School Business Official Ms. Catherine Platt	Social Worker, 9-12 Mr. Scott Many
Director of Pupil Personnel Services Dr. Regina Kaishian	School Psychologist(s), K-12 Ms. Dawn Rossano (CSE Chairperson) Ms. Analisa Aste
Director of Human Resources & Curriculum Mr. Josh Elder	Board-Certified Behavior Analyst Ms. Samantha Faughnan
Director of Facilities & Transportation Mr. Adam MacNeil	School Counselor(s) Ms. Amanda Cotchen, 11-12, Dept. Chair Ms. Maggie McCabe, 8-10 Ms. Kristen Amato, K-8
Director of Athletics & Dean of Students Mr. Tom Cunningham	
High School Principal Ms. Julia Sniffen	
Middle School Principal Dr. MaryAnn Seelke	
Elementary School Principal Ms. Christine Jamin	

School District Overview

Haldane Central School District sits overlooking the Hudson River in the historic Village of Cold Spring, New York. With a K-12 enrollment of approximately 800 students, Haldane emphasizes student and faculty collaboration through project-based initiatives and professional learning communities. Generations of community ties and a close proximity to New York City give Haldane students access to unique learning experiences and a wealth of professional, creative, and vocational expertise. Haldane's close-knit peers support diversity in one another and work together to achieve success in academics, athletics, and the arts.

Haldane Strategic Coherence Plan 2020 – 2025

THE HALDANE CENTRAL SCHOOL DISTRICT MISSION & BELIEFS

The Haldane Central School District is committed to ensuring that our students are healthy, safe, supported, challenged and engaged. We strive to prepare all students to succeed in an ever-changing global society. (See the [Haldane Strategic Coherence Plan March 2020](#))

In pursuit of this mission, we believe:

- Learning and the education of the whole child is a shared, collaborative, community-based responsibility

- We must be inclusive, provide multiple pathways to success, and strive to meet the needs of all learners
- Instruction should be authentic, challenging, and rigorous, and elicit the most critical skills and disposition from our students
- All facilities should be safe, environmentally respectful, and supportive of student learning

THE HALDANE ESSENTIALS

Critical Thinking:

Critical thinking is that mode of thinking – about any subject, content, or problem – in which the learner improves the quality of his or her thinking by skillfully analyzing, assessing, and reconstructing it. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. (The Foundation for Critical Thinking)

Problem Solving:

The problem-solving process is a combination of critical and creative thinking skills. Effective problem solvers identify a problem, brainstorm solutions, select a solution, build a plan, conduct research, assemble an initial version of the solution, evaluate and improve upon the solution, and finally put it into practice. (Thoughtful Learning)

Communication:

Communication is appropriately interacting with others to convey meaning and gain understanding for multiple purposes, settings, and audiences including the digital environment (21st Century Skills)

Growth Mindset:

Growth mindset is the belief that skills, talent and new learning can be developed through practice, through hard work and with the guidance of others. By embracing a growth mindset in school, individuals are encouraged to take academic risks, to work collaboratively rather than competitively, and to attempt innovative solutions without fear of making a mistake (Carol Dweck, 2016).

Emotional Intelligence:

Emotional intelligence is the ability to understand and manage your own emotions, and those of the people around you. Emotional intelligence involves the awareness that emotions can drive our behavior and impact people, and that learning how to manage those emotions is key to navigating our world and maximizing fulfillment. Emotions matter - so explicit instruction in developing students' ability to recognize their feelings, to understand their triggers, to be able to label and express their emotions, as well as to engage in self-regulation skills is essential to sustaining a positive and rewarding environment both in school and at home. The key elements of EI include; self-awareness, self-regulation, motivation, empathy, and social skills (Mindtools).

Wellness:

The 6 dimensions of wellness are: physical, emotional, social, intellectual, spiritual, and occupational wellness. The physical dimension recognizes the need for nutritious food and regular exercise. The emotional dimension recognizes awareness and acceptance of one's feelings. The social dimension encourages contributing to one's environment and community. The intellectual dimension recognizes one's creative stimulating mental activities. The spiritual dimension recognizes our search for meaning and purpose in human existence. The occupational dimension recognizes personal satisfaction and enrichment in one's life through work. By applying the model, a person becomes aware of the interconnectedness of each dimension and how they contribute to optimal living (National Wellness Institute).

