client shall provide TherapyTravelers thirty (30) days prior written notice of its intention to offer employment to any Associate, and shall immediately confirm in writing when it has extended the offer (in writing, verbally or otherwise), and when the TherapyTravelers Associate accepts the offer (in writing, verbally, or otherwise). TherapyTravelers will bill Client for the Conversion Fee after the TherapyTravelers Associate accepts Client's offer.

(e) Commencing on the first day that the Client includes on its payroll any Associate formerly referred to Client by TherapyTravelers, that Associate immediately ceases to be an independent contractor with respect to Client, TherapyTravelers is no longer the Associate's employer, and is in no way liable in any way for that person's actions or omissions, tax deductions, workers' compensation insurance, unemployment compensation taxes or any other legally required taxes and withholdings.

5. Direct Hire Fees

(a) Should the Client wish to use TherapyTravelers as a headhunter for permanent assignments, a "Contingency Direct Hire Fee" equal to thirty three percent (33%) of the candidate's annual salary will become payable to TherapyTravelers when an offer, verbal or otherwise, is made by the Client and accepted by the candidate. Payment is due in full within thirty (30) days of invoice.

(b) Replacement Policy: If the candidate placed with Client voluntarily terminates his/her employment or is terminated for cause within sixty (60) days from the candidate's start date, TherapyTravelers will offer a replacement courtesy for that candidate. However, the replacement policy is contingent upon full payment of the direct hire fee by Client within thirty (30) days of invoice.

6. Dismissals

In instances of unsatisfactory performance of duties by an Associate, the Client agrees to make a reasonable attempt to rectify the issue, including a notice, in writing, to TherapyTravelers outlining the issue at hand so that the Associate may modify behavior through counsel and coaching by TherapyTravelers staff. Should the issue not be resolved within a reasonable amount of time, the Client may request that the Associate be removed from the assignment. TherapyTravelers will make every effort possible to comply with the Client's request as quickly as possible. Client agrees to honor the terms of this Agreement and pay invoices for hours actually performed by any Associate up to the time of dismissal from the Client's assignment.

7. Cancellations

On short-term assignments (i.e., one to fourteen days), cancellations must be made six (6) business days prior to the report time. A cancellation fee of one half (1/2) the scheduled hours for any shift cancelled is payable to TherapyTravelers for any cancellation made with less than six (6) business days notice. On long-term assignments (i.e., two or more weeks), Client must provide twenty (20) in-session school days (work days) notice of cancellation to TherapyTravelers. A cancellation fee equal to the scheduled hours for any shift cancelled is payable to TherapyTravelers for all cancellations made with less than twenty (20) in-session school days (work days) notice. For assignments TherapyTravelers must be granted at least forty (40) hours per week of work (unless the Client's full time business schedule is only thirty-five (35) hours per week, or (37.5) thirty seven and a half hours per week). If an Associate's travel staffing assignment ends prematurely, the Client agrees to pay to TherapyTravelers, upon presentation of an invoice, all remaining housing costs for the Associate, including apartment and furniture leasing costs, until the expiration of the applicable lease(s).

8. Contract Termination

This Agreement remains in effect until terminated by either party. This Agreement shall be terminable by either party upon thirty (30) days written notice. Termination of this Agreement will also result in the termination of all Staffing Confirmation Agreements between TherapyTravelers and the Client. In addition, each Staffing Confirmation Agreement shall be subject to immediate termination in the event that TherapyTravelers reasonably determines that the assigned Associate's professional license or code of ethics has been compromised.

9. Notices

For the purposes of this Agreement, notice shall be effective to the parties at the following addresses:

Client: Oxnard School District
1051 South A Street
Oxnard, CA 93030

TherapyTravelers: TherapyTravelers
355 Redondo Ave.
Long Beach, CA 90814

9. Insurance, Indemnification and Limitation of Liability

(a) TherapyTravelers shall maintain and provide to the Client, upon written request, proof of any assigned Associate's valid professional license, if applicable, and proof of Worker's Compensation Insurance (which will be maintained per statutory requirements). Additionally, TherapyTravelers shall procure and maintain insurance and upon written request, shall provide the Client with Certificates of such insurance covering the following risks:

- Professional Liability - \$1,000,000 per claim, \$3,000,000 Aggregate
- General Liability - \$1,000,000 per claim, \$3,000,000 Aggregate

(b) To the extent permitted by law, TherapyTravelers will defend, indemnify, and hold the Client and its parent, subsidiaries, directors, officers, agents, representatives, and employees harmless from all claims, losses, and liabilities (including reasonable attorneys' fees) to the extent caused by TherapyTravelers' breach of this Agreement; its failure to discharge its duties and responsibilities set forth herein or in the Staffing Confirmation Agreement; or the negligence, gross negligence, or willful misconduct of TherapyTravelers or its officers, employees, or authorized agents in the discharge of those duties and responsibilities.

(c) To the extent permitted by law, the Client will defend, indemnify, and hold TherapyTravelers and its parent, subsidiaries, directors, officers, agents, representatives, and employees harmless from all claims, losses, and liabilities (including reasonable attorneys' fees) to the extent caused by the Client's breach of this Agreement; its failure to discharge its duties and responsibilities set forth herein or in the Staffing Confirmation Agreement; or the negligence, gross negligence, or willful misconduct of the Client or its officers, employees, or authorized agents in the discharge of those duties and responsibilities.

(d) Circumstances may arise where, because of a default on the part of TherapyTravelers, the Client is entitled to recover damages from TherapyTravelers. Regardless of the basis on which the Client is entitled to claim damages from TherapyTravelers (including fundamental breach, negligence, misrepresentation, or other contract or tort claim) TherapyTravelers' liability, if any, will (in the aggregate for all claims, causes of action, or damages) be limited to any actual direct damages up to an amount equal to the fees actually paid to TherapyTravelers for the Services that are the subject of the claim.

10. Miscellaneous

(a) Entire Agreement. This Agreement contains the complete agreement between the parties with respect to the subject matter thereof and may not be

modified except by written agreement signed by both parties. This Agreement supersedes all previous written or oral agreements between the parties

(b) Assignment. This agreement may not be assigned by either party without the written consent of the other party. Consent for one assignment does not waive the consent requirement for any subsequent assignment, but, subject to the foregoing limitation, will inure to the benefit of and be binding on the successors and assigns of the respective parties

(c) Arbitration. Any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this agreement to arbitrate, shall be determined by arbitration in Los Angeles, California before one arbitrator. The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures and in accordance with the Expedited Procedures in those Rules. Judgment on the Award may be entered in any court having jurisdiction. This clause shall not preclude parties from seeking provisional remedies in aid of arbitration from a court of appropriate jurisdiction. In any arbitration arising out of or related to this Agreement, the arbitrator is not empowered to award punitive or exemplary damages, except where permitted by statute, and the parties waive any right to recover any such damages. In any arbitration arising out of or related to this Agreement, the arbitrator may not award any incidental, indirect or consequential damages, including damages for lost profits.

(d) Governing Law. The validity and interpretation of any terms or provisions of this Agreement of the rights and duties of the parties hereunder shall be governed and construed in accordance with the laws of the State of California, exclusive of conflict or choice of law rules. All actions, including arbitration, arising out of this Agreement, shall be in Los Angeles, California.

(e) Severability. The parties agree that each of the provisions included in this Agreement is separate, distinct and severable from the other and remaining provisions of the Agreement; and that the invalidity or unenforceability of any Agreement provision shall not affect the validity or enforceability of any other provision or provisions of this Agreement.

(f) Attorneys' Fees. In the event of any arbitration or other action arising out of or related to this Agreement, or any Staffing Confirmation Agreement, the prevailing party in such arbitration or other action shall be entitled to receive an award of all costs and expenses of such arbitration or other action, including reasonable attorneys' fees and costs, and all other expenses in connection therewith, in addition to any other award or remedy provided in such arbitration or action, and the same shall be included in the award and any judgment.

(g) Authority. The Client signatory, herein below, specifically warrants that such individual has the capacity and authority to represent, contract on behalf of and bid the Client with respect to the obligations, rights, and duties contained herein.

IN WITNESS WHEREOF, the parties have executed and delivered this Agreement as of the Effective Date.

By extending a permanent or travel offer to a candidate that you have received from TherapyTravelers, you expressly agree to the terms and conditions of the Staffing Confirmation Agreement and the TherapyTravelers Staffing Service Agreement unless otherwise agreed in writing.

Oxnard School District - Rate Sheet for 2018/2019

TherapyTravelers specializes in providing highly qualified therapists to school districts across the country. We are a Southern California based business and enjoy working with districts within our local area.

We focus on staffing the following positions: Speech Language Pathologist, Speech Language Pathologist Assistant, Speech Language Pathologist – CFY, Occupational Therapist, Occupational Therapist Assistant, Physical Therapist, Physical Therapist Assistant, Psychologist and School Nurses.

SLP	\$85-\$110
SLP - CFY	\$75-\$85
SLPA	\$65-\$78
OT	\$85-95
COTA	\$75-85
PT	\$85-\$105
PTA	\$75-85
School Psychologist	\$90-\$115

OSD BOARD AGENDA ITEM

Name of Contributor: Karling Aguilera-Fort

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval and Adoption of the June 2019 Semi-Annual Implementation Program Update as an Adjustment to the Master Construct and Implementation Program (Aguilera-Fort/Penanhoat/CFW)

At the June 19, 2019 board meeting, the Board received the June 2019 Semi-Annual Implementation Program Update as an adjustment to the Master Construct and Implementation Program (Program) and received a detailed presentation by CFW during the June 26, 2019 Special Board Meeting. The June 2019 Report, provides the thirteenth semi-annual update to the Master Construct and Implementation Program (“Program”) to the Oxnard School District (“District”) Board of Trustees (“Board”). The report links the progress of the original 2013 Reconfiguration and Implementation Program, and the subsequent Master Construct and Implementation Program adopted by the Board in 2016. It reflects the status of the Program since the last six-month update adopted by the Board in December 2018, and the time of this document’s publishing in June 2019. The report provides Program updates on the educational and facilities implementation components, as well as the funding and sequencing requirements to implement the Program. Assessments and recommendations are provided for consideration and action by the Board for implementation over the next six-month period.

FISCAL IMPACT:

The Master Construct and Implementation Program includes the use of Measure “R” and “D” funds, available local developer fees, and State modernization and new construction grants as previously approved by the Board. Overall funding has been adjusted to approximately \$447.6 Million, based on decreases in projected State Aid due to the availability of hardship funding and decreases in Developer Fee revenues due to slower than anticipated development within the District during the current fiscal year. Proposed uses have been adjusted to provide previously Board-approved increases to current projects due to specific project construction needs and required professional services. Adjustments also include a proposed increase to the Lemonwood Kindergarten Annex project budget to accommodate anticipated increases to the total project costs. The proposed kindergarten facilities project at Driffill Elementary is recommended to be placed on hold pending a required resubmission of plans to the Division of State Architect and associated costs. Proposed modernization improvements to McAuliffe and Ritche Elementary schools as previously adopted by the Board will proceed. Program projects, sequencing, and timelines continue to be reviewed and adjusted for consideration by the Board.

RECOMMENDATION:

It is the recommendation of the District’s Superintendent that the Board accepts and adopts the June 2019 Semi-Annual Implementation Program Update as an adjustment to the Master Construct and Implementation Program and the Board directs staff and CFW to proceed with adjustments to the program for immediate implementation.

PROGRAM OVERVIEW

Caldwell Flores Winters, Inc. (“CFW”) is pleased to present the thirteenth semi-annual update to the Master Construct and Implementation Program (“Program”) to the Oxnard School District (“District”) Board of Trustees (“Board”). The report links the progress of the original 2013 Reconfiguration and Implementation Program, and the subsequent Master Construct and Implementation Program adopted by the Board in 2016. It reflects the status of the Program since the last six-month update adopted by the Board in December 2018 and the time of this document’s publishing in June 2019. As in the past, the report provides Program updates on the educational and facilities implementation components, as well as the funding and sequencing requirements to implement the Program. Assessments and recommendations are provided for consideration and action by the Board for implementation over the next six-month period.

A consolidated master budget and schedule merges and integrates approved and proposed projects based on funds from the Measure “R” and Measure “D” bond programs and other local sources, including developer fees, Mello Roos funds, pending State aid reimbursements and capital program balances. The Program is oriented to prioritize facility projects that maximize the potential for State aid funding for modernization and new construction of school facilities as State funds become available under the School Facilities Program (SFP) and other related State programs that provide facilities funding for California public school construction. Program progress is monitored, and individual projects, budgets, sequencing, and timelines continue to be reviewed, adjusted and presented to the Board for consideration on a six-month interval.

The following components provide an executive summary to the Board on the status of Program efforts that have progressed since the previously adopted six-month review and provide recommended adjustments for the next six-month period.

1.1 EDUCATIONAL PROGRAM

The District has continued to implement the Academic Strand Focus and Academy programs previously approved by the Board at each of the schools. In an effort to more fully integrate the Academic Strand Focus and Academies into the core curriculum, a three-year implementation plan has been developed which details when grade levels will be mapping standards, writing instructional units, and piloting, revising, and publishing the units. In addition, specific staff development days have been determined with

much of this work being done in the summer so that instructional time is not lost, and substitutes are not needed to cover the classrooms. To this end, the District implemented “Lab Days” beginning late fall of 2018 in which each District office administrator oversees a group of principals and meet monthly to conduct “Instructional Rounds” which are a set of procedures for observing, analyzing, discussing, and understanding instruction that can be used to improve student learning at scale. At the monthly Instructional Rounds, each group circulates into classrooms and observes the instruction followed by an analysis of what was happening in the classroom.

In January 2019, the District held training for all principals providing an overview of the process that would be used to develop the units of study across the grade levels in an effort to integrate the Common Core State Standards (CCSS) and Next Generation Science Standards (NGSS) with the Academic Strand Focus or Academies at each of the schools. The goal of this work is to provide rich learning experiences for students with rigorous and relevant curriculum.

Beginning in early April 2019, second through fifth grade level teacher teams worked to create research-based curriculum units that include an essential question as a guiding principle and align the essential question with the NGSS and CCSS for reading, writing and math as well as the English Language Development (ELD) standards. These units are critical to creating a focused and intentional approach to improving student performance and achievement, building the capacity of teachers and principals and ultimately building a high-performance school district. In mid-April 2019, principals attended a two-day training led by the Assistant Superintendent of Educational Services to identify the District’s vision, mission, and values and how these related to the District goals.

The District now has three 21st Century schools, with an additional one to be completed and ready for occupancy at the beginning of 2020 and another ready for occupancy during the summer of 2019. Additional improvements have been made at 11 other schools in the District. These improvements provide the classroom environments in which teachers have the tools to provide the necessary instructional shifts. Along with continued staff training, guidance, and oversight, for the implementation of these strategies, the District is poised for strong instructional shifts in the next year. This shift will be integrated as the additional schools are rebuilt and 21st Century facilities are made further available to house the District’s intended educational program.

The District has elected to modify its 1:1 mobile device program to grade TK, K and 1st grade students, restricting the number of devices in classroom instruction to 10 per classroom without the opportunity for students to transport devices home. This impacts the use of 21st century classroom facilities and instruction and has been implemented to absorb costs while maintaining some access to 21st Century technology for all students. Over the long term there needs to be further consideration to optimize available funding and extend the use of 1:1 devices. Many districts have approached the funding issue by allowing a “bring your own device” program from able students. Others have elected to use a device platform that has a longer life that can accommodate the demands of different users over time. Still others have staggered their initial and refresh rate of new devices to lessen the economic impact at any given time. In other districts, override tax programs have been successful introduced to maintain ongoing

technology operations, hardware, training and refresh rates. The District should further consider such options.

1.2 FACILITIES PROGRAM

Major progress of facilities projects over the last six-month period include:

- Completion and grand opening of the new Elm elementary school
- Completion of the second phase of the new Lemonwood K-8 school, including kindergarten classrooms, the administrative building, and parking area
- Completion of the new kindergarten/flex classrooms at Ramona elementary
- Continued construction of the new McKinna elementary school and new Marshall grade 6-8 classroom building
- Upcoming launch of construction for the kindergarten annex facility at Lemonwood elementary school
- Pending approval from DSA of the Rose Avenue K-5 reconstruction project
- Continued progress on the LAFCo land annexation process of the purchased Doris/Patterson site and nearing completion of the City of Oxnard/Coastal Commission approvals for the new Seabridge K-5 elementary school
- Submittal of funding applications under the Kindergarten Grant Program
- Anticipated receipt of approximately \$10.8 million in State aid reimbursements grants approved by the State Allocation Board (SAB) in May 2019

In addition, the Board held a study session in February to review the implementation of the proposed educational program and an April study session on the status of the Master Construct and Implementation Program and the impact of the exhaustion of the State's SFP Program under Proposition 51. Priority projects were discussed at the April meeting with the direction to proceed with construction of Seabridge followed by Rose Avenue. Over the long term, the District also discussed the need to further consider options to once again to seek an interim local solution to absorb the continued delay in the implementation of the State Schools Facility Program by the Governor and the impact of the balance of required facility improvements under the Master Construct Program.

1.3 FUNDING & SEQUENCING

The Program is funded by the use of Measure "R" and Measure "D" bond programs and other local funding, including developer fees, Mello Roos funds, and capital program balances. The Program also seeks to maximize State aid reimbursements for modernization and construction of school facilities as State funds become available.

Total sources of funding are anticipated to decrease to approximately \$437.6 million, based on decreases in projected State aid and Financial Hardship grants and lower than anticipated residential development and associated Developer Fee revenues for the current fiscal year. Planned expenditures are projected to equal \$437.6 million with Program Reserves projected at \$37.8 million overall to accommodate expected increases in future program expenses and to accommodate further delays in receipt of State aid reimbursements.

Major adjustments to the approved budget incorporate prior approved Board actions for construction and professional services associated with Lemonwood and Elm. An additional allowance is being requested for Marshall to accommodate anticipated costs of additional DSA reviews and delays in construction. Additional increases are proposed for the Doris/Patterson LAFCo and Seabridge planning to accommodate the extended local review and permit process. Budget decreases of approximately \$289,000 are being returned to the Program Reserve as savings from Project 1. In total, the Phase 1 budget has been increased by \$5.8 million to reflect these adjustments, including a onetime \$940,358 adjustment by the District for additional technology expenses. Kindergarten improvements planned for Driffill Elementary are recommended to be placed on hold pending resubmission of architectural drawings for DSA approval. The reconstruction of Marina West is proposed to be placed on hold subject to the availability of additional State aid or the identification of additional sources of local funding.

Program projects, sequencing, and timelines continue to be reviewed and adjusted for consideration by the Board. The integrated program focuses largely on the use of local funds for continued reconstruction of existing schools and the construction of new school sites, and State aid reimbursements for improvements to multipurpose rooms and support facilities to accommodate the District's educational program. The State's delay in processing applications and projected decreases by the District in enrollment may negatively effect current State aid eligibility for Program reimbursements and implementation. An assessment of potential impacts to the Program are identified and proposed program to mitigate these efforts is presented.

Table 1 provides a summary schedule provides an overview of the updated proposed phasing for the Program.

1.4 RECOMMENDATIONS

It is recommended that the Board:

- Accept and adopt this semi-annual update to the Master Construct and Implementation Program
- Direct staff and CFW to proceed with recommended adjustments to the Program for its immediate implementation

Establish a date for the next six-month review by the Board

EDUCATIONAL PROGRAM

The District continues to move forward with the integration of the Academic Strand Focus and Academy program into a comprehensive initiative with the purpose of strengthening curriculum and instruction, improving instructional practices, building capacity, supporting student learning, and developing a deeper understanding of the Common Core Standards (CCSS) and Next Generation Science Standards (NGSS).

2.1 EDUCATIONAL PROGRAM UPDATE

The educational program is grounded in the research by leading education experts Fullan and Quinn, DuFour and Reeves, Robert Marzano, Cohen and Ball, and Calkins, Ehrenworth and Lehman, and involves understanding the essential questions of the standards so as to gain a deeper understanding of the standards, and developing curriculum units designed to teach the essential learning. This process is referred to as “mapping the standards”. When developing these units, the teachers use the Academic Strand Focus or Academy themes of their schools as the backdrop for the projects that students will create that demonstrate mastery of the standards.

A three-year implementation plan has been developed to ensure that this project is completed. This plan details when grade levels will be mapping standards, writing instructional units, piloting and revising these units and publishing the units. In addition, specific staff development days have been determined with much of this work being done in the summer so that instructional time is not lost, and substitutes are not needed to cover the classrooms. The plan also includes the staff development necessary for the principals and other District administration as they develop coherence within all of the educational programs in the District.

It is important that District administrators and principals have a common understanding of what are high quality instructional practices and that there is a common language about these practices. To this end, the District implemented “Lab Days” beginning late fall of 2018 in which each District office administrator oversees a group of principals. They meet with their group once a month. At their meetings, they visit one of the schools and do “Instructional Rounds” which are a set of procedures for observing, analyzing, discussing, and understanding instruction that can be used to improve student learning at scale. This process was developed by Harvard Graduate School of Education professors Richard Elmore, Elizabeth City, and Lee Teitel. The primary purpose of instructional rounds is observing teachers to compare their own instructional practices with those of the teacher they observe to be reflective in their work and to improve their instructional skills. The basic premise is that people learn best about the meaning of high-quality instruction by observing teachers and the work students are asked to do, followed by meaningful

conversation and analysis. At the monthly Instructional Rounds, each group circulates through the classrooms and observes the instruction followed by an analysis of what was happening in the classroom. They are observing the instructional core which consists of the student, teacher and the content of the lesson. The essential interaction between teacher, student, and content creates the basis of learning and is the first place that schools should look to improve student learning. The group gathers the following information during instructional rounds:

- *Describes* what they observed in class
- *Analyzes* any patterns that emerge
- *Predicts* the kind of learning they might expect from the teaching they observed
- *Recommends the next level of work* that could help the school better achieve their desired goal.

The information gathered should guide future professional development.

The District is using the 5 Dimensions of Teaching and Learning Instructional Framework developed by the Center for Educational Leadership at the University of Washington during the Instructional Rounds. It is a tool that provides a comprehensive reflection of the core elements of effective teaching. This framework provides a common language of instruction that defines teaching and learning along five dimensions: purpose, student engagement, curriculum and pedagogy, and assessment. When used effectively, it helps Districts implement high-quality instructional practices. This tool can be used as the “lens” for classroom observations, as a guide for teachers, and as a reference during lesson planning and staff meetings about instructional practices.

In January, the District held training for all principals as this work must be led by the principals at each of the schools who will provide oversight for the ultimate implementation of the initiative. At this training, the principals were given an overview of the process that would be used to develop the units of study across the grade levels in an effort to integrate the CCSS and NGSS with the Academic Strand Focus or Academies at each of the schools. The goal of this work is to provide rich learning experiences for students with rigorous and relevant curriculum.

The mapping of the K-1 CCSS and NGSS standards and the development of the units of study have been completed by the K-1 Dual Language Immersion (DLI) teachers. Select teachers have begun to pilot the units making the necessary adjustments to the curriculum as needed. Their work is also used as a model for other grade levels as they begin this work. The standards are the same for DLI and Structured English Immersion (SEI), only the language of instruction is different. Thus, the K-1 Standards and Units will now be moved into the SEI program, changing the language of instruction.

Beginning April 7, second through fifth grade level teacher teams worked to create research-based curriculum units that include an essential question as a guiding principle and align the essential question with the NGSS and CCSS for reading, writing and math as well as the English Language Development (ELD) standards. These units are critical to creating a focused and intentional approach to improving student performance and achievement, building the capacity of teachers and principals and ultimately building a

high-performance school district. Again, this work is tied with the Academic Strand Focus and the Academy programs at each of the schools.

On April 10 and 11, principals attended a two-day training led by the Assistant Superintendent of Educational Services. At this training, the District focused on building coherence within the District by explaining the importance of:

1. Focusing direction (purpose driven, goals that impact, clarity of strategy, and change leadership)
2. Cultivating collaborative cultures (culture of growth, learning leadership, capacity building and collaborative work)
3. Deepening learning (clarity of learning goals, precision in pedagogy, shift practices through capacity building),
4. Securing accountability (internal and external accountability)

These above strategies were also linked to the Board goals, the Master Construct and Implementation Plan, and the work that had already begun in the District for the Academic Strand Focus, the Academies and the training on literacy instruction for reading and writing.

It is important for the leadership of the District and at the school sites to understand the vision of the District and how all of the parts must be integrated into one focused direction. Powerful instructional pedagogy and essential instructional practices along with understanding the instructional core (teacher, student and content) were a focus of the training. It is essential that principals understand what powerful instructional practices look like and can identify them if they are going to lead their teachers to implement these practices in their classrooms. Understand the instructional core, which is understanding the content of the lesson, knowing what is the teacher's responsibility and knowing what is the student's responsibility, is fundamental to making instructional shifts necessary to do the work of integrating the CCSS and the NCSS. The entire District Leadership Team read *Pathways to the Common Core* so that they would have a common understanding of the work before them and to understand why it is essential that they understand deeply the mapping of the standards, aligning the assessments to the standards, and ensuring that the curriculum developed is aligned to the standards.

Developing coherence in a District is essential if the District is to move forward with its educational vision. To that end, the principals were asked to understand the District vision and goals, the work in the Master Construct and Implementation Plan and acknowledge how it will impact the work they are doing, what the implications of the plan has for them, what they need to do to move forward, and what they need to stop doing that is getting in the way of full implementation. The principals were taken through an exercise in which they were to identify the Districts vision, mission, and values and how these related to the District goals. They learned about essential practices that improve instruction and should be a part of the work of every school: effective first instruction, evidence-based practices, data driven decision making, and collaborative cultures. They then worked through a series of guiding questions that will inform their work at their school sites:

1. What do students need to know and be able to do? (Essential questions in the CCSS and NGSS)

2. How will we know if they have learned it? (Assessments for the CCSS and NGSS)
3. What will we do if they have not learned it? (Multi-tiered Systems of Support)
4. What will we do if they have? (Extension and Enrichment that brings depth and complexity through student created projects)

The District now has three 21st Century schools, with an additional one to be completed and ready for occupancy at the beginning of 2020 and another ready for occupancy during the summer of 2019. Additional improvements have been made at 11 other schools in the District. More are planned as part of the Master Construct Program. These improvements provide the classroom environments in which teachers have the tools to provide the instructional shifts necessary to affect the *5 Dimensions of Teaching and Learning* and improve the instructional core in the classroom. Along with the District training for the principals to provide the guidance and oversight for the implementation of these strategies, the District is poised for strong instructional shifts in the next year.

2.2 21ST CENTURY DESIGN STANDARDS

A desired goal is for the District's educational vision to be the driver of proposed facility improvements, such that all improvements directly or indirectly support the educational program to increase academic achievement for all Oxnard students. The District has elected to proceed with an academic program that integrates the curriculum with the Common Core State Standards (CCSS) and the Next Generation Science Standards (NGSS) at each of the schools to prepare students for rigorous high school pathway programs. This requires a built environment that supports the 21st Century learning skills of collaboration, creativity, ability to easily communicate, engage in inquiry and problem solving and develop creative solutions to complex problems, often as part of smaller groups. Learning spaces in new or modernized classrooms have been planned to provide students and teachers with an increased level of functionality that delivers new types of interactivity for modern learning.

Flexible space and adaptable furnishings are two of the keys that unlock the full potential of the classroom in the 21st Century. Flexible rooms are designed to be as open as possible, so that the furniture inside them can be configured for different purposes as needed. One day, a teacher may want her students arranged in small groups. The next day, she may want the middle of the floor cleared of all furniture for a class activity. And on the third day, she may need to administer a test, with each student at their own desk in traditional rows and columns. An open-plan room requires flexible furniture to be able to achieve this simply and efficiently. The arrangement of adaptable furniture lends itself to the creation of small learning communities within classrooms. Students can read, write, design, create, or discuss in a variety of arrangements, all of which can be reconfigured at the instructor's discretion.

To achieve a 21st Century Learning Environment, furniture and equipment must be mobile, flexible and there needs to be robust technology in the classroom. There is research on brain activity and attention span and its relationship with mobile and flexible seating and movement. There must be space for students to configure and reconfigure the classroom as well as move furniture out of the way to make for large spaces for classroom projects and activities. Traditional classroom casework often monopolizes wall space and over-saturates the room with storage functions for an "analog" design. In most 21st Century

classrooms, only a limited supply of casework and storage are required. Storage solutions are achieved through the use of moveable carts. There will always be a need for wall space throughout the room to pin student work, learning concepts, and other materials which is achieved through tackboard. Markerboards (whiteboards) provide for multiple writable surfaces throughout the room, preferably at floor-ceiling height to allow students and teachers to use available wall surfaces for drawing, writing practice, or group activities. Marker boards should also be magnetic, to allow instructors to attach student exemplars where needed for instruction.

The District has set an initial specification for classroom furniture that is mobile and flexible. Adjustments are being made to better integrate storage units and markerboard space. For example, the previous specification for seven storage units per room over saturate the wall space, covering the white board space and limiting its usability for instruction. In addition, that much many storage units take up much of the space in the room limiting the functionality of the mobile and flexible furniture as well as the classroom space.

New design standards will be set that limit the amount of whiteboard space to 65% of the total lineal wall space with tackable material covering the remaining 55% of the total lineal wall area in a general purpose classroom. The number of storage units will be reduced from seven total units to four total units. These changes are being made to improve the 21st Century learning environments for students to allow them to engage in learning that is fostered through such skills as collaboration, creativity, engage in inquiry and problem solving and develop creative solutions to complex problems.

2.3 LOCATION CONSIDERATIONS FOR EDUCATIONAL PROGRAMS

In Oxnard, facilities have been specified and designed for specific educational programs that the District offers to its students. To that end, an analysis of the educational program and the specific location of those programs was conducted to ensure ongoing integration with the facilities program. The educational program that will operate at each of the District's schools along with the accompanying facilities to house the education program was analyzed to ensure that the District facilities will meet the educational program needs. The current programs offered and the enrollment in those programs was used as the baseline for the types and numbers of classrooms and facilities needed.

Each of the schools offer an Academy or Academic Strand Focus program that is integrated into the core academic program. The District also operates the following educational programs:

- Transitional Kindergarten (TK)
- Kindergarten (K)
- Dual Language Immersion (DLI) at select schools
- Mild to moderate and moderate to severe special day classes
- Newcomers Program
- Piano labs at specific K-5 classrooms in the District and a music room at a K-8 school

A summary of this analysis indicates that the District may have sufficient classrooms in which to operate both core and specific educational programs in Title 5 compliant classrooms for TK and kindergarten, operate clusters of special education programs where necessary at select schools, and be able to provide these facilities in permanent classrooms at the completion of construction at Seabridge and Rose Avenue elementary schools. Up to this point, the District has continued to house students in portable and existing permanent classrooms wherever possible to accommodate the reconstruction of facilities, the removal of designated portable classrooms and the accommodation of existing and new educational programs. The accommodation of these students and programs into their permanent facilities location upon completion of these facilities will need to be done strategically and in phases so that the District is able to minimize disruptions to the educational program, capture as much of its remaining eligibility in modernization and new construction funds as possible and complete implementation of the Master Construct Program at remaining facilities.

In further reference to the latter, additional progress remains to be made in the implementation of the Master Construct Program at existing K-5 and K-8 school facilities and in the modernization and reconstruction of the existing middle school facilities at Frank, Fremont and Haydock, respectively. For example, existing support facilities improvements at the K-5 and K-8 schools are required to meet the day to day operational and long-term educational specifications for each school. These include upgrade, replacement or construction of multi-purpose rooms, libraries, administrative facilities, bus and parking improvements and modernization of eligible classroom facilities into comparable 21st Century learning environments. Previous site studies undertaken by the Board suggest the need to reconstruct Fremont and Haydock schools, given their age and existing condition. Frank, the newest 6-8 school, has been identified as eligible for matching State grants for modernization and transformation into a modern 21st Century school facility.

At the completion of Rose Avenue, the District will have sufficient space to house 17,781 students in a total of 647 classrooms. There will be approximately 112 unallocated classrooms, which could allow the District to remove most portables at the conclusion of the building program.

2.3.1 TK AND KINDERGARTEN

Educational specifications adopted by the Board require that all students in the TK, K and SDC severe program be housed in Title 5 compliant permanent classrooms with additional classrooms available, where feasible, to accommodate Title 22 preschool programs. At the completion of Seabridge and Rose Avenue elementary schools, the District will have a total of 97 permanent classrooms that meet the Title 5 educational specifications necessary to house TK, K, or SDC severe students. In addition, these newer facilities also meet the Title 22 definition for preschool educational spaces. Currently the TK population is clustered in the district with a total of 14 classrooms. The current FY 2018-16 enrollment suggests that the District needs only 13 classrooms for this program. The District is currently operating the kindergarten program in 66 classrooms. Based on current enrollment, the District necessitates 64 classrooms to house all of the kindergarten students in classrooms with 24 students to one teacher. The Severe SDC students are currently being taught in 12 classrooms. For all three programs at the current enrollment levels, the

District needs a total of 89 classrooms. Upon completion of Seabridge and Rose elementary schools, the 97 permanent classrooms will meet the Board's adopted specification and house TK, K, and SDC Severe students with the remainder available for growth and/or accommodate preschool programs as desired by the Board.

Approximately 20 percent of kindergarten cohort students are in the TK program making entire classes of TK students at each school site impossible. For this reason, the District currently clusters the TK children at select schools based on available portable and permanent facilities and will have the opportunity to continue the cluster model at seven schools throughout the District that have Title 5 compliant classrooms. No change to the TK program in eight of the District's K-5 and K-8 schools is required. Ramona will continue to have a TK program but will be reduced to one TK class as there are no additional Title 5 compliant classrooms available for this purpose nor are they needed at the District wide level to house the program. Sierra Linda and Marina West will not have been reconstructed by this time and thus do not have the opportunity to house TK students in permanent Title 5/Title 22 compliant facilities, nor are they needed based on current enrollment at the District wide level. McAuliffe, Ritchen, Rose Avenue, Marshall, and Driffill will lose their TK programs and these programs will go to the newly constructed facilities at Harrington and Lemonwood.

The kindergarten program will be implemented at all K-5 and K-8 schools. Due to the varying pre-existing kindergarten facilities at each school, plus those constructed pursuant to the Title 5/Title 22 Master Construct educational specifications adopted by the Board, schools will have different numbers of kindergarten classes as all kindergarten students will be placed in Title 5 compliant classrooms upon completion of Seabridge and Rose elementary schools. Six schools will have no change to their kindergarten programs (Harrington, Elm, Brekke, McAuliffe, Ramona and Chavez) as existing permanent classrooms are consistent with Title 5 requirements. Six schools will lose one kindergarten class (McKinna, Marina West, Driffill, Curren, Kamala and Soria) as the overflow of kindergarten classrooms in portable or non-conforming permanent classrooms is reduced and the schools are once again allowed to operate at their designed Title 5 kindergarten capacity. Sierra Linda will lose two kindergarten classrooms, currently housed in portable or non-conforming permanent classrooms. These classes will be moved to Title 5 compliant kindergarten rooms at Rose Ave, Ritchen, Seabridge, Lemonwood, and Marshall.

Overall, twelve of the eighteen K-5 and K-8 schools will offer 4 kindergarten programs each: Harrington, Elm, McKinna, Brekke, McAuliffe, Ramona, Seabridge, Marshall, Lemonwood, Driffill, Chavez, and Kamala. Curren and Soria will each have 3 kindergarten Title 5 compliant classrooms. Marina West and Sierra Linda will have 2 kindergarten Title 5 compliant classrooms with Rose Avenue and Ritchen having 5 kindergarten classes.

The movement of TK and K programs will happen over the next three years, assuming construction proceeds as scheduled. The 21st Century schools, Harrington, Elm, McKinna, and Lemonwood, should be filled to capacity by 2020-21 school year using the classroom program allocations provided. To make this happen, the following changes will need to occur: 24 Kindergarten students at McKinna will need to be moved to other schools in the District, one new kindergarten class will be opened at Lemonwood, and

one K class will be moved from Driffill to Marshal. Upon completion of Rose Avenue, one K classroom at each of the following schools: Curren, Kamala, and Soria, will be moved to Rose Avenue and to Seabridge. TK programs from Rose Avenue, McAuliffe, Ritchen, Ramona, Marina West, Sierra Linda, Marshall, and Driffill will move to Lemonwood or Harrington.

2.3.2 SPECIAL EDUCATION

The District operates both mild to moderate and moderate to severe special education program. Students in the mild to moderate classrooms require a general purpose classroom. Student in the moderate to severe program require a larger classroom and bathroom accessible from the main classroom area. The mild to moderate and moderate to severe programs are operated throughout the District at all schools except Driffill, Chavez, Kamala, and Soria. The mild to moderate SDC will operate in one classroom at Lemonwood. Elm, Sierra Linda, and Frank will each have two SDC non-severe programs. Fremont will offer three mild to moderate SDC programs and Harrington, Marina West, Marshall and Haydock will each have four mild to moderate SDC.

All SDC Severe classrooms will remain in their current location and will be housed in Title 5 compliant classrooms. Based on a need for 13 classrooms throughout the District, the SDC Severe program will be offered at the following school sites: Brekke, McAuliffe, Ritchen, Rose Avenue, Marshall, Frank and Haydock schools. One additional classroom at McKinna can be used for increased SDC severe enrolment or preschool programs.

2.3.3 EDUCATIONAL STRANDS AND DUAL LANGUAGE IMMERSION

Each of the K-5 schools will continue to offer the academic strand focus that was selected in 2013. The K-8 schools will offer an academy program as well as the Dual Language Immersion Program (DLI), with the exception of Marshall which will offer only the academy program. The three middle schools will offer an academy program, and Haydock will also offer a DLI strand for those students matriculating from the K-5 DLI programs.

The District has implemented DLI programs at the elementary and middle school level. Districtwide, the DLI program is estimated to accommodate 7,344 students. Four of the K-5 schools including Harrington, Elm, McKinna, and Ramona as well as the K-8 schools Driffill, Chavez, Curren, and Kamala will operate as entirely DLI schools. Lemonwood and Soria will have a cohort of DLI students. The remaining six K-5 schools including Rose Avenue, Marina West, Brekke, McAuliffe, and Ritchen, and Sierra Linda will operate as Structured English Immersion (SEI) schools as well as Marshall, Frank and Fremont. One of the 6-8 schools, Haydock, will have a DLI strand to serve those students who matriculate from the K-5 schools and desire to remain in the DLI program. Haydock is estimated to accommodate 108 at the 6-8 level that will participate in the program.

At each of the newly constructed K-5 schools, a piano lab has been built and keyboarding skills are offered as an enrichment class for the students. Piano keyboarding classes are offered at Harrington, Elm, McKinna, and Rose Avenue. Music instruction will be offered at Marshall.

In addition, the District will offer a Newcomers Program at two schools, McKinna and Frank Middle School. Each of these schools will have three classes for the Newcomers Program. This program is offered to students who have recently come to the United States and have specific academic needs that require intensive instruction so that they are able to “catch up” academically to their grade level peers. It also provides intensive English Language Instruction for the students.

2.3.4 STATE AID

Based on a review of estimated modernization eligibility and enrollment, the proposed classroom allocation presented above would minimize the impact to McAuliffe, Frank, Sierra Linda and Marina West, if these facilities are not modernized prior to the projected completion of Rose Avenue. All other facilities are not as substantially impacted by these factors. Both McAuliffe and Frank are currently eligible for modernization and if not modernized by that time, approximately \$372,060 of a total of \$8.7 million may be lost due to the reallocation of enrollment to other schools. In the case of Marina West and Sierra Linda, approximately \$1.1 million of eligibility for the modernization of portable classrooms is currently available with the balance of \$3.8 million in permanent classrooms eligibility becoming available in 2025 and 2026-29, respectively. To the extent these facilities are not modernized or reconstructed prior to the completion of Rose elementary facilities, approximately \$2.0 million in modernization eligibility may be at risk due to the reallocation of students to other schools. Nonetheless, that still maximizes approximately \$10.5 million in overall modernization funding, if enrollment does not increase.

To be eligible for modernization eligibility, a permanent facility must have experienced 25 years since construction or its last modernization and a portable facility must have undergone a similar 20 year period. In addition, there must be sufficient student enrollment available to occupy that facility. As enrollment changes and additional improvements are completed to accommodate educational programs, it is assumed that students and programs will be moved as proposed above to classrooms that meet the intended design and function of the learning spaces.

Table 2: Estimated State Aid Impact to Proposed Permanent Classrooms

School	Estimated Eligible Permanent Classrooms										Allocated Classrooms			
	Phase I (FY 2013-17)		Phase II (FY 2018-20)		Phase III (FY 2021-25)		Phase IV (FY 2026-29)		Total (A)		Proposed CRs (B)		Delta (A)-(B)	
	CRs	Amount	CRs	Amount	CRs	Amount	CRs	Amount	CRs	Amount	CRs	Amount	CRs	Amount
McAuliffe	27	\$3,125,412	0	\$0	0	\$0	0	\$0	27	\$3,125,412	26	\$3,018,600	1	\$106,812
Sierra Linda	0	\$0	0	\$0	0	\$0	21	\$2,438,100	21	\$2,438,100	16	\$1,857,600	5	\$580,500
Marina West	0	\$0	0	\$0	20	\$2,322,000	0	\$0	20	\$2,322,000	17	\$1,973,700	3	\$348,300
Frank	0	\$0	45	\$5,968,080	0	\$0	0	\$0	45	\$5,968,080	43	\$5,702,832	2	\$265,248

Table 3: Estimated State Aid Impact from Unused Portable Classrooms

Est. Eligible Portable Classrooms Phase II (FY 2018-20)		
School	CRs	Amount
Sierra Linda	5	\$631,584
Marina West	4	\$441,180
Total	9	\$1,072,764

2.3.5 TECHNOLOGY

The District has elected to modify its 1:1 mobile device program to grade TK, K and 1st grade students, restricting the number of devices in classroom instruction to 10 per classroom without the opportunity for students to transport devices home. This impacts the use of 21st century classroom facilities and instruction and has been implemented to absorb costs while maintaining some access to 21st Century technology for all students. Over the long term there needs to be further consideration to optimize available funding and extend the use of 1:1 devices. Many districts have approached the funding issue by allowing a “bring your own device” program from able students. Others have elected to use a device platform that has a longer life that can accommodate the demands of different users over time. Still others have staggered their initial and refresh rate of new devices to lessen the economic impact at any given time. In other districts, override tax programs have been successful introduced to maintain ongoing technology operations, hardware, training and refresh rates. The District should further consider such options.