Culturally Responsive Sustaining Education (CR-S)

NYSED's CR-S Framework

In January of 2018, the New York State Board of Regents directed the Office of P-12 Education and Higher Education to convene a panel of experts to engage with stakeholders and to develop a framework for culturally responsive-sustaining education. Their work, which was in recognition of the responsibility of educators to create a more equitable system whereby all children can thrive, resulted in a guidance document with principles that are consistent the Haldane Central School District's mission and the Haldane Essentials. [The CR-S Framework](#) creates student-centered learning environments that affirm racial, linguistic, and cultural identities; prepare students for rigor and independent learning; develop students' abilities to connect across lines of difference; elevate historically marginalized voices; and empower students as agents of positive social change.

It is the intention of the Haldane Central School District to use the grounding principles of the framework as a guide in the work to continue to leverage differences as assets:

- Welcoming and Affirming Environment
- High Expectations and Rigorous Instruction
- Inclusive Curriculum and Assessment
- Ongoing Professional Learning

The Role of School Counselors in CR-S

The [American School Counselor Association \(ASCA\)](#) holds that School counselors have a professional and ethical responsibility to expand personal multicultural and social justice advocacy, awareness, knowledge and skills to be an effective, culturally competent school counselor (2021). The counselors at Haldane CSD are committed to working towards cultural competence and cultural humility to provide culturally sustaining school counseling. To that end, School counselors strive to demonstrate responsiveness by collaborating with students and other stakeholders in support of school climate that embraces diversity and helps to promote all students' academic, career and social/emotional development.

K-12 Counseling Program Overview

The Counseling Program of Haldane Central School District is designed to provide students with the tools necessary for successful planning for the future. The guidance counselors, clinical staff, and teachers work to enhance the educational, career and college readiness, and social emotional learning of the student. This is done by personal and academic counseling. The school district encourages a team approach. Counselors work with parents, teachers, administrators, psychologists, and community agencies to provide a comprehensive system for helping students. The district is committed to providing as much individual attention as possible for all students so that they may have a positive and successful educational experience.

School Counseling Program Vision, Mission, and Goals

Vision

The Counseling Program of Haldane Central School District is designed to provide students with the tools necessary for successful planning for the future in keeping with the district-wide vision to ensure that our students are healthy, safe, supported, challenged and engaged

Mission

In support of the District vision and goals, the counseling staffs' mission is to assist the students in the recognition and development of their unique abilities by encouraging an individual approach to educational and career goals, by fostering a respect for diversity, and by facilitating the growth of interpersonal skills and healthy relationships.

Goals

- To implement the Comprehensive Guidance Plan which is culturally responsive, data driven, proactive, prevention-based, developmentally appropriate, and supportive of school improvement;
- To prepare students to participate effectively in their current educational program and in life;
- To promote and enhance the learning process for ALL students;
- To preserve and support the social and emotional health of all children.

Direct Student Services

The counseling curriculum provides developmental activities that address academic, career and personal/social needs of students K-12. This is accomplished through:

- Classroom Activities: School counselors present lessons in the classroom.
- Group Activities: Counselors conduct group activities outside of the classroom to address particular needs.

Individual Student Planning

Counselors monitor students' progress so they may achieve success in academic, personal/social, and career areas. This may be accomplished through:

- Individual or Small Group Appraisal: School counselors work with students in analyzing and evaluating abilities, interests, skills, and achievement.
- Individual or Small Group Advisement: School counselors work directly with students on achieving success in personal/social, academic, and career areas.
- Case Management: School counselors monitor individual student's progress.
- Placement: School counselors collaborate with school staff in determining the best educational setting for students as they meet their academic and social goals.

Responsive Services

School counselors provide support and interventions to meet the needs of students. This is accomplished through:

- Individual and Small Group Counseling: Counseling is provided for students experiencing social, emotional, personal, or academic difficulties.
- Crisis Counseling: Short term counseling that is provided to students, families or staff as an immediate intervention to a crisis.

Multi-Tiered System of Supports

The district has established a multi-tiered system of supports (MTSS) to provide a differentiated level of support for struggling students. This framework enables the professional staff to assess a student’s response to instruction and intervention (RTI) and make decisions on how to adjust academic intervention services (AIS) and/or social and emotional supports (SEL) provided within their school day. This approach is aligned to the NYS Commissioner’s regulation, 100.2.ee.