STATE & LOCAL CONSIDERATIONS

Periodically, the District receives updates on state and local considerations that may impact the implementation of the Master Construct Program. Most recently, the Board received an update in April 2019 on the implementation of Prop. 51 and District enrollment and their potential impact on the State School Facilities Program (SFP) and the Master Construct Program. The team is taking an opportunity once again to update the Board on some of these and other matters that may need to be taken into consideration as the District moves forward.

The following section provides a brief update of K-8 enrollment at the State, County and District level and its potential impact on the District's eligibility for pupil grant funding from the Office of Public School Construction (OPSC). An update of Prop. 51 funding is presented as well as the suggested need to start planning to seek a local solution to absorb the balance of required facility improvements and the next phase of the Program.

3.1 STUDENT ENROLLMENT AND STATE AID PUPIL GRANTS

Student enrollment impacts facilities funding programs for most California school districts in need of major facility improvements. The California Department of Finance, Demographic Research Unit tabulates actual and projected K-8 enrollment based on Department of Education enrollment data and Department of Public Health births and has counted transitional kindergarten (TK) students in kindergarten enrollment since its 2010 projections. Accordingly, the State has demonstrated that TK-8 enrollment statewide has been fairly constant over the last five years but is projected to decline over the next five years, as indicated in Figure 1, due to a general decrease in births and a corresponding decrease in enrollment.

Figure 2 presents a similar projected decrease by the State for K-8 enrollment in Ventura County. According to the Demographic Research Unit, K-8 enrollment is projected to decrease in Ventura County by approximately 8,361 students over the next five years. As demonstrated in Figure 3, a similar trend is forecasted by the District's enrollment consultant, DecisionInsite, for the Oxnard School District with a projected decrease of 1,902 students by school year 2023-24.

*Projected enrollment provided from DecisionInsite online 2019 projections; projected SDC enrollment not provided by grade and has therefore been evenly distributed across grades K-8

Sources: CALPADS; DecisionInsite

As shown in Table 4, annual enrollment growth in the District began leveling off in school year 2014-15, remained generally stable, and began experiencing decline in 2017-18. As of the 2018-19 school year, the District’s total enrollment decreased by approximately 465 students from the prior year. Data from DecisionInsite suggests that total District enrollment is projected to continue to decrease to 14,232 by 2023-24, 1,902 less students than the current enrollment. Of this enrollment, most of the decrease is projected to occur in the elementary grades 1-8 with kindergarten enrollment stabilizing somewhat within current levels.

In general, the methodology for projecting enrollment assumes matriculation of prior year grade level enrollment continuing at an ascribed rate through a district’s grade configuration annually. New kindergarten enrollment is in most part governed by the actual rates of births within a district’s catchment area. Factors such as migration, immigration and new residential construction may substantially alter short term projections while still leveling out over a greater period.

The District enrollment decline, absent other factors, may substantially impact State aid eligibility for modernization and new construction grants in the future. Other factors include the amount of additional residential development approved by the City, but not yet built and existing District capacity to house students in permanent facilities. New OPSC/State Allocation Board (SAB) rules require districts to annually update eligibility, creating the potential for major swings in ongoing eligibility and project funding; especially for districts experiencing enrollment decline or fluctuations in residential development.

3.2 PROP. 51 AND STATE REIMBURSEMENT

Pursuant to the SFP and Prop. 51, the Master Construct Program is designed to maximize available State new construction and modernization grants to assist in the funding and construction of replacement and new school facilities. Eligibility is generally established by calculating the total student enrollment of a District less the total amount of students that may be housed in permanent classrooms, based on state classroom loading standards. The net difference establishes the amount of pupil grants a district may

seek for proportional reimbursement of new or modernized facilities it may construct. Once eligibility is determined, absent other factors, a decrease of one student in the above formula generally equates to a decrease of one pupil grant of State new construction eligibility.

At the Board Master Construct Study Session in June 2018, the projected impact of decline in enrollment and remaining State aid eligibility were discussed. At the time, the OPSC anticipated remaining Prop 51 new construction funds to be exhausted by October 2018 and modernization funds to be exhausted by October 2019. Through May 2018, approximately \$36 million in State new construction and \$2.7 million in modernization applications were submitted, for a combined total of \$38.7 million. The District accepted the recommendation to accelerate the use of remaining eligibility on Division of State Architect (DSA) approved projects to offset the risk of declining enrollment and Prop 51 State aid funding.

Based on Board direction, approximately \$18.5 million in additional State aid new construction applications and \$812,700 in modernization applications, for a combined total of \$19.3 million, were filed and accepted by the State in July 2018. In September 2018, the OPSC announced that all Prop 51 new construction funds were exhausted and new applications hence would be accepted to the Applications Beyond Authority List. In October 2018, Seabridge received DSA approval and approximately \$15 million in Seabridge new construction applications were subsequently submitted and accepted by OPSC and added to the Applications Beyond Authority List. In February 2019, the OPSC announced the exhaustion of Prop 51 modernization funds.

Table 5 provides a summary of submitted new construction and modernization State aid applications totaling approximately \$72.9 million and assumes the District continues to maintain the SAB’s new annual program eligibility requirements.

Table 5: Oxnard School District: Submitted State Aid Applications

	Application	OPSC Date Received	Additional Grants	*Estimated Grant	Application Type	Projected Applications Ahead
1	Fremont	11/13/2014	\$93,926	\$1,097,886	Modernization	May 2019
2	Harrington	11/14/2014	\$1,461,426	\$9,680,523	New Construction	May 2019
3	McAuliffe	11/13/2014	\$3,106	\$119,206	Modernization	May 2019
4	Lemonwood	7/19/2017	\$1,227,750	\$13,067,262	New Construction	\$1,742,646,546
5	Marshall	11/13/2017	\$395,100	\$4,401,416	New Construction	\$2,331,654,948
6	Elm	4/30/2018	\$1,242,354	\$8,858,540	New Construction	\$3,075,353,948
7	Harrington Kinder Annex	5/10/2018	\$45,540	\$626,040	Modernization	\$3,148,682,477
8	Lemonwood Portables	5/24/2018	\$0	\$812,700	Modernization	\$3,264,025,679
9	Ritchen Kinder	7/19/2018	\$211,095	\$828,027	New Construction	\$3,605,788,954

21	Seabridge Use of Grants	12/7/2018	\$0	\$829,396	New Construction	Beyond Authority List
	Total			\$72,953,122		

*Estimated Grant amounts may vary from State lists and are dependent on maintaining program eligibility

As of March 2019, \$6 billion of State bonds have been approved by voters to fund school facilities and \$6 billion of projects have been accepted by OPSC for project funding. To date, the State has sold a total of \$797.5 million of total voter approved bonds in support of pending State aid applications. Governor Newsom has proposed a \$1.5 billion bond sale for the SFP in FY 2019-20. Based on OPSC and SAB actions, the District was appropriated \$10.8 million as part of the May Priority Funding Round from the next bond sale based on current eligibility, especially current enrollment.

With recognition that bond authority for projects is exhausted, Assembly Education Chair Patrick O’Donnell (Long Beach) introduced a school bond bill in the latest legislative session for both the 2020 and 2022 ballots. With anticipation of the passage of the O’Donnell bill by the legislature and Governor’s signature in 2019, the bonds could be on the March 2020 California primary election and 2022 general elections. The bill declares intent for a Kindergarten through Community College (K-14) bond but does not yet propose a specific dollar amount. CFW continues to monitor and actively engage in the legislative review process.

3.3 PROGRAM CONSIDERATIONS

Since the beginning of the Program, the District has maintained a requirement of flexibility in funding, sequencing, and scope of proposed projects. This is embedded in the District’s adoption of an integrated Basic, Extended, and Enhanced strategies to fund the Program as summarized below.

Figure 4: District Adopted Funding Strategies

The following **completed/under construction** projects have been implemented subject to the Basic strategy:

- Project 1 Science Labs/Kindergarten construction at select school sites (9)
- Harrington Elementary
- Lemonwood Elementary
- Marshall Elementary twelve classroom expansion for grades 6-8
- Elm Elementary
- Harrington Kindergarten Annex
- Kindergarten/Flex Classrooms at Ritchen, Ramona, McAuliffe, and Brekke
- McKinna Elementary

The following projects are **pending construction** and have been proposed subject to the Basic and Extended strategy:

- Rose Avenue Elementary
- Seabridge Elementary
- Lemonwood Kindergarten Annex

The following projects are **pending design/approval** and have been proposed subject to the Basic and Enhanced strategy:

- Marina West Elementary
- Ritche Elementary Modernization
- McAuliffe Elementary Modernization
- Doris Patterson K-5/6-8

The District has elected to proceed with the construction of Seabridge which has been approved by DSA and is awaiting a coastal permit by the City. Rose Avenue is approximately 90 days from DSA approval and is designed to be funded based on the availability of the SFP Hardship Program or from available local sources and State aid reimbursements.

The Board has previously approved the design of Marina West and the design and modernization of Ritche and McAuliffe from local funds, all subject to the availability of reimbursements from the SFP program for construction. As reported at the Board Study Session on the Master Construct Program in April 2019, Prop 51 funds have been exhausted and the following options presented:

- Design the Marina West replacement school and await future funding
- Design and construct the modernization of Ritche and McAuliffe
- Construct Rose as soon as possible from local funds and available SFP reimbursements as they become available

Based on discussions at this session, direction was provided to construct Rose as soon as possible from local funds and available SFP reimbursements as they become available. The balance of projects is to be funded consistent with the adopted Program.

The Master Construct Program is focused on increasing the number of K-8 schools and replacing older facilities, portable classrooms, and support facilities with permanent K-5 & K-8 schools. The replacement of older facilities housing K-5 students has been the focus of Master Construct projects to date with almost all having received 21st Century improvements. Rose Avenue is pending DSA approval, leaving two schools to be designed and constructed. Except for Marshall and Soria, K-8 classrooms have been replaced as part of the District's prior "Portable to Permanent" (P/P) program but are in need of 21st Century improvements to support facilities that are old and require replacement or upgrade. At the middle school level, Frank is in need of modernization, Fremont and Haydock are old and should be evaluated for replacement; all are in need of comparable 21st Century Learning Environments.

The District has successfully implemented the major portion of facilities projects undertaken to date in design and construction of projects under implementation. However, adjustments are required in order to proceed. Recommendations are provided and options are presented where possible for further Board consideration. Projects for implementation over the next six-month period are proposed in the facilities section of this report for consideration by the Board.

However, delays by the State in the processing of eligible District grant applications and in the limited sale of voter approved Prop. 51 bonds has reduced grant reimbursements by the State. In addition, OPSC and SAB changes to the SFP program has also delayed the submittal of eligible grant applications; in particular the need to resubmit for a grant reimbursement for Seabridge land acquisition and construction. Meanwhile, District enrollment has peaked, and projected declines may reduce the receipt of funds from remaining eligible projects. Local approvals by LAFCo and the City are also causing delays in construction. Such delays in program implementation make remaining projects subject to escalating market costs which may reduce the number of projects that may be funded overall. Over the long-term, the District may be required, once again, to supplement the Basic Strategy and start planning to seek a local solution to absorb the balance of required facility improvements and the next phase of the Program while the State continues to struggle to implement the SFP, Prop 51 and the Governor's future State bond program.

FACILITIES PROGRAM

At its initiation, the Master Construct Program focused on the need to provide local funding to reconfigure the District's existing grade K-6 and 7-8 educational program into an education program that provided greater parent choice in instruction within more modern 21st Century facilities. To accomplish this goal, some of the smaller schools were transformed into K-5 schools, all of the larger elementary schools were converted to K-8 schools and the remaining junior high facilities were transformed into grade 6-8 middle schools. Priority was then given to reconstructing the District's older K-5 schools in the areas with the greatest amount of concentrated enrollment, with the opportunity to leverage the maximum amount of State aid available. Additional grade 6-8 capacity was then expanded throughout the District with the establishment and expansion of the number of K-8 schools, especially those sites had previously benefitted from the replacement of portable classrooms with permanent facilities. Additional middle school grade 6-8 capacity was then provided with the purchase and planned construction of the Doris/Patterson school site.

The next phases of improvements call for the construction of additional replacement schools and the modernization of the remaining existing schools into comparable 21st Century school facilities with new support facilities to accommodate the student population, including administrative and specialty labs, makers spaces, libraries, MPRs, playgrounds and parking. Funding for these improvements is primarily from a combination of existing local sources and State aid reimbursements.

To date, the majority of new replacement school projects are either complete or underway, as is the expansion of existing K-8 facilities. New construction of additional K-5 and 6-8 school capacity is pending local approvals. The following section provides an update of projects under management and projects anticipated to be initiated over the next six-month period. Project highlights are presented as are proposed adjustments to the budget and timeline. These components are then carried over for further consideration in the Master Budget, Schedule and Timeline recommendations later in this report.

4.1 PHASE 1 PROJECTS

All Phase 1 facility improvements for the Master Construct Program are either completed or under construction, pursuant to the Basic Strategy. Completed Phase 1 projects include upgrades to kindergarten and science labs across eight school sites; the reconstruction of Harrington and Lemonwood and substantial completion of reconstruction of Elm; construction of Kindergarten Annex facilities at Harrington; and the acquisition of the Seabridge K-5 elementary school site. Remaining Phase 1 improvements include the completion of the new grade 6-8 building at the prior Marshall Elementary

school. Funding for all Phase 1 projects to date has been from local sources, primarily Measure “R” and portions of Measure “D”.

4.1.1 LEMONWOOD RECONSTRUCTION AND KINDERGARTEN ANNEX

The Lemonwood facility consists of an entirely new, 70,234 square foot state of the art campus reconstructed on the existing school site, replacing the school’s aging buildings with a modern K-8 facility. The campus consists of 29 general purpose classrooms, 4 kindergarten, 3 science labs, and 1 Special Day classroom, library, makers room multipurpose room/gymnasium, kitchen, administrative offices, restrooms, storage and ancillary rooms. Improvements were scheduled over two construction phases. The first phase of construction included the main classroom and multipurpose buildings and was occupied by students and staff, as planned, in February 2018.

The second phase of construction included completion of new kindergarten facilities and administration building as well as the restoration of playfields. The second phase of work achieved substantial completion in March 2019 and kindergarten students and site administration moved into the new buildings in April 2019. Associated onsite support facilities, such as, kindergarten playground, new staff parking lot, perimeter fencing, and associated utilities were also completed in April 2019.

The move into the new facilities culminated a months long transition planning process similar to the process used at other sites undergoing reconstruction. The transition plan called for teacher training on elements that make up the 21st century classroom space, including technology, multiple TV monitors to display educational content, floor to ceiling markerboards and tackboards, and mobile, flexible classroom furniture and the interaction between all of these elements. Training was also provided to site staff regarding food service, supervision, maintenance, and the operation of site systems such as lighting and HVAC.

Lemonwood Reconstruction Project New Administration and Kindergarten Facilities

The reconstruction of the Lemonwood facility also calls for the retention and repurposing of Building 3 of the original campus into six “Flex Classrooms” for enhanced kindergarten, transitional kindergarten, or special day class programs as may be required by the District. Construction plans were approved by DSA in January 2017, and construction of the project is expected to be undertaken during the next six-month period.

The Board approved “all in” budget for the Lemonwood reconstruction project is \$39.9 million which has proceeded under a Lease Lease-Back agreement with a Guaranteed Maximum Price (GMP) construction contract. A recommended budget adjustment of approximately \$2.3 million is proposed increasing the total budget to approximately \$42.2 million to reflect approved Board adjustments since the December 2018 six-month report. These adjustments include associated code changes, changes to site fencing and miscellaneous construction changes; approved budget increases for Furniture, Fixtures, and Equipment (FF&E); testing and inspection services; and architectural services.

A GMP contract for approximately \$2.9 million has been negotiated for the construction of the Lemonwood Kindergarten Annex improvements and is to be presented for consideration and award at the next June Board meeting as an amendment to the scope for the construction of the Lemonwood project. Based on the above, a revised total “all in” budget of approximately \$3.7 million is proposed, including the proposed GMP, Architectural/Engineering, DSA fees, CDE fees, testing and inspection services, and FF&E costs.

Three reimbursement funding applications have been filed for the Lemonwood Reconstruction project with the OPSC for approximately \$15, 886,394 million in projected SFP grant funding based on estimated pupil grants and site development costs. A new construction application was filed in June 2017 for approximately \$13.1 million that utilized 939 new construction pupil grants and a subsequent \$812,700 modernization application was filed in May 2018 to be used toward new construction under the “Like for Like” provisions of the SFP. In order to further expedite the use of State aid funding, an additional new construction application for \$2,006,432 was submitted in July 2018 under the “use of grants” provisions of the SFP program to allow additional new construction grants to be applied towards this project. These applications are pending OPSC review and SAB approval. It is anticipated that State reimbursements for this project will be available from the existing Proposition 51 SFP program, based on current enrollment. The earliest indication as to the ability of the State fund project reimbursement will most likely be this fall.

4.1.2 ELM RECONSTRUCTION

The new Elm Street Elementary School replaces the original aging buildings with a new 2-story 49,913 square foot facility with 19 permanent classrooms, 4 kindergarten, 1 special day classroom, piano lab, library media center, administrative offices, restrooms, storage, ancillary rooms and playfields providing an entirely new, state of the art campus to serve grades K-5. The first phase of construction included the new buildings and was completed and occupied by the District in February 2019. A very successful grand opening event was held in early March 2019 that was well received by the community.

The move into the new facilities culminated a months long transition planning process similar to the process used at other sites undergoing reconstruction. The transition plan called for teacher training on elements that make up the 21st century classroom space, including technology, multiple TV monitors to display educational content, floor to ceiling markerboards and tackboards, and mobile, flexible classroom furniture and the interaction between all of these elements. Training was also provided to site staff

regarding food service, supervision, maintenance, and the operation of site systems such as lighting and HVAC.

New Elm Street Elementary School Grand Open Event – March 2019

New Elm Street Elementary School Classroom and Library Facilities

The second phase of construction is underway and includes demolition of the original school and creation of new playfields. This effort is anticipated to be completed by July 2019, in time for the District to use the new playfield when school opens in the fall of 2019.

The current Board approved “all in” budget for the Elm reconstruction project is \$30.7 million which has proceeded under a Lease Lease-Back agreement with a Guaranteed Maximum Price (GMP) construction contract and approved change orders. A recommended budget adjustment of approximately \$2.1 million is proposed to incorporate approved change orders since the December 2018 six-month update associated with code required changes, changes to site fencing, and District requested construction changes.

Approximately \$10.1 million in reimbursement applications have been filed with the OPSC for the Elm project based on estimated State aid pupil grants and estimated site development costs. A new construction grant application was submitted in April 2018 for approximately \$8.9 million based on a total of 613 standard pupil grants and 13 SDC pupil grants. In July 2018 a “Use of Grants” application totaling approximately \$878,184 million based on a total of 72 standard pupil grants. An additional modernization application of approximately \$348,300 was submitted in July 2018 on behalf of existing portable classroom eligibility for the project to be used toward new construction under the “Like for Like” provisions of the SFP. Based on this proposed strategy, approximately \$10.1 million is estimated to be

garnered in State reimbursement funding toward this project. These applications are pending OPSC review and SAB approval. It is anticipated that State reimbursements for this project will be available from the existing Proposition 51 SFP program, based on current enrollment.

Over the next six-months it is anticipated that the demolition of the old campus and the construction of the new playfields will be completed and opened to the site for use in the fall of 2019. It is also anticipated that construction closeout of the project will occur during this period. The earliest indication as to the ability of the State fund project reimbursement will most likely be this fall.

4.1.3 MARSHALL NEW CLASSROOM BUILDING

A new 20,768 square foot, two-story 12 classroom building is under construction at Marshall Elementary School that will provide the school with 9 additional classrooms to house six through eighth grade students to support a long-term K-8 educational program option at the site. The new building will also feature a performance classroom, 2 science labs, workrooms, elevator, storage and ancillary rooms.

Construction commenced in September 2017 and is currently planned to reach substantial completion in June 2019 and to be occupied at the start of the 2019-20 school year. The project's substantial completion will include building exterior envelope, paint, exterior lighting, interior of the building, testing of systems, and close-out documentation to be ready for District use in the fall of 2019. A transition plan for moving into the new classroom building has been developed for occupancy of the building to take place in early July 2019. Remaining construction activities, such as playfield grading and placement of grass, will continue to be monitored and coordinated for the students return in the fall.

The current Board approved "all in" budget for the Marshall project is \$11.4 million which has proceeded under a Lease Lease-Back agreement with a Guaranteed Maximum Price (GMP) construction contract and approved change orders. Since the December 2018 update, the project has experienced delays due to slow response time from the DSA in processing required changes and general contractor coordination issues. It is recommended that an allowance to the "all-in" budget of approximately \$551,704 be approved in anticipation of delay-related expenses that will be brought to the Board as need for final approval.

In November 2017, a new construction application for \$4,401,416 was filed with the OPSC for reimbursement for new construction project improvements utilizing 316 general pupil grants and estimated site development costs. In order to accelerate State aid funding, an additional "use of grants" application for new construction was submitted in July 2018 based on the use of 80 additional standard pupil grants for \$1,009,552 in additional funding. In total, approximately \$5.4 million is estimated to be garnered in State funding for the project based on the above approach. These applications are pending OPSC review and SAB approval.

Over the next six months, CFW and the District will continue to implement a transition plan with staff, teachers and team members for the opening and operation of the District's latest K-8 school. In addition,

construction will continue to be monitored and coordinated including the installation of classroom technology and furniture.

Marshall New Classroom Building Construction Progress – April 2019

4.2 PHASE 2 PROJECTS

Phase 2 projects include those that are under construction, are in DSA seeking plan or local agency approvals and those that have been selected for implementation, but for which a team has been selected for design or construction. Projections under construction include McKinna and the kinder/flex classrooms at McAuliffe, Ritche, Brekke and Ramona. Projects seeking agency approvals include Rose, Seabridge, and Doris/Patterson elementary and middle school. Projects yet to be assigned design and construction teams included Marina West reconstruction, the modernization of Frank Middle School, McAuliffe and Ritche elementary schools and the reconstruction of Fremont Middle School. The following sections provide further detail on the status of Phase 2 projects summarized above and expected outcomes over the next six months.

4.2.1 MCKINNA ELEMENTARY RECONSTRUCTION

The McKinna Elementary School Reconstruction project consists of a 58,229 square foot new two-story 23 general purpose classroom building, with 4 kindergarten, 1 kinder-flex and 2 SDC classrooms, a library, piano lab, administration space, a multipurpose room, playfields and hard courts, and support spaces, including new parking. Upon completion of the facilities, the old school will be demolished, and new play fields and remaining support facilities will be constructed in their place.

Construction is underway and is scheduled to be completed by February 2020. Framing work for the new classroom building started in October 2018, as did the excavation of underground utility trenches. Construction activities to date include completion of grading and compaction of the project site, completion of the underground utility services (sewer, domestic water, electrical, and fire water services), completion of building footings/foundations, and structural framing for all new buildings. Installation of mechanical, electrical, and plumbing infrastructures are in progress throughout the building. At the Kindergarten, Administration, and MPR buildings, plywood roof sheathing has been completed; all other

buildings are currently in progress. During May 2019, installation of roof-mounted connections began at the Administration and Kindergarten buildings in preparation for installation of mechanical equipment.

Three reimbursement funding applications have been filed with the OPSC totaling approximately \$12.0 million in estimated grant funding. Two applications for new construction were filed with OPSC in July 2018 totaling approximately \$11,573,709 million utilizing a combined total of 758 standard pupil and 35 SDC pupil grants. An additional modernization application of approximately \$464,400 was submitted in July on behalf of existing portable classroom eligibility for the project to be used toward new construction under the “Like for Like” provisions of the SFP. These applications are pending OPSC review and SAB approval, based on current enrollment eligibility.

Over the next 6 months, installation of mechanical equipment will be completed overall. Window installation and interior insulation installation is also underway. Completion of exterior and interior finishes will occur; as will installation of low-voltage systems (fire alarm, security system, lighting control, etc.), and parking area asphalt paving, concrete paving, and landscaping. Construction milestones include substantial completion of the new two-story classroom building, library, administration space, and multipurpose room. Substantial Completion milestones include of all building utilities, including electrical, mechanical, plumbing and audio-visual.

The approved “all in” budget for the McKinna project is \$36.5 million which has proceeded under a Lease Lease-Back agreement with a Guaranteed Maximum Price (GMP) construction contract and approved change orders. No budget adjustments are recommended at this time.

McKinna School Construction Progress – April 2019

4.2.2 NEW KINDERGARTEN/FLEX CLASSROOM FACILITIES

The District has constructed additional modular kindergarten/flex classrooms to support the District's transitional kindergarten (TK), kindergarten, and Special Education programs at McAuliffe, Ritche, Brekke and Ramona Elementary Schools. Each project is Title 5 compliant and includes the construction of two modular classrooms along with support spaces (restrooms, storage, and work rooms).

In June 2018, construction started at Brekke, McAuliffe, and Ritche with substantial completion having been achieved at all sites by November 2018. The District has occupied these classrooms. At Ramona, construction commenced in October 2018 and completed in May 2019, with occupancy scheduled for fall of 2019.

Budget adjustments are recommended to reflect prior Board approved adjustments since the last six-month report. At Brekke, a budget adjustment of \$53,727, for an unforeseen waste system improvement, is recommended, adjusting the total budget to approximately \$1.9 million. For McAuliffe, a total budget adjustment of \$204,009 is recommended for soils mitigation and DSA required accessibility upgrades to the school main entrance, resulting in a revised total budget of approximately \$2.6 million. At Ritche, an increase of \$329,613 is recommended for play structure replacement and soils mitigation, adjusting the total budget to approximately \$2.7 million. For Ramona, a budget increase of \$117,260 is recommended for required play structure replacement to adjust the budget to approximately \$2.2 million.

New construction applications were filed in July 2018 with OPSC, utilizing a total of 72 severe SDC pupil grants (18 SDC pupils per site). Based on the estimated SDC pupil grant amounts and site development costs, applications were submitted for \$665,648 for Brekke, \$883,665 at McAuliffe, \$616,932 at Ramona, and \$828,027 at Ritche, totaling approximately \$2.9 million in estimated State pupil and site development grants. These applications are pending OPSC review and SAB approval, based on current enrollment eligibility.

4.2.3 DRIFFILL K-8 KINDERGARTEN FACILITY

The District 2012 Facilities Master Plan identified the need to modernize the existing Driffill kindergarten facilities available at that time. Subsequent reviews determined that the site's existing kindergarten facilities required costly upgrades to aging buildings, and new kindergarten facilities would more adequately meet the requirements of the grade reconfiguration. In 2013, the District established a scope, budget, and schedule to reflect the design and construction of four (4) new kindergarten classrooms, demolition of the existing kindergarten classroom wing, and removal of three (3) portables. A budget of \$2,477,832 was established, architectural plans prepared and DSA approval was received for the project in October 2014.

Upon DSA approval, the project was put out for public bid in November 2014 and again in February 2015 with both bids exceeding the budgeted value. Original bids for the project were beyond the budget value provided and a redesign was performed in order to bring the plans and budget in line with the bidding

market. Thereafter the project was placed on hold by the District while other budgeting solutions were developed.

CFW was subsequently directed to submit an application in 2015 for matching State aid new construction funding utilizing 132 standard pupil grants equaling approximately \$1,728,882. However, at the time of submission, the State's authorization for facilities funding had been exhausted. It was decided by the Board that the project would only move forward once matching State aid funds were made available. In October 2018, the District was notified that the OPSC would be reviewing the District's application in anticipation of approving the project for funding under Prop 51. In anticipation of State aid funding, the District commenced pre-construction activities in September in order to maintain the status of DSA approved plans and construction of the facility is estimated to commence in FY 2019-20 following receipt of funds from the State. However, the OPSC subsequently determined that the DSA did not provide adequate direction for the District to commence with the project and the State aid application was returned to the District accompanied with a request to resubmit plans to DSA.

At this time, it is recommended that the Drifill kindergarten project be placed on hold pending resubmission to the DSA of revised plans. It should be further noted that the Drifill kindergarten facility project is being managed by the District's Facilities Department but is included in the Master Construct Program budget. While it is not within the CFW program management scope of work, we strongly support its continued implementation by District staff.

4.2.4 ROSE AVENUE ELEMENTARY RECONSTRUCTION

The Rose Avenue project consists of a 58,347 square foot, two-story 23 general purpose classroom building, with 4 kindergarten classrooms, 1 kinder-flex, and 2 SDC classrooms, piano lab, library, makers room, administration space, multipurpose room, playfields, hard courts, and support spaces. Plans were completed and submitted to DSA in September 2018 and are currently under review by DSA for approval. The project is anticipated to be constructed in two phases, the first being the construction of the actual buildings followed by the demolition of the older school and completion of the play areas DSA approval is anticipated to be available by July 2019.

The school has been designed to be funded and constructed through the SFP Financial Hardship program. However, the recent depletion of the Prop 51 authorization for new construction and hardship funding may delay this project until additional State voter approved authorization is provided, another source of funding is provided, or a combination of both is achieved. At the April 2019 Board Study session, staff was encouraged to proceed with the reconstruction of Rose from local available funds and from SFP reimbursement as they become available.

Subject to the District maintaining sufficient enrollment and upon DSA approval, an application for matching new construction SFP funding utilizing 675 standard pupil grants and 35 SDC pupil grants will be filed with the OPSC, which is anticipated to garner approximately \$10.5 million in new construction grants inclusive of estimated additional grants for site development. A "use of grants" new construction application will also be filed utilizing 83 additional standard pupil grants, totaling approximately \$1 million. In addition, a modernization grant application from eligible portable facilities will be filed for the project

estimated at \$348,300. In total, approximately \$11.9 million in new construction and modernization applications are planned to be filed for the Rose Avenue project.

Over the next six months and upon DSA approval, the team will also initiate efforts to establish a Guaranteed Maximum Price (GMP) contract for the construction of the project. The approved “all in” budget for the Rose Avenue project is \$30.7 million and no adjustment to the overall budget is recommended at this time.

4.2.5 SEABRIDGE ELEMENTARY NEW CONSTRUCTION

The Seabridge K-5 School project consists of a 48,802 square foot, two-story 19 general purpose classroom building, with 4 kindergarten classrooms, 1 SDC classroom, piano lab, library, makers room, administration space, multipurpose room, playfields, hard courts, and support spaces, including parking. The Seabridge project received DSA approval for construction in October 2018. At this time, the District is seeking final approval of a Coastal Development Permit from the City of Oxnard in order to proceed with the construction of the project. An application for a Coastal Development Permit was prepared and submitted to the City for consideration in June 2019.

Approximately \$15.0 million in two new construction applications were filed in December 2018 with the OPSC for the Seabridge project based on 643 standard pupil and 13 SDC pupil grants, estimated site development cost, and land acquisition reimbursement. Over the next six months, the team will continue to coordinate with the City of Oxnard and other parties to receive approval and move forward with construction. It is projected that the Seabridge project can reach approval among all parties in the spring of 2019 and negotiate and finalize the GMP contract for Lease-Lease Back construction activities by the end of the fiscal year. No budget adjustments are proposed at this time.

Over the next six months, it is anticipated that the City will consider the District’s application and pending approval, the District will complete the proposed GMP process and bring it forward for Board consideration in order to commence with construction. The current Board approved “all in” budget for the Seabridge project is \$28.6 million. No budget adjustments are recommended at this time, subject to the bid outcome as described above.

4.2.6 DORIS/PATTERSON NEW CONSTRUCTION

The District has acquired a 25-acre parcel at the corner of Doris Avenue and Patterson Road for the construction of a new 700 student K-5 and 1200 student 6-8 middle school facility, plus the ability to accommodate a District administrative center. The District has completed the California Environmental Quality Act (CEQA) and Department of Toxic Substances Control (DTSC) review requirements for the project. The project also requires annexation into the City of Oxnard, pursuant to the Ventura County Local Agency Formation Commission (LAFCo) approval of several changes of organization, collectively called reorganization. This LAFCO process is currently underway, and the District submitted a pre-application to the City of Oxnard to initiate the overall process in June. It is anticipated that the City’s

portion of the process will conclude by the end of 2019 and that consideration by LAFCo will conclude in mid-2020.

The current Board approved “all in” budget for the environmental planning/LAFCo efforts for the project is \$700,000. A budget increase of \$100,572 is recommended for additional studies and consultant services which may be required to complete the review and approval process. Over the next six months, CFW, the District and its LAFCo consultant will continue to manage the application and approval process, including conducting meetings with the City and other local agencies as the District’s application moves from the City to LAFCo.

4.2.7 MARINA WEST ELEMENTARY RECONSTRUCTION

The Board adopted a Master Construct and Implementation Program in January 2017 that included the reconstruction of the Marina West K-5 School into a two-story 31 classroom building, library/media center, administration spaces, multipurpose room, playfields, hard courts, and support spaces, including parking. Upon completion of construction, the older facilities would be demolished and replaced with play fields and required support facilities. The project is anticipated to be constructed in two phases, the first being the construction of the actual buildings followed by the demolition of the older school and completion of the play areas.

Like the Rose reconstruction project, the District planned on advancing funds to complete the design of the facility for approval by CDE, DSA, OPSC and the SAB as a “financial Hardship” project and subsequent construction would be dependent on the receipt of SFP Hardship funding. Recognizing that Proposition 51 is exhausted, the District determined at its April 10, 2019 Study Session that the design of this project would be placed on hold until additional sources of funding were identified either from local sources, State aid reimbursements or replenishment of the SFP, especially Financial Hardship funding.

The adopted “all-in” budget for Marina West reconstruction is \$30,680,582. No change to the adopted budget is proposed at this time.

Existing (Left) and Conceptual (Right) Configuration of Marina West Elementary School

4.2.8 MCAULIFFE ELEMENTARY PROPOSED IMPROVEMENTS

The Master Construct Program provides for the modernization of McAuliffe Elementary, including its 28 classrooms, STEAM Academy lab and piano lab, and support spaces to comply with the District’s vision and specification for 21st Century K-5 classroom and support school facilities. Proposed improvements for permanent classrooms include allowances for modernized improvements to floors, walls and ceilings, plumbing, electrical, furnishings, as well as data and other technology upgrades. Upgrading the library into a Media Center, is proposed as are improvements to the multipurpose room, the HVAC system and converting two adjacent supply rooms into administrative and counselor space. These improvements are in addition to the recently constructed kinder/flex classrooms, currently under construction.

Historically, the modernization of McAuliffe has been proposed to be funded from a combination of local funding sources and SFP grant reimbursements. The site currently qualifies for approximately \$3.2 million in matching SHP modernization grants. In September 2018, the Board reviewed an update assessment of proposed improvements, estimated costs, interim housing and funding options to maximize and accelerate funding. Upon review, it was decided to proceed with the submittal of a SFP Financial Hardship application to fund planning and design with the option for further hardship funding in the future, if available. In February 2019, the OPSC announced that all Proposition 51 funding had been exhausted, including modernization and hardship funding. Since then the project has been placed back in its original schedule for construction to be funded from receipt of State aid reimbursements and locally available funds. Nonetheless, should enrollment continue to decrease and subsequent eligibility for SFP reimbursements from submitted applications on file with the State be lost, additional sources of local funding may be needed.

Based on the above, the adopted “all-in” budget for McAuliffe, including hard and soft costs is \$4,959,744. No change to the adopted budget is proposed at this time.

4.2.9 RITCHEN ELEMENTARY MODERNIZATION

The Master Construct Program provides for the modernization of Ritchen Elementary, including its existing 28 classrooms, science and piano labs, MPR, library and support spaces to comply with the District’s vision and specification for 21st Century K-5 classroom and support school facilities. Proposed improvements include allowances for modernized improvements to floors, walls and ceilings, plumbing, electrical, HVAC, and furnishings, as well as data and other technology upgrades and additional administrative spaces. These improvements are in addition to the recently constructed kinder/flex classrooms, currently under construction.

The modernization of Ritchen has been proposed to be funded under the Master Construct Program from a combination of local funding sources and SFP grant reimbursements. The site currently qualifies for approximately \$2.84 million in matching SFP modernization grants. In September 2018, the Board reviewed an update assessment of proposed improvements, estimated costs, interim housing and funding options to maximize and accelerate funding. Upon review, it was decided to proceed with the submittal of a SFP Financial Hardship application to fund planning and design with the option for further hardship funding in the future, if available. In February 2019, the OPSC announced that all Proposition 51 funding

had been exhausted, including modernization and hardship funding. Since then the project has been placed back in its original schedule for construction to be funded from receipt of State aid reimbursements and locally available funds. Nonetheless, should enrollment continue to decrease and subsequent eligibility for SFP reimbursements from submitted applications on file with the State be lost, additional sources of local funding may be needed.

Based on the above, the adopted “all-in” budget for McAuliffe, including hard and soft costs is \$4,905,850. No change to the adopted budget is proposed at this time.

4.2.10 FRANK MIDDLE SCHOOL MODERNIZATION

Frank Middle School is the newest of the District’s 3 dedicated middle school facilities having just turned 25 years of age. In the summer of 2018, the District conducted a modernization assessment of eligible school site. Upon review, proposed improvements to Frank included 21st Century upgrades and modernization of 35 classrooms and installation of 21st Century amenities as well as improvements to the campus’ support facilities and library. Proposed improvements for permanent classrooms and science labs, included allowances for modernized improvements to floors, walls and ceilings, plumbing, electrical and HVAC, furnishings, fixtures and equipment, as well as data and technology upgrades. Conversion of the existing library into a Media Center, including all physical and technology upgrades, was proposed as were improvements to the gym and upgrades to the music room. In total, the proposed improvements to Frank were estimated to cost approximately \$9,023,903.

The Modernization Assessment Plan recommended the modernization of Frank Middle School through inclusion in the Master Construct Program. Funding was proposed under the Financial Hardship program to proceed with modernization design, DSA/CDE approvals and construction. In February 2019, the OPSC announced that all Proposition 51 funding had been exhausted, including modernization and hardship funding. Since then the project has been placed on hold pending the replenishment of the SFP program, receipt of State aid reimbursements, or availability of additional local funding. The school site currently qualifies for approximately \$5.97 million in matching SFP modernization grants. Nonetheless, should enrollment continue to decrease and subsequent eligibility for SFP reimbursements from submitted applications on file with the State be lost, additional sources of local funding may be needed.

At this time the District has authorized all remaining funds to complete reconstruction projects. Absent State aid reimbursements, no new projects may move forward beyond those that already have been approved by the Board. No additional Financial Hardship funding is currently available from the State. Should there be additional local funding to fully fund the entire construction requirement, it is recommended that the District proceed to modernize Frank with local funds and State grant reimbursements.

Table 6 provides an overall summary of modernization and 21st Century improvements proposed at McAuliffe, Ritchen, and Frank. It is estimated that approximately \$18.9 million would be needed to complete these projects. Should enrollment substantially decrease, funding for these projects either from prior project reimbursements or directly from their respective grant eligibility, these projects would be further delayed and may be at risk of being funded without State aid participation.

Table 6: Summary of Proposed Modernization Improvements

Estimated Cost	#CRs	Amount
McAuliffe Elementary		
21st Century upgrades to existing permanent classrooms	28	\$ 3,878,448
21st Century upgrades to library/media center		\$ 372,368
Improvements to the MPR area		\$ 436,372
Upgrades to the HVAC system		\$ 267,556
Convert supply rooms into office space		\$ 5,000
Total	28	\$ 4,959,744
Ritchen Elementary		
21st Century upgrades to existing permanent classrooms	28	\$ 3,822,781
21st Century upgrades to library/media center		\$ 372,368
Improvements to the MPR area		\$ 443,145
Upgrades to the HVAC system		\$ 267,556
Total	28	\$ 4,905,850
Frank Intermediate		
21st Century upgrades to existing permanent classrooms	35	\$ 5,100,097
Modern upgrades to existing science labs	6	\$ 1,464,816
21st Century upgrades to library/media center		\$ 413,059
Modern upgrades to music rooms	2	\$ 467,682
Improvements to the MPR area		\$ 1,092,584
Upgrades to the HVAC system		\$ 485,665
Total	43	\$ 9,023,903
Total Improvements	99	\$ 18,889,497

4.2.11 FREMONT MIDDLE SCHOOL RECONSTRUCTION

The District’s 2012 Facilities Master Plan prepared by LPA identified the need to modernize Fremont Middle School. In 2013, the Measure “R” Reconfiguration and Implementation Program proposed and constructed science lab improvements to accommodate the reconfiguration of the District’s schools into a K-5, 6-8 and K-8 educational program. In 2016, the Master Construct Program analyzed the feasibility of providing additional site improvements, including a new gym as well as site studies to reconstruct the facility as a new 21st Century middle school. Alternate site studies were also conducted. Based on these reviews and a comparative cost analysis, it was recommended that the Fremont site be reconstructed as additional funds became available.

Pursuant to the District’s adopted educational specifications for 6-8 middle schools, the proposed new facility will consist of 41 general purpose classrooms, three special day classrooms, one art lab, one band/orchestra room, 5 educational support spaces, an administrative building with office space, conference room, and nurse’s office, a library media center with small breakout rooms, and a gym/MPR with a food preparation kitchen, changing rooms/lockers and storage. In total, the reconstructed school is estimated to consist of approximately 74,825 square feet of new buildings and facilities. Upon completion of construction, the older facilities would be demolished and replaced with play fields and required support facilities.

There is an insufficient amount of site specific or district wide SFP grant eligibility available at this time to support additional grade 6-8 improvements as the Master Construct Program prioritized projects that would allow the District to increase grade 6-8 capacity. All current grade 6-8 State eligibility is being concentrated on increasing the District’s overall capacity to house future grade 6-8 students in the

construction of the Marshall grade 6-8 expansion and in the construction of the new middle school at the Doris/Patterson site to provide additional student capacity and interim housing to accommodate modernization and reconstruction efforts of the District’s existing middle schools.

Conceptual Configuration of Fremont Middle

A recent 2019 analysis based on the District’s adopted educational specifications for grade 6-8 middle schools established an “all-in” budget for the reconstruction of Fremont of approximately \$63.9 million. To the extent additional funds are made available, it is recommended that the District proceed with the reconstruction of Fremont Middle School as part of the Master Construct Program

4.3 RECOMMENDATIONS

Over the next six-month period, the work program proposes continued Board review and consideration of projects as presented through an ongoing series of workshops or Board action items. As part of this report, it is recommended that the Board accept recommendations within this section to add proposed projects, adjust budgets, schedules and timelines as indicated, based on Board approval as needed.

PROGRAM FUNDING & EXPENDITURES

This section reviews existing and anticipated sources of funds for implementing the proposed facilities for the Master Construct and Implementation Program. Major funding sources include Measure “R” and Measure “D” bond proceeds, developer fees, Mello Roos funds, prior State aid reimbursements, and capital program balances. The Program seeks to maximize remaining State aid eligibility for modernization and new construction grant funding of school facilities as State funds become available under the State SFP and other related State programs that fund public school facilities construction.

To date, approximately \$72.9 million in State aid new construction and modernization applications have been submitted to the OPSC through the State SFP. A new Full-Day Kindergarten Facilities Grant Program has been established by the State providing \$100 million in one-time grants for new construction or retrofit of existing facilities for the purpose of providing kindergarten classrooms to support full-day kindergarten instruction. The District has applied on a competitive basis for the Kinder Facilities Program but has yet to receive an appropriation. A further review of the SFP and Kindergarten Grant programs and estimated District eligibility is provided below.

All Mello Roos and Measure “R” bond proceeds have been received, and available capital program balances have been applied towards Phase 1 improvements. Local developer fees continue to flow into the program as additional residential construction is approved within the boundaries of the District. The District has issued approximately \$95 million in Measure “D” bonds in support of Phase 2 improvements, leaving approximately \$47.5 million in remaining authorization. All previous bond authorization has been fully issued and utilized.

The following provides an update to the prior December 2018 funding and expenditures report to the Board. This section provides a comprehensive review of the funding program, including a review of State aid grants, projected local developer fees, and local general obligation bond proceeds, all which may assist in the implementation of the remaining Master Construct Program. The report recommends adjustments to the Master Budget and Schedule that are required in accordance with financial or policy decisions undertaken by the District and the State from the prior periods and proposed activities over the next six-month period. Potential shortfalls due to enrollment decline or further delays in receipt of State aid are identified and provided for review and further consideration.

5.1 STATE MATCHING GRANTS

Through the OPSC, the State of California provides funding assistance to eligible public school districts through the SFP. OPSC operates various programs pursuant to State Law and provides projects to be considered by the State Allocation Board (SAB) for specific funding. Funding is provided to school districts in the form of per pupil grants, with supplemental grants for site development, site acquisition, and other project specific costs. Individual pupil grant amounts are periodically reviewed for adjustment by the SAB. The program provides new construction and modernization grants to construct new school facilities or modernize existing schools. To receive State grants, a district is required to match the grant portion from available district funds. This may include proceeds from local general obligation bonds, developer fees, and a district's general fund. Under certain specific conditions, a district may qualify and apply for a release of its local match requirement through a hardship review and approval by the OPSC and the SAB, subject to additional constraints and requirements.

As of December 2018, the District has submitted approximately \$72.9 million in State aid applications through the SFP, including approximately \$69.5 million in new construction applications and approximately \$3.4 million in modernization applications. Of these, approximately \$10.9 million in applications have been approved by the OPSC and SAB, with funding anticipated to be released by the end of 2019. These applications are for pupil grant reimbursements the District was found eligible to receive for the reconstruction of Harrington Elementary and the modernization of Fremont and McAuliffe science lab and kindergarten projects completed during Phase 1 of the Program.

The District has also applied for approximately \$7.1 million under the new Kinder Facility Program, a program funded by the State General Fund to expand full day kindergarten facilities through the provision of matching funds for new or modernized facilities that meet Title 5 standards for such classrooms. These are competitive and criteria based matching grants, subject to an annual set appropriation in the State's General Fund budget. Two rounds of funding were proposed for FY 2019-20; the District participated in the initial February competition without receipt of award but was prompted by the State to resubmit its application for the second round of consideration which just ended in May. Results of the District's efforts are still pending as of the drafting of this report.

CFW continues to monitor grant applications to the State and activities of the SAB for the allocation of eligible State funding. The strategic blending of these programs is required to support the balance of local investment that may be required to fully implement the Master Construct Program. These programs are summarized below as well as the District's current and projected eligibility for program funding. Applications that have been approved by the District and submitted to OPSC are catalogued and projected applications for potential funding of additional projects are also presented.

5.1.1 STATE AID MODERNIZATION

The State's Modernization Program provides funds on a 60-40 state and local sharing basis for improvements that educationally enhance existing school facilities. Eligible projects include modifications

such as air conditioning, plumbing, lighting, and electrical systems. Applications are submitted to the OPSC in two stages:

1. **Eligibility:** Modernization eligibility is established separately for each school site and requires that permanent facilities be at least 25 years old and portable facilities be at least 20 years old. Students must be enrolled in those facilities based on State classroom loading standards of 25 per classroom for grades K-6 and 27 per classroom for grades 7-8. Once established, site eligibility is not subject to annual review.
2. **Funding:** A district with modernization eligibility may request funding on a 60-40 State grant/local match basis. The 2019 pupil grant is currently \$4,644 for elementary grades and \$4,912 for middle grades. Eligible costs include design, construction, educational technology, testing, inspection, furniture and equipment. Limited supplemental funding is available for excessive cost such as fire safety and accessibility improvements. Grant levels are periodically reviewed by the State. Program funding is subject to project performance and certification at the completion of construction.

Under SB 50, the State provides the option of a “Like for Like” approach towards utilizing available modernization eligibility towards new construction. The “Like for Like” approach allows school districts to utilize modernization funding for new construction projects, if the new construction is replacing a facility with a similar facility that requires modernization. These funds do not affect a district’s new construction pupil grant eligibility and are in addition to any available new construction funding. Funds allocated under “Like for Like” would be based on the modernization grant eligibility on a site by site basis. The District continues to utilize this approach, where applicable, to augment the amount of funding available to construct replacement school facilities.

Tables 7 and 8 summarize the District’s remaining estimated eligibility for State modernization grants for 302 permanent and 49 portable facilities that by the end of the Program would have been last modernized or placed in service at least 25 or 20 years ago, respectively. The estimated grant amounts have been updated to reflect the 2019 per pupil grant amounts established by the State. Assuming there is sufficient students enrolled at the time an application is submitted for those facilities based on State classroom loading standards of 25 per classroom for grades K-6 and 27 per classroom for grades 7-8, there is a potential combined eligibility over the period of the Program of approximately \$39.7 million in matching modernization grants.

As shown in Table 7, the District may be eligible for approximately \$36.9 million in remaining matching modernization grants from permanent classrooms. Approximately \$16.2 million is currently available through FY2020 for two elementary schools (McAuliffe and Ritcher) and two of the middle schools (Haydock and Frank), with Frank having the largest amount of grant eligibility available. The majority of the remaining eligibility of approximately \$12.1 million is not fully eligible for grant funding until the FY 2026-29 period. To access any of these funds, the District must design and receive DSA project approval prior to the submittal of an application for modernization funding of a facility.

Table 7: Estimated Remaining Modernization Eligibility from Permanent Classrooms: 60/40 Program

School Site	CRMs	Phase I (FY 2013-17)		Phase II (FY 2018-20)		Phase III (FY 2021-25)		Phase IV (FY 2026-29)		Total Amount

*Current dollars

Table 8 demonstrates a remaining eligibility of approximately \$2.86 million for portable classrooms that exceed their 20-year life and are eligible for modernization during the term of the Program. To date, approximately \$3.0 million in modernization applications have been submitted to the OPSC for grant reimbursements. These amounts exclude any estimated additional grants anticipated beyond the base pupil grants for associated site development costs. All modernization applications require a local match to be provided by the District, unless Financial Hardship is utilized as explained later in this section.

Wherever possible, the District has attempted to amalgamate as much eligibility as possible before proceeding with the demolition and reconstruction of eligible facilities, including replacement schools. Because portable classrooms were introduced at specific sites at various alternate dates to accommodate accelerating enrollment in prior periods, not all portable classrooms are eligible for reimbursement at the same time nor on the scheduled implementation of the Master Construct Program. Therefore, in certain cases, not all eligibility has been able to be utilized on a project-by-project basis before commencing with the replacement of a facility.

Most recently this has been the case with the Elm and McKinna reconstruction projects where less than the total estimated amount of modernization grants were able to be used. An adjusted decrease of approximately \$1.4 million to the December 2018 estimated Elm modernization eligibility amount is presented as 12 remaining portables were removed during construction that were not yet fully eligible for grant funding, thus they are no longer available for future grant reimbursement. A similar decrease adjustment of \$1.0 million was incorporated into the reconstruction of the McKinna school facilities prior to the actual eligibility date of 7 remaining portables that were also removed during construction.

As reported in the December 2018 update, should enrollment variables change over time at each site and at the time of a modernization application, the estimated grant amounts may increase or decrease further. In addition, at time of application, additional grant dollars may be garnered by identification of eligible Special Day (SDC) pupils per site as SDC pupils are assigned a higher per pupil grant amount than standard pupils. The ability to use all of these grants, however, is contingent on the priority of projects to be funded by the Board, the planned use of these classrooms to house students, available matching funds, continued enrollment, and the corresponding timeline and schedule adopted as part of the Master Construct Program.

Collectively, these modernization amounts are used as inputs and integrated where possible in the facilities Master Budget and Schedule to implement proposed Master Construct projects. In August 2018, the District, adopted a Modernization Assessment Plan for the use of available modernization eligibility in support of select project to be included in the Master Construct Program. Approximately \$18.9 million in combined modernization improvements at McAuliffe, Ritchen, and Frank were assessed and proposed to be funded under the SFP Financial Hardship program. Proposed improvements were to accommodate a 21st Century reconfiguration and improvement program, including 21st century upgrades to all existing permanent classrooms, library and MPR/Gym spaces, HVAC upgrades, and piano and academy labs, respectively. In February 2019, OPSC announced that all remaining Proposition 51 funding for modernization projects had been exhausted.

At this time, there are no alternate sources of funds to replace the amount of Hardship funding otherwise available. The District may elect to proceed under the 60/40 match program, in which case the district would need to augment the source of local funding under the Basic Strategy equal to 40 percent of the match requirement of approximately \$7.56 million. However, should enrollment continue to decline, it may be necessary for the District to replenish the Basic Strategy with additional sources of local funds to fund 100 percent of these additional modernization improvements. In that case, the District may be in need of \$18.9 million to make up the shortfall overall or at least in the funding of modernization improvements to Frank Middle School, a major priority project for the District.

5.1.2 STATE AID NEW CONSTRUCTION

The State's New Construction Program provides State funds on a 50/50 State and local sharing basis for eligible projects that add permanent classroom capacity to a school district. The goal is to add capacity to school districts to house students, including the construction of a new school or the addition of classrooms to an existing school. Applications are submitted to the OPSC in two stages:

1. **Eligibility:** Eligibility for new construction funding is not site specific and is determined by the gap between a district's projected enrollment and its existing permanent classroom capacity. Classroom capacity is based on State loading standards of 25 students per classroom for elementary grades and 27 students per classroom for middle grades. Historical and projected student enrollment, plus approved, but not yet built residential units, are utilized to estimate the gap between the number of future students and the current ability to house students in permanent facilities. Portable classrooms are not counted by the State as being permanently available to house pupils. Until approved for construction, eligibility is subject to annual review.
2. **Funding:** Once eligibility is approved; a district may apply for funding on a 50/50 State grant/local match basis. The 2019 pupil grant is currently \$12,197 for elementary grades and \$12,901 for middle grades and is counted based on each student found to exceed a district's permanent capacity to house students. Eligible costs include design, construction, testing, inspection, furniture and equipment, and other costs closely related to the actual construction of school buildings. Supplemental grants are available for site acquisition, utilities, on/off-site and general site development, and other excessive costs. Grant levels are periodically reviewed by the State.

As in other cases, the method by which a district qualifies for new construction eligibility has been changed by OPSC and the SAB since the passage of Proposition 51. The new requirement states that districts must update their new construction eligibility whenever their application is reviewed by OPSC. In essence, a District with multiple applications filed over succeeding periods will be required to update their new construction eligibility each year, based in large part on the annual change in CALPADS enrollment as measured each October. The eligibility analysis is based in large part on the trend of a district's last four years of enrollment with the most recent years weighed more heavily than the first. Approved, but not

yet built residential units are also included and added to future enrollment projections at a rate of 0.5 students per approved, but unbuilt unit. Jointly, this tends to substantially accentuate the trend moving forward, especially in a declining enrollment or decreased residential construction situation.

Previously, a district established its baseline eligibility on a date specific and that eligibility was carried forward throughout the period. This allowed for longer term planning and construction of required facilities. The new eligibility requirement has created the opportunity for major swings in ongoing eligibility; especially during periods of enrollment decline or fluctuations in residential development. Coupled with the new focus of the SFP to operate as a reimbursement program, it now requires districts to more heavily maintain an ongoing local source of facilities funding to off-set and moderate the annual swings in eligibility and funding. In this case, the District's approach to facility funding under the Basic Strategy has served it well.

Nonetheless, the OPSC has maintained the opportunity for districts to be reimbursed up to 5 years after the date of construction of new facilities should there be an upswing in enrollment or increased residential development that would justify additional eligibility. Such new eligibility may be documented and applied for reimbursement of previously constructed facilities within the 5-year window. To be effective, however, requires the State to have an ongoing active and fully funded facilities program at that time, otherwise a district may once again be subject to fluctuations in enrollment while waiting in line. This has been the case in the Oxnard school district over the last 5 years.

As previously stated in Table 4, enrollment peaked in the Oxnard School District in FY2015-16, moderately decreased through FY2016-17 and has been declining at an accelerated rate in the intervening years. Due to local controls on new development, residential construction during this period has been likewise restrained and generally available for "in-fill" development only, restricting enrollment growth overall. Based on the enrollment available in FY2015-16, enrollment decreased by 782 students through FY2018-19. Based on the District's consultant, the rate of enrollment decline is anticipated to moderate by FY2021. As of the December 2018 six-month report, 1512 units were considered by the state as having been approved but not yet built, adding approximately 756 students to the enrollment eligibility at that time. As of February 2019, the state recognized a reduced total of 986 units as having been approved but not yet built yielding a corresponding increase to enrollment eligibility of approximately 493 students. These declines have had an impact on the District's eligibility for grant reimbursements.

Jointly, the cumulative decrease in enrollment and the reduced number of approved residential units awaiting construction has substantially reduced the amount of new construction eligibility that the District can claim for State grant reimbursements at this time. Unfortunately, the current and forthcoming six-month period is the time when many of the District's submitted and pending applications will be reviewed by OPSC and recommended for SAB funding based on the projected levels of current enrollment and residential construction. Both of these are at recent historical lows at this time.

Table 9 provides a summary of the District's adjusted baseline new construction grant eligibility under the new requirements and as approved by the SAB in February 2019 for pending applications, subject to grant funding recommendation in May 2019. In total, the District qualifies for approximately 1,904 pupil grants.

When compared to the estimated eligibility provided in the December 2018 update, this amount represents a projected substantial decrease in pupil grant eligibility of 4,719 pupils. This decrease is primarily due to a substantial enrollment decline within the District coupled with reduced residential development during this period that when projected on a weighted basis over the next 5-year period generates the potential severe decline noted above. Should enrollment and approval of new residential units increase during the next or subsequent six-month periods, eligibility will be increased.

Table 9: New Construction Eligibility: 50/50 Program

Grade Level	Eligible Pupils	Grant Value (2019)	*Est. Grant Amount (50%)	Est. Local Match (50%)
K-6	1,349	\$12,197	\$16,453,753	\$16,453,753
7-8	265	\$12,901	\$3,418,765	\$3,418,765
SDC Non Severe	140	\$22,922	\$3,209,080	\$3,209,080
SDC Severe	42	\$34,274	\$1,439,508	\$1,439,508
Subtotal	1,796		\$24,521,106	\$24,521,106
Additional Pupils**	108	\$12,197	\$1,317,276	\$1,317,276
Total	1,904		\$25,838,382	\$25,838,382
Plus Estimated Supplemental Grants			\$3,084,276	\$3,084,276
Grand Total			\$28,922,658	\$28,922,658

* Does not include State reimbursements for land acquisition.

**Assumes 108 pupils from the Gallery at River Ridge development

Based on existing pupil grant amounts, the District currently qualifies for approximately \$25.8 million in State new construction funding of which approximately \$4.6 million is available for Severe and Non-severe special education facilities. This amount includes the pupil grant allocation approved by the SAB in May for Harrington and Project 1. An additional \$3.1 million or approximately 15 percent of the State pupil grant amount is anticipated as an allowance, to be established by the State, for site development expenditures to accommodate required classroom improvements.

OPSC and the SAB maintain a rank order of applications awaiting funding. Table 10 presents the latest rank order of State dollars to be allocated to fund the remaining applications for Master Construct projects that await funding subsequent to the May 2019 allocation by the SAB. According to this list, there are approximately \$2.1 billion to \$2.7 billion worth of applications ahead of the next two projects to be funded – Lemonwood and Thurgood Marshall. These applications are currently estimated to yield approximately \$16.3 million in project reimbursements for the reconstruction of Lemonwood and the construction of the Marshall classroom additions. The balance of District projects requires between \$3.6 and \$4.1 billion in funding. To the extent the enrollment projection does not change and the State elects to sell and fund at least \$2.7 billion in projects over the next six-month period, the earliest that additional District reimbursements could be funded would be in November 2019, if not spring.

This latter period, however, overlaps the next CALPADS enrollment count in October and should enrollment decline accelerate further, the District could face reduced levels of reimbursements. Subsequent District applications in line for further funding in the future have additional time available before their eligibility is recalculated and certified, thus giving the District time to implement additional measures to increase enrollment, if desired.

Table 10: Estimated State Rank Order Funding of District Applications

School	Type	Total Grant*	Applications Ahead
Lemonwood Elementary	New Construction	\$12,225,183	\$2,141,741,339
Thurgood Marshall Elementary	New Construction	\$4,113,728	\$2,785,195,265
Elm Street Elementary	New Construction	\$8,595,811	\$3,529,504,914
Harrington Elementary	Modernization	\$584,890	\$3,602,833,443
Lemonwood Elementary	Modernization	\$818,846	\$3,718,176,645
Emilie Ritche Elementary	New Construction	\$808,227	\$4,047,169,924
Norman R Brekke Elementary	New Construction	\$645,848	\$4,047,978,151
Christa McAuliffe Elementary	New Construction	\$863,865	\$4,048,623,999
Lemonwood Elementary	New Construction	\$1,937,447	\$4,085,267,485
Elm Street Elementary	New Construction	\$832,824	\$4,087,204,932
Thurgood Marshall Elementary	New Construction	\$957,376	\$4,088,037,756
McKinna Elementary	New Construction	\$10,247,550	\$4,088,995,132
McKinna Elementary	New Construction	\$960,061	\$4,099,242,682
Elm Street Elementary	Modernization	\$404,879	\$4,100,202,743
McKinna Elementary	Modernization	\$467,912	\$4,100,607,622
Ramona Elementary	New Construction	\$660,882	\$4,105,465,827
Seabridge Elementary + Land	New Construction	\$13,517,344	Beyond Authority List
Seabridge Elementary	New Construction	\$786,556	Beyond Authority List
Total		\$59,429,229	

**Total grant is based on State workload list and may vary once application is reviewed by the State*

Specific recommended strategies include:

- Reducing District transfers-out, where possible
- More exhaustive recruitment and coordination with private and existing preschools for TK and K matriculation to District schools
- Extending after care for TK-K students to increase parent interest and options
- Increasing public information of the added benefits of District programs, including academies and special programs
- Exhibiting the various advantages of the District’s 21st century schools when compared to those of neighboring districts
- Improving the collection and accuracy of City approved residential units approved, but pending development

Should enrollment continue to decline in spite of the above recommendations, it may be necessary for the District to replenish the Basic Strategy with additional sources of local funds. If enrollment and the consequent eligibility do not rebound in time to access the funding of the above applications by the SAB, the District would be in need of approximately \$44.08 million in additional local funding to make up for the shortfall. That number represents the difference between the remaining eligibility at this time in Table

9 (\$28.9 million) and the total of all applications already submitted to the State in Table 5 (\$72.9 million) for funding under Proposition 51.

Table 11: Remaining Project Improvements for K-5/K-8 MPR and Support Spaces

Project	Est. Total Remaining Amount
Drifill K-8 (MPR)	\$6,913,427
Chavez K-8 (MPR)	\$6,913,427
Curren K-8 (MPR)	\$6,913,427
Kamala K-8 (MPR)	\$6,913,427
McAuliffe ES (Modernization)	\$4,959,744
Brekke ES (MPR/Support)	\$1,156,930
Ritchen ES (KModernization)	\$4,905,850
Ramona ES (MPR/Support)	\$2,047,625
Subtotal	\$40,723,857
Program Reserve	\$3,356,143
Total	\$44,080,000

Pursuant to the Master Construct Program, the priority use of these reimbursements has been to fund the major improvements required to bring the P/P and K-8 schools into compliance with the District’s educational specifications, including adequate administrative, multipurpose room, library and 21st Century classroom improvements. Table 11 identifies the projects remaining to be funded from State aid reimbursements. These improvements would bring comparable MPR facilities to all the P/P and K-8 facilities and support improvements identified in the Master Construct Program for Brekke, Ritchen, Ramona and McAuliffe; all which have been waiting in line since inception of the Program. In total 8 existing schools would benefit.

5.1.3 FULL-DAY KINDERGARTEN GRANT PROGRAM

As part of the State’s budget for 2018-19, AB 1808, Article 7 created the Full-Day Kindergarten Facilities Grant Program providing \$100 million in one-time grants to construct new or retrofit existing facilities for the purpose of providing kindergarten classrooms to support full-day kindergarten instruction. For this purpose, “Full-Day Kindergarten” is defined as a school day program exceeding 4 hours, exclusive of recesses. Projects may consist of the construction of a new facility or the acquisition and conversion of an existing building for public school use. This program is not designed to provide full-day kindergarten classrooms for projected kindergarten enrollment growth.

Grants are awarded to districts that lack the facilities to provide full-day kindergarten or lack facilities that satisfy the design requirements for new kindergarten classrooms. Districts are required to provide 50 percent of the cost of new construction and 40 percent of retrofit projects, unless the district meets the requirements for Financial Hardship. Program funds made available to districts are to supplement, not supplant, existing funds available for school facilities construction. Moreover, projects utilizing Full Day Kindergarten Program grants may not combine kindergarten pupil grants with the SFP.

Eligibility is determined on a site-by-site basis; however, priority for funding is based on districtwide criteria. A school site is considered lacking full-day kindergarten facilities if the kindergarten enrollment at the site exceeds the classroom capacity at the site using the SFP loading standard of 25 pupils per

classroom and if the existing facilities do not meet current California Department of Education (CDE) requirements. Districts must also rank the priority of multiple applications for funding consideration. If there are sufficient funds to apportion all submitted valid and completed applications, projects will be funded based on the date the application are received. If funds are insufficient to fully fund all of the applications, priority points will be given to districts that meet the following criteria:

- Meet eligibility requirements for Financial Hardship (40 points)
- Have a high concentration of underserved communities (up to 40 points) defined as a school district with a high population of pupils who are eligible for Free and Reduced-Price Meals

The State has published definitive regulations for processing applications to be funded over two rounds, beginning January 2, 2019 and May 1, 2019. Based on the State’s new requirements and regulations, an update review of the District’s adopted Master Plan and existing Master Construct Program were conducted, presented to the Board for review, and upon direction from the District in December, eligible kindergarten facilities applications for new construction were submitted for consideration.

Collectively, classrooms at 4 sites were found to be eligible for up to \$5.2 million in direct grants, plus an additional \$1.8 million in estimated site improvement costs. The selected sites do not comply with Title 5 requirements at this time and could benefit from larger classroom areas, in room bathrooms, shared work areas and 21st Century improvements. The District submitted four applications for the January 2019 funding round but did not receive funding due to the program being oversubscribed. As such, the District resubmitted the four eligible applications for the May 2019 funding round opportunity; no decision has yet been made. As shown in Table 12, the District may be eligible for up to \$7.1 million in program funding. If received, any such funding would reduce the demand on SFP pupil grants that would otherwise be required, or in the absence of any additional SFP funding, lower the amount that would otherwise need to be funded locally under the Basic Strategy.

Notice of awards are projected to be available in September and funds received will be used to off-set the impact on local funding and to increase the amount of full day kindergarten facilities available for District students. Due to the competitive nature of funding, these amounts are not included in the available Sources and Uses of Funds identified in the adopted Master Construct Budget until they are secured.

Table 12: Proposed Kindergarten Grant Applications

Priority	School	Type	K/TK CRs to be Built	2018-19 K/TK Enrollment	Eligible Pupils	Eligible CRs	Base Grant	Site Dev. Grant (35%)	Total Grant (50%)	Financial Hardship (50%)	Total Project Costs (100%)
1	Marina West	K-5	5	105	125	5	\$1,524,625	\$533,619	\$2,084,244	\$2,084,244	\$4,168,488
2	Rose Avenue	K-5	5	93	100	4	\$1,219,700	\$426,895	\$1,667,395	\$1,667,395	\$3,334,790
3	Ramona	K-5	2	143	50	2	\$609,850	\$213,448	\$833,698	\$833,698	\$1,667,395
4	Sierra Linda	K-5	6	132	150	6	\$1,829,550	\$640,343	\$2,501,093	\$2,501,093	\$5,002,185
TOTAL			18	473	425	17	\$5,183,725	\$1,814,304	\$7,086,429	\$7,086,429	\$14,172,858

Notes:

1. All kindergarten grant funds must be encumbered by 6/30/21 and requires a local match
2. Pupils used under the Kindergarten program will supplement, not supplant, pupils used under the School Facilities Program
3. Projects utilizing Kindergarten grants may not also use Kindergarten pupil grants under the School Facilities Program

5.1.4 FINANCIAL HARDSHIP FUNDING

The State also provides a Financial Hardship Program to assist districts that cannot provide all or part of their local match for an approved modernization or new construction SFP project. In Financial Hardship, the State funds its normal grant amount, and if a district is found to be eligible, provides an additional grant amount equal to the portion of the match that would have been required to be funded by a district. This in effect increases the amount of grant funding a district would otherwise receive. To qualify, a district must be charging the maximum developer fee and meet one of the following criteria:

- Bonded indebtedness of 60 percent or greater
- Successful passage of a Prop. 39 Bond
- District total bonding capacity of less than \$5 million

At this time, the Oxnard District has exceeded its net bonding capacity by 60 percent and may be eligible for Financial Hardship.

Under the current Financial Hardship Program, a district must have exhausted all unencumbered capital fund balances available for modernization or new construction at the time of application. In addition, any funds that become available during the time the District is in the Hardship period will reduce the amount of the State's grant in lieu of the District's match, proportionally. Audits of available capital facilities funding (e.g., Funds 21, 25, 35) are required throughout the project period that a district is in Hardship funding and at "close out", or completion of the project. Until approved for construction, eligibility is subject to review every 6 months. A district can apply for both planning and/or construction funds.

Except for land acquisition and some site service costs, 100 percent hardship grant funding does not typically equate to 100 percent of the total development costs associated with the design and construction of an eligible project. Often projects must be phased, alternate methods of construction (e.g. modular) must be employed to achieve the desired space requirement for housing students or additional local funding must be provided thereafter to complete a hardship project.

As pointed out in other cases, the OPSC has implemented a change to the Financial Hardship program requiring that the Financial Hardship period begin on the date of application, regardless of the date an application is reviewed by OPSC or approved by the SAB – restricting its use. This requires that the District sequence projects proposed for Financial Hardship after any and all anticipated and available capital funds are encumbered which may result in a push of Financial Hardship projects to later implementation phases of the Master Construct Program, once other funds have been exhausted.

Financial hardship funding is proposed to be used strategically, with careful consideration to minimize the impact on the use of other sources of funding as identified above. Careful sequencing of all remaining projects and projected reimbursements is required, so projects are designed, and funds encumbered before entering the Hardship period. This may require the advanced funding of design components for remaining projects from local sources in advance of securing Hardship funding. The District will need to prioritize remaining projects to be considered for this option.

As of the December 2018 six-month report, the District had budgeted the reconstruction of Rose, Marina West and Sierra Linda to be funded under the Hardship Program. Upfront funding for these projects has been proposed to be funded under the Basic Strategy with the balance to follow upon DSA approval through a Hardship grant award by the SAB. To the extent any additional funding would be needed to complete these projects, local funds would be used.

As of September 2018 and February 2019, the OPSC has forwarded notice to all districts that the amount of new construction and modernization grant funding under Proposition 51, including Hardship funding, has been exhausted and that any new applications are to be placed on a to be funded list should additional bond authority be granted by the electorate. This required a re-evaluation by the District.

At the April 10, 2019 Master Construct Study Session, the Board was presented with the status of the State aid program, Hardship funding and the Master Construct Program. Options were presented to amalgamate all remaining funds to proceed with the funding of either:

- Construct Rose Avenue Reconstruction from local available funds and from SFP reimbursement as they become available
- Design the Reconstruction of Marina West with local available funds and construct as additional funds, including State aid reimbursements become available.
- Design and construct the modernization of Ritche and McAuliffe elementary schools

Direction was provided to proceed with the construction of Rose Avenue from local available funds and from SFP reimbursement as they become available. Absent additional Hardship funding, the balance of improvements is proposed to be funded from local sources to the extent funds become available. The lack of available Hardship funding at this time for the reconstruction of Rose Elementary requires that the District proceed with local available funds for its reconstruction, subject to submitting an application for matching State grants upon DSA approval. This requires a decrease adjustment to the Sources of Funds to the Master Construct Program equal to approximately \$9.85 million, demonstrating the 50 percent reduction in anticipated State aid due to the shift from Hardship funding to the match reimbursement program for the reconstruction of Rose Elementary.

5.1.5 SUBMITTED AND PENDING STATE AID APPLICATIONS

Table 13 provides a summary of the estimated new construction eligibility as of the December 2018 six-month report. Based on enrollment and other information at that time, it was assumed that the District was eligible for approximately 6,623 pupil grants. Based on current grant levels, it is assumed that approximately \$85.2 million in funding could be achieved. This would require a like amount of match from District local sources. This amount excludes any potential additional grants available for site development or land acquisition reimbursements.

Table 13: Allocation of New Construction Pupil Grants

	Pupil Grants			Grant Amount
	K-6	7-8	Total	
Estimated Dec. 2018 Pupil Eligibility	5,691	932	6,623	
Less SDC Pupils Used*	242	0	242	\$6,670,972
	5,449	932	6,381	
<i>Less grants for projects to be used at:</i>				
Reconstruction of Harrington	625	0	625	\$7,623,125

Total grants used	5,449	932	6,381	\$78,485,185
Balance of Pupil Grants Remaining	0	0	0	
	Total Estimated New Construction Grants			\$85,156,157

*Includes new construction applications for kinder/flex projects and SDC pupils at reconstructed and new schools

Table 14 presents State aid applications that have been filed with the OPSC, totaling approximately \$72.9 million. It also reflects the current pupil grant amounts in effect for 2019 by the SAB and estimated additional anticipated allowances for supplemental grants such as site development and land acquisition costs. The majority of these applications rely on the actual or projected number of students and associated pupil grants available to house those students. The balance relies in large part on the application of a “use of grants” provision allowed by the SFP to accelerate additional funding by applying for additional grants to be used in the construction of a school facility.

The “use of grants” approach allows a district to utilize higher pupil loading standards than the State standard on its funding application, as long as those standards are within the approved district’s teacher contract and do not exceed 33 pupils per classroom. A higher loading standard increases the number of pupil grants that the State would allocate to a project, which in turn increases the amount of State funding for that project. Notwithstanding the application, a district is not required to actually load the classroom at the higher local standard when built. By using a higher standard on the application but a lower standard in the actual loading of classrooms, the share of the project cost shouldered by the State is increased while decreasing that of the District.

This funding mechanism can decrease the local cost of new facilities for a district, but it requires the diversion of pupil grants from other district projects that the State would otherwise have found eligible. The use of grants mechanism does not increase the district’s overall number of pupil grants; instead, it transfers to one project a portion of the grants that would have otherwise been used on another eligible

project. This approach has enabled the District to apply for eligible pupil grants sooner than anticipated by enabling the ability to apply these additional grants to existing projects.

Table 14: Submitted State Aid Applications

Projects	Type	Standard Pupils	K-6	7-8	SDC Pupils	Non Severe	Severe	Est. Base Grant	Est. Sup. Grant	Total Est. Grant

Seabridge Use of Grants	New Const.	68	68	0	0	0	0	\$829,396	\$0	\$829,396
Total		4,811	3,987	824	180	99	81	\$59,659,388	\$13,293,734	\$72,953,122
Total New Construction Pupils Used		4,180	3,487	693	172	91	81			
Total Modernization Pupils Used		631	500	131	8	8	0			

At this time, the District has submitted 21 applications for State reimbursement, with seven applications pending submittal upon DSA approval of the Rose Avenue, Marina West, and Doris Patterson plans for construction. Over the last six months, efforts were completed to respond to application review letters and requests from the OPSC for the next set of projects to be contemplated for funding by the SAB - Harrington, Fremont, and McAuliffe applications. At this time, approximately \$10.9 million in funding is anticipated to be received by the District in 2019 for these applications in the fall. The prior submitted application for the kindergarten project at Driffill Elementary was rescinded due to the expiration of the DSA stamped approval of plans. The District and architect are addressing the submittal of updated design plans for a new DSA approval and subsequent filing of an updated application.

Taking into consideration the new construction applications that have been filed as explained above, the District has utilized 4,180 standard pupil and 172 SDC pupil grants totaling 4,352 pupil grants. Based on the December 2018 estimated total new construction eligibility of 6,623 pupils, an estimated 2,271 remains in new construction pupil grants. Table 15 provides a summary of the proposed use of those remaining pupil grants assigned to the new construction projects planned at Rose Avenue, Marina West and the Doris Patterson new school site. As shown, approximately \$28.8 million in additional funding may be anticipated from based pupil grants, assuming a 50/50 local match. This is an adjustment to the previous amount due to the lack of Hardship funding currently available to assist in the construction of Rose, and Marina West. An additional \$4.0 million may be garnered from estimated additional site

development grants, for a grand total of approximately \$32.8 million. As previously stated, this amount assumes the District is able to regain or maintain its previous enrollment, otherwise any shortfall will need to be funded from local sources under the Basic Strategy.

Table 15: Future New Construction State Aid Applications

Project	Type	Standard Pupils	K-6	7-8	SDC Pupils	Non Severe	Severe	Est. Base Grant	Est. Sup. Grant	Total Est. Grant
Rose Ave. K-5	New Const.	675	675	0	35	26	9	\$9,137,413	\$1,370,612	\$10,508,025

Total		2201	1962	239	70	52	18	\$28,822,729	\$4,019,704	\$32,842,433
<i>Total New Construction Pupils Used</i>		2201	1962	239	70	52	18			

As shown in Table 16, approximately \$348,300 in portable classroom modernization eligibility is pending OPSC submittal for the Rose Avenue project under the “Like for Like” provisions of the SFP. This application would be submitted at the time of DSA approval of the design plans.

Table 16: Future Modernization State Aid Applications

Project	Type	Est. Base Grant	Est. Sup. Grant	Total Est. Grant
Rose Avenue Portables	Mod.	\$348,300	\$0	\$348,300
Total		\$348,300	\$0	\$348,300

Collectively, the District has approximately \$72.9 million in State aid applications that are under consideration with OPSC, and an additional \$33.2 million in projects that are pending OPSC submittal. In total, the District has approximately \$106.2 million in foreseeable State aid eligibility, based on the assumptions noted above. Over the next six months, the team will continue to monitor application status with OPSC and respond to any new opportunities, exceptions and review notices received in order to keep the District as informed as possible on any needs for program adjustments.

5.2 DEVELOPER FEES

Developer fees levied on new residential and commercial construction in a school district attendance area are permissible under State Education Code, Section 17620. The purpose of these fees is to offset the student enrollment impact that would be generated by new development. Fees may be used to fund the construction of new school facilities, the modernization of existing facilities, or the reopening of closed facilities. The code also permits an inflation-based increase in developer fees every two years based on changes in the Class B construction index. There are three levels of Developer Fees that can be assessed:

- Level 1 fees are established by statute and adjusted by the State Allocation Board and are currently \$3.79 per square foot of residential development and \$0.61 per square foot of commercial and industrial development

- Level 2 fees constitute up to 50% of the State allowed cost for construction and sites, if the school district meets specified eligibility tests and assumes that the will State pay for the other 50% of cost through the SFP
- Level 3 fees are the same as Level 2, but include the State's 50% share as well, but only when the State declares it is out of funds for new construction

A district justification study must be completed in order to levy Level 1 or Level 2 fees and in the event that the State declares that it is out of new construction state grant funds, the same report may allow the District to levy Level 3 fees. At the Program's inception in 2013, approximately \$3.4 million in developer fee fund balance was allocated to the Program. Since the initial \$3.4 million allocated to the Program in 2013, the District has collected approximately \$7.5 million in additional developer fee revenues as of May 31, 2019, for a grand total of \$10.9 million in collected revenues.

As reported in December 2018, the District adopted a Residential Development School Fee Justification Study in April 2018 prepared by Cooperative Strategies that established the justification for collecting Level 1 fees at the adjusted level of \$3.79 per square foot of residential construction and \$0.61 per square foot of commercial or industrial construction. Based on the District's fee sharing agreement with the Oxnard Union High School District, the District collects 66% of the maximum Level 1 fees, or \$2.50 per square foot for residential and \$0.403 per square foot for commercial.

To establish a nexus and a justifiable residential School Fee level, the Study evaluated the number and cost of new facilities required to house students generated from future residential development within the School District. Based on data provided by the Southern California Association of Governments approximately 9,331 additional residential units could be constructed within the School District's boundaries through calendar year 2035. Of these 9,331 future units, 5,879 are expected to be single family detached and 3,452 are expected to be multi-family attached units. By dividing the total amount of anticipated units (9,331) by the buildout period (17 years), it is anticipated that 549 units will be built each year from 2018 through 2035. This average buildout and the corresponding square footage of new residential development is the basis for the anticipated annual developer fees revenues to be realized by the District during this period. Based on the current Level 1 fee of \$2.50 per square foot of new residential development and the total square footage of approximately 1.2 million resulting from the construction of 549 units, the District would expect to receive \$3.0 million in developer fees annually.

However, in April 2019, the District adopted a School Facilities Needs Analysis, prepared by Cooperative Strategies to establish and justify the collection of Level 2 developer fees at a rate of \$4.09 per square foot for all new future residential units built within the District's boundaries. Using available County and local data, the Study estimates that only 1,540 residential single and multi-family homes, totaling 2,388,750 square feet, will be built in the District over the next five years. For the five-year period being examined, this would equate to approximately 308 new residential units per year instead of the 549 unit average calculated in the Level 1 Study. The resulting expected revenue from Level 2 developer fees for this five-year period is approximately \$9.8 million or \$1.95 million per year starting in 2019-20 fiscal year. The District is required to complete an annual update to the Level 2 Study in order to continue collecting

Level 2 fees during this period at which time this analysis will be reevaluated. Accounting for the long-term projection of development provided by Cooperative Strategies, the Program assumes that development will pick up over time and that the overall number of units to be built during Program's remaining duration will equate to the totals projected by Cooperative Strategies in the 2018 Residential Development School Fee Justification Study.

These fees have been made available to the Program to fund new construction projects as well as to repay the District's outstanding Certificates of Participation (COPs) which were originally issued in 1997 to complete the construction of Norman Brekke Elementary. It is estimated that approximately \$3.4 million will be required to fully repay the COPs by 2026 as currently scheduled. The District is evaluating options to refund or prepay the outstanding COPs to generate savings to free up additional dollars for projects.

Since the initial \$3.4 million allocated to the Program in 2013, the District has collected approximately \$7.5 million in additional developer fee revenues as of May 31, 2019, for a grand total of \$10.9 million in collected revenues. Based on the projections provided by Cooperative Strategies in the 2018 Residential Development School Fee Justification Study and 2019 School Facilities Needs Analysis, it is estimated that the District will collect approximately \$65 million in developer fees over the life of the bonds using the current Level 2 fee of \$4.08.

The current projections to not include any additional developer fee mitigation amounts from the Doris/Patterson project should it be annexed by the City and development allowed to occur pursuant to the existing Mitigation Agreement. The District entered into a Mitigation Agreement with the developer of the proposed Teal Club development adjacent to the District's new site at Doris Avenue and Patterson Road on April 30, 2018. The development will consist of 990 residential units of varying density, single-family, townhomes, condominium, and apartment units. The Mitigation Agreement states that the developer will pay a School Impact Fee of \$7.28 per square foot of new residential construction within the Teal Club development in lieu of statutory developer Level 1 or Level 2 developer fees. The agreed upon School Impact Fee is subject to annual increase for inflation set forth in the statewide cost index for Class B construction which shall be applied each subsequent year on April 30.