In the Haldane Schools, the MTSS model includes several components that are integrated to form a system that provides targeted support for all students as they strive to achieve the Haldane Essentials. The left side of the MTSS framework defines the academic supports available through the district Response to Intervention (RTI) model and Academic Intervention Services (AIS.) The right side of the MTSS framework defines the supports available through the district Social and Emotional (SEL) options.

Academics (RTI/AIS)	Multi-Tiered System of Supports (MTSS)	Social and Emotional (SEL)
Differentiated large and small group instruction and universal interventions for all students.	Tier 1 Typically effective for 80-85% of students	Explicitly taught social and emotional behaviors within all settings of the school environment.
Targeted academic interventions for students who are not making adequate progress with Tier 1 instruction and universal interventions.	Tier 2 Typically needed for 10-15% of students	Targeted social and emotional interventions for students who are not making adequate progress with Tier 1 instruction and universal interventions.
Intensive interventions for students who are not responding to Tier 2 targeted interventions	Tier 3 Typically needed for 1-5% of students	Intensive interventions for students who are not responding to Tier 2 targeted interventions

The following charts outline the range of social-emotional supports that are available at each Tier level, as well as a list of how a student’s response to the intervention(s) will be measured. Note that these charts are not comprehensive as interventions at the elementary and secondary levels are often created to meet the individual’s needs and circumstances, in a sensitive and culturally responsive way. Additionally, the Haldane Central School District recognizes the essential role of parents and guardians in supporting students’ wellbeing and the goal is to always take a collaborative and inclusive approach.

(For more information, see the Haldane CSD’s K-12 Guidance webpage which includes the updated version of the [MTSS Plan 2021-2022.](#))

Social Emotional Supports

Haldane Elementary School (K-5)		
Social and Emotional Supports	Range of Services	Assessment of Student Progress
Tier 1	<ul style="list-style-type: none"> • Teacher developed classroom or individual behavior supports/strategies • Informal clinical consult with counselors or related service providers • Whole-class discussions with clinician • SEL instruction delivered in collaboration with teachers 	<ul style="list-style-type: none"> • Observation • Records Review • Teacher anecdotal notes
Tier 2	<ul style="list-style-type: none"> • Group and individual sessions facilitated by Clinicians • Behavior consultation • Mediation provided by counselors • Short-Term Social skills groups • Short-Term support groups • DBT-informed groups 	<ul style="list-style-type: none"> • Monitoring of informal goals • Classroom observation • Running records of behavioral data • Progress monitoring data • Rating Scales/Screeners when recommended by CST
Tier 3	<ul style="list-style-type: none"> • Group and individual sessions facilitated by guidance counselor, social worker or school psychologist. • IEP Mandated Counseling • Dialectical Behavior Informed counseling • Outside referrals 	<ul style="list-style-type: none"> • Monitoring of IEP goals • Teacher and clinician observation • Running records of behavioral data • Progress monitoring data • Evaluation when recommended by the Committee on Special Education (CSE)

Haldane Middle School (Grades 6-8)		
Social and Emotional Supports	Range of Services	Assessment of Student Progress
Tier 1	<ul style="list-style-type: none"> • School Level Positive Behavior Intervention Support at Haldane Middle School (TRUE Blue) • Lunch Groups • Teacher developed classroom or individual behavior supports/strategies • Informal clinical consult • Whole-class discussions with clinician when need arises 	<ul style="list-style-type: none"> • Observation • Records Review • Teacher anecdotal notes
Tier 2	<ul style="list-style-type: none"> • Group and individual sessions facilitated by Clinicians • Behavior consult • Mediation provided by counselors • Short term Support Groups • DBT-informed groups 	<ul style="list-style-type: none"> • Monitoring of informal goals • Classroom observation • Running records of behavioral data • Rating Scales/Screeners when recommended by SST • Progress monitoring data
Tier 3	<ul style="list-style-type: none"> • Group and individual sessions facilitated by guidance counselor, social worker or school psychologist. • IEP Mandated Counseling • DBT-informed counseling • Outside referrals and consultation • Behavioral Supports/Plans by BCBA or school psychologist 	<ul style="list-style-type: none"> • Monitoring of IEP goals • Teacher and clinician observation • Running records of behavioral data • Progress monitoring data • Evaluation when recommended by the Committee on Special Education (CSE)