5.3 GENERAL OBLIGATION BONDS

The District has used local General Obligation (G.O.) bonds previously to fund major school facility improvements and has been successful in making use of public financing options and garnering community support to improve school facilities. These G.O. bonds are secured by an annual levy on all taxable parcels within the boundaries of a school district. The levy is based on the assessed value of a parcel as determined by the County, pursuant to Prop. 13. Traditionally, G.O. bonds carry far lower interest and issuance costs than other financing options. Buyers of most California school bonds receive an exemption from state and federal taxes on the interest portion of the bonds purchased, allowing for a lower rate of interest to a district to finance improvements over time.

The Master Construct and Implementation Program utilizes two local G.O. bond measures: Measure "R" approved by voters in 2012 and Measure "D" approved by voters on November 8, 2016. Measure "R"

authorized the sale of \$90 million in G.O. bonds and has been used in combination with other local funds to support the reconfiguration of school facilities, provide the local funding to reconstruct Harrington, Elm, and Lemonwood, and to provide additional grade 6-8 capacity at Marshall. To date, all G.O. bonds from the Measure “R” authorization have been sold and the District is awaiting State reimbursements from the above projects to fund additional facility improvements.

Measure “D” was approved by voters on November 8, 2016 and authorized \$142.5 million in G.O. bonds to fund additional school improvements as part of Phases 2, 3 and 4 of ongoing facilities improvements. On March 15, 2017, District staff, CFW and the financing team sold \$81.0 million in G.O. bonds, Series 2017A, to strong investor demand. The bonds had a total interest cost of approximately 4.21% and a term of 30 years. The total gross debt service for the bond issuance is \$172.7 million, resulting in a debt repayment ratio of 2.13 to 1, well below the 3.36 to 1 estimated to voters. Proceeds from the Series 2017A bond issuance are funding a portion of Phase 2 of the ongoing new school construction and classroom modernization program and will also be used to meet the local match requirement for State SFP grants and leverage reimbursements from State aid matching grants. On March 29, 2018, the District concluded the sale of \$14 million in G.O. Bonds, Series 2018B to strong investor demand. The Series B bonds carry a true interest cost of 4.15% and a term of 30 years. The total gross debt service for the bond issuance is approximately \$30.3 million, resulting in a debt repayment ratio of 2.22 to 1, well below the 3.36 to 1 estimated to voters and the maximum level of 4.0 to 1 the State deems acceptable for similar bond issuances. Proceeds from the Series 2018B bond issuance were used to fund projects underway and to provide the local match for eligible SFP matching State grants. Delays in the receipt of funding under Prop. 51 have necessitated the District to utilize local funding sources exclusively to date.

Combined with the District’s Series 2017A bonds, approximately \$95.1 million in Measure “D” bonds have been issued to date, leaving approximately \$47.5 million in remaining Measure “D” bond authorization.

Table 17: Summary of Measure D Bond Sales to Date

	Series 2017A	Series 2018B
Par Amount	\$81.0 million	\$14 million
Total Debt Service	\$172.7 million	\$30.3 million
Repayment Ratio	2.13 to 1	2.16 to 1
Average Interest Rate (TIC)	4.21%	4.15%
2018-19 Tax Rate to Repay Outstanding Measure “D” Bonds	\$27.60 per \$100,000 AV	

5.3.1 AVAILABILITY OF FUTURE BOND FUNDING

Potential future funding from Measure “D” is determined in large part by three primary components: (i) statutory bonding capacity; (ii) assessed valuation (AV); and, (iii) the \$30 tax rate allowance under Prop. 39. State law governs how much long-term principal debt California school district may incur at any one time. Unless a waiver is processed by the California Department of Education and approved by the State Board of Education, the statutory bonding capacity, or debt limit of an elementary school district is equal to 1.25% of the total district assessed value of all taxable properties within the district’s boundaries.

Based on the District’s assessed value of \$13.4 billion for fiscal year 2018-19, the District’s 1.25 percent gross bonding capacity is estimated at \$167.6 million. To comply with the California Education Code and issue additional bonds, the District applied to CDE and was granted a waiver in March of 2017 authorizing the District to exceed its bonding limit of 1.25 percent to an amount equal to 2.12 percent (or less) of total assessed valuation at the time of bond issuance. The waiver has an expiration date of August 1, 2025. Pursuant to Table 18, the District’s gross bonding capacity as of FY 2018-19 is approximately \$284.3 million of which \$262.3 million is currently outstanding in principal amount from prior bond sales to date. As a result, the District’s remaining net bonding at this time is estimated at \$22.0 million. The District’s net bonding capacity is estimated to increase as assessed value increases and outstanding principal debt is repaid in the coming years.

Table 18: Bonding Capacity Analysis

As of April 1, 2019	
ASSESSED VALUATION (2018-19)	
Secured Assessed Valuation	\$12,744,783,101
Unsecured Assessed Valuation	\$665,603,830

Bonding Capacity	\$284,300,203
Outstanding Bonded Indebtedness	\$262,301,666
NET BONDING CAPACITY	\$21,998,537
% of Capacity Currently Used	92.26%
<i>⁽¹⁾ 2017 Debt Waiver</i>	
HARDSHIP ANALYSIS	
<i>Hardship Requirement</i>	<i>60.00%</i>
Statutory Bonding Capacity (1.25%)	\$167,629,837
Outstanding Bonded Indebtedness	\$262,301,666
% of Statutory Capacity Currently Used	156.48%

The District’s assessed value serves as the source from which tax revenues are derived for purpose of repaying bond debt service. As assessed value grows, so too the District’s ability to repay a greater amount of bond debt service and therefore its ability to issue additional bonds. Table 19 presents a history of the District’s assessed value. Historically, assessed value has increased with some minimal periods of decline. During the early to late 2000’s, the District experienced assessed value growth ranging from approximately 9 to 14 percent annually. This coincided with a period of strong economic performance

statewide. Conversely, as the economy contracted during the Great Recession, the District’s assessed value experienced periods of contraction in FY2010 through FY2012. Overall, assessed value averaged 5.4 percent annually over the last 17-years. Most recently, over the last 5-year period, the annual assessed valuation growth rate has averaged 5.0 percent. While annual assessed valuation growth has slowed compared to the mid-2000’s, it may indicate a more sustainable pace of economic expansion within the District.

Table 19: Historical Assessed Valuation

Historical Assessed Value		
<u>Fiscal Year</u>	<u>Total</u>	<u>% Δ</u>
2002	\$5,456,598,521	-
2003	\$5,963,113,197	9.3%
2004	\$6,635,172,071	11.3%

10-Year Annualized Average		2.1%
17-Year Annualized Average		5.4%

The availability of future bond funds is dependent on the District’s assessed valuation growth to accommodate the Prop. 39 tax rate allowance of \$30 per \$100,000 of assessed value for elementary school districts in California. Based on Prop. 39, under which Measure “D” was held, the District is legally permitted to sell bonds up to the amount authorized by voters, so long as the bonds may be reasonably supported by a maximum tax rate per year of \$30 per every \$100,000 of assessed property value. The tax rate to repay the outstanding Measure D bonds commenced in fiscal year 2018-19 and is currently being levied by the County at a rate of \$27.60 per \$100,000 of assessed property value, below the legally permitted \$30 tax rate.

Figure 5 presents the amount of bonds issued to date and the amount that may be issued in the future assuming certain assumptions. First, it is assumed that assessed value will continue to grow at 80 percent of its last five-year average rate or 4 percent per year. It also assumes that the repayment of any new bonds to be sold will not exceed the \$30 per \$100,000 tax rate. Bond terms are assumed to be 30 years. Figure 5 illustrates the estimated timing and size of remaining bond issuances in support of the Master Construct Program. In total \$47.5 million in authorization remains from Measure “D” which may be issued as indicated over three bond sales, if needed.

Figure 5: Estimated Timing and Sizing of Measure D Bond Issuances as of December 2018 Report

Figure 6: Estimated Timing and Sizing of Accelerated Measure D Bond Issuances

Alternatively, the District may have the opportunity to accelerate the next issuance of bonds to mitigate the effect of delays of State aid reimbursement receipts, if needed. For example, the District currently has the capability to issue up to \$10.2 million in new Series C bonds from the Measure “D” authorization today. The availability of additional funds is credited to the District’s recent growth in assessed values and current interest rates for similarly rated California school districts. Instead of waiting for the planned issuance of bonds in 2021, the District could issue bonds today and provide additional local funding to continue implementing the program and reducing delays from the State’s prolonged approval process for State aid reimbursements. To access the bond proceeds and to conform to the Program’s constraints such as the \$30 tax rate, the District would have to utilize Capital Appreciation Bonds (CABs). CABs are bonds that may defer principal and interest repayments in order to better accommodate debt service repayment

requirements and available tax revenues. As such, they tend to require a higher rate of interest for repayment. This may increase the overall cost of borrowing; however, the overall program has benefited from lower than expected interest rates and it is estimated based on current market conditions that the total repayment ratio for all Measure D bonds will be approximately 2.20 to 1 which is lower than the overall repayment ratio of 3.36 to 1 estimated to voters at the time of the election. It is estimated that the balance of the Measure D authorization will be issued over two future tranches currently scheduled for 2023 and 2026, subject to Board review and approval.

5.3.2 ASSESSMENT OF IMPACT OF DECREASED ENROLLMENT AND REMAINING FACILITY NEEDS

As noted throughout the report, should enrollment decline substantially in the interim or long term, the impact to the work program may be significant. The following section attempts to quantify the impact on the demand for additional funding should State aid be greatly reduced or unavailable. This section builds on previous components that have been expressed as part of the overall report.

Delays by the State in the processing of eligible District grant applications and in the limited sale of voter approved Prop. 51 bonds have reduced grant reimbursements by the State. In addition, OPSC and SAB changes to the SFP program have also delayed the submittal of eligible grant applications. Meanwhile, District enrollment has peaked, and projected declines may reduce the receipt of funds from remaining eligible projects. Local approvals by LAFCo and the City are also causing delays in construction. Such delays in program implementation make remaining projects subject to escalating market costs which may reduce the number of projects that may be funded overall.

Over the long-term, the District may be required, once again, to supplement the Basic Strategy and start planning to seek a local solution to absorb the balance of required facility improvements and the next phase of the Program while the State continues to struggle to implement the SFP, Prop 51 and the Governor's future State bond program.

A review has been conducted as to the potential impact of further delays in the implementation of the SFP by the State and its ability to process eligible grant reimburse to the District for projects already constructed. In addition, the District has conducted various analyses of remaining SFP eligibility for additional reconstruction of grade 6-8 facilities. Approximately \$144.3 million in project funding may be required to fully fund the next increment of the Master Construct Program. These can be categorized as follows:

- Delays in the reimbursement of submitted applications to fund major improvements required to bring the eight P/P and K-5 schools into compliance with the District's educational specifications, including adequate administrative, multipurpose room, library and 21st Century classroom improvements. In total 8 existing schools would benefit.

Estimated Cost: \$40.70 million

- The lack of remaining SFP Financial Hardship funding for the reconstruction of Marina West Elementary and modernization of Frank Middle School into a 21st Century school facility
Estimated Cost: \$39.70 million
- The Lack of remaining SFP grade 6-8 eligibility to modernize or reconstruct the Fremont Middle School campus at this time into a comparable 21st Century middle school consistent with the specifications and standards of its feeder schools.
Estimated Cost: \$63.91 million

Like in previous instances where the State’s bonding authority to fund the SFP has been depleted or delayed, the District may have to rely on an additional local funding source to continue the current program schedule, address remaining needs at the middle school sites, and cover any shortfalls created by an increase in construction costs due to the delay in State aid receipts or local agency approvals.

Table 20: Estimated Impact of SFP Delays

Project	Est. Total Remaining Amount

Program Reserve (18.5%)	\$26,821,974
Total	\$171,163,073

5.3.3 ADDITIONAL G.O. BOND AUTHORITY REQUIRED TO MITIGATE SFP FUNDING

Proposition 39 authorizes school districts to issue new bonds upon a 55% affirmative vote by the local electorate in a regularly scheduled election. For an elementary school district, the maximum tax rate to be levied at the time bonds are sold must not exceed \$30 per \$100,000 of assessed value. In addition, districts must agree to be subject to certain conditions, including the establishment of a project list, an

independent citizens’ oversight committee, and annual performance and financial audits. The Oxnard School District has a history of conducting Proposition 39 elections and issuing bonds consistent with these requirements.

If desired, a new general obligation bond may be structured to meet the above requirements and mitigate the delay or future lack of State aid funding of proposed projects. Based on the estimated impact identified in Table 20, there is a need to authorize approximately \$171 million in general bonds to meet the local match requirement for State facility grants or to fund proposed improvements directly.

Figure 7 demonstrates a projected Proposition 39 bond sales program over time. Assuming that the District’s assessed valuation continues to grow grows at an annual average of 4.0 percent and that the District implements the maximum tax rate of \$30 per \$100,000 of assessed value allowed by Proposition 39 over a 30 year term for each bond sale, the District could generate approximately \$171.1 million in bond proceeds over a projected 8 year period based on current market conditions.

Assuming bond sales as provided below, bond series are structured to allow projected assessed valuation growth between bond issuances so that required tax rates for bond repayments stay within the estimated Proposition 39 rate of \$30 per \$100,000 of assessed valuation. Recognizing that prevailing law and market conditions may change over time, the first bond series is estimated to generate approximately \$69.5 million in Series A bonds and \$51.3 million and \$50.4 million in Series B and C bonds, respectively over an eight-year period. Subject to prioritization by the Board, this may allow the District to further expand the Basic program, as illustrated in Table 21, by providing additional local funds to the Program in anticipation of further delays or in lieu of projected State aid reimbursements should enrollment and SFP eligibility drop precipitously.

Figure 7: Estimated Timing and Sizing of Bond Issuances

5.4 PROGRAM EXPENDITURES TO DATE

A budget and expenditure tracking protocol has been established and utilized for Phase 1 and Phase 2 projects under current implementation. As of the December 2018 Semi-Annual Report, the total Phase 1 and Phase 2 budget was approximately \$234.7 million for projects under current implementation, inclusive of the program reserve. Any changes to sources, uses, and schedules included in this report have considered actual District expenditures for the respective projects and are tracked against established project budgets. As needed, the program reserves and estimated ending fund balance will be utilized to accommodate unforeseen but required budget adjustments.

Table 22 provides a summary report of expenditures made for the Program during the period July 1, 2012 – May 31, 2019 totaling approximately \$170 million. Expenditures made after this period will be accounted for in the next Semi-Annual update. The District’s financial system accounts for expenditures by Fiscal Year (July 1 – June 30) and are used in reporting these expenditures. The report is organized by Fiscal Year and includes expenditures across various construction funds. It should be noted that expenditures reporting is based on the budget approved as part of the December 2018 Semi-Annual Report. Once the recommended budget adjustments are approved as part of this June 2019 report, subsequent expenditure reports will reflect the revised budget value.

From July 1, 2012 through May 31, 2019, the District expended approximately \$29.7 million in expenditures for additional facilities improvements, of which \$8.9 million were expended for eligible projects beginning with \$3.7 million of Developer Fee Fund Balances prior to the adoption of the Jan 2013

Implementation Plan, plus additional expenditures thereafter which were planned for State aid reimbursement. Given the deferral of State reimbursements, these expenditures are now being assumed by the Master Construct Program until such time that State aid reimbursement becomes available. Eligible improvements included, but are not limited to, replacement or addition of relocatable facilities, improvements and DSA closeout of prior projects, District energy efficiency improvements, and other facility improvements. The remaining \$20.8 million in expenditures outside of the Program were funded by the District's prior Measure M bond program.

Expenditure reports related to the current bond programs are made available for review by the Citizens Oversight Committees and expenditures are audited annually for the Board's review.

Table 22: Estimated Phase I and Phase II Expenditures to Date

Project	Adopted Budget	Fiscal Year Expenditures							Total
		2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19 ¹

Notes:

1. Fiscal Year 2018-19 expenditures are as of May 31, 2019
2. Budgets have been adjusted per the December 2018 Master Construct and Implementation Program approved by Board
3. Figures presented above are unaudited
4. Approximately \$7.7 million in reported FY2017-18 expenditures for the Doris/Patterson Acquire Land was paid out of COP funds

MASTER BUDGET & SCHEDULE

The Master Construct and Implementation Program provides a consolidated master budget and schedule which merges and integrates proposed projects reliant on the funds from the Measure “R” and Measure “D” bond programs and other local sources including developer fees, Mello Roos funds, pending State aid reimbursements and capital program balances. The Program also seeks to maximize State aid reimbursements for modernization and construction of school facilities as State funds become available.

The Master Construct Program is proposed to be implemented in four improvement phases which commenced in 2013 and are anticipated to be complete in 2029. The total adopted budget for all phases is approximately \$463.9 million, inclusive of a Program Reserve to accommodate changes in program as mandated from time to time by the State and as may be needed to accommodate local program requirements. Each project is unique in its scope, schedule, and amount of funding. All projects must be addressed with the amount of available funding. The budget represents an “all-in” master program budget that combines hard construction costs (e.g. bricks, mortar, steel, etc.) with anticipated soft costs (e.g., design fees, contractor’s fees, consulting services, testing and inspection services, agency approval fees, etc.) resulting in the total “all-in” cost estimated to fully implement the Program.

The following components update the Board on the status of the previously adopted Master Budget, schedule and timeline as of the December 2018 six-month review and provides recommended adjustments for the next six-month period. Adjustments include proposed budget increases previously approved by the Board to current projects including Lemonwood, Elm, Marshall, Doris/Patterson LAFCo Planning, and the Kindergarten/Flex Classroom projects at Brekke, McAuliffe, Ramona, and Ritchen, due to specific project construction needs and required professional services. In addition, adjustments are recommended to the Lemonwood Kindergarten Annex budget to accommodate anticipated increases to the total project costs. Lastly, although it is not part of the scope of the Program, it is recommended that the kindergarten improvements at Driffill K-8 be placed on hold pending resubmission of architectural plans to DSA and the receipt of matching State funds.

6.1 ADOPTED MASTER CONSTRUCT AND IMPLEMENTATION PROGRAM BUDGET

Table 23 presents the Adopted Master Construct Program budget as of December 2018 and identifies available sources of funding and anticipated expenditures. The total adopted budget for all proposed four phases is approximately \$463.9 million and is funded from a combination of local and State resources. A Program Reserve is included for Phases 2 through 4 to accommodate changes in program as mandated from time to time and as may be needed to accommodate local program specifications and requirements.

*Assumes State Aid joint funding for Ritchen and McAuliffe modernization projects

**Assumes State Aid financial hardship for Rose and Marina West

Phase 1 spanned the period from FY2013-2017. Phase 1 progress included:

- Completion of improvements to kindergarten facilities at Ritche, Brekke, McAuliffe, and Driffill schools, and construction of science labs at Chavez, Curren, Kamala, Haydock, and Fremont schools to accommodate the educational reconfiguration plan
- purchase of the Seabridge New Elementary School site
- occupancy of the newly constructed Harrington, Elm, and Lemonwood elementary school sites to replace the prior obsolete facilities
- completion of a kindergarten annex at Harrington Elementary and current construction of a new grade 6-8 classroom building at Marshall
- completion of the environmental review and ongoing LAFCo efforts of a joint second elementary school site and an additional middle school site
- deployment of State-of-the-art learning resources, including 1:1 mobile devices for all students and teachers at every school district wide

Phase 2 commenced in January 2017 and extends through the fiscal year ending in 2020. Phase 2 launched Measure “D” projects with the following progress and activities:

- current reconstruction of McKinna as well as the design and planning efforts associated with the reconstruction of Rose Avenue and Marina West
- design approval from DSA and construction of the new Seabridge K- 5 elementary school
- completion of new kindergarten/flex classrooms at Brekke, McAuliffe, Ritche, and Ramona elementary schools
- acquisition of a new Doris/Patterson K-5 and 6-8 school site
- anticipated construction of a kindergarten facility at Driffill and the construction of a kindergarten annex at Lemonwood
- planning and design activities associated with the modernization efforts planned at McAuliffe and Ritche elementary schools

The Program also incorporates existing ongoing lease payments for the District’s Certificates of Participation (COPs) related to prior funded improvements to Brekke Elementary and the acquisition of the new elementary and middle school sites.

Launching in 2021, Phase 3 completes the planned reconstruction of both Rose Avenue and Marina West and the design and construction of Doris/Patterson K-5 and 6-8 schools. Phase 3 also includes the construction activities associated with the planned modernization improvements at McAuliffe and Ritche elementary schools and a multipurpose room/gym at Driffill. Phase 3 accounts for continued lease payments related to the District’s outstanding Brekke and Doris/Patterson COPs.

Phase 4 provides additional MPR improvements for remaining K-5 schools, as well as middle school gymnasium/multipurpose room improvements at Haydock and Fremont. Construction of new multipurpose room/gyms will be undertaken at Chavez, Curren, and Kamala. COP payments are scheduled to continue in Phase 4. However, lease payments related to Brekke Elementary are scheduled to conclude

in 2025-26. Additionally, the District's lease payments for its COPs related to the Doris/Patterson land acquisition will be eligible for refunding on August 1, 2026 at which time the District may elect to prepay or refund the outstanding COPs to either decrease or eliminate future payments, assuming funds are available.

6.2 REVISED MASTER CONSTRUCT AND IMPLEMENTATION PROGRAM BUDGET

Table 24 below presents the proposed Revised Master Construct and Implementation Program Budget for Board consideration as part of the current six-month update report. Total sources of funding are anticipated to decrease to approximately \$437.6 million primarily due to decreases in the availability of Financial Hardship funding of \$25.7 million for the Rose and Marina West Elementary Reconstruction projects of \$11.9 million and \$13.8 million, respectively. Additional decreases in State aid include an OPSC return of application for new construction grant funding of the Driffill kindergarten project of approximately \$1,728,882 as well as the return of a "like for like" application for three portable buildings at Elm for approximately \$343,300. Based on the above, total, anticipated State aid reimbursements decreased by \$27.9 million during this period.

Total developer fee revenues across all phases are estimated to remain the same; however, the sequencing of the revenues has been backloaded to reflect the overall buildout schedule in the District's Level 1 and Level 2 School Fee Justification Study and School Facilities Needs Analysis. It is now estimated that the District will collect a total of \$5.4 million in Phase 2 which is a reduction of approximately \$6.4 million which has in turn been reallocated to Phases 3 and 4. This reduction reflects the actual developer fees collected thru May 31, 2019 of \$1.5 million and incorporates an estimated of \$1.95 million of collections for fiscal year 2019-20 as projected in the District's 2019 School Facilities Needs Analysis.

It is also anticipated that the District will accelerate its planned third issuance of bonds for an additional \$10.2 million in G.O. bonds proceeds during fiscal year 2019-20 to offset decreases in State aid reimbursements and to take advantage of faster than anticipated growth in assessed values and lower current interest rate market conditions. This will leave approximately \$37.3 million in remaining Measure "D" authorization which are planned to be issued in in FY 2023 and FY 2026 for approximately \$12.9 million and \$24.4 million, respectively. Total interest earnings for the Program are anticipated to increase from \$7.8 million to \$9.4 million based on the anticipated level of funds available.

The combined total expenditures have decreased from \$408.6 million to \$385.6 million or \$23 million. This decrease is mainly attributed to the proposed removal of funding for the Marina West project at this time due to the lack of adequate State aid reimbursements and sufficient local funding to accommodate its adopted \$30.7 million budget. The balance is attributable to the elimination of \$3.2 million of funding for the Driffill kindergarten project until such time as plans are redrawn and approved by DSA. These project savings are offset by budget adjustments including proposed budget increases previously approved by the Board to current projects including Lemonwood, Elm, Marshall, Doris/Patterson LAFCo Planning, and the Kindergarten/Flex Classroom projects at Brekke, McAuliffe, Ramona, and Ritchen. A budget increase is also recommended for the Lemonwood Kindergarten Annex project. In total an

increase of \$5.8 million is proposed for Phase 1 projects to be allocated from the revised Phase 2 Program Reserve.

Table 24: Revised Master Construct & Implementation Program Budget

Total Combined Master Budget	\$ 437,625,289				

*Estimated State grant amounts are dependent on maintaining program eligibility
 *Assumes State Aid joint funding for Ritchen and McAuliffe modernization projects

The Proposed Master Budget also accounts for \$9.1 million in scheduled lease payments for the District's two outstanding COPs during the term of the Program; \$4.3 million for COPs issued to complete Norma Brekke Elementary in the late 1990s and \$4.8 million for COPs issued to purchase the District's Doris/Patterson school site. An additional \$564,000 was added to the budget in Phase 2 to accommodate some of the District's existing portable leases. Lastly, approximately \$4.5 million in additional program expenditures are accounted for in the Master Budget for District expenditures beyond the scope of the Master Construct Program.

6.3 PHASE 1 MASTER BUDGET AND SCHEDULE

Primarily funded through Measure "R" bond proceeds, Phase 1 efforts are substantially complete, except for the new classroom building at Marshall elementary school, which is anticipated to be completed for occupancy for the 2019-20 school year. Accomplishments include completed improvements to kindergarten and science lab facilities across eight schools to accommodate the educational reconfiguration plan and the deployment of State-of-the-art learning resources, including 1:1 mobile devices for all students and teachers at every school districtwide. In addition, three new reconstructed schools have been provided at Harrington, Elm, and Lemonwood elementary schools. Phase 1 also includes the completion of a kindergarten annex facility at Harrington elementary school and the purchase of the Seabridge and Doris /Patterson school sites.

Major adjustments to the Phase 1 budget incorporate prior approved Board actions for construction and professional services associated with Lemonwood and Elm. An additional allowance is being requested for Marshall to accommodate anticipated costs of additional DSA reviews and delays in construction. Additional increases are proposed for the Doris/Patterson LAFCo and Seabridge planning to accommodate the extended local review and permit process. Budget decreases of approximately \$289,000 are being returned to the Program Reserve as savings from Project 1. In total, the Phase 1 budget has been increased by \$5.8 million to reflect these adjustments, including a onetime \$940,358 adjustment by the District for additional technology expenses.

Table 25: Proposed Phase 1 Master Budget and Schedule (FY 2013-17)

Project	Schedule Dec 2018	Schedule June 2019	Estimated Budget		Variance

**Includes New Special Day Classroom

6.4 PHASE 2 MASTER BUDGET AND SCHEDULE

The reconstruction of McKinna Elementary School is underway and construction of the new Seabridge K-5 school is anticipated to commence construction pending final City of Oxnard approvals associated with obtaining a Coastal Development Permit. Design and planning efforts are complete for the reconstruction of Rose Avenue school, with DSA approval anticipated during the next six-month period. New Kindergarten/Flex classrooms are complete at Brekke, McAuliffe, Ritchen, and Ramona elementary schools. The District has completed the land purchase of the Doris/Patterson school site. Phase 2 also includes the construction of a kindergarten annex at Lemonwood. Phase 2 incorporates existing ongoing lease payments for the District's COPs related to prior improvements to Brekke Elementary and the acquisition of the new Doris/Patterson elementary and middle school sites.

Proposed adjustments to the Phase 2 budget include additional construction and professional services costs associated with the kindergarten/flex classroom projects at Brekke, McAuliffe, Ramona, and Ritchen which were approved by the Board during the last six-month period totaling \$704,609. The budget for the acquisition of the Doris/Patterson site has been increased by \$430,658 to \$9.2 million to reflect the actual purchase price and actual expenditures as of May 31, 2019 for professional services related to the land acquisition. A GMP contract for approximately \$2.9 million has been negotiated for the construction

of the Lemonwood Kindergarten Annex improvements and is to be presented for consideration and award at the next Board meeting. The Lemonwood Kindergarten Annex budget is recommended to increase to \$3.7 million. The planning and design efforts associated with the reconstruction of Marina West are recommended to be removed at this time resulting in a decrease of expenditures of \$3.7 million. 21st century improvements to McAuliffe and Ritchen are also recommended to be moved to Phase 3 based on estimated availability of joint State funding. Additional budget is proposed to accommodate District commitments associated with portable lease payments of \$564,000. Lastly, the kindergarten improvements of \$2.1 million at Driffill elementary school are recommended to be placed on hold. The District and architect are addressing the submittal of updated design plans for a new DSA approval.

As shown in Table 26, the Phase 2 budget has been decreased by approximately \$4.9 million to approximately \$108.8 million. The Phase 2 Program Reserve is proposed to decrease from \$13.3 million to \$10.8 million or 11.9%.

Table 26: Proposed Phase 2 Master Budget and Schedule (FY 2017-20)

Project	Schedule Dec 2018	Schedule June 2019	Estimated Budget		Variance
Master Construct & Implementation Program Improvements					
Acquire New Sites

Subtotal				\$6,983,442	\$564,000
Program Improvements Total				\$108,845,598	(\$4,916,191)

6.5 PHASE 3 MASTER BUDGET AND SCHEDULE

Phase 3 completes the reconstruction of Rose Avenue as well as the design and construction of the Doris/Patterson 6-8 middle school following the completion of the LAFCo process. The design and construction of the Doris/Patterson K-5 school is proposed to be moved to Phase 4 and the reconstruction of Marina West is proposed to be removed. Design and construction activities associated with the planned modernization improvements at McAuliffe and Ritche are also proposed as well as the construction of a multipurpose room/gym at Driffill.

Adjustments to the Phase 3 budget include the move of the construction of Doris Patterson K-5 to Phase 4 and the removal of the reconstruction of Marina West. This results in a reduction of planned expenditures in Phase 3 of \$55.6 million. Modernization efforts for McAuliffe and Ritche will include planning and design in addition to the previously stated construction budget in Phase 3 and amounts to an increase of \$1.2 million in planned expenditures for the modernization projects. The Phase 3 Program Reserve is estimated to increase by \$2.6 million to \$18.6 million.

Phase 3 also accounts for continued lease payments related to the District's outstanding Brekke and Doris/Patterson COPs. These amounts remain unchanged from the previous report. Table 27 provides a summary of the proposed Phase 3 budget and schedule totaling approximately \$115.9 million, a decrease by approximately \$52.8 million.

Table 27: Proposed Phase 3 Master Budget and Schedule (FY 2021-25)

Program Improvements Total			\$115,876,343		(\$52,813,034)

*Current dollars

6.6 PHASE 4 MASTER BUDGET AND SCHEDULE

Phase 4 completes the Master Construct and Implementation Program providing additional MPR improvements for remaining K-5 schools, as well as middle school gymnasium/multipurpose room improvements at Haydock and Fremont. The construction of Doris/Patterson K-5 school is proposed to be moved from Phase 3 to Phase 4. Construction of new multipurpose room/gyms will be undertaken at Chavez, Curren, and Kamala. Phase 4 is also scheduled to continue COP payments. However, lease

payments related to Brekke Elementary are scheduled to conclude in 2025-26. Additionally, the District's lease payments for its COPs related to the Doris/Patterson land acquisition will be eligible for refunding on August 1, 2026 at which time the District may elect to prepay or refund the outstanding COPs to either decrease or eliminate future payments, assuming funds are available.

The major adjustment to the proposed Phase 4 budget and schedule is the move of the Doris/Patterson K-5 school construction to Phase 4. This increases the total project expenditures in Phase 4 by \$29.6 million. The Phase 4 Program Reserve is proposed to be decreased by approximately \$3.9 million. All other Phase 4 project budgets and schedules remain unchanged at this time.

As summarized in Table 28, the total Phase 4 budget has been increased by approximately \$25.6 million to approximately \$71.7 million.

6.7 MASTER SCHEDULE

The following summary schedule provides an overview of an updated proposed phasing strategy for the Master Construct and Implementation Program. Table 29 illustrates the proposed phasing of the integrated Program and is organized by the continued reconstruction of existing schools, the construction of new school sites, 21st century modernizations, and improvements to multipurpose rooms and support facilities to accommodate the District's educational program.

For projects currently under implementation, several schedule changes are presented. For the Marshall new classroom building project, the previously reported February 2019 occupancy date has been adjusted to June 2019. This adjustment is due to slow response time from the DSA in processing required changes

and general contractor coordination issues. The scheduled end date for the new Seabridge elementary school has been adjusted from April 2020 to December 2020 to accommodate a projected late summer/early fall 2019 start of construction. For the kindergarten/flex project at Ramona elementary, the project was completed in May 2019, a change from the previously reported February 2019 end date due to a longer than expected DSA approval period and rain delays in the months of December 2018 – February 2019.

The 21st century modernization improvements at McAuliffe and Ritchen have been moved starting in Fiscal Year 2018-19 to commencing in Fiscal Year 2020-21 to accommodate projected availability of funding. The reconstruction of Marina West is scheduled to commence in 2021 and the Doris/Patterson K-5 is proposed to be placed in Phase 4.

Total			\$158,759,382

RECOMMENDATIONS

7.1 CONCLUSION & RECOMMENDATIONS

Over the next six months of implementation, the Master budget will continue to be monitored and enforced. Expenditure reporting will continue and be updated to reflect recommended budget adjustments provided in this June 2019 update report. Budgets will also be reviewed and adjusted, where required, to accommodate actual contract commitments approved by the Board over the next six-month period. Steps will continue to be taken to file for eligible State aid applications and required agency approvals for project development and construction. Status reports will be provided to the Board as needed.

As part of the formal review process, it is recommended that the Board:

- Accept and adopt this semi-annual update to the Master Construct and Implementation Program
- Direct staff and CFW to proceed with recommended adjustments to the Program for its immediate implementation
- Establish a date for the next six-month review by the Board

EXHIBIT A

PRESENTATIONS, WORKSHOPS & UPDATES TO THE BOARD OF TRUSTEES

The table below contains a listing of presentations, workshops, and updates to the Board of Trustees for the Oxnard School District Facilities Implementation Program. Documentation of all Board activities are provided for the prior six months. For documentation of prior related Board Action items, please reference the same section of previous reports.

Date	Board Agenda Item	Agenda Description	Purpose	Action
14-Nov-18	C.4	Approval of Amendment #007 for SVA Architects regarding Lemonwood K-8 School Reconstruction.	Amendment #007 to agreement #12-231 to provide Additional Architectural Services.	Approved
14-Nov-18	C.5	Approval of Amendment #006 for SVA Architects regarding Elm Elementary School Reconstruction.	Amendment #006 to agreement #13-231 to provide Additional Architectural Services.	Approved
14-Nov-18	C.6	Approval of Change Order #015 for Swinerton Builders for the Lemonwood K-8 School Reconstruction	Change Order #015 to agreement #15-198 provides for work related to unforeseen conditions, design clarifications or additional scope of work requested by the District	Approved
14-Nov-18	C.7	Approval of Change Order #005 for Ardalan Construction Company for the Harrington EDCD Project.	Change Order #005 to agreement #17-139 provides for work related to additional scope of work requested by the District	Approved

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Anabolena DeGenna **Date of Meeting:** August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of State Preschool Parent Handbook for 2019-20 (DeGenna/Valdes)

Each year, the Oxnard School District State Preschool Program must review and update a Parent Handbook. The Parent Handbook describes the various components of the State Preschool program, and the specific state and district requirements. The handbook is distributed to parents during orientation and/or monthly parent meetings at the start of the school year and is periodically reviewed with parents throughout the school year.

The Parent Handbook covers the State Preschool Program for the 2019-2020 school year.

FISCAL IMPACT:

None.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Educational Services and the Director of Early Childhood Education, that the Board of Trustees approve the State Preschool Parent Handbook for 2019-2020.

ADDITIONAL MATERIALS:

Attached: [Parent Handbook for 2019 - 2020.pdf](#)

Classroom Volunteer Requirements

Parent who wish to volunteer must complete the *Parent Volunteer* form found in the preschool registration packet. Other immediate family member may volunteer in place of the parent only if they are twenty-one (21) years old and complete the *Volunteer Registration* form. This form can be obtained by the enrollment staff.

All volunteers must provide the following:

- Cleared Tuberculosis test
- Fingerprint clearance – obtained through the district at no cost to families
- Measles, Pertusis, and Influenza immunizations (parents may opt out of Influenza by submitting a written statement)

When you volunteer you must come without other children. Due to State licensing regulations, siblings and/or other children are not allowed to in the preschool classroom. We apologize for any inconvenience this may cause and ask that you make other arrangements for the care of siblings/other children while you are volunteering. Please sign in at the school front office for a badge before proceeding to the preschool classroom.

Tuberculosis Clearance Requirements

Both paid and volunteer personnel, including participating parents and classroom volunteers, must have either a chest X-ray or a tuberculin test of intermediate strength, which is verified as negative. Documents verifying freedom from tuberculosis must be current (not to exceed four years), and records must be accessible for review by State personnel. When a tuberculin test result is positive, it should be followed immediately by further testing. Persons with positive tuberculin and X-ray results must be excluded from the classroom until they have been referred to a physician and negative test results have been verified by the physician. Tuberculosis tests can be performed at local health clinics.

Requisitos para Voluntarios en el Salón

Padres quines gustan ser voluntarios en el salón deben de completar la solicitud denominada *Padre Voluntario* que se encuentra en el paquete de registraci3n. Alg3n otro familiar puede ocupar el lugar del padre si son mayores de veintiun (21) a3os de edad y completan la forma *Registro de Voluntario*. La forma se puede obtener por medio del personal de matriculaci3n.

Todo voluntario tiene que proveer lo siguiente:

- Prueba de Tuberculosis librada
- Huellas digitales librada – obtenido por medio del distrito a ningun costo a familias
- Prueba de vacunas; Sarmpi3n, Pertusis, e Influenza (padres pueden optar no a la Influenza por medio de una declaraci3n escritaita)

Quando Usted se ofrezca como voluntario debe presentarse sin otros ni3os. Hermanos ni otros ni3os se permiten en el sal3n debido a las reglas estatales. Disculpe cualquier inconveniencia que esto le cause y le solicitamos que realice lo necesario para que una persona cuide de sus ni3os mientras Usted participa en el sal3n. Por favor registrase en la oficina de la escuela para que reciba su gafete antes de proceder y entrar al sal3n preescolar.

Requisitos de Tuberculosis Librado

Tanto el personal pagado como el personal voluntario, incluyendo a los padres participantes y voluntarios en el sal3n, debe tener Rayos-X del pecho o un examen de tuberculina de fuerza intermedia con resultados negativos. Los documentos que verifiquen que no tienen tuberculosis deben ser recientes (que no excedan cuatro a3os) y los datos deben estar accesibles para ser revisados por el personal del estado. Cuando un examen de tuberculina resulte positivo, debe ser seguido por otros ex3menes. Las personas que tengan resultados positivos en su examen de tuberculina y de Rayos-X deben ser excluidas del sal3n de clase hasta ser vistos por un doctor y que 3ste verifique que los resultados de su examen son negativos. Las pruebas de la tuberculosis se pueden realizar en las cl3nicas de salud locales.

Daily School Attendance Requirements

Parents must sign-in and sign-out their child daily in the classroom using their full signature.

- **Children will only be released to those authorized on the *Emergency Card* and are at least 18 years old.**
- **Parents MUST pick up their child on time.** After three (3) written warnings, a termination notice may be issued.

Students are expected to be in attendance and on time daily. Parents must fill out and sign an absence slip when their child is absent from school. **Regular attendance plays a key role in student achievement. Unexcused absences should not exceed 3 days per year. It is the responsibility of the parent to contact the teacher when their child is absent from school or child may be dropped from the program.**

Excused Absences Include:

1. Illness/quarantine of child/parent
2. Family emergency (Serious illness of parent, funeral, immigration and other governmental appointments, sudden unforeseen circumstances)
3. Court ordered visitations are unlimited (must bring court order)
4. Best Interest Days

If your child has a fever, vomiting, diarrhea or has had a fever in the last 24 hours, please keep him or her home.

Unexcused absences include:

1. Oversleeping
2. No transportation
3. Rain
4. Personal

Best Interest Days:

Best Interest days are 10 excused absences per year and is at the discretion of the parent.

Medication

Teachers cannot administer medication to children. Parents are to make arrangements with school office personnel to give medication to children during school hours; this requires doctor's orders. Parents will be provided with information about purchasing medical insurance for their children, if they wish to do so.

Field Trips

Field trips in the preschool program are a privilege and are not a mandated activity. Parent participation is encouraged on these special events. Like in the classroom, no siblings are allowed on field trips. If a parent is not able to accompany their child, they may have another adult accompany child. This other adult must meet the volunteer requirements on page 7.

Requisitos de la Salud de los Estudiantes

Se hacen arreglos necesarios para que padres coordinen los exámenes físicos, de la vista, de los oídos y las vacunas con las clínicas locales de salud.

Exámenes Físicos

Antes de que un niño pueda asistir en el programa preescolar, es necesario obtener un examen físico y una evaluación corriente, incluyendo vacunas apropiadas para su edad. Cada distrito determina el tiempo específico que se permite para completar tales exámenes. Se consulta con los consejeros médicos locales y con las agencias de salud del condado para establecer un tiempo razonable basado en las circunstancias locales. El examen físico debe identificar cualquier problema especial de salud o cualquier discapacidad que pueda requerir atención especial o que pueda limitar las actividades del niño. Cualquier niño que recibe servicios de *Medi-Cal* puede recibir un examen físico con el *Medi-Cal* durante los meses de verano antes de matricularse en el programa preescolar. La Agencia del Condado de Salud y Prevención de Impedimentos de Niños y Jóvenes (CHDP) debe pagar por el examen físico después que el niño se registre en el Programa Preescolar del Estado y es la responsabilidad de los padres o guardianes de asistir a la cita.

Vacunas

Los estudiantes deben ser inmunizados contra ciertas enfermedades transmisibles. Los estudiantes están prohibidos de asistir a la escuela al menos que complan con los requisitos de inmunización para su edad y grado. El distrito escolar debe cooperar con los funcionarios de salud locales en las medidas necesarias para la prevención y control de enfermedades contagiosas en niños de edad preescolar. El distrito puede usar cualquier fondo, propiedad o personal y puede permitir a cualquier persona con licencia de médico o una enfermera registrada para administrar un agente de inmunización a cualquier estudiante cuyos padres hayan dado su consentimiento por escrito.

A partir del 1 de enero de 2016 los padres de los estudiantes en cualquier escuela, ya no serán autorizados a presentar una exención por creencias personales para una vacuna que se exige actualmente. Una exención por creencias personales en los archivos de la escuela antes del 1 de enero de 2016 seguirá siendo válida hasta que el estudiante entre al lapso siguiente de grado en kindergarten (incluyendo el kindergarten de transición) o 7º grado.

Los estudiantes no están obligados a tener vacunas si asisten a una escuela privada basada en el hogar o un programa de estudios independientes y no reciben instrucción basada en el aula. Sin embargo, los padres deben seguir proporcionando a sus escuelas registros de inmunización para estos estudiantes. Los requisitos de inmunización no prohíben a los estudiantes el acceso de educación especial y servicios relacionados requeridos por sus programas de educación individualizada.

Un estudiante que no está totalmente inmunizado puede ser excluido temporalmente de una escuela u otra institución cuando ese niño ha sido expuesto a una enfermedad específica y cuya prueba documental de su estado de inmunización no muestra prueba de inmunización contra una de las enfermedades transmisibles descritos anteriormente. La ley estatal requiere las siguientes vacunas antes de que un niño pueda asistir al program preescolar:

Solamente los niños que hayan sido vacunados contra la difteria, tos ferina, poliomielitis, Hepatitis B, tétano, paperas, sarampión, y viruela pueden ser admitidos.

Excepciones

La excepción al requisito de vacunas se permite cuando:

1. Un niño con problemas médicos, los cuales de acuerdo a una declaración del doctor, prohíben temporal o permanentemente las vacunas requeridas. Sin embargo, cuando hay una buena causa para creer que un niño está padeciendo de una enfermedad infecciosa o contagiosa, el niño deber ser excluido temporalmente del programa hasta que el oficial local de salud esté satisfecho de que la enfermedad infecciosa o contagiosa ya no existe.

Health Requirements for Students

Arrangements are made for parents to coordinate physical examinations, vision and hearing screening, and immunizations with local health clinics whenever possible.

Physical Examinations

A current physical examination and evaluation, including age-appropriate immunizations, are required for each child prior to attendance in preschool. Each agency or district determines the specific amount of time to be allowed for completion of such examinations. Local medical advisers and county health agencies are consulted in establishing a reasonable time frame based on local circumstances. The physical examination should identify any special health problems or disabilities, which will require special attention or limit the child's activities. Any child who is a Medi-Cal recipient may receive a Medi-Cal physical examination during the summer months prior to preschool enrollment. The county's Child Health Disability Prevention (CHDP) Agency will fund the physical examination after the child is enrolled in the State Preschool Program and it is the responsibility of the parent/guardian to keep the appointment.

Immunizations

Students must be immunized against certain communicable diseases. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in preschool and school aged children. The district may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

Beginning January 1, 2016, parents of students in any school will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade. Students are not required to have immunizations if they attend a homebased private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunizations against one of the communicable diseases described above. State law requires the following immunizations before a child may attend school:

Students entering the preschool program must present a health record which shows immunization against diphtheria, whooping cough, poliomyelitis, Hepatitis B, tetanus, mumps, measles, and chicken pox.

Exemptions

Exemption from immunization requirements is allowed when:

1. A child with a medical problem, which, according to the statement of a physician, prohibits the required immunizations, temporarily or permanently. However, if there is a good cause to believe that a child is suffering from a recognized contagious or infectious disease, the child shall be temporarily excluded from the program until the local health officer is satisfied that no infectious disease exists.

Asistencia Escolar

Los padres deben de ingresar las entradas y salidas de los niños, usando su firma completa.

- **Solo las personas autorizadas en la Tarjeta de Emergencia y mayores de 18 años pueden recoger a los niños.**
- **Los padres DEBEN recoger a sus niños a tiempo.** Un aviso de terminación se puede emitir después de tres (3) advertencias por escrito.

Los estudiantes deben asistir a clases todos los días y llegar a tiempo. Cuando algún niño no se presente a clases, los padres deben mandar una nota explicando la razón de la ausencia. **La asistencia regular tiene una parte importante en los logros de los estudiantes. Las faltas sin excusa no deben sobrepasar 3 días por año. Es la responsabilidad de los padres de comunicarse con la maestra si el niño no asiste a clase o de lo contrario el niño puede ser rebajado del programa.**

Faltas Justificadas Incluyen:

1. Enfermedad/Cuarentena del niño o niña/padre o madre
2. Emergencia familiar (enfermedad serias de los padres, funeral, citas de inmigración y oficinas de gobierno, circunstancias imprevistas repentinas)
3. Visitas ordenadas por la corte son sin límite (debe traer la orden de la corte)
4. Días de Mejor Interés

Si su niño o niña tiene calentura, vómito, diarrea o tuvo calentura en las últimas 24 horas, por favor que se quede en casa.

Faltas Sin Justificación Incluyen:

1. Se quedó dormido
2. Sin transportación
3. Lluvia
4. Personal

Días de Mejor Interés

Días de Mejor Interés son 10 ausencias justificadas por año y son a la discreción del padre o madre.

Medicamentos

Las maestras no pueden administrar medicamentos a los niños. Los padres deben hacer arreglos con el personal de la oficina escolar para darles medicamentos a los niños durante las horas de escuela; esto requiere órdenes de doctor. Al comienzo del año escolar, los padres, madres o guardianes recibirán información sobre cómo obtener seguro médico para sus hijos si lo desean.

Paseos Escolares

Paseos escolares del programa preescolar son un privilegio y no son un mandato. Se anima la participación de padres durante estos eventos. Como en el caso de la participación en el salón, no se permite hermanos en los paseos. Si los padres no pueden acompañar a su niño pueden mandar a otro adulto en su lugar. Este adulto debe satisfacer los reglamentos de voluntar 2171 que se encuentran en las pagina 8.

General Safety Rules

This is a partial list of safety rules that we may ask parental help in enforcing with the children:

- Running is allowed outside on the grass areas only. Children should not run on the concrete portion of the play area, and should not run inside the classroom facility.
- Children using the slide must do so feet first.
- Balls are the only object allowed to be thrown. Children may not throw sand, toys, blocks, etc.
- “Indoor voices” must be used inside the classroom so that children can hear any instructions from teachers that may pertain to safety.

The Oxnard School District believes high expectations for student behavior, effective classroom management and parent involvement can minimize the need for discipline. Staff shall use preventative measures and positive conflict resolution techniques whenever possible. If necessary, teachers will request conferences with parents to address student behavior and implementation of a behavior improvement plan. Students possessing, exhibiting or threatening others with a weapon, dangerous instrument or imitation firearm are subject to suspension and/or expulsion in accordance with law, Board policy or administrative procedures.

Accidents, Injuries and Emergencies

We take precautions to provide a safe environment for your child. However, accidents do happen. Minor injuries will be taken care of at the preschool and an accident report will be sent home. In the event of a serious injury, parents will be notified immediately and action will be taken if necessary. **For this reason, it is extremely important that all of the information on your child’s emergency card is up-to-date at all times.** In a medical emergency, 911 will be called.

Fire, Disaster & Lock Down Drills

The preschool will participate in fire, disaster and lock down drills. Parents will be informed of drills through the teacher notices.

Health and Safety Information

At Oxnard School District, safety is one of our top priorities. Your children are precious to us and we have implemented policies to make sure our school is a safe and healthy environment. Your child will be monitored from the time you drop them off until the moment you pick them up.

Elegibilidad Para Servicios Preescolares

Conformidad a requisitos, los niños son matriculados según los requisitos legales del Departamento de Educación de California - Programa Preescolar Estatal. Los requisitos para los programas preescolares son los siguientes:

- Edad:** Los niños deben cumplir cuatro años el o antes del 1 de diciembre. Se puede dar servicios a niños de 3 años después que todos los niños de 4 años reciban servicios.
- Ingresos:** Los ingresos de la familia deben ser iguales o más bajos del nivel máximo aprobado para el año en curso. Tome en cuenta las siguientes especificaciones:
- Los ingresos brutos mensuales de la familia son verificados con una declaración de ingresos, que acompaña el pago del empleador (talones de cheque), y por completar la forma *Verificación de Empleo* por el empleado.
 - Las personas que trabajan por temporadas pueden calcular sus ingresos haciendo un promedio de los últimos doce meses por medio de documentación (talones de cheque).
 - Cuando los ingresos de la familia son en efectivo en vez de por medio de cheque, estos ingresos se deben verificar por medio de una declaración escrita por parte del patrón (*Verificación de Empleo*).
 - Se deben verificar los ingresos en bruto de las personas que tienen negocio propio (*income tax del año previo y reportes de negocio, carta de la fuente de ingresos*).

Prioridades para Ingresar

Más niños pueden cumplir los requisitos de elegibilidad que puedan ser servidos por el distrito. En la determinación de cuales niños serán matriculados, se aplica la siguiente lista de prioridad:

1. Niños recibiendo Servicios de Protección o niños que están a riesgo de ser descuidados, abusados, o explotados
2. Niños de cuatro años de edad con los ingresos más bajos
3. Niños de tres años de edad con los ingresos más bajos
4. La familia es receptor de asistencia pública
5. Familia sin hogar

Las listas de clases se hacen en Julio antes del comienzo del año escolar nuevo. Las matrículas subsecuentes se toman de la *Lista de Espera*, con prioridad a los niños cuyas familias tengan los ingresos más bajos, sin importar la fecha en que completaron la aplicación. El Distrito Escolar de Oxnard mantiene una lista de espera para el propósito de matrícula de acuerdo del código de regulaciones de California, título 5, sección 18106.

Confidencialidad - El proceso de matriculación requiere completar formas requeridas por el estado y distrito. Esta información se guarda en completa confidencialidad. Esta información no se comparte sin la autorización por escrito de padres.

Aviso de Acción/Petición del Padre para una Audiencia

Aprobación o negación de servicios se comunicará a los padres por medio de un documento por escrito llamado *Aviso de Acción*. El *Aviso de Acción* se mandará por correo dentro de 30 días de la fecha que los padres firmaron la aplicación. Si los padres no están de acuerdo con la acción pueden pedir una audiencia dentro de 14 días que recibieron el *Aviso de Acción*. Al pedir una audiencia, tal acción se suspende hasta que se complete el proceso de la revisión.

Eligibility for Preschool Services

Pursuant requirements, children are enrolled based on the legal requirements of the California Department of Education - State Preschool Program. The requirements for preschool programs are:

Age: Children must be 4 years old on or before December 1st. 3-year olds can be served after all 4-year olds are served.

Income: Family income must be at or below the ceilings approved for the current year.

Specific items that should be kept in mind:

- Gross monthly family income must be verified with a statement of earnings, which accompanies payment from the employer (pay stubs). And completion of an *Employment Verification* form by the employer.
- Seasonal workers may average their gross income over the previous twelve months via documentation (pay stubs).
- Where income is received as cash, rather than by check, the amount is verified by a written statement from the employer (*Employment Verification*).
- Gross income must be verified for self-employed persons (*income tax returns for the previous year and business reports/ledgers, letter from source of income*).

Admissions Priorities

More children may meet the eligibility requirements than can be served by the District. In the determination of which children should be enrolled, the following priority applies:

1. Children receiving services from Child Protective Services or children at risk of being neglected, abused, or exploited
2. Four-year-olds with lowest income
3. Three-year-olds with lowest income
4. Family is a public assistance recipient
5. Homelessness

Class lists are formed in July, prior to the opening date of the new school year. Each subsequent participant is drawn from the *State Preschool Waiting List* with priority for the child whose family has the lowest income, regardless of date of application. The Oxnard School District maintains a waiting list for the purposes of enrollment into the program pursuant to California Code of Regulations, Title 5, Section 18106.

Confidentiality - Enrollment process requires completion of state and district documents. Information gathered through this process is kept confidentially. This information is not shared without the written consent of parents.

Notice of Action/Parent Request for Hearing

Approval and/or denial of preschool services shall be communicated to the applicant through a written statement referred to as a *Notice of Action*. The *Notice of Action* shall be mailed to parents within 30 calendar days from the date application was signed by parent. If parent disagrees with an action, the parent may file a request for a hearing within fourteen calendar days of the date the *Notice of Action* was received. Upon filing a request for a hearing, the intended action shall be suspended until the review process has been completed.

Reglas Generales sobre Seguridad

Esta es una lista parcial de las reglas de seguridad para las cuales deseamos solicitar el apoyo de los padres con el fin de que se cumplan y refuercen con sus niños:

- No se permite correr dentro de las instalaciones. Se puede correr afuera sobre el pasto y únicamente en las áreas de corteza. Los niños no deben correr en el área pavimentada del patio de recreo.
- Los niños que se suban a la resbaladilla deben colocarse primero con las piernas hacia el frente.
- El único objeto que se puede lanzar son las pelotas. Los niños no pueden arrojar arena, lanzar juguetes, bloques, etcétera.
- Cuando en el salón, se debe emplear un “tono apropiado de voz” para que los niños puedan escuchar las instrucciones de los maestros relacionadas con la seguridad.

El distrito escolar de Oxnard cree que las altas expectativas del comportamiento de estudiantes, el manejo efectivo del salón y la involucración de padres puede reducir la necesidad de la disciplina. El personal usa métodos preventivos, resoluciones y técnicas positivas todas las veces que sea posible. Si es necesario, la maestra convocara una conferencia con padres para atender del comportamiento del estudiante, e implementar un plan de mejoramiento. Estudiantes que poseen, muestran, o amenazan a otros con un arma, instrumento peligroso o arma de imitación son sujetos a suspensión y/o expulsión de acuerdo a la ley, pólizas de la mesa directiva o procedimientos administrativos.

Accidentes, Lesiones y Emergencias

Tomamos las precauciones necesarias para proveerle a su hijo(a) un ambiente seguro. Sin embargo, los accidentes suceden. Las lesiones leves serán atendidas en el preescolar y se enviará a casa un resumen del accidente. En caso de que ocurra una lesión seria, se les notificará de inmediato a los padres y se efectuarán las medidas necesarias. **Por tal motivo, es absolutamente importante que toda la información detallada en la tarjeta de emergencia de su hijo(a) este actualizada en todo momento.** En caso de una emergencia médica, se contactará al 911.

Simulacros de Incendio, Desastre y de Cierre de Emergencia

El preescolar participará en simulacros de incendio, desastre y cierre de emergencia. Se les avisará de los simulacros a través de notificaciones de la maestra.

Información sobre la Salud y la Seguridad

Para el Distrito Escolar de Oxnard, la seguridad es una de nuestras prioridades principales. Sus hijos son lo más precioso para nosotros y hemos implementado reglas para cerciorarnos de que nuestra escuela sea un ambiente seguro y saludable. Su hijo será monitoreado desde el momento en que Usted lo deje en la escuela hasta el momento en que Usted lo recoja.

Description of Preschool Program

Preschool programs covered by this handbook are part-day educational programs for four-year-old children. The preschool facilities are licensed through State of California Community Licensing and are in good standing with the California Department of Education. Site Administrators, Teachers and Preschool Instructional Assistants hold required qualifications.

Classroom Environment

The classroom environment invites children to discover, create, explore, experiment, observe, discuss, and share. It is designed to be age-appropriate for the students.

Children's Program

The curriculum children experience is child-centered and reflects the program goals and objectives. Materials and activities are age and developmentally appropriate, meet the child's individual needs, interests and desires; and capitalizes on the child's strengths. The activities are open-ended providing for experimentation, problem solving and discussion between the children.

Site Personnel

Site personnel appreciate and value each child in their program. They are nurturing, compassionate people who are active listeners and care about each child. They appreciate, are sensitive to, accept and value the cultural, ethnic, and linguistic diversity of the children and hold each child's family in high regard. Teachers and Instructional Assistants are provided with professional development opportunities to extend their knowledge of high quality instructional strategies.

Parent and Staff Partnership

Program personnel and parents acknowledge their joint responsibility for the education of the children and work together to establish partnerships based on mutual trust and respect. Parents and teachers work together on student conferences and parent workshops.

Administration

Administrators are knowledgeable about how children grow, develop and learn. They use this knowledge in designing a developmentally appropriate children's program.

Dress Code

All children should come to school in clothes suitable for many activities and play. They should wear comfortable shoes, Tennis shoes are recommended. No flip flops or open toed sandals as they can be dangerous and are not suitable for school. Play clothes are more appropriate. **Children in the preschool program are not required to wear school uniforms.**

Filosofía y Metas

Los programas preescolares son establecidos para proveer un ambiente enriquecido que beneficie el desarrollo intelectual, físico, emocional, social y cultural de su niño. Estudios muestran que los programas preescolares de calidad reducen la necesidad de clases remediadores en los grados subsecuentes. Durante los años preescolares, los niños desarrollan características que afectan su habilidad de aprendizaje de toda su vida.

El objetivo doble de nuestro programa preescolar es: Niños y sus Padres. A estudiantes se les provee experiencias apropiadas a su edad, en ambientes de alta lectura, y por personal capacitadas. Reconocemos que la familia tiene la mayor influencia en las capacidades del aprendizaje de un niño. La participación de padres en las actividades del salón les da la oportunidad de observar la conducta de su propio niño en un establecimiento formal de aprendizaje y les permite reforzar el aprendizaje en el hogar. Esperamos que al implementar el objeto doble prepararemos a nuestros estudiantes y familias a los rigores de la primaria y que nuestros estudiantes lleguen al kínder listos para aprender.

Diversidad Cultural/Igualdad de Géneros

Vivimos en una sociedad diversa. Una sociedad que incluye diferentes culturas, creencias y características físicas y mentales. Enseñarle acerca de la diversidad puede ayudarle a su niño a ser imparcial, justo, respetuoso de los derechos y sentimientos de otros, y consiente de las semejanzas y las diferencias de otras personas. Su niño puede estar mejor preparado para la supervivencia en un mundo que rápidamente va cambiando, un mundo donde las personas de diferentes culturas, religiones y antecedentes aprenderán, trabajaran y vivirán juntos, y las naciones estarán ligadas más cerca por medio de la tecnología y del comercio. Aun los niños pequeños pueden notar las diferencias en géneros, el color de la piel, habilidades físicas, etc., y comienzan a formar sus opiniones. El auto-estima saludable permite a los niños aceptar a otros. El sentirse orgulloso de uno mismo y de sus antecedentes no es lo mismo que sentirse superior a otros.

Nutrición

Todos los programas preescolares deben incluir la alimentación en sus programas; el requisito mínimo es un bocadillo el cual debe incluir dos grupos básicos de comida. A todos los estudiantes en nuestro programa se le provee desayuno o almuerzo a ningún costo familiar. Los programas preescolares deben adherirse a todas las leyes concernientes al manejo y la preparación de las comidas esto incluye completar una forma del programa de nutrición. Los alimentos se consumen en el salón, y los sobros se deshacen de acuerdo a las regulaciones del distrito. Padres pueden comprar un desayuno o almuerzo de la cafetería y participar en la hora de la comida. La hora de la comida proporciona alimentación adecuada y oportunidades de aprendizaje. Durante la hora de la comida, se proporcionan oportunidades para:

1. Construir experiencias de salud, ciencias y matemáticas.
2. Aumentar el conocimiento del sabor, el olfato y de la vista.
3. Proporcionar interacción social con los adultos y con otros niños.
4. Enriquecer el conocimiento de los niños acerca de las comidas.
5. Establecer un ambiente placentero para comer.

Philosophy and Goals

Preschool programs are established for the provision of an enriched environment to benefit your child's intellectual, physical, emotional, social and cultural development. Increasingly, research shows that quality preschool programs reduce the need for remedial classes in subsequent grade levels. During their pre-kindergarten years, children develop characteristics which affect their lifelong ability to learn.

The dual focus of our preschool programs is: Children, and their Parents. Children are provided with age and developmentally appropriate experiences, in literacy rich environments, by highly qualified personnel. We acknowledge that the family has the most influence on a child's learning potential. The participation of parents in classroom activities provides for observation of their own child's behavior in a formal learning setting and allows for the reinforcement of learning at home. We expect implementing a combined focus will prepare students and families for the rigors of kindergarten and students step into kindergarten ready to learn.

Cultural Diversity/Gender Equity

We live in a diverse society, a society that includes people of many races, cultures, beliefs, and physical and mental characteristics. Teaching your child about diversity can help your child grow up to be open-minded, fair, respectful of others' rights and feelings, and aware of people's similarities and differences. Your child will be better prepared for life in a rapidly changing world, a world in which people of different cultures, backgrounds, and religions will learn, work and live together, and different nations will be more closely linked by communication technology and trade. Even young children notice differences in gender, skin color, physical abilities, and begin to form opinions. Healthy self-esteem allows children to accept others. Feeling good about yourself and your background is not the same as feeling superior to others.

Nutrition

Preschools are required to include nutrition in their programs; the minimum requirement is a snack, which includes two basic food groups. All students in our program are provided breakfast or lunch at no cost to families. Oxnard School Preschool programs must adhere to all regulations regarding access to nutrition program, food handling and preparation; this includes parents completing a Child Nutrition form. Meals are consumed in the classroom; uneaten portions are disposed of according to district regulations. Parents may purchase breakfast or lunch and join in the classroom mealtime. Mealtimes provide for adequate nutrition and opportunities for learning. During meal times, opportunities are provided to:

1. Build concepts in health, science, and mathematics.
2. Broaden taste, smell, and visual awareness.
3. Provide social interaction with adults and other children.
4. Enrich children's knowledge of food.
5. Establish a pleasant eating environment.

Descripción del Programa Preescolar

Los programas preescolares que se describen en este folleto son programas educativos de medio día para niños de cuatro años de edad. Las instalaciones mantienen los permisos requeridos por el estado de California y mantienen buena postura con el departamento de educación del estado de California. Administradores, maestras, y asistentes mantienen las credenciales requeridas.

Ambiente Escolar

El ambiente del salón invita a los niños a descubrir, crear, explorar, experimentar, observar, discutir y compartir. El ambiente está diseñado a ser apropiado para edad de los estudiantes.

Programa Para Los Niños

El plan de estudio que los niños experimentan está centrado en el niño y refleja las metas y objetivos del programa. Materiales y actividades son apropiados para el desarrollo y de esta edad; satisface las necesidades individuales de los niños, sus intereses y deseos y saca provecho de la capacidad de los niños. Las actividades proveen a los niños con experimentos, solución de problemas y discusiones entre los niños.

Personal de la Escuela

El personal de la escuela aprecia y valora a cada niño en el programa. Son personas compasivas que escuchan y se preocupan por cada niño. Las maestras aprecian y son sensibles a, aceptan y valorar la cultura, los grupos étnicos y la diversidad lingüística de los niños y sostienen a cada familia en alto respeto. A las maestras y asistentes se les provee entrenamientos para aumentar su capacidad e entendimiento de estrategias de alta calidad.

Asociación de Padres y Personal de la Escuela

El personal de la escuela y los padres reconocen su mutua responsabilidad por la educación de los niños y trabajan juntos para establecer una colaboración basada en la confianza y el respeto mutuo. Los padres junto con las maestras colaboran en las conferencias de los estudiantes y en los talleres para los padres.

Administración

Los administradores están bien instruidos acerca del crecimiento y el desarrollo de los niños y de cómo aprenden. Ellos usan esta sabiduría al diseñar un programa apropiado para el desarrollo de los niños.

Código de Vestir

Todos los niños deben venir a la escuela con ropa adecuada para todo tipo de actividades incluyendo el juego. Deben usar zapatos cómodos, se recomiendan tenis. No se permiten las chancletas o las sandalias abiertas ya que éstas pueden ser peligrosas y no son aconsejables para usar en la escuela. La ropa para jugar es la más apropiada. **No es un requisito que los niños usen uniformes escolares en el programa preescolar.**

1. Verbal communication and the effective use of language in all experiences
2. Problem-solving skill development and concept formation
3. Creative expression and aesthetic appreciation
4. Experience building knowledge in all curriculum areas
5. Perceptual training to develop discriminatory skills
6. Development of a healthy self-concept
7. Experience building knowledge of various cultures
8. Peer interaction as well as interaction with adults
9. Large-group, small-group and individual experiences
10. Body movement for both large and fine motor development
11. Practice of good health and safety habits
12. Nutrition education as well as a healthy meal

Program Length

All programs will follow the District school calendar.

- ◆ No child may participate in more than one preschool class session per day.
- ◆ The Oxnard School District State Preschool Program provides class sessions of at least three hours per day. Home-to-school transportation time is not considered class time.
- ◆ Programs operate five days per week Monday through Friday.
- ◆ Children are enrolled for five days per week.
- ◆ Oxnard School District State Preschools operate a minimum of 175 days for at least three hours per day during the program year
- ◆ Morning Session runs 8:00am – 11:00am
- ◆ Afternoon Session runs 11:05am – 2:05pm

Evaluation of Children's Progress

Several methods are available to members of the instructional staff to encourage the systematic observation of children's behavior and the preparation of cumulative progress records. Informal evaluation of each child's development is a daily activity. A portfolio of individual student work will be maintained on all students. Individual progress and student portfolios are shared with parents during Parent/Teacher conferences.

Program Self Evaluation

Our preschool program adheres to State mandates by performing a yearly self-evaluation, and using findings to improve program quality. Key areas assessed are classroom environment, student growth and learning, and parent knowledge of child development.

Actividades Diarias Incluye (pero no limitarse a):

1. Comunicación verbal y el uso efectivo del lenguaje
2. Desarrollo de las habilidades para resolver problemas y formar conceptos
3. Expresión creativa y la apreciación estética
4. Experimentar el aumento del conocimiento en todas las áreas del currículum
5. Entrenamiento perceptivo para desarrollar habilidades discriminatorias
6. Desarrollar un concepto saludable de uno mismo
7. Experimentar el aumento del conocimiento de varias culturas
8. Interacción con sus compañeros así como con personas adultas
9. Experiencias en grupos grandes, grupos pequeños y las experiencias individuales
10. Movimientos para desarrollar las habilidades brutas y finas del cuerpo
11. Practicar los buenos hábitos de sanidad y seguridad
12. Educación acerca de la nutrición así como una comida saludable

Duración del Programa

Todos los programas seguirán el calendario tradicional del distrito escolar.

- ◆ Ningún niño puede participar en más de una sesión de clase preescolar por día.
- ◆ El Programa Preescolar del Distrito Escolar de Oxnard ofrece sesiones de clases de al menos tres horas por día. El tiempo que emplean viajando del hogar a la escuela no se considera tiempo de clase.
- ◆ Los programas están en operación cinco días por semana, de lunes a viernes.
- ◆ Los niños son matriculados por cinco días a la semana.
- ◆ El Programa Preescolar Estatal del Distrito Escolar de Oxnard funciona un mínimo de 175 días por tres horas cada día durante el programa anual.
 - ◆ Sesión de la mañana corre de 8:00am – 11:00am
 - ◆ Sesión de la tarde corre 11:05am – 2:05pm

Evaluación del Progreso de los Niños

Hay varios métodos disponibles a los miembros del personal educativo para la observación sistemática del comportamiento de los niños y para la preparación de informes cumulativos de sus adelantos. La evaluación informal del desarrollo de cada niño es una actividad diaria. Se mantendrán portafolios del trabajo individual de todos los estudiantes. Adelantos individuales y portafolios del estudiante se comparten con padres durante las conferencias de padre y maestro.

Evaluación de Cuenta Propia del Programa

Nuestro programa preescolar observa e mandato estatal con ejecutar una evaluación de cuenta propia anualmente, y usar los resultados para mejorar la calidad del programa. Áreas claves que asesoran son el ambiente escolar, el aprendizaje y crecimiento del estudiante, y el conocimiento de padres sobre el desarrollo infantil.

Parent Involvement

Parents are involved in preschool programs before school begins through an orientation meeting, and during the school year through parent-teacher conferences, classroom participation, parent education workshops, and other various activities like parent surveys. Coordination of school and community efforts, including close communication, further strengthens the services available to parents.

Parent-Teacher Conferences

Parent-teacher conferences are part of home-school relationships. An important purpose of these conferences is to include parents in the shared responsibility for the education of their children. Conferences among all adults providing instruction are scheduled to share the goals of the program, observations of individual child behavior, as well as the individual progress of each child. These conferences are held twice per year.

Parents in the Preschool Classroom

Evaluation studies indicate that children whose parents become involved in their education **make substantially greater gains** than do children whose parents do not participate. This is an optimal opportunity for parents to learn strategies to extend their child's learning experience at home.

Parents are highly encouraged to participate in their child's classroom. Other family members may volunteer in place of the parent IF they are at least 21 years old.

All volunteers must provide the following:

- Cleared Tuberculosis test
- Fingerprint clearance – obtained through the district at no cost to families
- Measles, Pertusis, and Influenza immunizations (parents may opt out of Influenza by submitting a written statement)

When parents come to the preschool, their participation may range from observation to assigned tasks such as preparing materials and yard activities depending on the program needs and the interest of the individual parent. Parents are also highly encouraged to attend all parent meetings and workshops scheduled throughout the school year.

Children who are not enrolled in the program may NOT come with the parent during volunteer days.

Cell phone use **is not permitted** during volunteer hours.

Bienvenidos

Deseamos darles la bienvenida a usted y su familia al Programa Preescolar Estatal. Tenemos un programa único y esperamos que ésta sea una amistad próspera. Nuestro personal siempre está dispuesto a trabajar en cooperación con los padres.

Este manual fue desarrollado para contestar algunas preguntas que ustedes puedan tener acerca de las pólizas y procedimientos de nuestro programa. Por favor dediquen unos momentos a la lectura de este manual y manténgalo en un lugar conveniente para rápidamente poderlo usar. Si en cualquier momento tienen alguna pregunta, preocupación o sugerencia por favor no duden en compartirlas con nosotros.

Comunicado de Participación

La Mesa Directiva del Distrito Escolar de Oxnard cree en la importancia de que los padres/tutores y miembros de la comunidad tomen un interés en los asuntos que afectan al distrito escolar y a los estudiantes. Por eso, la Mesa Directiva anima a todo padre/tutor y miembro de la comunidad interesado a que visite las escuelas y participe en el programa educativo.

Requisitos No Sectarios y No Discriminatorios

El programa estatal preescolar del distrito es establecido de acuerdo con guías estatales y está disponible para cualquier niño que sea elegible sin tomar en consideración el sexo, orientación sexual, género, identificación de grupo étnico, raza, linaje, origen nacional, religión, color, discapacidad mental o física.

Ningún programa educativo preescolar puede incluir la devoción o la instrucción religiosa ni se pueden usar fondos para el apoyo general de cualquier sistema escolar privado o relacionado con la iglesia.

Proceso Uniforme de Quejas

Un proceso uniforme de quejas se usará para tratar cualquier queja alegando el fracaso del distrito en cumplir con leyes estatales y/o federales relacionadas con programas educativos. Información sobre el Proceso Uniforme de Quejas (*Póliza 1312.3*), Acoso Sexual (*Pólizas 4119.11, 4219.11, 4319.11, y 5145.7*), el Proceso Uniforme de Quejas Williams (*Póliza 1312.4*) se puede encontrar en la página del Internet del Distrito en www.oxnardsd.org.

Welcome

We wish to welcome your family to our State Preschool Program. We have a unique program and we are looking forward to a rewarding friendship with your family. Our staff is always pleased to work in cooperation with parents.

This handbook was developed to answer some of the questions you may have concerning the policies and procedures of our program. Please take time to read this handbook and keep it in a convenient place for quick reference. If at any time you have any questions, concerns, or suggestions, please feel free to share them with us.

Open Door Statement

The Oxnard School District Board of Trustees believes that it is important for parents/guardians and community members to take an active interest in the issues affecting district schools and students. Therefore, the Board encourages interested parents/guardians and community members to visit the schools and participate in the educational program.

Non-Discrimination and Non-Sectarian Requirements

The Oxnard School District State Preschool Program is established in accordance to state guidelines, and is available to any child who is eligible, without regard to sex, sexual orientation, gender, ethnic group identification, race, ancestry, national origin, religion, color, or mental or physical disability.

No preschool educational program may include religious worship or instruction, nor may any funds be used for the general support of any private or church-related school system.

Uniform Complain Procedures

Uniform complaint procedures shall be used to address any complaint alleging the district's failure to comply with state and/or federal laws related to educational activities. Uniform Complaint Procedures (*Board Policy 1312.3*), Sexual Harassment (*Board Policy 4119.11, 4219.11, 4319.11, and 5145.7*), and Williams Uniform Complaint Procedures (*Board Policy 1312.4*) can be found on the District's web page at www.oxnardsd.org.

Participación de Padres

Los padres se involucran en los programas preescolares antes de empezar la escuela a través de una junta de orientación, y durante el año escolar a través de conferencias entre los padres y las maestras, participación en el salón de clases, talleres de educación para los padres, y otras actividades como encuestas. La coordinación y los esfuerzos de la escuela y la comunidad incluyendo la estrecha comunicación refuerzan aún más los servicios disponibles a los padres.

Conferencias Entre Padres y Maestras

Conferencias entre los padres y las maestras forman parte de la relación entre el hogar y la escuela. Un propósito importante de estas conferencias es de incluir a los padres en la responsabilidad de la educación de sus hijos. Conferencias entre los adultos que proveen instrucción son programadas para compartir tanto las metas del programa como el adelanto individual de cada niño y las observaciones acerca del comportamiento de cada niño. Estas conferencias ocurren dos veces por año.

Los Padres en el Salón Preescolar

Los estudios de evaluación indican que los niños cuyos padres participan en su educación **progresan más** que los niños cuyos padres no participan. Esta es una oportunidad sin igual para que padres aprendan las estrategias para extender el aprendizaje de sus hijos en casa.

Le animamos participe en el salón de clases de su hijo(a). Otros miembros de la familia pueden servir como voluntarios en vez de los padres SOLO si tienen por lo menos 21 años de edad.

Todo voluntario tiene que proveer lo siguiente:

- Prueba de Tuberculosis librada
- Huellas digitales librada – obtenido por medio del distrito a ningún costo a familias
- Pruebas de vacunas; Sarampión, Pertusis, e Influenza (padres pueden optar no a la Influenza por medio de una declaración escrita)

Cuando los padres vienen al salón preescolar su participación puede ser de observar hasta hacer algo que les hayan asignado tal como preparar materiales o actividades de recreo según las necesidades del programa y los intereses particulares de los padres.

Los niños que no están matriculados en el programa preescolar NO pueden venir con los padres

No se permite el uso de teléfonos celulares mientras su estancia del salón.

Parent Education Program

Parent education meetings are planned cooperatively with parents and are held regularly throughout the school year, the meetings:

1. Include topics suggested by the parents
2. Include discussions related to the preschool program goals
3. Are designed to give parents a better understanding of child growth and development
4. Provide parents with information related to parenting skills

Parents may identify mutual special interests aside from the matters of child rearing and education. Whenever possible, staff members encourage and even assist in planning classes according to the expressed needs of the group, such as nutrition and meal planning, dealing with tragedies, domestic violence prevention or on topics or needs expressed by parents.

Parent Advisory Committee

Parent Advisory Committee is made up of parents and staff. The meetings are held every trimester. The purpose of the Parent Advisory Committee is to guarantee the effective and significant participation of parents with participating children, support the collaboration between school and home, advice the district on issues related to services to families and children, empower the role of parents as active participants in the education of their children and to advocate their own educational needs.

Communication with Schools and Community

The preschool program for children and parents is a part of the total education effort of the community. As such, it is important for the preschool staff to be aware of how their program relates to the kindergarten, primary, and upper grades. Communication is established between preschool and the elementary schools which will be receiving the preschool program children in subsequent years. Activities are planned throughout the school year to ensure articulation between programs. Some of these activities might be cross-visitations by the preschool and kindergarten teaching staff, participation of preschoolers in the elementary school holiday festivals, and orientation sessions for parents held by kindergarten staff. Equally important is the need to promote a better understanding throughout the community of the goals, objectives, and activities of the preschool program. Such information is readily available to community members. The district provides information to parents to enable them to make maximum use of community services and resources.

**Thank you for choosing Oxnard School
District State Preschool as the early education
program for your child and family!**

Programa de Educación para Padres

Por lo menos ocho veces al año se mantienen juntas regulares de educación de padres, planificadas cooperativamente con padres, las juntas:

1. Incluyen temas sugeridos por los padres
2. Incluyen discusiones relacionadas a los propósitos del programa preescolar
3. Son diseñadas para dar a los padres un mejor entendimiento del crecimiento y desarrollo infantil
4. Proporcionan a los padres con información relacionada con la habilidad de ser padres

Los padres pueden encontrar intereses mutuos aparte de las temas de criar y educar a los niños. Cada vez que sea posible, los miembros del personal animan y asisten en la planificación de clases de acuerdo a las necesidades que el grupo exprese tales como nutrición y planificación de comidas, discusiones sobre tragedias, la prevención de la violencia domestica o cualquier tema o necesidad expresada por los padres.

Comité Consejero de Padres

El Comité Consejero esta hecho de padres y personal. Las juntas se llevan a cabo cada cuarto de año. El propósito del Comité Consejero es de garantizar la participación efectiva y significativa de todos los padres de los niños participantes, apoyar la colaboración entre la escuela y el hogar, asesorar el distrito sobre cuestiones relacionadas con servicios a las familias y los niños, potenciar el papel de los padres en apoyar la educación de sus hijos y la promoción de sus propias necesidades educativas.

Comunicación con las Escuelas y la Comunidad

El programa preescolar para los niños y los padres forma parte del esfuerzo educativo de la comunidad. Como tal, es importante para el personal preescolar estar al tanto de la forma en que el programa se relaciona con el kindergarten y con los grados de primaria y secundaria. El personal preescolar debe establecer comunicación con las escuelas que reciben a los estudiantes del programa preescolar en años subsecuentes. Se planean actividades durante el año escolar para garantizar articulación entre programas. Algunas de estas actividades podrían ser el intercambio de visitas entre el personal del preescolar y el kindergarten, la participación de los niños preescolares en las festividades escolares de las escuelas elementarias y sesiones de orientación para los padres realizadas por el personal del kindergarten. Igualmente importante es la necesidad de promover una mejor comprensión a través de la comunidad acerca de las metas, los objetivos, y actividades del programa preescolar. Tal información es disponible para los miembros de la comunidad. El distrito proporciona a los padres la información que les permita hacer uso máximo de los servicios y refuerzos en la comunidad.

OSD BOARD AGENDA ITEM

Name of Contributor: Karling Aguilera-Fort

Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of Consultant Services Agreement #19-95 with Leadership Associates, LLC (Aguilera-Fort)

It is recommended that the Board consider a consultancy agreement with Leadership Associates (Consultant) to provide support and coaching to Superintendent Aguilera-Fort during his first year as Superintendent of the Oxnard School District. Leadership Associates assisted the District with the search for Superintendent and has gained an understanding of the District's mission and vision and this agreement is intended to provide support to the Superintendent during the beginning of his tenure in the District.

The consultant will provide the following services:

1. Provide advisement services from Sandy Sanchez-Thorstenson with a focus on supporting a culture and strategies, which support student achievement and attainment of the District's Vision, Mission and Strategic Goals.
2. Conduct regularly scheduled telephone conferences with Superintendent.
3. Provide feedback to Superintendent based on observations during District visits to be scheduled as mutually agreed upon. Visits may include attendance at district meetings and classroom visits.
4. Be available as needed for additional communications with Superintendent.

FISCAL IMPACT:

The District agrees to pay the Contractor \$12,000.00, plus travel expenses not to exceed \$1,000.00, amount not to exceed \$13,000.00.

RECOMMENDATION:

It is the recommendation of the Superintendent that the Board of Trustees approve Agreement #19-95 with Leadership Associates, LLC, as presented.

PROPOSAL FOR CONSULTANT SERVICES

Between **LEADERSHIP ASSOCIATES**, hereinafter called the Contractor and **OXNARD SCHOOL DISTRICT**, hereinafter called the District.

The Contractor proposes to perform services for the District as follows:

1. Provide advisement services from Sandy Sanchez-Thorstenson with a focus on supporting a culture and strategies, which support student achievement and attainment of the District's Vision, Mission and Strategic Goals.
2. Conduct regularly scheduled telephone conferences with Superintendent.
3. Provide feedback to Superintendent based on observations during District visits to be scheduled as mutually agreed upon. Visits may include attendance at district meetings and classroom visits.
4. Be available as needed for additional communications with Superintendent.

The District agrees to pay the Contractor **TWELVE THOUSAND DOLLARS (\$12,000), plus travel expenses not to exceed \$1,000.00**. The Contractor will submit four quarterly invoices to the District. The first will be in October, 2019, the second in December, 2019, the third in March, 2020 and the fourth in May, 2020. Payment is due within 30 days of receipt of invoice.

Contractor agrees to hold harmless and indemnify the District, its officers, agents, and employees with respect to all damages, costs, expenses or claims, in law or in equity, arising or asserted because of injuries to or death of person or damage to, destruction, loss, or theft of property arising out of faulty performance of the services to be performed by Contractor hereunder.

It is expressly understood and agreed to by both parties hereto that the Contractor, while engaged in carrying out and complying with any of the terms and conditions of this contract, is an independent contractor and is not an officer, agent, or employee of the aforesaid District. Either party may terminate this agreement by providing the other party with ten (10) days written notice. Upon such termination, fees will be determined on a pro rata basis. Leadership Associates does not participate in a California public pension system. Leadership Associates and the District understand that the work/services provided should not be considered creditable toward the STRS earnings limit as the work is not normally performed by employees of the District and requires less than 24 months (496 business days). Date of Meeting: August 7, 2019

Agenda Section: Section C: Consent Agenda

Approval of Agreement #19-94- All Languages Interpreting & Translating (Aguilera-Fort)

All Languages Interpreting & Translating will provide simultaneous translation (English/Spanish) at Board Meetings scheduled during the period of July 1, 2019 through June 30, 2020.

FISCAL IMPACT:

The cost for services will remain the same as the 2018-2019 agreement with each meeting rate being \$640.00 (for three hours); any meeting going over the three hours will be charged at an additional \$213.33 per hour. Total amount for the 2019-2020 fiscal year would not exceed \$12,000.00, to be paid with General Funds.

RECOMMENDATION:

It is recommended by the District Superintendent that the Board of Trustees approve Agreement #19-94 with All Languages Interpreting & Translating.