Haldane High School (Grades 9-12)		
Social and Emotional Supports	Range of Services	Assessment of Student Progress
Tier 1	<ul style="list-style-type: none"> • Code of Conduct • Acceptable Use Policy • Classroom behavior plans/strategies • Informal clinical consult • Whole-class discussions with clinician when need arises • Red Ribbon Week/Random Acts of Kindness Week 	<ul style="list-style-type: none"> • Observation • Records Review • Teacher running records
Tier 2	<ul style="list-style-type: none"> • Group and individual sessions facilitated by Clinicians • Behavior consultation • Mediation provided by counselors • DBT-informed groups 	<ul style="list-style-type: none"> • Monitoring of informal goals • Classroom observation • Running records of behavioral data • Rating Scales/Screeners when recommended by SST • Progress monitoring data
Tier 3	<ul style="list-style-type: none"> • Group and individual sessions facilitated by guidance counselor, social worker or school psychologist. • IEP Mandated Counseling • DBT-informed counseling • Behavioral Supports/Plans by BCBA or school psychologist • Outside referrals 	<ul style="list-style-type: none"> • Monitoring of IEP goals • Teacher and clinician observation • Running records of behavioral data • Progress monitoring data • Evaluation when recommended by the Committee on Special Education (CSE)

Indirect Student Services

- Referrals: School counselors provide families with a variety of resources, both inside and outside of school, to better serve our students.
- Consultation: School counselors collaborate with families, school staff, and community agencies to develop interventions for students.
- Interdisciplinary Activities: School counselors collaborate with school staff to implement curriculum across content areas.

System Monitoring

School counselors assess the effectiveness of the counseling program. This is accomplished through:

- Teaming: School counselors participate in district wide and building committees.
- Professional Development: School counselors regularly participate in training, conferences, and meetings to update knowledge and skills.
- Program Promotion: School Counselors provide orientation and information regarding the programs to the greater community via websites and presentations.
- Program Management and Evaluation: School counselors analyze data to evaluate the program and continue updating program activities.

Advisory Council Membership

The Advisory Council will meet twice a year. The following positions will be part of the Advisory Council:

Director of Pupil Personnel Services	School Psychologists
School Principals	School Nurse
Director of Guidance	School Resource Officer
Social Workers	Haldane Faculty Association Member
School Counselor	Parent Representative

The Director Pupil Personnel Services will initiate the meetings with the program committees to review the objectives, activities, and outcomes of the guidance plan. The new plan, with improvements or revisions of any of the objectives or activities, will be submitted to the Superintendent and the Board of Education.

HCSD Counseling Department Accountability System

To achieve the best results for students, Haldane school counselors will regularly evaluate their program to determine its effectiveness. Haldane school counselors use accountability strategies to monitor student achievement and to evaluate and improve the school counseling program. The school counseling program components may be accessed through data analysis, program results and evaluation and improvement. The evaluation process will be ongoing during department meetings and through the advisory council.

Data Analysis - Counselors collect, analyze, and report data by specific subgroups and ensure that decisions about student instruction and learning are driven by achievement data for every subgroup. The process begins with needs and strengths assessment and moves through what changes need to be made.

Program Results - Counselors analyze the school counseling program using information collected through process, perception, or outcomes data samples. This data will be used to inform decisions related to program improvements. The Haldane School Counseling Advisory Council and counseling department will review the programs to identify trends and areas of success and areas in need of improvement.

Evaluation and Improvement - Program evaluation and improvement has four components: self-analysis of the school counselor's strengths and areas of improvement using the School Counselor Competencies Assessment, self-analysis of the school counseling program's strengths and areas of improvement, evaluation of the school counselor's performance using the Haldane APPR document, and review of program goals created at the beginning of the year.

Comprehensive School Counseling Program Map

Haldane Central School District

Grade Level	Program Activity/Service	Tier 1,2,3	Student Standards (ASCA Mindsets & Behaviors, CDOS, Health, FACS, SEL)	Program Objectives	Timeline	Staff, Resources, and Assessments Needed