ADDITIONAL MATERIALS:

QUOTE FOR SERVICES

May 30, 2019

Presented to:

MS. ROSE CHAPARRO
OXNARD SCHOOL DISTRICT
EXECUTIVE ASSISTANT TO THE SUPERINTENDENT
1051 SOUTH A STREET
OXNARD, CALIFORNIA, 93030

As requested, we will provide the following services for the Board Meetings.

1. Two Professional Conference Interpreters – The interpretation will be simultaneous.
2. Fees:
 - Fee for two interpreters: First interpreter: \$400.00
Second interpreter \$240.00
Total with two interpreters \$ 640.00

This fee covers the first three hours; additional time will be prorated hourly - \$213.33 per additional hour or portion thereof.

Our fee for the services we provide will not change.

I take this opportunity to let you know that we also provide interpreting services in other languages. We have interpreters that have been providing services in various school sites in Ventura County. During the last few weeks we have provided interpreters in Arabic, Thai, Vietnamese, Russian, Korean, Mixteco, Farsi, Armenian, Tagalog, Sign Language, other languages are also available. Our services are mostly used during IEP meetings with parents and students. We have also translated documents for the Special Education Departments of various High Schools in the area.

Thank you very much for continuing to use our services. It has been a pleasure to interpret for your District.

Cordially,

Lourdes G. Campbell

**Approval of Agreement #19-93 - Oxnard Performing Arts & Convention Center
(Aguilera-Fort)**

This agreement is for the 2019 SIP Day Orientation "Welcome Back to School" for staff that will be held at the Oxnard Performing Arts Center on Monday, August 19, 2019.

FISCAL IMPACT:

Amount not to exceed \$3,008.00, to be paid from the General Fund.

RECOMMENDATION:

It is the recommendation of the District Superintendent that the Board of Trustees approve Agreement #19-93 with Oxnard Performing Arts Center.

ADDITIONAL MATERIALS:

Attached: [PERFORMING ARTS AND CONVENTION CENTER August 19. 2019 OSD.pdf](#)

PERFORMING ARTS AND CONVENTION CENTER
LICENSE AGREEMENT - THEATER

This Performing Arts and Convention Center License Agreement (“Agreement”) is made and entered into in the County of Ventura, State of California, this 2nd day of August 2019, by and between the Oxnard Performing Arts Center Corporation, a nonprofit corporation, (“PACC”), and “Oxnard School District”, (“Licensee”).

WHEREAS, PACC operates and maintains the Oxnard Performing Arts and Convention Center for use by various organizations, entities and persons for conventions, trade shows, exhibitions, theatrical performances, meetings, concerts, and similar activities; and

WHEREAS, PACC hereby desires to make the Oxnard Performing Arts and Convention Center Theater available to Licensee for a license fee.

NOW, THEREFORE, PACC and Licensee agree as follows:

1. Facilities Provided

a. PACC hereby authorizes Licensee to use the Oxnard Performing Arts and Convention Center Theater (“Theater”) as more particularly LOCATED AT 800 Hobson Way, Oxnard, California 93030.

b. PACC agrees to provide Licensee with standard furnishings and equipment including heating, air conditioning, general lighting, use of the stage, dressing rooms and orchestra pit.

c. PACC agrees to provide Theater for Licensee’s use including the following services: Necessary custodial services, utilities, general supervision by Stage Manager, one public address set-up with three microphones, and one lighting set-up.

d. PACC agrees to provide Licensee with the following special equipment/supplies and personnel:

(1) Equipment/Supplies	
(a) Stage Lighting	\$ <u>330.00</u>
(b) House Sound System	<u>0.00</u>
(c) Stage Monitors	<u>45.00</u>
(d) Orchestra Chairs	<u>0.00</u>
(e) Shure Wireless Microphone	<u>65.00</u>
(f) Panasonic DLP Projector	<u>130.00</u>
(2) Personnel	
(a) Stage Technicians	\$ <u>923.00</u>
(b) House Manager	<u>200.00</u>
(c) 2 Ushers	<u>140.00</u>
(d) Box Office	<u>N/A</u>

2. Coordination of Use

All uses of Theater are to be coordinated with the PACC Executive Director or designee (“Executive Director”) and shall be under the general direction of Executive Director.

3. License Period

PACC agrees that Licensee may use the entire complex on the following dates, during the hours specified below:

Moving In: Monday, August 19, 2019, 7:00 AM
Moving Out: Monday, August 19, 2019, 1:30 PM
Program: ***Monday, August 19, 2019, 8:00 AM***

4. Reservation Fee

Licensee agrees to pay PACC a non-refundable reservation fee in the amount of **\$0.00** to Executive Director. The PACC shall credit the reservation fee toward payment of other fees and charges owed by Licensee.

5. License Fee

a. Licensee agrees to pay PACC the following fees for the use of Theater and the use of any special equipment/supplies and personnel:

(1) License Fee	\$ <u>1,150.00</u>
(2) Equipment/Supplies	<u>570.00</u>
(3) Personnel	<u>1,263.00</u>
(4) Insurance	<u>own</u>
(5) Non-Refundable Processing Fee	<u>25.00</u>
TOTAL	<u>3,008.00</u>

b. Licensee agrees to pay any addendum charges for additional services or equipment related to Licensee’s use of the Theater. An estimate of any addendum charges is attached hereto as Exhibit A and incorporated herein by this reference. The actual addendum charges will be determined after the PACC has actually provided the services or equipment.

6. Gross Receipts Fees

If the license fee is based on gross receipts, gross receipts shall mean the total sums, exclusive of taxes, collected from patrons by Licensee.

7. No Free Passes

Licensee may not issue free passes or admissions to Licensee's event without the written consent of Executive Director.

8. Maintenance of Records

Licensee shall maintain true and accurate records of receipts of admissions and concession sales, if any, and shall satisfactorily and thoroughly account for the receipt thereof. Executive Director shall have the right to inspect such records.

9. Proposed Event

The event to be presented by Licensee shall consist of "2019-2020 Orientation". Licensee's use of Theater shall be limited to the event as described herein.

10. Fee for Admission

a. PACC agrees that Licensee may charge admission during the proposed use of Theater by Licensee.

b. (1) Licensee agrees to include in the price of admission to Theater a Facility Restoration Fee of \$1.00 per ticket for tickets priced \$10.00 to \$14.99 and \$2.00 per ticket for tickets priced \$15.00 or more. The Facility Restoration Fee is for the exclusive benefit of the PACC Facility Restoration Fund.

(2) All advertising for Licensee's event at Theater shall include the following statement: "A Facility Restoration Fee shall be added to each ticket."

(3) Licensee agrees, that for general admission events without tickets for sale, Licensee shall pay a \$.50 per admission Facility Restoration Fee as an addendum charge.

11. Removal of Property

a. Licensee agrees to remove from Theater, on or before **8:00 AM** on the **20th** day of **August 2019**, all property, goods, equipment, supplies and effects belonging to Licensee or caused by Licensee to be brought to Theater.

b. If any such property is not removed by the above stated time, Licensee authorizes Executive Director to sell the property in any manner Executive Director deems appropriate and to hold the proceeds from the sale for Licensee, less any costs incurred by PACC.

c. Executive Director may, in his or her sole discretion, store, or cause to be stored, any such property not removed by the above stated time. Licensee agrees to pay PACC all costs associated with such storage.

12. PACC Not Liable For Licensee's Property

In the receipt, handling, care or custody of property of any kind shipped or otherwise delivered to Theater either prior to, during, or subsequent to the use of Theater by Licensee, PACC and its officers, agents and employees shall act solely for the accommodations of Licensee; and neither PACC nor its officers, agents or employees shall be liable for any loss, damage or injury to such property.

13. Handling of Funds

a. In the handling, control, custody and keeping of funds whether the funds are received through the PACC box office or otherwise, Licensee agrees that PACC is acting for the accommodation of Licensee, and as to such funds PACC shall not be liable to Licensee or to any other person for any loss, theft or defalcation thereof, whether such loss, theft, or defalcation is caused or done by officers, employees or agents of the PACC.

b. No PACC officer, employee or agent shall be liable for any loss, theft or defalcation of such funds unless PACC willfully causes or permits the same or unless the loss, theft or defalcation was caused by the gross negligence of an officer, employee or agent of PACC.

14. Prop Entrance

Licensee shall bring all prop articles, fixtures, materials, displays into or out of Theater only at such entrances as may be designated by Executive Director.

15. Care of Theater

Licensee will not drive any nails, screws, tacks, pins, or other objects into the floors, walls, ceilings, partitions, doors, door or window casings, or woodwork of Theater and will not in any manner change or move any of the fixtures of Theater except as may be authorized by Executive Director.

16. Electrical Work and Plans

Licensee shall file with Executive Director a description of all electrical work and a plan or description of any structures, or decorations to be erected for the event. Licensee will not construct or erect such electrical work, structures, or decorations without prior written approval by Executive Director.

17. Animals Prohibited

Licensee agrees that no domestic or wild animals or birds shall be taken into, or kept in or about Theater, or any part thereof, without the written consent of Executive Director.

18. Signs Require Permission

Licensee agrees that no signs or advertisements shall be placed in, on, or about Theater without the consent of Executive Director.

19. Televising Requires Permission

No event presented in Theater shall be broadcast, televised, or in any manner recorded for reproduction without the written consent of Executive Director.

20. Conduct of Persons

a. Licensee agrees to comply with all ordinances, statutes, rules and regulations applicable to the conduct or operation of the activities of Licensee herein permitted. Licensee shall provide adequate security protection to maintain order in and about Theater.

b. Licensee shall be solely responsible for the orderly conduct of all persons using Theater by invitation, either expressed or implied, during all times covered by this Agreement.

c. Licensee shall not permit intoxicated persons or alcoholic beverages at Theater by invitation, either expressed or implied, during all times covered by this Agreement.

d. PACC reserves the right to eject or cause to be ejected from Theater any person making loud, personal, impertinent, profane or slanderous remarks so as to disrupt an event at Theater.

21. Control of Theater

a. The keys to Theater shall at all times be in the possession and control of Executive Director. PACC shall lock and unlock the entrance and exits of Theater at such times as may be required for Licensee's use. Licensee, at its own expense, must at all times place proper security at all entrances and exits when the same are unlocked.

b. PACC and all duly authorized representatives of PACC shall have the right to enter Theater and all parts thereof at all times.

22. Lost Articles

PACC or its representatives shall have the sole right to collect and have the custody of articles left in Theater by persons attending any event. Licensee or any person in Licensee's employ shall not collect nor interfere with the collection or custody of such articles.

23. Flammable Materials

Licensee may not use flammable materials such as bunting, tissue paper, crepe paper, for decorations. All materials used for decorative purposes must be treated with flame

proofing and approved by the Fire Marshall.

24. Entertainment Standards

Licensee shall not conduct any event in Theater and Complex that is illegal or obscene.

25. Concession Sales by PACC

PACC reserves the sole right:

a. To contract for the sale of programs, librettos, periodicals, books, magazines, newspapers, soft drinks, flowers, tobacco, candies, food, novelties or any related merchandise commonly sold or dispensed in Theater and Complex; opera glasses, cushions, and other articles; and photographs.

b. To operate the parking lots, and check rooms; provided, however, that Executive Director may, in writing, authorize Licensee to do any of the aforesaid upon such terms as Executive Director deems proper under the circumstances, subject to the provisions of any existing contracts.

26. Sales by Licensee

a. Licensee may sell from the Theater only those items approved in writing by Executive Director. Licensee shall provide Executive Director with an accounting of such sales and shall pay PACC fifteen percent (15%) of the gross amount of sales, exclusive of sales tax.

b. Licensee shall not serve food or beverages for the event except by agreement with caterers approved by Executive Director.

27. Use of PACC Box Office

Licensee agrees that PACC shall be responsible for ordering and selling tickets sold at the PACC box office at fees so designated on the Box Office Agreement attached hereto as Exhibit B. If a computerized ticket system is used, Licensee agrees to use PACC's designated ticket agency.

28. Complimentary Tickets

a. Licensee agrees not to issue more than fifty (50) complimentary tickets to the Licensee's event without the written consent of Executive Director.

29. Copyright

Licensee agrees to assume all costs and obligations arising from the use of patented and/or copyrighted materials, equipment, devices, processes or dramatic rights furnished or used

or incorporated in the event. Licensee agrees to obtain and pay for all appropriate BMI, ASCAP, and SESAC licenses for the event.

30. Assignment

Licensee shall not assign this Agreement in whole or in part, nor may any right hereunder granted to Licensee be granted in turn to any other person without the written consent of Executive Director.

31. Occupancy Interruption

a. In case Theater or any part thereof shall be destroyed or damaged by fire or any other cause, or if any other casualty or unforeseen occurrence, including strikes, labor disputes, war, or acts of military authorities, shall render the fulfillment of this Agreement difficult or impossible of performance, this Agreement shall be immediately terminated.

b. PACC shall not in any such case be held liable or responsible to Licensee for any damage caused by termination of this Agreement. PACC shall be relieved from any further liability by reason of this Agreement, and no claims or compensation or damage shall be made against the PACC by Licensee. Any fee for the unused portion of the Agreement shall under such circumstances be refunded to Licensee.

32. Indemnity

a. To the fullest extent permitted by law, Licensee shall (1) immediately defend; (2) indemnify; and (3) hold harmless PACC, the City of Oxnard, its City Council, each member thereof, and its directors, officers, and employees (the “**Indemnified Party**”) from and against all liabilities regardless of nature, type, or cause, arising out of or resulting from or in connection with Licensee’s performance of this Agreement or Licensee’s failure to comply with any of its obligations contained in this Agreement. Liabilities subject to the duties to defend and indemnify include, without limitation, all claims, losses, damages, penalties, fines, and judgments; associated investigation and administrative expenses; defense costs, including but not limited to reasonable attorneys’ fees; court costs; and costs of alternative dispute resolution. Licensee’s obligation to indemnify applies unless it is adjudicated that any of the liabilities covered by this Section are the result of the sole active negligence or sole willful misconduct of the Indemnified Party. If it is finally adjudicated that liability is caused by the comparative negligence or willful misconduct of the Indemnified Party, Licensee’s indemnification obligation shall be reduced in proportion to the established comparative liability of the Indemnified Party.

b. The duty to defend is a separate and distinct obligation from Licensee’s duty to indemnify. Licensee shall be obligated to defend, in all legal, equitable, administrative, or special proceedings, with counsel approved by the Indemnified Party immediately upon tender to Licensee of the claim in any form or at any stage of an action or proceeding, whether or not liability is established. An allegation or determination of negligence or willful misconduct by the Indemnified Party shall not relieve Licensee from its separate and distinct obligation to defend the Indemnified Party. The obligation to defend extends through final judgment, including exhaustion of any appeals.

The defense obligation includes the obligation to provide independent defense counsel if Licensee asserts that liability is caused in whole or in part by the negligence or willful misconduct of the Indemnified Party. If it is finally adjudicated that liability was caused by the sole active negligence or sole willful misconduct of the Indemnified Party, Licensee may submit a claim to PACC for reimbursement of reasonable attorneys' fees and defense costs.

c. This Section shall survive completion or termination of this Agreement. The provisions of this Section shall not be restricted by and do not affect the provisions of this Agreement relating to insurance.

33. Insurance

a. Licensee shall obtain and maintain in full force and effect during the use and occupation of Theater under this Agreement the insurance coverage's as specified in Exhibit C, attached hereto and incorporated in full herein by this reference, issued by a company satisfactory to Executive Director, unless Executive Director, waives, in writing, the requirement that Licensee obtain and maintain such insurance coverage's.

b. Licensee shall, prior to the use and occupation of Theater, file with Executive Director evidence of insurance coverage as specified in Exhibit D. Evidence of insurance coverage shall be forwarded to Executive Director, addressed as specified in Exhibit D.

c. Maintenance of proper insurance coverage's by Licensee is a material element of this Agreement. Licensee's failure to maintain or renew insurance coverage's or to provide evidence of renewal may be considered as a material breach of this Agreement.

34. Maintenance and Repair

Licensee agrees to maintain Theater and other portions of the premises of PACC to which Licensee, its employees, agents, licensees or any member of the public has access to by reason of this Agreement in good condition, reasonable wear and tear, damage by the elements, act of God, or casualties beyond the control of Licensee only excepted. Licensee agrees to return Theater in the same condition as before use of the same was permitted, ordinary wear and tear, damage by the elements, acts of God, or casualties beyond the control of Licensee excepted.

35. Default

a. Should Licensee default in the performance of any of the terms and conditions of this Agreement, PACC, at its option, may terminate the Agreement. Licensee shall be liable for the full amount of the fee provided for herein less fees received from others for use of Theater at the time, or times, specified in this Agreement.

b. Any deposit made by Licensee to PACC shall be retained by PACC.

36. Cancellation by PACC

a. In addition to the right to terminate this Agreement upon Licensee's default, PACC shall have the right:

(1) To terminate this Agreement at any time when Theater is required by public necessity or emergency use.

(2) To terminate this Agreement at any time, without liability to PACC, upon ten days written notice when Licensee proposes a special service event for which no fee is to be charged.

(3) To terminate this Agreement at any time without liability to PACC, upon 21 days written notice, in all other instances.

b. Upon termination by PACC, any deposit made by Licensee shall be refunded.

c. Licensee hereby waives any claim Licensee may have against PACC stemming from any cancellation of this Agreement by PACC prior to the date of the event.

37. Cancellation by Licensee

No cancellation by Licensee shall be accepted by Executive Director if less than 21 days prior to the date of the event. Failure to cancel prior to this time will subject Licensee to payment of all fees.

38. Attorneys' Fees

Licensee and PACC agree that the prevailing party's reasonable costs, attorneys' fees and expenses, including investigation fees and expert witness fees, shall be paid by the non-prevailing party in any dispute involving the terms and conditions of this Agreement.

39. Entire Agreement

Licensee and PACC agree that this Agreement constitutes the entire agreement of the parties regarding the subject matter described herein and supersedes all prior communications, agreements, and promises, either oral or written.

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of Revised 2018-19 Compensation for Management and Confidential Employees (Vaca)

In accordance with the District's practice for treating each employee group similarly, the following compensation increase to Management and Confidential employee groups is presented for the Board's consideration:

Management: Certificated and Classified Employees

- 1.25% on-going, retroactive to 7/1/18
- Cost of health and benefits increase for 2019-20 school year only

Confidential Employees

- 1.25% on-going, retroactive to 7/1/18
- Cost of health and benefits increase for 2019-20 school year only

FISCAL IMPACT:

The fiscal impact is \$207,084 to be paid out of the general fund.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Human Resources that the Board of Trustees approve the 2018-2019 compensation revisions and health and welfare cost relief for the 2019-20 school year, as indicated above.

ADDITIONAL MATERIALS:

Attached: [2018-2019 Salary Schedule Revisions \(eight pages\)](#)

CERTIFICATED MANAGEMENT COMPENSATION AND BENEFIT PROGRAM: 2018-19
(effective 7-1-2018)

This Policy and the salary schedules below shall govern the determination of compensation and benefits for all certificated management positions of the Oxnard School District.

Vacation Days. Management employees shall be granted additional vacation days based on years of management service to the Oxnard School District as scheduled below:

Management Service	Vacation Days	
	11 Months	12 Months
Years 1 – 3	20	22
Years 4 – 7	21	23
Years 8 – 11	22	24
Years 12 – 15	23	25
Years 16 or more	24	26

Annual Salary. An annual salary is earned during the period beginning July 1 and ending June 30.

Method of Payment: The annual salary will be divided into 12 equal installments, the first installment to be paid on the last working day of the month, and subsequent installments to be paid on the last working day of each month.

Stipend for Doctorate. An annual stipend of \$750 will be granted to management staff with an earned doctorate degree.

Anniversary Increments. Anniversary increments in the amount of \$1,205 shall be added to the salary schedule of management positions at the beginning of the 6th, 9th, 12th, 15th, 18th, 21st and 24th years of service. This formula yields anniversary increments with the following dollar values: \$1,205, \$2,410, \$3,615, \$4,820, \$6,025, \$7,230 and \$8,435.

Implementation of Salary Schedule. Except as noted below, initial placement of all new management employees will be to the first step of the appropriate salary schedule for the position.

A salary increment shall be granted on each anniversary date to a maximum of the third step. The anniversary date shall be each July 1 after completion of 155 days of paid status in the appropriate position.

<i>Position</i>	<i>Days</i>	<i>Step 1</i>	<i>Step 2</i>	<i>Step 3</i>
Director, Pupil Services	261	\$119,681	\$130,447	\$142,190
Director, Special Education	261	\$119,681	\$130,447	\$142,190
Director, Curriculum, Instruction & Accountability	261	\$119,681	\$130,447	\$142,190

Manager, Special Programs	261	\$105,919	\$115,447	\$125,838

Credit for Out of District Management Experience. Effective July 1, 1989, all currently assigned and new certificated and classified management staff will be granted one-half longevity credit for management experience in other school districts. This longevity credit is applicable to anniversary increments only.

When an employee is promoted into a position with a higher annual salary maximum, the employee shall be placed on the salary step of the new position that effectuates an increase in the employee's current per diem rate. The Board of Trustees may grant initial placement up to and including the third step for acceptable and equivalent prior experience.

Duties Assigned Beyond the Regularly Designated Duty Year. Management employees who are assigned by mutual agreement to administrative duties beyond their regularly designated duty year shall be compensated at their per diem rate of pay.

Health and Welfare Benefits. Effective July 1, 2015, the District will make a \$10,800 annual contribution towards the premium for the following group health insurance programs:

- A. Health and Accident
- B. Dental with/Ortho
- C. Vision
- D. Life Insurance

Health and Welfare Benefits for Retirees. Certificated Administrators Hired prior to June 30, 2012: For any certificated administrator employed by the District prior to June 30, 2012, the District shall provide (a) health and accident, (b) dental, (c) vision, and (d) life insurance premiums for Management employees and dependents retiring after reaching their 55th birthday provided such employees have given 15 years of service in the California Public School System and in the Oxnard School District for the eight consecutive years preceding the date of retirement. These benefits will be provided until the retiree reaches the age of 69.

Certificated Administrators hired on or after July 1, 2012 will not receive retiree benefits.

Retirement Contribution Benefits. The District shall provide to management the provisions contained in Section 414(h) (2) of the *Internal Revenue Code* concerning the tax treatment of employee retirement contribution paid by the Oxnard School District. Exhibits 7200(F) E and 7200(G) E address the specifics of this benefit.

Professional Organization Membership. The District shall pay directly to the organization an amount not to exceed the membership dues of the Association of California School Administrators for management employees who process membership in ACSA or any other appropriate professional organization approved by the Superintendent.

SITE ADMINISTRATOR COMPENSATION AND BENEFIT PROGRAM:

The salary schedule indicated below shall serve as the base for the determination of salaries for all identified positions.

Preamble:

Our policy for the compensation of site administrators is based on a variety of ideas and principles to assist us in making this policy and its impacts on our students and their learning functional. Those principles include:

1. As a function of their heightened responsibility, administrators should be compensated at a higher daily rate than those that they supervise.
2. Salary of site administrators is based on an assumption that there need not be a “salary schedule” as the District will pay for their expertise and competence from the outset. There is no need for additional “steps” as the District’s policy is to pay for experience and competence from the beginning.
3. Administrators can only move to additional compensation alternatives or positions based on their performance in the school, not factors of seniority or longevity. Performance presumes that there is the presence of some evidence to substantiate the performance.
4. It is in the District’s interest to have its site administrators compensation positioned at the same level of the market (i.e., the tri-county area) as the market position of the compensation of other District employee groups, and in no case not below the top half of the market to provide for effective administrative recruitment and retention.

Annual Salary. An annual salary is earned during the period beginning August 1 and ending July 31.

Method of Payment: The annual salary will be divided into 12 approximately equal installments (eleven (11) installments and one (1) summer pay). The first installment is to be paid on the last business day of August and subsequent installments to be paid on the last business day of each month.

Stipend for Doctorate. An annual stipend of \$750 will be granted to site administrators with an earned doctorate degree.

Stipend for Bilingual Administrator. An Annual stipend of 2% of the site administrator’s base salary will be granted to each administrator upon verification of fluency in a language determined by the Board of Trustees to be a language in significant usage in within the District. Fluency shall be considered verified by possession of a BCLAD certificate or Bilingual Certificate of Competence, or passage of subtests (III, IV, and V) of the California Subject Examinations for Teachers (CSET): Languages Other Than English (LOTE) with a proficient score determined by the California Commission on Teacher Credentialing.

Implementation of Salary Schedule. Initial placement of all site administration employees will be to the non-Master level of the appropriate salary schedule for the position, regardless of their prior position or experience. To advance to the Master level, an Assistant Principal must have the written approval of the Superintendent based on the recommendation and performance evidence provided by the School Principal. For a principal to advance to the Master level, the principal must have recorded action of the Board of Trustees, based on the recommendation and performance evidence provided by the Superintendent

Duties Assigned Beyond the Regularly Designated Duty Year. Management employees who are assigned by the Superintendent or designee to administrative duties beyond their regularly designated duty year shall be compensated on a pro-rata basis at their per diem rate of pay.

Description	Days	Daily Rate	Annual Salary
Master Principal, Middle School/K-8	215	\$655.19	\$140,867
Master Principal Elementary School	210	\$621.02	\$130,415
Master Asst. Principal, Middle School/K-8	210	\$566.82	\$119,032
Master Asst. Principal, Elementary School	205	\$566.82	\$116,198
Principal, Middle School/K-8	215	\$621.02	\$133,519
Principal, Elementary School	210	\$574.08	\$120,556
Asst. Principal, Middle School/K-8	210	\$553.98	\$116,337
Asst. Principal, Elementary School	205	\$553.98	\$113,567

Health and Welfare Benefits. Effective July 1, 2015, the District will make a \$10,800 annual contribution towards the premium for the following group health insurance programs:

- A. Health and Accident
- B. Dental with/Ortho
- C. Vision
- D. Life Insurance

Health and Welfare Benefits for Retirees. Site Administrators Hired prior to June 30, 2012: For any site administrator employed by the District prior to June 30, 2012, the District shall provide (a) health and accident, (b) dental, (c) vision, and (d) life insurance premiums for Management employees and dependents retiring after reaching their 55th birthday provided such employees have given 15 years of service in the California Public School System and in the Oxnard School District for the eight consecutive years preceding the date of retirement. These benefits will be provided until the retiree reaches the age of 69.

Site Administrators hired on or after July 1, 2012 will not receive retiree benefits.

Retirement Contribution Benefits. The District shall provide to management the provisions contained in Section 414(h) (2) of the *Internal Revenue Code* concerning the tax treatment of employee retirement contribution paid by the Oxnard School District. Exhibits 7200(F) E and 7200(G) E address the specifics of this benefit.

Professional Organization Membership. Upon annual written request, and the timely processing of membership by a site administrator the District shall pay the membership dues of site administration employees for the Association of California School Administrators or any other appropriate professional organization approved by the Superintendent.

Revised June 2019 (1.25% increase)

CLASSIFIED MANAGEMENT COMPENSATION AND BENEFIT PROGRAM: 2018-19
(effective 7-1-2018)

This Policy and the salary schedules below shall govern the determination of compensation and benefits for all classified management positions of the Oxnard School District.

Vacation Days. Management employees shall be granted additional vacation days based on years of management service to the Oxnard School District as scheduled below:

Management Service	Vacation Days	
	11 Months	12 Months
Years 1 – 3	20	22
Years 4 – 7	21	23
Years 8 – 11	22	24
Years 12 – 15	23	25
Years 16 or more	24	26

Annual Salary: An annual salary is earned during the period beginning July 1 and ending June 30.

Method of Payment: The annual salary will be divided by the number of months in which paid days occur. The total number of months of service will be paid in equal installments starting with the first month in which service occurs.

Stipend for Doctorate: An annual stipend of \$750 will be granted to management staff with an earned doctorate degree.

Anniversary Increments: Anniversary increments in the amount of \$1,205 shall be added to the salary schedule of management positions at the beginning of the 6th, 9th, 12th, 15th, 18th, 21st and 24th years of service. This formula yields anniversary increments with the following dollar values: \$1,205, \$2,410, \$3,615, \$4,820, \$6,025, \$7,230 and \$8,435.

Implementation of Salary Schedule: Except as noted below, initial placement of all new management employees will be to the first step of the appropriate salary schedule for the position.

A salary increment shall be granted on each anniversary date to a maximum of the third step. The anniversary date shall be each July 1 after completion of 155 days of paid status in the appropriate position.

Credit for Out of District Management Experience: Effective July 1, 1989, all currently assigned and new certificated and classified management staff will be granted one-half longevity credit for management experience in other school districts. This longevity credit is applicable to anniversary increments only.

When an employee is promoted into a position with a higher annual salary maximum, the employee shall be placed on the salary step of the new position that effectuates an increase in the employee's current per diem rate.

The Board of Trustees may grant initial placement up to and including the third step for acceptable and equivalent prior experience.

Duties Assigned Beyond the Regularly Designated Duty Year: Management employees who are assigned by mutual agreement to administrative duties beyond their regularly designated duty year shall be compensated at their per diem rate of pay.

Health and Welfare Benefits: Effective July 1, 2015, the District will make a \$900.00 per month contribution towards the premium for the following group health insurance programs:

- A. Health and Accident
- B. Dental with/Ortho
- C. Vision
- D. Life Insurance

Classified Managers Hired prior to June 30, 2012: For any Classified Manager employed by the District prior to June 30, 2012, the District shall provide (a) health and accident, (b) dental, (c) vision, and (d) life

insurance premiums for Management employees and dependents retiring after reaching their 55th birthday provided such employees have given 15 years of service in the California Public School System and in the Oxnard School District for the eight consecutive years preceding the date of retirement. These benefits will be provided until the retiree reaches the age of 69.

Classified Managers Hired after July 1, 2012:

Classified Managers hired on or after July 1, 2012 will not receive retiree benefits.

Retirement Contribution Benefits: The District shall provide to management the provisions contained in Section 414(h) (2) of the *Internal Revenue Code* concerning the tax treatment of employee retirement contribution paid by the Oxnard School District. Exhibits 7200(F) E and 7200(G) E address the specifics of this benefit.

Professional Organization Membership: The District shall pay directly to the organization an amount not to exceed the membership dues of the Association of California School Administrators for management employees who process membership in ACSA or any other appropriate professional organization approved by the Superintendent.

* Anniversary Increments

Employees shall earn an increment of \$40 each at the beginning of the 7th, 10th, 15th, 20th and 25th years of service.

Each confidential position will be assigned a range number and workdays as follows:

Position	Days	Range	Stipend
Executive Assistant to the Asst. Superintendent of Human Resources	261	10.0	\$373
Executive Assistant to the Asst. Superintendent of Ed. Services	261	10.0	\$373
Executive Assistant to the Asst. Superintendent of Business Services	261	10.0	\$373

Assignment to Step and Anniversary Increments. Annual salary increments (steps), including anniversary increments, are effective on the employee's anniversary date. The anniversary date is established in the following manner:

- All employees shall have a common anniversary date of July 1, beginning on July 1, 1989, for purposes of step movement and longevity increments only. Beginning July 1, 1989, individuals hired on or before December 31 shall be eligible to receive an anniversary step increment step the ensuing July. An individual hired after December 31 shall not be eligible to receive an anniversary step increment until the July following the first July.
- Annual salary increments (steps), including anniversary increments, are effective on each anniversary date until the maximum step is reached on the assigned salary range. An employee will begin receiving the seven-year anniversary increment at the beginning of his/her seventh year of service to the District regardless of classification; without a break in service. The same procedures will be followed for subsequent anniversary increments.

Confidential Stipend. In addition to the scheduled salary, each designated confidential employee shall receive a stipend per month as indicated for individual positions. Anniversary increments of \$50.00 per month shall be added to the stipend of Confidential positions at the beginning of the 6th, 9th, 12th, 15th, 18th and 21st years of service.

Professional Growth. All confidential employees of the Oxnard School District are eligible to participate in the classified Professional Growth Award Program.

Health and Welfare Benefits. Effective July 1, 2015, the District will make a \$900.00 per month contribution towards the premium for the following group health insurance programs:

- Health and Accident
- Dental with/Ortho
- Vision/Life

Disability Retirement Under PERS. Confidential employees with at least ten (10) years service with the district who receive a disability retirement under PERS, shall be eligible for the same medical retirement benefits as regular retirees.

The health and welfare benefits for retirees are subject to whatever modifications and specifications as may apply in future years to confidential employees on active duty.

Health and Welfare Benefits for Retirees.

For any Confidential Employee employed by the District prior to June 30, 2012, the District shall provide (a) health and accident, (b) dental, (c) vision, and (d) life insurance premiums for Confidential employees and dependents retiring after reaching their 55th birthday provided such employees have given 15 years of service in the California Public School System and in the Oxnard School District for the eight consecutive years preceding the date of retirement. These benefits will be provided until the retiree reaches the age of 69

Confidential Employees hired on or after July 1, 2012 will not receive retiree benefits.

Retirement Contribution Benefits. The district shall provide confidential employees the provisions contained in Section 414(h)(2) of the *Internal Revenue Code* concerning the tax treatment of employee retirement contributions paid by the Oxnard School District. Exhibit 7560(A) E, addresses the specifics of this benefit.

Professional Organization Membership. The district shall pay directly to the organization an amount not to exceed the annual membership dues of the Association of California Administrators for confidential employees who process membership in ACSA, a professional secretarial or other appropriate professional organization approved by the Superintendent.

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of Revised Job Descriptions: Assistant Principal, Principal-Elementary, Master Principal-Elementary, Principal-Middle School/K-8, Master Principal-Middle School/K-8 (Vaca)

The Commission on Teacher Credentialing (CTC) accepts either five (5) years of pupil personnel work experience or five (5) years of teaching experience, or a combination of teaching and pupil personnel work experience equal to five years when securing an administrative credential. In accordance with CTC's criteria of eligibility to earn a preliminary credential, the Oxnard School District (District) is presenting five site administrator job description revisions for your consideration and approval, which include a minimum of five (5) years of pupil personnel work experience or a combination of both teaching and pupil personnel work experience equal to five years.

Approving the following job description revisions allows the District to expand their reach of highly qualified site administrator candidates:

- Assistant Principal
- Principal, Elementary
- Master Principal, Elementary
- Principal, Middle School/K-8
- Master Principal, Middle School/K-8

FISCAL IMPACT:

N/A

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Human Resources that the Board of Trustees approve the revised job descriptions, as presented.

ADDITIONAL MATERIALS:

1 **ARTICLE III: ORGANIZATIONAL RIGHTS AND PRIVILEGES**

2
3 **Rights of Access, Communication, and Use of Facilities**

4 1. The Association shall have the right of access to areas in which
5 employees work, the right to use bulletin boards, mailboxes, and other
6 means of communication, and the right to use District facilities for the
7 purpose of Association-called meetings.

8 a. **Communication** The Association shall be entitled to post
9 notices of Association concern on a staff bulletin board in an
10 area frequented by unit members in each school complex.
11 An Association representative shall be responsible for intra-
12 school distribution of said communications. A copy of
13 general distribution Association material shall be sent to the
14 principal or designee at time of posting or delivery. The
15 Association's mail will be delivered unopened and without
16 undue delay.

17 b. **Use of Facilities** The Association may use school facilities
18 for meetings when involved unit members are not on duty,
19 subject to approval of the principal. Such approval shall be
20 granted unless such meetings conflict with previously
21 scheduled use of such facilities or the buildings are
22 otherwise unavailable for use.

23 c. The employer shall provide the Association with names and
24 work locations of all bargaining unit personnel no later than
25 August 15 of each school year and of all bargaining unit
26 personnel employed after August 15 of each year within
27 thirty (30) days of employment.

28 d. **The Association shall be provided no less than ninety (90) minutes**
29 **of uninterrupted time to communicate with bargaining unit members**
30 **at all new bargaining unit member orientations/onboarding**
31 **meetings. District administration will excuse themselves during the**
32 **Association time.**

33 2. In addition, upon request, the District shall provide the Association
34 with materials necessary for the Association to fulfill its role as exclusive
35 bargaining representative.

2 **ARTICLE VII: TRANSFERS AND REASSIGNMENTS**

3 **2. POSTING OF VACANCIES**

4 School Site Vacancies:

5 District-wide Vacancies:

6 The District administration shall provide a list of known vacancies to
7 all bargaining unit members and work sites when the first official vacancy
8 announcement is made no later than the third Monday in April unless
9 mutually agreed upon by the District and the Association. The flying of all
10 district positions shall be held until master schedules have been submitted
11 to HR and shared with staff. The District will inform all bargaining unit
12 members via email and vacancies will be posted on the District website. All
13 bargaining unit members on an extended leave shall be notified of any
14 vacancies provided they have left a request to be notified with the District
15 office prior to the beginning of their leave. Bargaining unit members shall be
16 notified of additional vacancies weekly, when known, using the procedures
17 listed above (Article VII: Section 2, School Site Vacancies and District-wide
18 vacancies).

19
20 **6. PAID ASSISTANCE FOR MOVING**

21 A bargaining unit member
22 (a) whom the District involuntarily transfers to another school site after the
23 first student instructional day; (b) who has been displaced and is returning
24 to his/her original school site after the first student instructional day; or (c)
25 who was released from employment pursuant to a Reduction in Force, who
26 accepted a temporary assignment and accepts re-employment to a
27 permanent or probationary assignment after the first student instructional
28 day shall, upon request, be provided assistance in moving his/her personal
29 and classroom materials and receive one (1) day of student free preparation
30 time, and receive ~~eight (8)~~ sixteen (16) hours compensation, paid at the
31 current hourly rate. If a bargaining unit member's class is involuntarily
32 moved from one location to another location within the same work site,
33 he/she shall be provided assistance in moving his/her personal and
34 classroom materials and will receive ~~eight (8)~~ sixteen (16) hours
35 compensation, paid at the current hourly rate.

6
7 e. "Evaluator" means a unit member's school principal or
8 learning director, assistant principal, or administrative
9 supervisor possessing an administrative services credential.
10

11 **ARTICLE XIV: PARTIAL AND SCHOOL-WIDE CONTRACT**
12 **VARIANCE**

13
14 1. Definitions

15
16 (d) "Partial Variance" shall refer to a variance from the terms of
17 the collective bargaining agreement that applies to ~~two (2),~~
18 ~~three (3) or four (4) grade levels or a group of teachers~~
19 groups of either grades K-5 or 6-8 comprising more than 20%
20 of the teachers at a school site for the purposes of banking
21 minutes only.
22

23 4. Partial Contract Variances

24 A variance may be requested for ~~two (2), three (3) or four (4) grade~~
25 ~~levels or a group of teachers~~ either in grades K-5 or 6-8 comprising more
26 than 20% of the teachers at a school site so long as the following conditions
27 are met:

28 (a) ~~Partial variances shall only apply to the implementation of~~
29 ~~school instructional improvement grants that meet the~~
30 ~~requirements of Section 2(a) of this Article.~~

31 (b) a A request for a partial variance must comply with all the
32 procedural requirements set forth in school-wide variances,
33 ~~except that partial variances may be voted on and~~
34 ~~implemented at any time during the school year.~~ Only those
35 unit members who shall participate in the grant shall
36 participate in the election.

37 (c) b A partial variance request may not be brought following a
38 failed attempt for a school-wide variance. In the event of a
39 failed school-wide variance, a partial variance request may
40 not be brought for the remainder of the school year.

41 (d) c In no case shall a group of bargaining unit members that
42 does not participate in a partial variance be adversely

1 affected by the implementation of the partial variance.
2 Those that do not participate shall be accorded all rights
3 specified in the Collective Bargaining Agreement.
4

5 **ARTICLE XXVIII: TERM OF AGREEMENT**

6 This agreement shall remain in full force and effect up to and
7 including June 30, 2018~~9~~ and from year-to-year thereafter unless either
8 party submits a request to the other to terminate, modify or amend the
9 agreement.

10 No sooner than March 15, 2018 9, or March 15 of any successive
11 year, and no later than April 15, 2018 9 or April 15 of any successive year,
12 the party wishing to terminate, modify, or amend the agreement shall submit
13 in writing its request to do so, accompanied by its initial proposals for a
14 successor agreement. Meeting and negotiating in connection with such
15 proposals as well as appropriate counterproposals shall commence no later
16 than May 15 following receipt thereof.

**Memorandum of Understanding
between the Oxnard School District
and
Oxnard Educators Association
July 1, 2019 – June 30, 2020**

The Oxnard School District and the Oxnard Educators Association agree to the following language for use of the funds generated by OEA Members who opt-out of the health insurance plan:

For the 2019-2020 School Year:

The amount of funds available for the opt-out funds from 2018-19 is \$779,904.48. Based on current active enrollees of 736, the amount available for the 736 actives is \$1056.65/year or \$96.33/month (11 months).

These numbers may be adjusted based on the number of OEA opt-outs and the number of OEA active enrollees.

This Memorandum of Understanding shall sunset on June 30, 2020

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of the Revisions to the Oxnard School District and Oxnard Supportive Services Association (“OSSA”) 2018-19 Collective Bargaining Agreement (Vaca)

The Oxnard School District (District) and the Oxnard Supportive Services Association have reached a tentative agreement for the 2018-2019 school contract year. The negotiating teams met from October 2018 through June 2019. The following individuals participated in the sessions:

OSSA Bargaining Team:

Brenda Muth, President
Monica Garcia
Shiri Hermesh
Lauren Kaprielian
Annette Murguia
Steve Tobey
Irene Zavala

District Bargaining Team:

Dr. Jesus Vaca, Lead Negotiator
Janet Penanhoat
Dr. Edd Bond
Bertha Anguiano
Chris Ridge
Katrina Madden
Amelia Sugden

The following articles were revised:

ARTICLE 7: ASSIGNMENT OF UNIT MEMBERS
ARTICLE 9: EVALUATIONS
ARTICLE 11: LEAVE PROVISIONS
ARTICLE 16: SALARIES
ARTICLE 22: TERM

FISCAL IMPACT:

\$186,552 from the general fund

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Human Resources that the Board of Trustees adopt the revisions to the 2018-2019 Collective Bargaining Agreement between the Oxnard School District and the Oxnard Supportive Services Association, as presented.

ADDITIONAL MATERIALS:

Attached: [OSSA CBA revisions \(eight pages\)](#)

Article 7: ASSIGNMENT OF UNIT MEMBERS

7.4.1.4 If the District reassigns a bargaining unit member to another school site, the member shall be paid up to 16 hours in order to relocate (at their per diem rate).

Article 9: EVALUATIONS

9.3 Evaluation process: *The unit member shall be notified in writing or email by the supervisor within thirty (30) calendar days from the commencement of duties whether the unit member will be evaluated or not in that school year and who will be conducting the evaluation..*

During the evaluation year, the unit member's evaluator shall observe the unit member and/or gather information related to the unit member's performance (e.g., reports, IEPs, etc.). If personal observation of the work of a unit member is necessary, it shall be conducted openly and with full knowledge of the unit member.

9.7.1 Permanent unit member shall be evaluated at least once every other school year. *The unit member shall be notified in writing or email by the supervisor within thirty (30) calendar days from the commencement of duties whether the unit member will be evaluated or not in that school year and who will be conducting the evaluation.* The unit member's evaluator shall observe the unit member and/or gather information related to the unit member's performance (e.g., reports, IEPs, etc.) no later than one hundred twenty (120) calendar days after the commencement of duties in each evaluation year. The evaluator shall present a written summary of the observation or other evaluation data, to the unit member within fifteen (15) work days following the observation. A meeting shall be held between the unit member and their evaluator to discuss and review the Conference Summary providing feedback to the unit member regarding strengths and areas for improvement, if any. The evaluator and unit member shall sign and date the conference summary. The unit member's signature does not necessarily indicate the unit member's agreement with the summary. Within three (3) work days thereafter, the unit member shall sign the summary indicating only that he/she has read the summary, understands it and has been given the opportunity of responding to it in writing. The unit member's written response, if any, shall be attached to the summary and become a permanent part thereof.

Article 11: LEAVE PROVISIONS

11.3 Personal Necessity. A unit member at his/her election may claim and deduct up to ~~eight (8)~~ [eleven (11)] days per year from his/her accumulated sick leave for reasons due to

personal emergency or necessity. The charges of such absences to the unit member's accumulated sick leave shall be subject to approval by the Superintendent or designee. Absences which may be charged to the accumulated sick leave under this section include but are not limited to the following categories:

11.10 ~~Catastrophic Sick Leave Donation Plan~~ Catastrophic Leave

11.10.1 **Definition:** Catastrophic Leave is intended for exceptional and demonstrable hardship case, and is not to be considered or treated as a routine extension of paid status for employees who have, by previous absences, exhausted their sick leave and vacation leave. Catastrophic leave shall be limited to the unit member and member's immediate family including parents and children.

The Oxnard School District Catastrophic Leave Bank program is intended to provide emergency financial support and to relieve financial hardship in situations where a serious illness or injury incapacitates the employee for an extended period of time, or incapacitates an immediate family member, requiring the employee to be absent from work for an extended period of time to care for that family member per [California Education code section 44043.5(1)].

Due to the subjective nature of diagnosis for stress and other psychological illnesses, such illnesses shall not qualify for catastrophic leave unless they involve extended hospitalization.

11.10.2. The intent of the Catastrophic Leave Bank is to provide Oxnard School District employees (Management, Confidential, OSSA, and CSEA) economic relief for devastating personal health circumstances.

Catastrophic Leave may not be used for:

- a. Elective Surgery
- b. Personal Necessity Leave
- c. Normal Pregnancy
- d. Bereavement

11.10.3 The groups agree to create a Catastrophic Leave Bank effective September of 2019. The Catastrophic Leave Bank shall be funded in accordance with the terms below.

11.10.4 For the purpose of this section, a “day” shall be any day an eligible permanent employee is expected to be on duty.

11.10.5 Days in the Catastrophic Leave Bank shall accumulate from year to year.

11.10.6 Days shall be contributed to the Bank and withdrawn from the Bank without regard to the daily rate of pay of the Catastrophic Leave Bank participant.

11.10.7 Eligibility and Contributions:

11.10.7.1 At the beginning of each school year, eligible permanent employees may elect to contribute to the catastrophic Leave Bank. Participation is voluntary and only contributors will be permitted to draw from the Bank. Each person’s contribution shall be based on a full working day or be prorated to the percentage of the person’s daily assignment if less than a full day.

11.10.7.2 Open enrollment shall commence on July 1 and close on September 30 in each year for establishing and then sustaining the Catastrophic Leave Bank. A second enrollment shall commence on February 1 and close on February 28 for any unit member who wishes to participate.

11.10.7.3 A Catastrophic Leave Committee will be established each year to monitor the program, review requests and determine eligibility to receive a donation of days. The Committee will be comprised of the Assistant Superintendent of Human Resources, 1 management/confidential, 2 OSSA members, and 2 CSEA Members selected by each unit. The Assistant Superintendent of Human Resources shall have the responsibility of maintaining records for the program.

11.10.7.4 The initial donation shall be one day per participant. When the Committee determines a need, new donation forms will be distributed to all eligible permanent employees to rebuild the bank.. Eligible permanent employees shall be considered active in the Bank as long as they have donated at least one day in any school year when donations are solicited. If the bank falls below 61 days, a second collection shall be asked of all unit members. If a unit member donated at the beginning of the year, and is now unable to donate, a unit member shall still be considered an active participant for the remainder of the year. If a participating unit member

has more than 10 sick days, the unit member shall be required to donate a second day in order to replenish and sustain the Catastrophic Leave Bank. If a participating member has less than 10 sick days and does not voluntarily donate a day, they will be required to donate at the beginning of the next year in order to continue participation in the Bank. If it is a year requiring a donation, the member will be required to donate two days to remain active.

If no donations are solicited, then a member will stay active unless they choose to cancel. Donated days will not be returned upon cancellation and the participant will not be eligible to receive a donation of days after submitting a cancellation. Unused days shall carry-over and remain in the Bank from year to year.

- 11.10.7.5 If the number of days in the Bank at the beginning of the school year exceeds 400 days, no contribution shall be required.
- 11.10.7.6 Participants or their representative may request a draw from the bank only after all paid leaves including differential/half pay no more than 5 months for OSSA members (100 days for CSEA) have been exhausted. If the participant is also entitled to FMLA (Family Medical Leave Act), the twelve work weeks within a twelve-month period shall run concurrently with the use of Catastrophic Leave. Eligible permanent employees may request up to 60 days of leave from the Bank. Requests will be addressed by the Committee within 10 working days. Requests for additional days from the Bank may be requested and will be granted at the discretion of the Catastrophic Leave Committee.
- 11.10.7.7 If any Catastrophic Leave Bank days are granted by the Committee to an applicant for a specific and qualified reason are not needed or used, the days shall be returned to the Bank. If the request is approved or denied, the bargaining unit member making the request shall be notified in writing of the decision. This decision shall be final and not subject to the grievance process of the agreement.
- 11.10.7.8 Catastrophic Leave will require a medical verification to substantiate the illness or injury.

~~11.10.1 A unit member may donate up to three (3) days of sick leave per year to a catastrophic leave plan subject to the terms and provisions of this section. Sick leave which is donated under this section shall be deducted from the accrued sick leave authorized under Paragraph 11.2, Sick Leave.~~

~~11.10.2 Only a permanent employee who, as a result of a catastrophic illness or injury, as defined below, has exhausted all paid personal injury and illness leave entitlement, may request and utilize the leave provided hereunder. No such leave may be drawn for an injury or illness which arises out of employment.~~

~~11.10.3 A catastrophic injury or illness shall be defined as any injury or illness which for a period of not less than ninety (90) consecutive days, has caused an employee to be incapacitated from the performance of duty as an employee of the District, or is reasonably certain to result in such incapacity for ninety (90) consecutive days, based upon competent medical evidence.~~

~~An employee who qualifies for a catastrophic injury or illness leave may not draw upon such leave until exhaustion of all paid illness and injury leave, including differential pay leave.~~

~~11.10.3.1 Unit members wishing to solicit donations of sick leave shall provide the Assistant Superintendent of Human Resources and Support Services with a written request to participate in the program. The request shall include a description of the illness necessitating the request. A verification of the information in the request from the unit member's physician shall be attached. Family members or Association representatives may draft a request in cases where illness prevents the unit member from completing a request. The above information shall be confidential in nature and for personnel office use only.~~

~~11.10.3.2 The District shall publish and post a request for donation notice at each District work site. The notice shall specify a window period for receipt of donations of fifteen (15) work days from the date the notice is published. The notice shall include the name of the requesting unit member and work site. The nature of their illness will be provided only if written authorization is received directly from the unit member and/or family representative.~~

~~11.10.3.3 Employees may donate up to a maximum equivalent of three (3) days of sick leave per year. Employees may not donate sick leave if, as a result of the donation, their balance of accumulated sick leave falls below the equivalent of twenty (20) days. Donations~~

~~of sick leave shall be submitted to the District Personnel Office on a form provided by the District. Donations shall be transferred to the leave balance of the unit member requesting the donation, regardless of the classification/salary of employees donating and receiving donations. The District shall provide employees donating leave with a verification of sick leave days transferred to the requesting unit member. Donation will be processed and applied on a first received basis. Unused donation days will be returned to the donor.~~

~~11.10.3.4 A maximum of fifty (50) days per year may be donated by bargaining unit members. An eligible employee may take a portion or all of the fifty (50) days.~~

~~If any provision of this section is held to be unlawful, then this entire section shall be null and void.~~

~~This section supersedes and satisfies any obligations of the District under Education Code section 44043.5.~~

Article 16: SALARIES

16.1 OSSA and OSD agree to ~~2~~ **1.25%** on salary schedule (ongoing), retroactive to July ~~1, 2018~~ 2016 and ~~2%~~ **\$288** off schedule (one-time payment).

Article 23: TERM

This Agreement shall become effective July 1, 2016~~8~~ and shall remain in full force and effect up to an including June 30, 2019 and shall continue in effect year-by-year, unless one of the parties notifies the other in writing no later than April 1 of each year of its request to modify, amend, or terminate the agreement. No sooner than January 1, 2017~~9~~ or January 1 of any successive year, and no later than March 1, 2017~~9~~ or March 1 of any successive year, the party wishing to modify, or amend the agreement shall submit in writing its request to do so, accompanied by its initial proposals for a successor agreement. Meeting and negotiating in connection with such proposals as well as appropriate counter-proposals shall commence no later than April 1 following receipt thereof. Either party may reopen to negotiate Article 16, Salaries and Article 18, Fringe Benefits. Additional articles, up to a maximum of three (3) by each party may be re-opened, provided, however, that if the re-opener proposals from both parties exceed three (3) articles, then the articles to be re-opened shall be selected by mutual agreement of the parties.

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Declaration of Need for Fully Qualified Educators for the 2019-20 School Year (Vaca)

Form CL- 500 is issued by the State of California Commission on Teacher Credentialing. This form is a Declaration of Need for Fully Qualified Educators. By submitting this annual declaration, the District is certifying a diligent search to recruit fully prepared teachers for any assignments made, or if a suitable fully prepared teacher is not available, the District will make a reasonable effort to recruit, based on the priority stated on the form submitted.

This authorizes the District to hire a teacher under an intern program or a limited assignment permit. The District does not anticipate the need for any non-fully qualified teachers. This application is required by the State of California Commission on Teacher Credentialing and is only for precaution.

FISCAL IMPACT:

N/A

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Human Resources that the Board of Trustees approve the Declaration of Need for Fully Qualified Educators for the 2019-2020 school year and authorizes its submission to the State of California Commission on Teacher Credentialing.

ADDITIONAL MATERIALS:

Attached: [Declarations of Need \(five pages\)](#)

Original Declaration of Need for year: 2019/2020

Revised Declaration of Need for year: _____

FOR SERVICE IN A SCHOOL DISTRICT

Name of District: Oxnard School District District CDS Code: 72538

Name of County: Ventura County CDS Code: 56

By submitting this annual declaration, the district is certifying the following:

- A diligent search, as defined below, to recruit a fully prepared teacher for the assignment(s) was made
- If a suitable fully prepared teacher is not available to the school district, the district will make a reasonable effort to recruit based on the priority stated below

The governing board of the school district specified above adopted a declaration at a regularly scheduled public meeting held on 08 / 07 / 2019 certifying that there is an insufficient number of certificated persons who meet the district's specified employment criteria for the position(s) listed on the attached form. The attached form was part of the agenda, and the declaration did NOT appear as part of a consent calendar.

► **Enclose a copy of the board agenda item**

With my signature below, I verify that the item was acted upon favorably by the board. The declaration shall remain in force until June 30, 2020.

► *This declaration must be on file with the Commission on Teacher Credentialing before any emergency permits will be issued for service with the employing agency*

AREAS OF ANTICIPATED NEED FOR FULLY QUALIFIED EDUCATORS

Based on the previous year's actual needs and projections of enrollment, please indicate the number of emergency permits the employing agency estimates it will need in each of the identified areas during the valid period of this Declaration of Need for Fully Qualified Educators. This declaration shall be valid only for the type(s) and subjects(s) identified below.

This declaration must be revised by the employing agency when the total number of emergency permits applied for exceeds the estimate by ten percent. Board approval is required for a revision.

Type of Emergency Permit	Estimated Number Needed
CLAD/English Learner Authorization (applicant already holds teaching credential)	5 _____
Bilingual Authorization (applicant already holds teaching credential)	10 _____
List target language(s) for bilingual authorization: Spanish	
Resource Specialist	15 _____
Teacher Librarian Services	1 _____

LIMITED ASSIGNMENT PERMITS

Limited Assignment Permits may only be issued to applicants holding a valid California teaching credential based on a baccalaureate degree and a professional preparation program including student teaching.

Based on the previous year's actual needs and projections of enrollment, please indicate the number of Limited Assignment Permits the employing agency estimates it will need in the following areas:

TYPE OF LIMITED ASSIGNMENT PERMIT	ESTIMATED NUMBER NEEDED
Multiple Subject	5
Single Subject	5
Special Education	5
TOTAL	15

EFFORTS TO RECRUIT CERTIFIED PERSONNEL

The employing agency declares that it has implemented in policy and practices a process for conducting a diligent search that includes, but is not limited to, distributing job announcements, contacting college and university placement centers, advertising in local newspapers, exploring incentives included in the Teaching as a Priority Block Grant (refer to www.cde.ca.gov for details), participating in state and regional recruitment centers and participating in job fairs in California.

If a suitable fully prepared teacher is not available to the school district, the district made reasonable efforts to recruit an individual for the assignment, in the following order:

- A candidate who qualifies and agrees to participate in an approved internship program in the region of the school district
- An individual who is scheduled to complete initial preparation requirements within six months

EFFORTS TO CERTIFY, ASSIGN, AND DEVELOP FULLY QUALIFIED PERSONNEL

Has your agency established a District Intern program? Yes No

If no, explain. The district participates in an university internship program

Does your agency participate in a Commission-approved college or university internship program? Yes No

If yes, how many interns do you expect to have this year? 15

If yes, list each college or university with which you participate in an internship program.

California State universities (Channel Island, Dominguez Hills, Northridge)
California Lutheran University, University of La Verne, University of California (Los Angeles, Santa Barbara), Azusa Pacific University, National University

If no, explain why you do not participate in an internship program.

ANNUAL STATEMENT OF NEED 30-DAY SUBSTITUTE and DESIGNATED SUBJECTS CAREER TECHNICAL EDUCATION 30-DAY SUBSTITUTE TEACHING PERMITS

INSTRUCTIONS TO THE EMPLOYER

This statement of need must be filed at the school district office each school year when employing holders of Emergency 30-Day Substitute Permits. The employing agency will complete a single statement of need form (below) and retain the form at the school district office.

The form must be completed annually, indicating that either no credentialed person is available or that those available are not deemed qualified for substitute teaching and details of the circumstances that necessitate the use of emergency permit holders rather than fully credentialed teachers.

This statement of need form does not require listing specific employees or their positions. The form must be signed by the superintendent of the employing school district. It does not need to be co-signed by the county superintendent of schools.

A copy of the form does not need to be submitted to the county or the Commission with each Emergency 30-Day Substitute Teaching Permit application; however, the county superintendent of schools, whose responsibilities include areas such as district payroll or district substitute placement, may request a copy of the district's statement of need form to accurately fulfill these duties.

County superintendent of schools offices employing holders of the Emergency 30-Day Substitute Teaching Permit are also required to annually file, at their office, this completed statement of need form. The county superintendent of schools will sign the form.

The Commission does not require that the school board approve the statement of need. The individual school district may establish its own policy regarding this matter.

References: California Education Code, Sections 44225 and 44300 and California Code of Regulations, Title 5, Sections 80023, 80025 and 80026

This form must be signed by either:

The district superintendent of schools and filed at the school district office if the holder of any Emergency 30-Day Substitute Teaching Permit will be employed as a substitute in a public school operated by a school district.

OR

The county superintendent of schools and filed at the county superintendent of schools' office if the holder of any Emergency 30-Day Substitute Teaching Permit will be employed as a substitute in a county-operated school.

Certification and Authorized Signature

The district superintendent of schools or the county superintendent of schools has reviewed the information contained in this statement of need and certifies one the following:

Either a credentialed person is not available or one or more credentialed persons are available, but are not deemed qualified by the district or county, as applicable, to serve as a day-to-day substitute teacher.

OR

The situation or circumstances that necessitate the use of an emergency permit holder are as follows:
(Attach additional sheets, if necessary.)

I hereby certify that all of the information contained in this statement of need is true and correct.

Signature of the District Superintendent *District* *Date*

Signature of the County Superintendent of Schools *County* *Date*

It is not necessary to submit this form to the Commission on Teacher Credentialing.

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of the Revisions to the Oxnard School District and California School Employees Association, Chapter 272 (“CSEA”) 2018-19 Collective Bargaining Agreement (Vaca)

The Oxnard School District (District) and the California School Employees Association, Chapter 272 (CSEA) have reached a tentative agreement for the 2018-2019 school contract year. The negotiating teams met from October 2018 through June 2019. The following individuals participated in the sessions:

CSEA Bargaining Team:

Ilene Poland, President
John Avalos
Yvonne Brown
Sylvia Carillo
Gricet Renteria
Christian Vasquez
Roderick Warrick
Andy Olmos
Christopher Crump

District Bargaining Team:

Dr. Jesus Vaca, Lead Negotiator
Janet Penanhoat
Dr. Edd Bond
Chantal Anderson
David Fateh
Chris Ridge
Sally Wennes

The following article revisions and Memorandums of Understanding (MOU) were approved by both teams:

ARTICLE 2: CHECK-OFF AND ORGANIZATIONAL SECURITY

ARTICLE 9: PAY ALLOWENCES

ARTICLE 13: HEALTH AND WELFARE BENEFITS

ARTICLE 16: LEAVES

MOU: Reduction in Work Year/Hours, GASB funds, 2019-20 work calendar

MOU: Seniority and Longevity pertaining to Campus Assistants

MOU: Opt Outs of health insurance coverage

FISCAL IMPACT:

\$644,391 from the general fund.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Human Resources that the Board of Trustees adopt the revisions to the 2018-2019 Collective Bargaining Agreement between the

Oxnard School District and the California Employees Association, Chapter 272, as presented.

ARTICLE 2: CHECK-OFF AND ORGANIZATIONAL SECURITY

2.1 Check-Off: CSEA shall have the sole and exclusive right to have membership dues ~~and service fees~~ deducted for members of the bargaining unit by the District. The District shall, upon appropriate written authorization from any member of the bargaining unit, deduct and make appropriate remittance for insurance premiums, credit union payments, savings bonds, charitable donations, or other plans or programs jointly approved by CSEA and the District. The District shall pay to the designated payee within fifteen (15) days of the deductions all sums so deducted.

2.2 Dues Deductions:

~~2.2.1~~ The District shall deduct, in accordance with the CSEA dues ~~and service fee~~ schedule attached hereto and marked Appendix C B, dues from the wages of all unit members who are members of CSEA on the date of the execution of this Agreement, and from the wages of all members of the bargaining unit who, after the date of execution of this Agreement, become members of CSEA and submit to the District the dues authorization form.

~~2.2.2~~ The District shall immediately notify the CSEA chapter president if any unit member revokes his/her dues authorization.

2.3 Service Fee:

~~2.3.1~~ CSEA and the District agree that each member of the bargaining unit should contribute equally toward the cost of administration of this Agreement by CSEA and for representation of members of the bargaining unit of CSEA. *This article will sunset effective June 27, 2018.*

~~2.3.2~~ Members of the bargaining unit who are not members of CSEA on the effective date of this Agreement and unit members who hereafter come into the bargaining unit shall either, within thirty (30) days of the date of this Agreement, or within thirty (30) days of their employment or rehire, or within thirty (30) days of their return from an unpaid leave of absence, apply for membership and execute an authorization for dues deduction on a form provided by CSEA, or in the alternative, the District shall deduct from the salaries of unit members not applying for membership a service fee as set forth in the CSEA Dues Service Fee Schedule attached hereto as Appendix B and incorporated herein by reference as though fully set forth.

~~2.3.3~~ However, nothing contained herein shall prohibit a unit member from paying service fees directly to CSEA in accordance with CSEA procedure.

2018-19 CSEA, CHAPTER 272 COLLECTIVE BARGAINING AGREEMENT (CBA)
REVISIONS

~~2.3.4~~ In the event that a unit member revokes his/her dues or service fee authorization or fails to make arrangements with CSEA for the direct payment of service fees, the District shall deduct service fees until such time as CSEA notifies the District that arrangements have been made for the payment of such fees.

~~2.4~~ Religious Objection:

~~2.4.1~~ Any unit member covered by this Agreement who is a member of a religious body whose traditional tenets or teachings include objections to joining or financially supporting employee organizations, shall not be required to join, maintain membership in, or financially support any employee organization as a condition of employment, except that once such unit member has submitted evidence to CSEA which proves that he/she sincerely holds such beliefs will be required in lieu of such service fees, to pay sums equal to such service fees to a nonreligious, nonlabor organization charitable fund, exempt from taxation under Section 501(c) (3) of the Internal Revenue Code, chosen by the unit member from the following list of three (3):

~~(a) United Way;~~

~~(b) Salvation Army; or~~

~~(c) Ronald McDonald House Charities~~

~~2.4.2~~ Evidence that such a unit member belongs to a religious body described herein shall, within thirty (30) days of the date of this Agreement, or their employment, be presented to CSEA and the unit member shall execute a written authorization for the payroll deduction in an amount equal to the service fee payable to one of the three (3) organizations listed in Section 2.4.1 of this Agreement. In the alternative, such unit member shall provide proof that payments have been made on an annual basis as a condition of continued exemption from the requirement of financial support to the exclusive representative.

2.53 Hold Harmless: CSEA shall indemnify and hold the District harmless from any and all claims, demands, or suits, or any other action arising from the organizational security provisions contained herein.

//

ARTICLE 9: **PAY ALLOWANCES**

9.1.2 The District agrees to provide the same aggregate total cost percentage to CSEA members as it provides to any other employee groups. For the 2017~~8~~-189 school year, the aggregate total increase will be 1.25% on schedule

retroactive to July 1, 2017⁸ and the District will cover increase in health benefits cap (\$51.00) for 2019-20 ONLY.

//

ARTICLE 13: **HEALTH AND WELFARE BENEFITS**

13.1 The District and the Association hereby agree to provide for group health insurance through Self- Insured Schools of California (SISC) and, therefore, agree to be bound thereto through and by the terms and conditions of the SISC Participation Agreement. Such Participation Agreement and Summary Plan Description (SPD), as may be amended by the parties from time to time, may be found on the Oxnard School District web page, and as such, are fully incorporated herein by reference, as though fully set forth. If the member does not have internet access, a copy of each: the Summary Plan Description and Participation Agreement are available for review at the Oxnard District Office – in the Human Resources Department. *SISC will continue with the WABE option.*

13.5.1.4 Beginning 2007-2008 School Year, the Association agrees to annually contribute \$433,457 into a Special Fund Irrevocable Trust to be used for future retiree benefits. The Association and the District agree that this dollar amount that shall be set aside annually into the fund, is from the Association budget share of the CSEA's total costs. Effective January 1, 2017, these funds are no longer contributed and the amount has been added to the District cap on health insurance. The funds already deposited into the trust will remain in CSEA's account to be held for future retiree benefit payments. *CSEA will be provided an annual update.*

//

ARTICLE 16: **LEAVES**

16.1.2.8 **PARENTAL LEAVE**

Under California Ed. Code 44977.5 and 45196.1, a bargaining unit member who has worked 12 months in the district may elect to utilize up to twelve (12) weeks of Parental Leave occasioned by the birth of a bargaining unit member's child, or for placement of a child in connection with the bargaining unit member's adoption or foster child care.

The twelve (12) week Parental Leave shall run concurrently with CFRA. The twelve (12) week Parental Leave shall run concurrently with Sick Leave Use (including 100 days of Sick Leave under Education Code Section 45191) for

Adoption/Paternity/Foster Care for a bargaining unit member's adoption or foster child care.

A bargaining unit member has the option of using any accumulated sick leave for the twelve (12) week Parental Leave. If a bargaining unit member exhausts his/her accumulated sick leave prior to the expiration of the twelve (12) week Parental Leave, and continues to be absent from his or her duties on account of Parental Leave, the amount deducted from the bargaining unit member's salary for the remainder of the twelve (12) weeks shall be 50% of his/her pay after he/she exhausts accrued full-pay sick leave in accordance with Article 16.7.1. In order to qualify for 50% pay, a member must exhaust all accrued full-pay sick leave.

An employee shall not be provided more than one twelve (12) week period for Parental Leave during any 12-month period. If a school year terminates before the twelve (12) week period is exhausted, the employee may take the balance of the twelve (12) week period in the subsequent school year.

//

16.17 Catastrophic Sick Leave:

Definition: Catastrophic Leave is intended for exceptional and demonstrable hardship case, and is not to be considered or treated as a routine extension of paid status for employees who have, by previous absences, exhausted their sick leave and vacation leave. Catastrophic leave shall be limited to the unit member and member's immediate family including parents and children.

The Oxnard School District Catastrophic Leave Bank program is intended to provide emergency financial support and to relieve financial hardship in situations where a serious illness or injury incapacitates the employee for an extended period of time, or incapacitates an immediate family member, requiring the employee to be absent from work for an extended period of time to care for that family member per [California Education code section 44043.5(1)].

Due to the subjective nature of diagnosis for stress and other psychological illnesses, such illnesses shall not qualify for catastrophic leave unless they involve extended hospitalization. The intent of the Catastrophic Leave Bank is to provide Oxnard School District employees (Management, Confidential, OSSA, and CSEA) economic relief for devastating personal health circumstances.

Catastrophic Leave may not be used for:

- a. Elective Surgery
- b. Personal Necessity Leave
- c. Normal Pregnancy
- d. Bereavement

The groups agree to create a Catastrophic Leave Bank effective September of 2019. The Catastrophic Leave Bank shall be funded in accordance with the terms below.

For the purpose of this section, a "day" shall be any day an eligible permanent employee is expected to be on duty.

Days in the Catastrophic Leave Bank shall accumulate from year to year.

Days shall be contributed to the Bank and withdrawn from the Bank without regard to the daily rate of pay of the Catastrophic Leave Bank participant.

Eligibility and Contributions:

At the beginning of each school year, eligible permanent employees may elect to contribute to the

catastrophic Leave Bank. Participation is voluntary and only contributors will be permitted to draw from the Bank. Each person's contribution shall be based on a full working day or be prorated to the percentage of the person's daily assignment if less than a full day.

Open enrollment shall commence on July 1 and close on September 30 in each year for establishing and then sustaining the Catastrophic Leave Bank. A second enrollment period shall commence on February 1, and close on February 28, for any unit member who wishes to participate.

A Catastrophic Leave Committee will be established each year to monitor the program, review requests and determine eligibility to receive a donation of days. The Committee will be comprised of the Assistant Superintendent of Human Resources, 1 management/confidential, 2 OSSA members, and 2 CSEA Members selected by each unit. The Assistant Superintendent of Human Resources shall have the responsibility of maintaining records for the program.

The initial donation shall be one day per participant. When the Committee determines a need, new

donation forms will be distributed to all eligible permanent employees to rebuild the bank. Eligible permanent employees shall be considered active in the Bank as long as they have donated at least one day in any school year when donations are solicited. If the

bank falls below 61 days, a second collection shall be asked of all unit members. If a unit member donated at the beginning of the year, and is now unable to donate, a unit member shall still be considered an active participant for the remainder of the year. If a participating unit member has more than 10 sick days, the unit member shall be required to donate a second day in order to replenish and sustain the Catastrophic Leave Bank. If a participating member has less than 10 sick days and does not voluntarily donate a day, they will be required to donate at the beginning of the next year in order to continue participation in the Bank. If it is a year requiring a donation, the member will be required to donate two days to remain active. If no donations are solicited, then a member will stay active unless they choose to cancel. Donated days will not be returned upon cancellation and the participant will not be eligible to receive a donation of days after submitting a cancellation. Unused days shall carry-over and remain in the Bank from year to year.

If the number of days in the Bank at the beginning of the school year exceeds 400 days, no contribution shall be required.

Participants or their representative may request a draw from the bank only after all paid leaves including differential/half pay no more than 5 months for OSSA members (100 days for CSEA) have been exhausted. If the participant is also entitled to FMLA (Family Medical Leave Act), the twelve work weeks within a twelve-month period shall run concurrently with the use of Catastrophic Leave. Eligible permanent employees may request up to 60 days of leave from the Bank. Requests will be addressed by the Committee within 10 working days. Requests for additional days from the Bank may be requested and will be granted at the discretion of the Catastrophic Leave Committee.

If any Catastrophic Leave Bank days are granted by the Committee to an applicant for a specific and qualified reason are not needed or used, the days shall be returned to the Bank. If the request is approved or denied, the bargaining unit member making the request shall be notified in writing of the decision. This decision shall be final and not subject to the grievance process of the agreement.

Catastrophic Leave will require a medical verification to substantiate the illness or injury.

~~16.17.1 A "catastrophic illness or injury" means an illness or injury that is expected to incapacitate the employee for an extended period of time, or that incapacitates a member of the employee's family (defined as: spouse, domestic partner or child of the unit member) whose incapacity requires the employee to take time off from work for an extended period of time to care for that family member, and taking extended~~

2018-19 CSEA, CHAPTER 272 COLLECTIVE BARGAINING AGREEMENT (CBA)
REVISIONS

~~time off work creates a financial hardship for the employee because he/she has exhausted all of his/her fully paid sick leave and other fully paid time off.~~

~~16.17.1.1 The intent of this leave is to provide unit members economic relief for devastating personal health circumstances. Catastrophic leave may not be used for: Elective Surgery, Personal Necessity Leave, Normal Pregnancy, Substance Abuse Rehabilitation or Bereavement.~~

~~16.17.2. Catastrophic Sick Leave Donation Plan Permanent unit members or family members who are experiencing catastrophic illness and have exhausted all their fully paid leave may request direct donations of accumulated unused sick leave from District permanent unit members who wish to donate directly to that individual.~~

~~The following conditions apply:~~

~~16.17.2.1 Unit members wishing to solicit donations of sick leave shall provide the Assistant Superintendent of Human Resources, or designee, with a written request to participate in the program. The request shall include a description of the illness necessitating the request. A verification of the information in the request from the unit member's physician shall be attached. Family members or Association representatives may draft a request in cases where illness prevents the unit member from completing a request. The above information shall be confidential in nature and for personnel office use only. The unit member or designee shall provide permission to the District for releasing confidential information for use when soliciting donations.~~

~~16.17.2.2 The District shall publish and post a request for donation notice at each District work site. The notice shall specify a window period for receipt of donations of fifteen (15) workdays from the date the notice is published. The notice shall include the name of the requesting unit member and work site. The nature of their illness will be provided only if written authorization is received directly from the unit member and/or family representative.~~

2018-19 CSEA, CHAPTER 272 COLLECTIVE BARGAINING AGREEMENT (CBA)
REVISIONS

~~16.17.2.3 — Unit members may donate up to a maximum equivalent of three (3) days of their sick leave per year. Unit members may not donate sick leave if, as a result of the donation, their balance of accumulated sick leave falls below the equivalent of fifteen (15) days. Donations of sick leave shall be submitted to the Classified Personnel Office on a form provided by the District. Donations shall be transferred to the leave balance of the unit member requesting the donation, regardless of the classification/salary of unit members donating and receiving donations. The District shall provide unit members donating leave with a verification of sick leave days transferred to the requesting unit member. Donations will be processed and applied on a first-received basis. Unused donation days will be returned to the donor.~~

~~16.17.2.4 — Unit members receiving donations shall be limited to a maximum equivalent of 50 of their days per catastrophic illness or injury. A unit member cannot request catastrophic leave for the same illness or injury for a two (2) year period from the last date of usage of catastrophic leave.~~

~~16.17.2.5 — Unit members may choose to utilize the donated sick leave to coordinate with their “Entitlement to other sick leave” in section 16.7.1 in order to provide a full day’s wage for a total of 100 days.~~

~~16.18 — Pursuant to California Family Code Section 297, all references to “spouse” in Article 16 shall be applied to include “state registered domestic partner.” Wherever ‘spouse’ is mentioned within the Leave Article, it will be changed to read, “spouse/state registered domestic partner.”~~

~~16.19 — Emergency Leave: Natural Disasters — In the event an employee is unable to reach work from home because of conditions resulting from a natural disaster, i.e. flooding, landslides, earthquake, fire, the Board of Education shall grant an emergency leave of absence to the affected unit members. This leave shall be granted without loss of pay and shall not be charged against the employee’s Personal Necessity Leave or other paid leaves.~~

~~16.20 — Unpaid leaves (except for FMLA/CFRA) of more than thirty (30) days shall adjust the hire date of the unit member by the same number of unpaid days.~~

Employee Anniversary Increments:
 Anniversary increments in the amount of \$82.74 shall be added to the monthly compensation of full-time classified employees upon completion of the 7th, 10th, 15th, 20th, and 25th years of service. This formula yields the following dollar values which shall be added to the monthly compensation of classified employees:

- 7 years of service: \$82.74
- 10 years of service: \$165.48
- 15 years of service: \$248.22
- 20 years of service: \$330.96
- 25 years of service: \$413.70

Night Shift Pay Differential:
 Unit members who regularly work more than fifty (50) percent of their assigned duty time after six (6) p.m. will be compensated by an additional five (5) percent pay differential.

Bilingual Stipend:
 Positions which have been designated as bilingual and for which there is not a specific minimum requirement of bilingual skill for all incumbents of the class shall receive a stipend of three (3) percent.

RE: Memorandum of Understanding (MOU) – Layoffs

Dear President Poland:

I have received the Memorandum of Understanding (MOU) regarding the Layoffs between the Oxnard Elementary School District and the California School Employees Association and its Oxnard Elementary Chapter #272.

It has been reviewed in accordance with Policy 610. I have found no apparent violation of law, CSEA's Constitution and Bylaws, or Policy.

Ratification for this MOU is required. Please provide your Labor Relations Representative Christopher Crump with the ratification date so that we may update our records.

Please ensure your chapter complies with the Ratification Meeting requirements as identified in your chapter constitution and Policy 610 Ratification Notice.

I would like to take this opportunity to acknowledge the time and effort spent by you and the Negotiating Committee in negotiations. Your involvement and dedications are truly appreciated.

Please feel free to contact my office if you have any questions or concerns.

Sincerely,

CALIFORNIA SCHOOL EMPLOYEES ASSOCIATION

Espie Medellin
Field Director

**Tentative Agreements between the
Oxnard School District and California School Employees Association
and its Oxnard Elementary Chapter 272**

April 25, 2019

2019-2020 Work Calendar

The Parties hereby agree to the work year dates and holidays for the 2019-2020 calendar, attached.

GASB Funds – Benefits Cap Enhancement

The Parties hereby agree that, for 2019-2020, GASB funds in the amount of \$433,457 (four hundred thirty-three thousand four hundred fifty-seven dollars) will be distributed across all members actively enrolled in health and welfare benefits and used to enhance the current contractual benefits cap.

Reduction in Work Year/Hours: Site Technology Techs

The Parties hereby agree that all 12-month Site Technology Tech positions will be reduced from 12 months to 221 days and that the assignments will be reduced from 8-hour positions to 7-hour positions. Site Technology Techs may extend their lunch period up to one hour, on a site-by-site basis, in order to extend the workday and better serve the site. CSEA hereby acknowledges that reducing the work day from 8 hours to 7 hours will affect the accumulation of PERS service credits for Site Technology Techs.

Reduction in Hours: Library Media Techs

The Parties hereby agree that Library Media Tech positions will be reduced from 8 hours to 6 hours. All Library Media Tech positions that are currently under 6 hours will remain unchanged.

Reduction in Hours: Site ORCs

The Parties hereby agree that Site ORC positions will be reduced from 8 hours to 7 hours. CSEA further agrees to release the District from liability for paying for extra days over the standard 245 days per year for the 2019-2020 school year for 12-month employees. December 26 and December 27, 2019 will be non-work days for the 2019-2020 school year.

Reduction in Hours: Campus Assistants

The Parties hereby agree that there will be a reduction in hours for Campus Assistant positions as follows:

Number of Positions Affected	Current Hours	2019-2020 Hours
2	4-hour	(2.8), (2.4)
4	4.5-hours	(4.2), (4)x3
8	5-hours	(4)x7, (4.25)
1	5.25-hours	(4)
21	5.50-hours	(4.25)x2, (3.5)x5, (3)x3, (3.25), (5)x4, (4.50)x4, (4)x2
20	5.75-hours	(4.4), (4.5), (4.6)x6, (5)x3, (5.5)x9
1	5.83-hours	(5)
6	6-hours	(4)x5, (4.2)
1	7.75-hours	(4)

Agreed this 25th day of April, 2019

Oxnard School District

and

The California School Employees Association and its Oxnard Chapter 272

Tentative Agreement

July 19, 2019

The Oxnard School District (District) and the California School Employees Association and its Oxnard Chapter 272 (CSEA) have met and negotiated. The District and CSEA have established the amount of \$709,928 generated from the 2018-19 CSEA eligible members who have opted out of health insurance coverage (71 lives) to be paid out to all benefit eligible employees (394 lives) as a one-time payment of \$1801.85.

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

**Approval of the Variable Term Waiver for a Provisional Internship Permit (PIP)
Authorization in Special Education for Vanessa Kengni and Ann Cano for the 2019-20
school year (Vaca)**

There is a current shortage of Special Education teachers in the State of California. The District is recommending that the Board of Trustees approve this action item for the Variable Term Waiver for a provisional internship permit authorization in Special Education, as described under Education Code: Title 5 80021.1, for Vanessa Kengni and Ann Cano to serve as itinerant Special Education M/M RSP teachers for the 2019-20 school year beginning August 19, 2019, while working towards entering an internship program.

FISCAL IMPACT:

Informational only.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent of Human Resources that the Board of Trustees approve the Variable Term Waiver for a provisional internship permit authorization in Special Education M/M RSP for Vanessa Kengni and Ann Cano, as presented.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of Resolution #19-08 of the Board of Trustees of the Oxnard School District Acknowledging the Submission of a Use of Grants Application to the Office of Public School Construction for the Rose Avenue Reconstruction Project and Acknowledging that Said Submission Will Request the Diversion of Eligible Pupil Grants from Other Projects to the Rose Avenue Reconstruction Project by the Board of Trustees of the Oxnard School District (Aguilera-Fort/Penanhoat/CFW)

The Oxnard Master Construct and Implementation Program (“Program”) utilizes a variety of funding sources including bond proceeds, developer fees, Mello Roos funds, prior state aid reimbursements, and capital program balances. The program also seeks to maximize remaining State aid grants for modernization and new construction of school facilities as State funds become available under the State School Facilities Program (SFP).

The Office of Public School Construction administers the State Allocation Board’s (“SAB”) School Facility Program (“SFP”), which governs the State aid program. Under SFP, funding is allocated on a per pupil basis in accordance with State loading standards for permanent classrooms. The State loading standard is 25 pupils per classroom for grades K-6 and 27 pupils per classroom for grades 7-12. A school district’s eligibility for State funding is determined by a formula that estimates the number of unhoused pupils and assigns available New Construction pupil grants. These grants are used to defray the cost of constructing a sufficient number of permanent classrooms to accommodate unhoused students and/or relieve classroom overcrowding. Each grant must be matched in dollar value by the district using a local funding source (e.g., local bond proceeds); this means that a new construction project deemed eligible for grants by the State will see half of its construction cost met by the SFP.

Section 1859.77.3 of the SFP allows a district to utilize higher pupil loading standards than the State standard on its funding application, as long as those standards are within the approved district’s teacher contract and do not exceed 33 pupils per classroom. A higher loading standard increases the number of pupil grants that the State would allocate to a project, which in turn increases the amount of State funding for that project. Notwithstanding the application, a district is not required to actually load the classroom at the higher local standard when built. By using a higher standard on the application but a lower standard in the actual loading of classrooms, the share of the project cost shouldered by the State is increased while decreasing that of the District.

This funding mechanism, known as the “use of grants”, can decrease the cost of new facilities for a district, but it requires the diversion of pupil grants from other district projects that the State would otherwise have found eligible. The use of grants mechanism does not increase the district’s overall number of pupil grants; instead, it transfers to one project a portion of the grants that would have otherwise been used on another eligible project.

FISCAL IMPACT:

No identified fiscal impact at this time.

RECOMMENDATION:

It is the recommendation of the Superintendent and the Assistant Superintendent, Business and Fiscal Services, in conjunction with Caldwell Flores Winters, that the Board of Trustees adopt Resolution #19-08 of the Board of Trustees of the Oxnard School District Acknowledging the Submission of a Use of Grants Application to the Office of Public School Construction for the Rose Avenue Reconstruction Project and Acknowledging that Said Submission will Request the Diversion of Eligible Pupil Grants from Other Projects to the Rose Avenue Reconstruction Project by the Board of Trustees of the Oxnard School District.

ADDITIONAL MATERIALS:

Attached: [Resolution 19-08 Rose Avenue Use of Grants \(2 pages\)](#)

RESOLUTION NO. 19-08

RESOLUTION OF THE BOARD OF TRUSTEES OF THE OXNARD SCHOOL DISTRICT ACKNOWLEDGING THE SUBMISSION OF A USE OF GRANTS APPLICATION TO THE OFFICE OF PUBLIC SCHOOL CONSTRUCTION FOR THE ROSE AVENUE RECONSTRUCTION PROJECT AND ACKNOWLEDGING THAT SAID SUBMISSION WILL REQUEST THE DIVERSION OF ELIGIBLE PUPIL GRANTS FROM OTHER PROJECTS TO THE ROSE AVENUE RECONSTRUCTION PROJECT BY THE BOARD OF TRUSTEES OF THE OXNARD SCHOOL DISTRICT

WHEREAS, a school district’s eligibility for New Construction State funding is determined by a formula that estimates the number of unhoused pupils and assigns available New Construction pupil grants for the purpose of constructing facilities to accommodate unhoused pupils and relieve classroom overcrowding;

WHEREAS, the School Facility Program (SFP) allows a funding application to include a “Use of New Construction Grant” request to utilize a classroom loading standard higher than the State standard— but not higher than the maximum standard indicated in the District’s teacher contract—in order to increase the number of pupil grants used to defray the cost of building new classroom facilities; and,

WHEREAS, the Oxnard School District desires to submit a State funding application for the Rose Avenue Reconstruction Project to be constructed at 220 South Driskill Street utilizing a “Use of New Construction Grant” request;

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE OXNARD SCHOOL DISTRICT DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:

1. That the Board of Trustees of the Oxnard School District (“Board”) pursuant to Title 2, Code of California Regulations Section 1859.95.1, hereby acknowledges the utility of the “Use of New Construction Grant” funding mechanism in lowering the District’s cost burden of new classroom construction by increasing the number of State pupil grants used to fund said construction; and
2. That the Board, pursuant to the same Title 2, Code of California Regulations Section 1859.95.1, hereby acknowledges that requesting this funding mechanism does not increase the overall number of eligible State pupil grants allocated to the District, and that any grants reassigned to the Rose Avenue Reconstruction Project must be diverted from another project that would otherwise use those grants to defray construction costs; and,
3. That the Board directs the District Superintendent, in consultation with Caldwell Flores Winters, Inc., to prepare a State grant application for the Rose Avenue Reconstruction Project for submission to OPSC that contains a “Use of New Construction Grant” request; and
4. That the District certifies as defined in Education Code Section 17368 that it houses or will house the pupils receiving grants in the project in school buildings by utilizing district loading standards that do not exceed the loading standards stipulated in the teacher contract at the time of funding application submission; and

5. That the Board authorizes the District Superintendent, in consultation with Caldwell Flores Winters, to complete and submit any and all required forms and/or other documents required by the CDE, OPSC, DSA, or other agencies having jurisdiction to cause the funding application for Rose Avenue Reconstruction Project to be submitted to the appropriate State agencies at the soonest possible date; and
6. That this Resolution shall take effect immediately upon its passage; and
7. That the District Superintendent or his designee is authorized to take such actions and execute such agreements and documentation necessary to affect the intent of this Resolution.

APPROVED, PASSED AND ADOPTED by the Board of Trustees of the Oxnard School District on this 7th day of August, 2019, by the following vote:

Board of Trustees:	Ayes:	Nays:	Abstentions:	Absences:
President Robles-Solis:				
Clerk Madrigal Lopez:				
Trustee O’Leary:				
Trustee Cordes:				
Trustee Vega:				

Veronica Robles-Solis
 President of the Board of Trustees
 Oxnard School District

I HEREBY CERTIFY that the foregoing resolution was duly and regularly introduced, passed and adopted by the members of the Board of Trustees of the Oxnard School District at a public meeting of said Board held on August 7, 2019.

Monica Madrigal Lopez
 Clerk of the Board of Trustees
 Oxnard School District

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Approval of Resolution #19-07 of the Board of Trustees of the Oxnard School District, Acknowledging the State Allocation Board's "Application Received Beyond Bond Authority List", and Authorizing the Superintendent to Submit Project Funding Request Applications for Rose Avenue Reconstruction Project (Aguilera-Fort/Penanhoat/CFW)

The Oxnard School District's (District) Master Construct and Implementation Program (Program) utilizes a variety of funding sources including bond proceeds, developer fees, Mello Roos funds, prior State aid reimbursements, and capital program balances. The program also seeks to maximize remaining State aid grants for modernization and new construction of school facilities as State funds become available under the State School Facilities Program (SFP).

As part of the District's Program, the Rose Avenue Reconstruction Project includes the reconstruction of a new K-5 school at 220 South Driskill Street. The District intends to submit funding applications to the State of California for the Rose Avenue Reconstruction Project as eligible.

The Office of Public School Construction (OPSC) administers the State Allocation Board's (SAB) SFP, which governs the State aid program. The OPSC has received project funding applications which are requesting SFP grant amounts in excess of the State's current Bond authority to fund New Construction and Modernization projects. New Construction and Modernization applications received are now entered into the "Applications Received Beyond Bond Authority List".

All New Construction applications received on or after September 12, 2018 and Modernization applications received on or after February 28, 2019 are subject to the regulations and processing procedures as outlined in SFP Regulations Section 1859.95 and 1859.95.1 "Acceptance of Applications When Funding is Unavailable". After applications are received and date stamped, the OPSC will review the application to confirm all required documents are included. Application packages that include all required documentation are identified as Approved Applications.

Approved Applications will then be placed on the "Applications Received Beyond Bond Authority List" in the order of date received, which is presented to SAB for acknowledgement, but not approval, and are slated for review once additional funds are made available. In order for a project to qualify for this waiting list for state funds, the governing board of the district is required to adopt a resolution acknowledging the "Applications Received Beyond Bond Authority List".

The attached resolution acknowledges that SFP bond authority is currently exhausted for the funds being requested and that the State is not expected nor obligated to provide funding for the project and the acceptance of the applications does not provide a guarantee of future State funding.

FISCAL IMPACT:

No identified fiscal impact at this time.

RECOMMENDATION:

It is the recommendation of the Superintendent and the Assistant Superintendent, Business and Fiscal Services, in conjunction with Caldwell Flores Winters, that the Board of Trustees adopt Resolution #19-07 of the Board of Trustees of the Oxnard School District Acknowledging the State Allocation Board's "Applications Received Beyond Bond Authority List", and Authorizing the Superintendent to Submit Project Funding Request Applications for the Rose Avenue Reconstruction Project.

ADDITIONAL MATERIALS:

Attached: [Resolution 19-07 Rose Avenue Applications Beyond Bond Authority \(2 pages\)](#)

RESOLUTION NO. 19-07

RESOLUTION OF THE BOARD OF TRUSTEES OF THE OXNARD SCHOOL DISTRICT ACKNOWLEDGING THE STATE ALLOCATION BOARD'S "APPLICATIONS RECEIVED BEYOND BOND AUTHORITY LIST", AND AUTHORIZING THE SUPERINTENDENT TO SUBMIT PROJECT FUNDING REQUEST APPLICATIONS FOR THE ROSE AVENUE RECONSTRUCTION PROJECT

WHEREAS, the Board of Education ("School Board") has determined that school facilities within the Oxnard School District (the "District"), within Ventura County need to be constructed; and

WHEREAS, the Rose Avenue Reconstruction Project includes the reconstruction of a new K-5 school at 220 South Driskill Street; and

WHEREAS, the Oxnard School District intends to submit funding applications to the State of California for the Rose Avenue Reconstruction Project as eligible; and

WHEREAS, the State Allocation Board (SAB) has established an "Applications Received Beyond Bond Authority List" for projects that have been received.

Pursuant to title 2, Code of California Regulations section 1859.95.1, the School Board of the Oxnard School District hereby acknowledges the following:

(1) the Board acknowledges that the remaining School Facility Program bond authority is currently exhausted for the funds being requested on these applications.

(2) the Board acknowledges that the State of California is not expected nor obligated to provide funding for the project and the acceptance of the applications does not provide a guarantee of future State funding.

(3) the Board acknowledges that any potential future State bond measures for the School Facility Program may not provide funds for the applications being submitted.

(4) the Board acknowledges that criteria (including, but not limited to, funding, qualifications, and eligibility) under a future State school facilities program may be substantially different than the current School Facility Program. The district's Approved Applications may be returned.

(5) the Board acknowledges that they are electing to commence any pre-construction or construction activities at the district's discretion and that the State is not responsible for any pre-construction or construction activities.

(6) the Board acknowledges that, if bond authority becomes available for the SAB to provide funding for the submitted applications, the School District must apply for financial hardship status.

BE IT FURTHER RESOLVED, that the Board authorizes the District Superintendent, in consultation with Caldwell Flores Winters, to complete and submit any and all required forms and/or other documents required by the CDE, OPSC, DSA, or other agencies having jurisdiction to cause the Rose Avenue Reconstruction Project funding applications to be submitted to the appropriate state agencies at the soonest possible date; and

BE IT FURTHER RESOLVED, that this Resolution shall take effect immediately upon its passage; and

BE IT FURTHER RESOLVED, that the District’s Superintendent or his designee is authorized to take such actions and execute such agreements and documentation necessary to affect the intent of this Resolution.

APPROVED, PASSED AND ADOPTED by the Board of Trustees of the Oxnard School District on this 7th day of August, 2019, by the following vote:

Board of Trustees:	Ayes:	Nays:	Abstentions:	Absences:
President Robles-Solis:				
Clerk Madrigal Lopez:				
Trustee O’Leary:				
Trustee Cordes:				
Trustee Vega:				

Veronica Robles-Solis
 President of the Board of Trustees
 Oxnard School District

I HEREBY CERTIFY that the foregoing resolution was duly and regularly introduced, passed and adopted by the members of the Board of Trustees of the Oxnard School District at a public meeting of said Board held on August 7, 2019.

Monica Madrigal Lopez
 Clerk of the Board of Trustees
 Oxnard School District

OSD BOARD AGENDA ITEM

Name of Contributor: Dr. Jesus Vaca

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Consideration of Approval of Acknowledgement of Obligation and Approval Amendments to Employment Agreements for Cabinet Members (Vaca)

The Board ratified an agreement with the Oxnard Educators Association (OEA) that included a 1.25% ongoing salary increase, retroactive to July 1, 2018. A tentative agreement on the same salary agreement has also been reached between the District and the Oxnard Supportive Services Association (OSSA) and is being considered by the Board at this meeting. In accordance with the District's regular practice, an Acknowledgement and Amendments for cabinet level District Administrators with written employment agreements that reflect the same salary increases are provided for the Board's consideration.

FISCAL IMPACT:

The fiscal impact is \$11,313 to be paid out of the general fund.

RECOMMENDATION:

It is the recommendation that the Board of Trustees approve the Acknowledgement and Employment Agreement Amendments attached.

ADDITIONAL MATERIALS:

Attached: [Amendments and Acknowledgement for Cabinet \(four pages\)](#)

**ACKNOWLEDGMENT OF OBLIGATION RELATED TO THE EMPLOYMENT
AGREEMENT BETWEEN THE OXNARD SCHOOL DISTRICT AND
DR. CESAR MORALES**

This Acknowledgment of Obligation (“Acknowledgment”) is entered into this 7th day of August 2019 between the Oxnard School District (“District”) and Dr. Cesar Morales, (“Dr. Morales”).

Dr. Morales was employed by the Oxnard School District from resigned from July 1, 2013 to June 30, 2019. Dr. Morales worked the entire year 2018-2019 school year.

Section 4.3 of the Employment Agreement entered on June 26, 2013 provides “...The Superintendent will receive at a minimum any bonuses, stipends and salary adjustments awarded to district administrators in the District. Through this agreement, the District acknowledges that the proposed raise was earned during Dr. Morales last year of employment with the District.

Accordingly, Dr. Morales shall receive a retroactive salary payment of 1.25% of his salary for the last year of his employment.

For the Board of Trustees:

By: _____
Veronica Robles-Solis, Board President

Date of Acceptance: _____
Dr. Cesar Morales

**NINTH AMENDMENT TO EMPLOYMENT AGREEMENT BETWEEN THE OXNARD
SCHOOL DISTRICT AND DR. JESUS VACA, ASSISTANT SUPERINTENDENT
HUMAN RESOURCES**

This Ninth Amendment to the Employment Agreement (“Ninth Amendment”) is made and entered into this 7th day of August 2019 between the Oxnard School District (“District”) and Dr. Jesus Vaca, Assistant Superintendent, Human Resources (“Assistant Superintendent”). This Ninth Amendment amends the Employment Agreement entered into between the District and Assistant Superintendent effective November 4, 2013, as follows:

1. Article 4 is amended as follows:

4.1 The salary of the Assistant Superintendent shall be increased by 1.25% for the term of this agreement, retroactive to July 1, 2018.

For the Board of Trustees:

By: _____
Veronica Robles-Solis, Board President

Date of Acceptance: _____

Dr. Jesus Vaca
Assistant Superintendent,
Human Resources

**SECOND AMENDMENT TO EMPLOYMENT AGREEMENT BETWEEN THE
OXNARD SCHOOL DISTRICT AND JANET PENANHOAT, ASSISTANT
SUPERINTENDENT, BUSINESS AND FISCAL SERVICES**

This Second Amendment to the Employment Agreement (“Second Amendment”) is made and entered into this 7th day of August 2019 between the Oxnard School District (“District”) and Janet Penanhoat, Assistant Superintendent, Business and Fiscal Services, (“Assistant Superintendent”). This Second Amendment amends the Employment Agreement entered into between the District and Assistant Superintendent effective October 4, 2017, as follows:

1. Article 4 is amended as follows:

4.1 The salary of the Assistant Superintendent shall be increased by 1.25% for the term of this agreement, retroactive to July 1, 2018.

For the Board of Trustees:

By: _____
Veronica Robles-Solis, Board President

Date of Acceptance: _____

Janet Penanhoat,
Assistant Superintendent,
Business and Fiscal Services

FIRST AMENDMENT TO EMPLOYMENT AGREEMENT BETWEEN THE OXNARD SCHOOL DISTRICT AND DR. ANABOLENA DEGENNA, ASSISTANT SUPERINTENDENT, EDUCATION SERVICES/CHIEF ACADEMIC OFFICER

This First Amendment to the Employment Agreement (“First Amendment”) is made and entered into this 7th day of August 2019 between the Oxnard School District (“District”) and Dr. Anabolena DeGenna, Assistant Superintendent, Education Services/Chief Academic Officer, (“Assistant Superintendent”). This First Amendment amends the Employment Agreement entered into between the District and Assistant Superintendent effective June 6, 2018, as follows:

1. Article 4 is amended as follows:

4.1 The salary of the Assistant Superintendent shall be increased by 1.25% for the term of this agreement, retroactive to July 1, 2018.

For the Board of Trustees:

By: _____
Veronica Robles-Solis, Board President

Date of Acceptance: _____

Dr. Anabolena DeGenna
Assistant Superintendent,
Education Services/Chief Academic
Officer

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section D: Action Items

Public Meeting – Auction to Enter Into an Agricultural Lease of the Doris/Patterson Property (Penanhoat)

This being the time and date noticed, pursuant to Education Code Sections 17472 and Resolution #19-05, the Board of Trustees will hold a public meeting to open sealed proposals to enter into an agricultural lease of the Doris/Patterson property. The minimum bid for the initial lease of the Doris/Patterson property shall be for an annual fee of \$3,800 per acre for year one, \$3,900 per acre for year two, and \$4,000 per acre for year three. If the lease of the Doris/Patterson property subjects the property to any form of tax, the lessee shall pay all applicable real and personal property taxes, and all other fees, charges, taxes, and/or assessments of any type levied against, or resulting from lessee's use of, the Property.

Before accepting any written proposal, the Board of Trustees will call for oral bids. If after calling for such oral bids, a responsible person or firm offers orally to lease the Doris/Patterson property pursuant to Education Code Section 17473, upon the terms and conditions contained in this Resolution and at a price that exceeds the highest written proposal by at least five percent, then the highest oral bid shall be accepted. Otherwise, the highest responsible written bid proposal shall be accepted.

FISCAL IMPACT:

To be determined.

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, that the Board of Trustees hold a public meeting to open sealed proposals, and receive any oral proposals, to enter into an agricultural lease of the Doris/Patterson property.

ADDITIONAL MATERIALS:

Attached: [Resolution #19-05 \(11 pages\)](#)

RESOLUTION NO. 19-05

RESOLUTION OF THE BOARD OF TRUSTEES OF THE OXNARD SCHOOL DISTRICT DECLARING ITS INTENTION TO LEASE THE DORIS/PATTERSON PROPERTY FOR AGRICULTURAL PURPOSES

WHEREAS, on or about April 30, 2018, the Oxnard School District (“District”) acquired 25 acres of real property at the corner of Doris Avenue and Patterson Road (the “Property”). The Property is further described in Exhibit A, which is attached hereto and incorporated herein by this reference;

WHEREAS, the District’s Board of Trustees (“Board”) is interested in considering proposals for the lease of the Property for agricultural and related uses in order to maintain the existing use of the property while at the same time preserving the Property for future school uses and generating income for the District;

WHEREAS, pursuant to Article 4 (commencing with Education Code Section 17455) of Chapter 4 of Part 10.5 of Division 1 of Title 1 of the Education Code, the Board may lease any real property belonging to the District, which is not, or will not, be needed by the District for school classroom buildings, for a period not to exceed 99 years;

WHEREAS, the Board has determined that, while the District will retain the Property for potential future use for school uses, the Property is not currently needed for educational or classroom purposes, nor should be it needed for such purposes or otherwise by the District for a period of at least three years;

WHEREAS, Article 5 (commencing with Education Code Section 17485) of Chapter 4 of Part 10.5 of Division 1 of Title 1 of the Education Code (the “Naylor Act”) regulates the District’s ability to lease certain land that is used for playgrounds, play fields and recreational uses or is open-space land that is particularly suited for recreational purposes;

WHEREAS, the Naylor Act, where applicable, takes precedence over general statutory provisions relating to the lease of surplus property by school districts;

WHEREAS, the Property has been used for agricultural and related uses and is not and has not, to the District’s knowledge, been used for playground, playing field, or other recreational or outdoor purposes, nor is it particular suited for such purposes;

WHEREAS, there is no evidence or indication that any local planning decisions were made on the assumption that the Property would be available for playgrounds, play fields, or recreational uses;

WHEREAS, pursuant to Article 1.5 (commencing with Education Code Section 17387) of Chapter 4 of Part 10.5 of Division 1 of Title 1 of the Education Code (the “Advisory Committee Statutes”), the District generally must appoint an advisory

committee to advise the District as to the use or disposition of school buildings or space in school buildings not needed for school purposes;

WHEREAS, the purpose of the Advisory Committee Statutes is to involve the community in decisions relative to the use of excess school facilities, school closures, the use of surplus school space, and to otherwise assure that building use is compatible with the community's needs and desires;

WHEREAS, the Property does not involve excess school facilities, school buildings, or space in school buildings; does not involve a school closure or limitation upon District educational facilities; and does not otherwise affect the community with respect to educational facilities or programs offered by the District;

WHEREAS, the lease of the Property for agricultural and related uses is consistent with the historical use of the Property, and preserves the existing use pending the District's need to utilize the site in the future for school purposes;

WHEREAS, Education Code Section 17466 requires the District to adopt, by a two-thirds vote, a "Resolution" to lease the Property before the District may otherwise seek to lease the Property to the public-at-large;

WHEREAS, the Resolution must (1) fix a date, not less than three weeks later, in which it will hold a public meeting to accept sealed written proposals for the lease of the Property (the "Public Auction"); and (2) establish the terms and minimum price the District will agree upon for the lease of the Property;

WHEREAS, Education Code Section 17469 requires the District to provide notice of the Public Auction by (1) posting the Resolution, signed by a majority of the Board, in at least three public places not less than 15 days before the Public Auction; and (2) publishing notice once a week for three consecutive weeks in a newspaper of general circulation.

NOW, THEREFORE, BE IT RESOLVED, that the Board, having considered the foregoing and such other evidence as has been presented to the Board with regard to this matter, resolves that:

Section 1. The above recitals are true and correct.

Section 2. The Property is land owned by the District that is not currently necessary for school purposes and is not otherwise being used, nor anticipated to be used, over at least the next three years, by the District to meet its educational or related service needs.

Section 3. It is in the District's best interests to enter into a limited term lease of the Property, for a period of three years.

Section 4. The Naylor Act does not apply to the District's lease of the Property, as the property is not, nor ever has been, used for playgrounds, playing fields, or any other outdoor recreational or open-space purpose, nor is it particularly suitable for such a purpose. The District is not aware of any evidence or indication that any local planning decisions were made on the assumption that the Property would be available for playgrounds, play fields or recreational uses.

Section 5. The Advisory Committee Statutes are inapplicable to the District's lease of the Property, as the Property is not used for school buildings, nor does it involve space in school buildings or otherwise affect the community in the manner meant to be addressed by the Advisory Committee Statutes.

Section 6. The District does hereby declare its intention to lease the Property at fair market value in the manner described in this Resolution.

Section 7. The minimum bid for the initial lease of the Property shall be for \$3,800 per acre for year one, \$3,900 per acre for year two, and \$4,000 per acre for year three ("Minimum Bid Amount"). If the lease of the Property subjects the Property to any form of tax, the lessee shall pay all applicable real and personal property taxes, and all other fees, charges, taxes, and/or assessments of any type levied against, or resulting from lessee's use of, the Property. The Superintendent shall negotiate the terms of the lease of the Property. The lease term shall be for a period of three years.

Section 8. Each sealed bid shall be in writing on the form attached hereto as Exhibit B (the "Bid Form"), signed by the bidder, and placed in a sealed envelope marked "SEALED PROPOSAL FOR THE AUGUST 7, 2019 AUCTION TO LEASE THE OXNARD SCHOOL DISTRICT AGRICULTURAL PROPERTY." All written Bids must be received by the District no later than **1:00 p.m. on August 6, 2019**. All bids should be delivered to: Oxnard School District; c/o Janet Penanhoat; 1051 South A Street, Oxnard, California 93030. Bids delivered via United States mail, or other similar delivery service, shall be sealed in an internal envelope, marked as specified by this Section, and placed in a separate envelope for mailing purposes, so as to avoid any potential inadvertent opening of the bid prior to the appropriate date of opening. Bidders shall assume full responsibility for ensuring that mailed Bids are received by the District by the deadline specified by this Section.

Section 9. Signed and sealed Bids for the lease by the bidders of the Property will be received and considered at a public meeting of the Board at 7:00 p.m., or as soon thereafter as possible, on **August 7, 2019** (the "Public Auction"). The Public Auction will occur at the District Board Room located at 1051 South A Street Oxnard, California 93030. At the meeting, subject to the terms of this Resolution, all bids timely received, as set forth in Section 8, will be opened, examined, and declared by the Superintendent, or the Superintendent's designee.

Section 10. The Board shall open, examine, and declare the sealed written Bids in public session at the Public Auction. After declaring the highest responsible written Bid,

the Board shall call for any oral bids. If after calling for such oral bids, a responsible person or firm offers orally to lease the Property pursuant to Education Code Section 17473, upon the terms and conditions contained in this Resolution and at a price that exceeds the highest written proposal by at least five percent, then the highest oral bid shall be accepted. Otherwise, the highest responsible written bid proposal shall be accepted. No oral bid shall be finally accepted until the oral bid is reduced to writing and signed by the offeror. Unsuccessful oral bidders are required to provide the District with identifying contact information at the Public Auction in order for such bids to be considered in the event of the default of higher bidders.

Section 11. All written and oral bids shall remain firm offers by the respective bidders to the District for 60 days, or until the highest bidder enters into a lease agreement with the District, whichever occurs first. Nothing in this Section shall prevent the District from offering the Property to the next highest bidder who submitted a bid at the Public Auction after the 14-day period, in the event the highest bidder fails to enter into a lease agreement. Such next highest bidder must, upon the District's request, provide written confirmation that it intends to honor its previous bid within three working days upon receiving the District's request. It is the responsibility of the next highest bidder to provide the District with appropriate contact information in order to effectuate the provisions of this Section. The failure of any oral bidder to provide such contact information to the District within 48 hours of the conclusion of the Public Auction may result in the District's rejection of the bid and offer of the Property to the next responsive bidder without regard to the rejected oral bid.

Section 12. The bid for the Property which offers the District the highest price, conforms to all terms and conditions specified in this Resolution and in law, and is made by a responsible bidder shall be accepted by the Board at its public meeting of August 7, 2019, or at any adjourned session of the same meeting held within 14 days, unless the Board otherwise rejects all bids. The Board reserves the right to reject any and all bids if it deems such action to be for the best public interest.

Section 13. At the time the highest bidder's bid is accepted, the bidder shall be required to enter into a lease agreement with the District within fourteen (14) days of the Board's acceptance of the bid.

Section 14. The District may, in the time preceding the Public Auction, release further information and/or details concerning the Property, and the lease of the Property by the District. Any person or entity interested in receiving such information shall notify Janet Penanhoat, Assistant Superintendent, Business & Fiscal Services, at either (805) 385-1501 x2401 or jpenanhoat@oxnardsd.org, and provide a physical address, facsimile, or electronic mail address, or a combination thereof, to which information may be sent. Such service shall not relieve any bidder from its duties to conduct its due diligence before the Public Auction, and the District assumes no responsibility for the timely receipt, or lack of receipt, of any notice that may be issued by Ms. Penanhoat pursuant to requests.

Section 16. The Superintendent, or the Superintendent's designee, is directed to cause notice to be given of the adoption of this Resolution, and of the time and place of the public meeting for lease bids to be submitted, by:

(a) Posting copies of this Resolution, signed by the President of this Board on behalf of at least two-thirds of the members of this Board, in three public places in the District not less than 15 days before the date set for opening bids; and

(b) Publishing written notice of the adoption of this Resolution in a newspaper of general circulation within the District not less than once a week for three successive weeks before the date set for opening the bids.

Section 17. The Superintendent, or the Superintendent's designee, is hereby authorized to take any further action necessary to accomplish the purpose of this Resolution, both with respect to the lease of the Property and the advertisement of the District's acceptance of bids for such a lease. The Superintendent, or Superintendent's designee, is authorized to give notice of and publicity to the adoption of this Resolution and the pending lease in ways deemed appropriate by the Superintendent, and otherwise take such action as may be reasonably necessary to effectuate the purpose of this Resolution.

Section 18. Copies of this Resolution shall be made available to prospective bidders upon request. Additional information regarding the lease of the Property, or permission to enter the Property, may be obtained from Ms. Janet Penanhoat, Assistant Superintendent, Business & Fiscal Services, who may be reached at (805) 385-1501 x2401 or jpenanhoat@oxnardsd.org.

APPROVED AND ADOPTED by the Board of Trustees of the Oxnard School District on this 26th day of June 2019, by the following vote on roll call:

**OXNARD SCHOOL DISTRICT PROPERTY SITE
BID FORM**

To: Oxnard School District
c/o Ms. Janet Penanhoat, Assistant Superintendent, Business & Fiscal Services
1051 South A Street Oxnard, California 93030

The undersigned bidder (“Bidder”) submits this bid in response to the Oxnard School District’s (“District”) request for sealed proposals, as set forth in Resolution No. 19-05 (“Resolution”) of the District’s Board of Trustees (“Board”), for the lease of certain real property identified in the Resolution (the “Property”).

Bidder hereby submits a bid in the amount of: _____
(\$ _____) dollars per acre for year one, _____
(\$ _____) dollars per acre for year two, _____
(\$ _____) dollars per acre for year three (“Bid Amount”) for the lease of the Property.

**PLEASE NOTE THAT BID AMOUNTS EXPRESSED HEREIN
SHOULD BE EXPRESSED ON A *PER ACRE* BASIS**

Bidder understands and, by submitting this Bid to the District, acknowledges that the highest responsive bidder for the Property will be required to execute a lease agreement within 14 days of the District’s acceptance of the Bid. This bid shall remain a firm offer by the Bidder to the District for lease of the Property for a period of 60 days, or until the highest responsive bidder enters into a lease agreement for the Property with the District.

BID MUST BE RECEIVED NO LATER THAN 1:00 P.M., AUGUST 6, 2019. ORAL BIDS WILL BE ACCEPTED AT THE PUBLIC MEETING OF THE BOARD AT 7:00 P.M, OR AS SOON THEREAFTER AS REASONABLY POSSIBLE, ON AUGUST 7, 2019. ORAL BIDS WILL BE RECEIVED ONLY IF THE ORAL BID AMOUNT EXCEEDS THE HIGHEST WRITTEN BID BY AT LEAST FIVE (5) PERCENT.

I, the undersigned Bidder, acknowledge that I am familiar with the terms and conditions of this Bid as set forth in Resolution No. 19-05 of the Board of Trustees of the Oxnard School District, and hereby submit this bid under the terms and conditions set forth above and within said Resolution. I further understand that the auction and lease of the Property shall be conducted in accordance with the requirements of Article 4 (commencing with Section 17455) of Chapter 4 of Part 10.5 of the Education Code, including specifically, Sections 17466 through 17478.

Regular Board Meeting
June 19, 2019

The Board of Trustees of the Oxnard School District met in regular session at 5:05 p.m. on Wednesday, June 19, 2019 at the Educational Service Center.

CALL TO ORDER

A roll call of the Board was conducted. Present were President Veronica Robles-Solis and Trustees, Debra Cordes, Jesus Vega, Monica Madrigal Lopez, Denis O'Leary. Staff members present were District Superintendent Dr. Cesar Morales, Assistant Superintendents Dr. Ana DeGenna, Janet Penanhoat and Dr. Jesus Vaca, and Executive Assistant Rose Chaparro.

ROLL CALL

Ms. Sarah Lepe, Principal at Marshall Academy of Visual and Performing Arts, introduced Keiko Anderson, 6th grader in Ms. Mary Beth Kaser's and Ms. Kathy Orlinsky's class, who lead the audience in the Pledge of Allegiance.

PLEDGE OF ALLEGIANCE

Sophia Gonzalez, 6th grade student in Ms. Mary Beth Kaser's and Ms. Kathy Orlinsky's class and Ms. Suzanne Grajeda, Assistant Principal, read them in Spanish.

DISTRICT'S VISION AND MISSION STATEMENTS

Principal Sarah Lepe provided a presentation to the Board regarding Marshall Academy of Visual and Performing Arts. Ms. Lepe highlighted the theme of the year "Building Foundations and Traditions"; the collaboration with other schools on SIP days; the First Day of School and the Back to School Night. Principal Lepe mentioned that this year they had more parent volunteers than any other year. She shared some pictures and a video from different events, presented the new School Logo to the Board and finally highlighted the academic focus. Ms. Suzanne Grajeda, Assistant Principal, shared information on PBIS, Champs and athletic activities.

PRESENTATION BY MARSHALL ACADEMY OF VISUAL AND PERFORMING ARTS

Following the presentation, Trustee Cordes gave a token of appreciation on behalf of the Board to the students that participated in the meeting.

A.5 On motion by Trustee Vega, seconded by Trustee Madrigal Lopez and carried on a roll call vote of 5-0, the Board approved the agenda as amended:

ADOPTION OF THE AGENDA

Consent agenda items moved to Action items:

- C.1 #19-31 with Autism Learning Partners moved to Action Item D.11
- C.1 #19-34 with Therapy Travelers moved to Action Item D.12
- C.1 #19-45 with Advanced Medical Personnel Services moved to Action Item D.13

- May 22, 2019 - Special Board Meeting
- June 5, 2019 - Regular Board Meeting

G.1 Superintendent Announcements:

SUPERINTENDENT
ANNOUNCEMENTS

Dr. Cesar Morales

- Reported that students, teachers, and staff held an assembly at Elm Street School on June 7. On this opportunity, representatives from the California Association for Bilingual Education recognized Elm Street School for receiving the "Seal of Excellence" for its Dual Language Immersion Program.
- Reported that a representative from the U.S. Fish and Wildlife Service in Ventura presented a certificate of recognition to one student in particular for the enthusiasm she displayed during the Oxnard Insect Festival. Dr. Morales congratulated Naomi Miranda.
- Informed that Cal State Channel Islands is looking to continue and possibly expand the Junior Scientist program with our district next year.
- Congratulated the group of parents who recently graduated from Level 2 of Project2Inspire.
- Reported that he taught First grade students for a day at Thurgood Marshall School and he even stayed for the staff meeting at the end of the school day. His “teacher for a day” experience was a result of an auction offered by the Oxnard Educational Foundation.
- Informed that Oxnard School District's Dr. Marlene Batista, Director of English Learner Services, will be show casing her salsa dancing skills for a great cause at the Oxnard Salsa Festival on Sunday, July 28 at 1 p.m.
- Congratulated students from Curren, Lemonwood, Driffill, Chavez, Kamala, Frank, Fremont, Haydock, and Juan Soria schools for promoting from the 8th grade last week.
- Thanked Letitia Austin, for her help with the Superintendent Highlights and throughout the year. Thanked the IT team making the Board Meeting production. Thanked all the staff for doing an exceptional work during his time. Thanked the Board of Trustee for the opportunities. Thanked the ESC staff for their support. A special thanks for the cabinet and Ms. Chaparro for their work.

G.2 Trustees Announcements:

TRUSTEES
ANNOUNCEMENTS

Trustee Cordes:

- Reported she attended the CAFE celebration at Elm.
- Reported she attended nine promotion ceremonies.
- Thanked again Dr. Morales for his work.
- Reported the Kiwana will be at the Oxnard High School serving pancakes at the Relay for Life event.

Trustee Vega

- Thanked Ms. Lepe, Keiko and Sofia for attending the meeting.
- Congratulate the parents and students for the promotions.
- Thanked the staff and teachers at school and the district for helping students graduate.
- Congratulated and thanked Dr. Morales

Trustee O’Leary

- Expressed his gratitude.

Trustee Madrigal Lopez

- Reported she Attended after school programs.
- She also attended promotion ceremonies.
- Congratulated the students for their speeches.
- Thanked Dr. Morales for his service.

President Robles-Solis

- Thanked all Oxnard School District staff for their service during the school year.
- Wished everyone a wonderful summer.
- Congratulated all promoted students.
- Wished Dr. Morales the best of luck and thanked him for his service.

The Board reconvened to closed session until approximately 11:40 p.m. to discuss items in the closed session agenda.

President Robles-Solis reported actions taken in closed session.

REPORT ON CLOSED
SESSION

Removal/Suspension/Expulsion of Students:

On motion by Trustee Cordes, seconded by Trustee Madrigal Lopez and carried on a roll call vote of 4-0, being Trustees O’Leary absent, the Board approved the administration recommendation in Case # 18-14.

(Motion# 19-173)

On a motion by Trustee Cordes to reject administration recommendation, seconded by Trustee Madrigal Lopez and carried on a roll call vote of 4-0, being Trustees O’Leary absent, the Board rejected the administration recommendation in Case # 18-15.

(Motion# 19-174)

There being no further business, on motion by Trustee Cordes, seconded by Trustee Madrigal Lopez and carried on a roll call vote of 4-0, Trustee O’Leary being absent, President Robles-Solis adjourned the meeting at 11:43 p.m.

OSD BOARD AGENDA ITEM

Name of Contributor: Janet Penanhoat

Date of Meeting: August 7, 2019

Agenda Section: Section F: Board Policies, First Reading

**First Reading – Revision to BP 3290 and New E 3290 – Gifts, Grants and Requests
(Penanhoat)**

The administration is recommending a revision to BP 3290, Gifts, Grants and Bequests, to align with changes suggested by the California School Boards Association. Added language to BP 3290 is indicated by italicized font and deleted language is indicated by strikethrough.

The administration also recommends adding E 3290, a new Exhibit to BP 3290, to define the district's procedure relative to donations.

FISCAL IMPACT:

N/A

RECOMMENDATION:

It is the recommendation of the Assistant Superintendent, Business & Fiscal Services, that the Board of Trustees adopt the revisions to BP 3290 as presented.

ADDITIONAL MATERIALS:

Attached: [BP 3290 - Revised \(4 pages\)](#)
[E 3290 - New \(1 page\)](#)

GIFTS, GRANTS AND BEQUESTS

The Board of Trustees may accept any gift, grant, or bequest ~~or gift~~ of money, ~~or~~ property, or service to ~~on behalf of~~ the district from any individual, organization, foundation, or public or private agency that desires to support the district's educational program. While greatly appreciating suitable donations, the Board ~~discourages~~ shall reject any gifts which may directly or indirectly impair its authority to make decisions in the best interest of district students or its ability or commitment to providing ~~equal~~ equitable educational opportunities for all district students.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

Before accepting any gift, grant, or bequest, the Board shall carefully consider ~~whether the gift:~~ any conditions or restrictions imposed by the donor to ensure their consistency with the district's vision, philosophy, and operations. If the Board believes the district will be unable to fully satisfy the donor's conditions, the gift shall not be accepted.

In addition, the Board shall ensure that the acceptance of the gift, grant, or bequest does not:

1. ~~Has a purpose consistent with the district's vision and philosophy~~ Involve the creation of a program which the Board would be unable to sustain when the donation is exhausted
2. ~~Begins a program which the Board would be unable to continue when the donated funds are exhausted~~ Entail undesirable or excessive costs
3. ~~Entails undesirable or excessive costs~~ Promote the use of violence, drugs, tobacco, or alcohol
4. Advertise or endorse the use of non-nutritious food or beverages during the school day
5. Encourage or enable the violation of any law or district policy
6. Implies endorsement of any business or product or unduly commercialize or politicize the school environment

(cf. 1325 - Advertising and Promotion)

~~The Board shall carefully evaluate any conditions or restrictions imposed by the donor in light of district philosophy and operations. If the Board feels the district will be unable to fully satisfy the donor's conditions, the gift shall not be accepted.~~

Any ~~Gift~~ of books and or instructional materials shall may only be accepted ~~only~~ if they meet regular district criteria for selection of instructional materials.

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

(cf. 6161.11 - Supplementary Instructional Materials)

All gifts, grants and bequests shall become district property. Donors are encouraged to donate all gifts to the district rather than to a particular school, *classroom, or teacher*. At the Superintendent or designee's discretion, a gift may be used at a particular school *or classroom*.

Corporate Sponsorship

The Board may enter into an agreement or arrangement with an outside entity for the sponsorship of an educational, athletic, or other program or activity. When appropriate, the agreement may allow the outside entity to advertise or promote its business product, or service in district publications or on district property or web sites.

(cf. 1113 – District and School Web Sites)

(cf. 1700 – Relations Between Private Industry and the Schools)

(cf. 3312 – Contracts)

(cf. 6145.2 – Athletic Competition)

Every sponsorship agreement shall be in writing and shall be approved by the Board. The Board shall ensure that the district's relationship and arrangement with the sponsor are consistent with the district's missions, values, and goals. Any advertising or promotional message, image, or other depiction to be used by the sponsor shall meet the standards set for commercial advertising on district property and in district-sponsored publications in accordance with BP 1325 – Advertising and Promotion.

Each sponsorship agreement shall contain statements including, but not limited to:

- 1. The purpose of the relationship with the sponsor, details of the benefits to the district, and how the benefits will be distributed*
- 2. The duration of the agreement and the roles, expectations, rights and responsibilities of the district and the sponsor, including whether and to what extent the sponsor is allowed to advertise or promote its products and/or services*
- 3. The authority of the Board to retain exclusive right over the use of the district's name, logo, and other proprietary information and the requirement that the sponsor will obtain prior approval of the Board before using such information*
- 4. The prohibition against the collection or distribution of students' personal information except as allowed by law*
- 5. The authority of the Board to terminate the agreement without any penalty or sanction to the district if the sponsor's message, business, or product becomes inconsistent with the district's vision, mission, or goals or the sponsor engages in any prohibited activity*

(cf. 5022 – Student and Family Privacy Rights)

(cf. 5125 – Student Records)

Online fundraising

Any person or entity who wishes to conduct an online fundraising campaign, including a crowdfunding campaign, for the benefit of the district, a school, or a classroom shall submit a written request for prior approval to the Superintendent or designee. Approval of requests shall take into consideration compatibility with the district's vision and goals, core beliefs, instructional priorities, and infrastructure; the manner in which donations are collected and distributed; equity of the use of funds; and any other factors deemed relevant or appropriate by the district.

Any person or entity approved to conduct an online fundraising campaign shall comply with relevant district policies and procedures, including ensuring financial transparency in describing the purpose and use of the funds and protecting student privacy as applicable. Such person or entity shall specify that the district, rather than a staff member, classroom, or school, will own the funded resources.

Funds raised by an online fundraising campaign and donated to the district shall be subject to the same terms, criteria for acceptance, and accountability measures as any other donation as specified in this policy.

The procedure for processing donations is incorporated herewith as an Exhibit to this policy.

Appreciation

The Board may show appreciation for any donation to the district in any manner it deems appropriate. Such appreciation may take the form of letters of recognition or Board resolutions; plaques, commendations, or awards; planting of any commemorative trees or gardens; or naming or renaming of buildings, grounds, or facilities. Conferment of any such honor shall be in accordance with applicable Board policy.

(cf. 1150 – Commendations and Awards)

OXNARD SCHOOL DISTRICT
Oxnard, California

Gifts, Grants and Bequests

**OXNARD SCHOOL DISTRICT
DONATION PROCEDURES**

Any funds or items that are to be received as a donation to the Oxnard School District or any of its affiliated schools, for any purpose, must be properly acknowledged prior to acceptance and/or expenses incurred. Oxnard School District does not approve donations to parent/teacher groups. **These procedures apply to all donation requests including online donation forums such as GoFundMe or DonorsChoose.**

Donation Procedure:

- School site or department sends draft application/letter to Assistant Superintendent, Business & Fiscal Services for review. Application/letter **MUST** have prior approval by school site principal or department head.
- School site or department submits final application/letter to agency/individual with a copy to Assistant Superintendent, Business & Fiscal Services.
- School site or department sends grant award and any requirements to Superintendent **AND** to Director of Finance.
- Superintendent's Executive Assistant prepares board item.

School sites/departments must plan for extra time if the gift or grant is for field trip costs, to include admission and/or transportation.
